K: Hello.

G: Hi, Henry. Happy new year.

K: Happy New Year to you, Guido.

G: Thank you. I'm calling mainly about the Glucksnick question just to see what your preference is. Do you still feel that it would be valuable if they were to meet and ask you to join them for a meeting in Washington?

K: Well, let me wait until I have seen Dayan. I've gotten a lot of static about Klucksnick and I just want to make sure I'm not making my life harder.

G: I see. You know, he's pro-Israeli but independent. You know he only wants to be constructive.

K: Oh, I know that. He's a fine man. I liked him very much when I met him.

G: The group is very high level and the others are willing to fly back from a holiday----so they take it very seriously. And I think the main point that I want to say is that if you think it is inoportune for you to set a date in the near future, I think perhaps you would want to keep this as an option for later on.

K: No, I will do it within the next two weeks almost for certain.

G: I see. The thing is, do you think there would be any value in --if you don't want to set a firm date soon---to call Klutchsnick or would you want to call him---

K: I'll call him early next week.

G: OK, I think he would appreciate it--not just for himself--but to be sure that he is helpful to you.

K: I understand that.

G: He's aware of all the politics.

K: I've never seen the list that he wanted to put together.

Gus

G: I can give it to you. It's Exxx Levy, Fred Lazareth, Raymond Nasher, Walter Hass, Ed Gabromski, Marver Berstein, Alex Shindler, Gershin Cohen, and probably Henry Lasoshski.

K: Well, now that I've met with the Fischer group, I don't see any reason not to meet with other Jewish groups.

G: Right, that would be my feeling but I don't---I want to be sure that this is helpful to you.

K: No, I will do it in the next two weeks.

G: Very good. Until the beginning of next week, he will be in Europe. So if there were communication, it would have to be done before the weekend or after next week. I don't want to pressure you in any way but I just sort of read him as being unclear---that he may be doing something that may be awkward for you and he must let his people know. He thought if he could communicate with him this week that it might be helpful.

K: No, I'll call him before Friday night.

G: I'll be down in Washington on Friday and a little bit on Saturday if you would like to see me.

K: Why don't you leave you number at my office where I can reach you. I'm now on the West Coast but I'm planning to be back tomorrow night. I may have a dinner with Nancy and a few other on Friday night. Why don't you keep that open. ~~That would~~

G: That would be lovely. I certainly will do that. Good, Henry. And I hope the year is a very, very good one for you.

K: I hope the same for you.

G: It certainly is a difficult one. Anything that I can do to help at any stage I would be happy to do.

K: Well, I appreciate that. The Israeli election is not helping any.

G: No, I realize that. I mean, you are really remarkable. So many things to confront at one time. But, I'm hoping for you.

K: Thank you.

G: Hoping to see you Friday.

K: OK, bye.

PK: Hello, Mr. Secretary. Happy New Year.

HK: Happy New Year to you.

PK: Thank you.

HK: Mr. Klutsnick, I'm sorry we've had so much trouble getting together because I've been away.

PK: I know and you're doing more important things.

HK: No, but I would like to get together with that group you suggested.

PK: I understand some of the things that have happened and I think they are for the better. So, when would you like to do it?

HK: Why are they for the better?

PK: Well, I think the meeting you had was an essential meeting. I'm glad you had it.

HK: Oh, you mean with the Leadership Group?

PK: Yes, I'm happy you had it. If I had known that you were willing to take that kind of meeting, I would have urged you to do it long ago.

HK: Yeah, it makes it easier than to meet with other Jewish leaders.

PK: Of course. But on top of that, they all feel very sensitive and you know there's no way you can keep a complete secret in this world. Except in your office. So what date would you suggest?

HK: How about some time the week after this. Say the week of the 14th.

PK: The week of the 14th. Could it be just as well the following? I'm thinking of a couple of fellows that are out of the country.

HK: Sure.

PK: If it could be just as well the following, it would be better.

HK: Okay, let's do it the following.

PK: Which day would you prefer?

HK: In light of the fact that I saw the others in my office.

PK: Yes.

HK: Why don't we do it in my office?

PK: At what time?

HK: Let's say at 5 o'clock. Or six, whichever is easier for your schedule.

PK: It doesn't make a wit of difference, 5 or 6, whichever is best for you.

HK: Let's say at 5

PK: At 5:00 and I will immediately contact them and confirm it with Mr. Campbell.

K: I think we should put out a statement today.

E: I've got a letter which I just cleared and they're now typing up in a telegram from you to Mrs. Bohlen, which I don't have in front of me but which says how terribly sorry you are that this great --

K: And also a good friend.

E: Good friend and great Foreign Service Officer and so forth.

K: Yeah, but I think we should issue an statement from the State Department and soon.

E: In addition to the letter?

K: Would we publish the letter?

E: Yeah, we would publish the letter. I think that's better.

K: No, that's fine.

E: Okay, we'll publish. I'm getting that off right away and get George to release it. Here it is right here. Let me read it to you: The death of your husband has filled all of his friends and associates in the Department of State and Foreign Service with a deep sense of loss. I share this sorrow knowing as I do how much he contributed to the Foreign Service and how much -- I share this sorrow knowing as I do how much the Foreign Service meant to him and how much he contributed to his country. E: Okay. But above all, as a warm human being whose charm and integrity won him the affection and loyalty of all those who knew him.

K: Put integrity first.

E: Okay. He both represented and helped to create the best traditions of the Foreign Service. Your husband's memory will be with us always and serve as an inspiration and example to those who follow him in the American Diplomatic Service. You and your children have my deepest sympathy. Sincerely, Henry A. Kissinger.

K: And warmest good wishes.

E: Okay, we'll get that released right away. And I'll get back to Jerry with the time for the funeral.

K: Okay. Now, on the personnel things, I do not want you to check with Volpe. Why should you check with Volpe if he isn't Volpe's candidate?

E: I meant if he had any candidates.

K: I don't want him to give us candidates.

K: Mr. President.

P: Hi, Henry. Everybody tells me you did a fine job at your press conference.

K: Well, I laid into them.

P: Good.

K: Actually, they asked our sort of question. What about this story that you're conducting an independent foreign policy? So this gave me a chance to say how often we meet, how you give me directions before I go, how I am in touch every evening, how I am on top of it in touch with Scowcroft whom you see regularly and Haig. And I said, but moreover I don't like the idea of a government of independent fiefdoms wasn't run by feudal barrons. The President is in charge of foreign policy. That's the way the constitution provides it; that's the way it is; that's the way it will always be as long as I'm in the Department and the President is in the White House.

P: That's good, Henry.

K: You know, that was --

P: Great!

K: Then they said: How can the President conduct foreign policy when he's being impeached? I said: Well, you've got one thing wrong. He's isn't being impeached. And they said: Well, as long as there's a threat of impeachment. I said: You read the President's annual Foreign Policy Report. He has designed a strategy; he is pursuing it. He is pursuing it for the sake of the peace of the world and he is in no way influenced by any of the domestic considerations which you imply and he will do what is right and only what is right.

P: That's very good.

K: And I also indicated at great length that you were spending a lot of time on the energy problem and I said you were going to approach various heads of government next week. We're spelling out these proposals and that gave me a chance to give them your approach to it, which is more than we could have done -- We couldn't release the letter so we would have had to have had Ziegler just say it.

P: Sure, much better for you.

K: Al told you about that letter I had from the Saudis --

P: Yeah.

K: A fellow called McMullin going around there saying that on behalf of Ford that you're going to be impeached in two months.

P: That's a curious thing. Have you ever met him?

K; I don't even know who he is. Do you know who he is?

K: How are you? I wanted to check one thing to get your personal judgement. I have had a very good talk with Dayan. They have basically bought our concept. It is a tremendous advance. Really incredible. But there are enough wrinkles in it for them so it is hard to handle through diplomatic channels. If I talk to Sadat I could get the .....accomplished. But I know what our leader would think if I was to go out there. I would just go to Cairo and Tel Aviv.

H: Yeah.

K: I can have our Ambassadors present it to him but the explanations would have to be so complex.

H: What are you telling me?

K: If I do it I should do it next week. some time if you are that eager to get it settled.

H: Sure. Would you go to Cairo?

K: If we present this in Geneva and let the Russians hack at it we may get a stalemate..

H: Is Dayan speaking for her?

K: yes. This thing is now for the first time within manageable range but still not acceptable to the Egyptians. The Egyptians want them to withdraw to the Mitla Pass...the Egyptians watn...two kilometers at the Suez Canal. They are willing to give them two battalions. They have given up the idea of tanks east of the Canal..if they are willing to have...but if every concession becomes the result of a cable..do you see what I mean?

H: I understand.

K: I am not so eager to take another trip out there....if this is the last Israeli position..

H: That's right.

K: I would go to Cairo and Tel Aviv and I may hop to Damascus to keep them quiet -- but essentially it will be Cairo and Tel Aviv for three or four days...My worry is we put it into Geneva and the Egyptians will_____ and I may have to get to break a deadlock.

H: That's a traditional problem, but the basic problem is if you go there and get caught up in a vice...I would hate to think, if you should go and get caught in a stalemate, I mean you are included in it.

K: He wo uld like it and then he could get rid of me.
How is our frame of mind?

H: Fine, much better than yesterday.

K: I left San Clemente very depressed. I am beginning to wonder how long this is manageable.

H: It is...in the Los Angeles Times.

K: That part is manageable. I think we have it won. What may not be is our...

H: No, that is manageable...the question is that this thing will rise or fall on what is accomplished. I think if there is opposition and it is real and now and not a situation where you are rendered inoperative then we ought to take it.

K: Let us analyze the plan and find out if the Israelis mean this is there final position because then there will be a deadlock...I may be able to bring about a meeting with Dayan and their top man but let me think about it. You think you can manage it if I find it desirable to go.

H: We can manage whatever is necessary.

DK: Fine, thank you. I don't know whether you have heard but they have kidnapped another one of our people in Argentina.

K: Pepsi?

DK: Yes. They took one in August. I talked to Jamison of EXXON. They took one of their pepple also. I told him I thought it was about time the US companies called a halt to this. We are not going to pay anymore ransom. The one before they started with a million and a half? and they finally came down to $70,000 and when we got him back turned out he was mixed up in it. This one is for real. They contacted us this morning and told us to name a figure of how valuable he was. Our people are anxious to offer something nominal fee -- enough so they could keep it going -- $110,000. There are eleven guys involved and that would be $10,000 a piece. If I do this, I am planning then to take a full page add in an Argentina paper and will say we are announcing we are not paying anymore ransom money for people. We have advised our people and if they are worried to pull out of the country. Regardless of what they do we are not going to pay anymore -- even if they kill someone.

K: I am in favor of that.

DK: I think the other companies should do that and may be it would be useful for one of your guys down there to call a meeting of the companies down there and call a halt to it. Otherwise, it will just keep on.

K: Good, I agree. I would prefer to wait until Bob Hill gets down there. That must be within a week.

K: It's been a very warm day.

F: How marvelous. I've been following it day by day and knowing what the outcome would be but obviously estatic to read this morning's papers and estatic about what's happened today. I'm sure I'm not as happy as you, but I'm very, very happy.

K: Well, I hope to see you very soon.

F: It would be lovely. I'm in the States until Thursday, but I mean your life in the next few days is _____foreign ministers, isn't it really?

K: I'm afraid so. I'll be in New York. Where are you staying?

F: I'm at the Plaza.

K: Well, let's try to call each other.

F: Oh, that would be lovely. Where will you be?

K: At the Waldorf.

F: At the Waldorf. From when to when?

K: From tomorrow night till Wednesday night.

F: Oh, lovely. Well, it would be lovely to call one another and maybe we'll achieve five minutes in your mad schedule, but I know what the next few days are going to be like.

K: Good, let's do our best.

F: Oh, lovely.

K: Bye.

F: Lovely and congratulations again.

K: Thank you so much.

F: Lovely to hear you. Bye, bye, Henry.

K: This is Mr. Kissinger

XXX Hold on just a minute, the Prime Minister wants to talk to you.....Hello?

K: tap, tap, yes, I'm holding on.

B: Hello, Dr. Kissinger?

K: Yes.

B: I only wanted to telephone to say congratulations

K: Oh Mr. Prime Minister, how very xxx nice of you and how very thoughtful of you.

B: I wanted to contact you and tell you we are very happy--we think our relations are in safe hands.

K: Well you can count on our friendship and we never let down our friends.

B: I know that. Best of luck.

K Thank you Mr. Prime Minister and I hope to see you soon again.

F: Good morning, Mr. Secretary.

K: Mr. Chairman. I look forward to seeing you very shortly. I wanted to check two things one, I very much agreed with what you said yesterday about the detente

F: Good.

K: And I think what is going on there is one of the most irresponsible things I have ever seen and I would like when wemeet on Thursday to talk to you about how we can jointly do in that area.

F: I think it is said, but that's the way I certainly read the signs.

K: It's a weird combination of right-wingers and intellectuals and Jewish pressure groups, and its going to be a total disaster in a country that is totally unpreparedd to face the consequencesof that disaster.

F: These stories they are putting out -- their direct purpose--there is one in the morning paper you know, all this new business of pop up missiles, every year, just before we vote on the military, you get these stories, and don't accredit it to anyone--

K: But that is almost irrelevant to the basic question anyway

F: But the fallout you see is that we're being threatened by very aggressive forces, and so on, their purpose is to get money for the military, it has this other effect of reinforcing the people who are against detente.

K: I agree completely.

F: How in the hell we can combat it, I would be--

K: I would like to talk to you, maybe we should consider some open hearings, or you are more of an expert on that than I am--

F: I think this is a possibility of--

K: Just discuss east/west relations--and I am no judge of this but I'd be very prepared to consider it if you thought it appropriate.

F: I do think it is appropriate

C: The story is somebody tapped your telephone

K: On what basis are we talking here?

C: Let's go on background for the time being or even deep background and then we won't have to go off the record, unless--

K: I beg your pardon?

C: I said I'm reluctant to go entirely off-the-record unless you think it's moreadvisable.

K: You know this is not the day in which I'm particularly eager to discuss those things.

C: I understand.

and

K: Why not tell me what the problem is and ~~then~~ let's do it off-the-record for a moment--then if you tell me you need to have some other basis we can discuss it.

C: All right, that's fine. The problem simply is that I have been told by a source who is not in the executive branch that the "plumbers" in his words--put a tap on some telephone used by you at some point in the last 4-1/2 years. When he says plumbers , I don't know who he's referring to--I don't think he means the generic plumbers in the sense of Krogh and Young, I think he probably means the Caufield people--it was not done by the FBI I know that, it was not done by the Secret Service, I think --I don't know when it was done, I don't know where, but this fellow told me that-

K: Is he reliable?

C: Well you know he has been up to now, but there is always a first time-but he further told me that you had been told that this had been done. That you knew of it?

K: When it happened?

C: No afterwards.

K: There is a limit to masochism.

C: I'd like to write this story--I don't have many details and I think the story would have done you a fair amount of damage last week, probably not any now.

UNITED STATES DEPARTMENT OF STATE

K: I don't know why it would do me damage.

C: Certainly cause other questions to be asked for the Senate committee and might have delayed things even a bit longer. But now that that is all tucked away

K: Well Mr. Crewdson, in all honesty, I really don't know anything about it. I've had--this is off-the-record--I've had ideas but I really don't know anything authoritative. I really don't

C: You've got suspicions but not--

K: Not fact

C: Not fact--no one has ever come to you in a formal way and said we think you ought to know that we had your phone wired.

K: That is correct.

C: Can you tell me something about your suspicions?

K: No, I don't want to go

C: That would be helpful.

K: No, because that is no credit to anybody--Bill Safire mentioned it to me and-- don't know enough about it.

C: Oh I mentioned it to Bill--didn't know whether he called you or not --I'm at an impasse

K: I just don't want to talk about any--whatever I can tell you I have never been formally told

C: Would you object to this sort of a story appearing.

K: I don't think it does anybody any good, but if you--it really depends on your confidence in your source.

C: Even if my confidence in my source is complete--this involves you in rather a personal way--and if you don't think it is going to do you or anybody else any good, perhaps there is no value, you know in reporting it for the sake of reporting it.

K: I don't see how it can do me any good--I don't think it does my any harm.

C: That's all problematical--I could argue either side of that question-- and there's no point in doing that.

K: How could it do me any harm--except by opening that whole issue over and over

C: The problem is of course whenever it is disclosed that someone's telephone is tapped, then in the great minds of the American people, the suspicion is born that others in power believed this person to be in some way untrustworth The positive aspect is if you know if they were tapping you, then what you say about your minimal role in the other wire taps might also be substantiated and reinforced.

K: I know what I said about my role in the other wiretapp--its true.

C: Ah yes, indeed, I'm sure--

K: I don't know that to be true and in fact if anything understated in relation~~s~~-to--be Mr. Crewdson--I really feel as far as I'm concerned, I'd just as soon not have any more wire tap stories

C: Whether they involve you or not--or only if they involve you.

K: I really basically believe that that period ought to be put behind us at some point fairly soon

C: Of course--I don't mean to sound fecitious, but it is not the NY Times that was doing the tapping

K: Of course

C: The case of Tony Lake for example--that is very serious whether it was sloppiness or intentional--to leave it on after ~~it~~ he had gone to work for Mr. Muskie ~~for~~ as one of his top aides, seems to me to be quite a serious matter.

K: O--Well, I'm not telling you not to pursue any of that. I mean you called me, I didn't call you.

C: Yes, indeed.

K And I have fully explained what I knew about these circumstances and--

C: I wish I could convince you to discuss the nature of your suspicions if only for my own guidance--

K No, I don't think I should--and they may be totally unfounded anyway, but I am assuming this conversation is off-the - record

C: Yes,

K: Thank you.

President/HAK

P: Now that you've been Secretary of State for 24 hours how does it feel.

K: I've been spending most of my time working on the U.N. speech.

P: Oh yeah. Now you find out all those burdens are going to be greater.

K: Yeah. But I think it will be helpful. I wanted to thank you Mr. President for the really beautiful way you conducted the swearing-in yesterday and everybody that I've talked to has commented on your speech.

P: It wasn't a speech it was just...

K: Well, it was profound and very human and humerous and really all my friends who.

P: Are these your liberal friends?

K: Oh yes.

P: I noticed that Joan Bradon came through she said with a little grin, you know everytime I see you I like you.

K: She called and she was really raving about your speech.

P: What did the;y like about it? You mean they liked the humor I suppose. I use that all the time though.

K: They liked the easy human qualityand they thought there was a lot of thought in it and I don't know whether the Chief Justice spoke to you when he left.

P: Unfortunately, I didn't even see him leave. He wasn't feeling welk you know.

K: Well, he said it was a very profound and speech and he said there was a great deal more than a person may think and he said he hoped both of our speeches would be shown on television in their entirety.

P: There were some awfully good points you know, that one where, they said that, Hubert, I know there were others too but Hubert the tears were running down his cheeck when you made your comment about this only in America could a man with my background be standing here bseide the President of the United States which was done with great understatement but neverthèless, that must have appealed to an enormous

P: number of people. I noticed Blutash, who is a doctor up here, one of the doctors, and he was touched by it because he said his parents were born in Europe, I don't know where, I think he said ____ or something and when you stop to think of it you probably were speaking, that probably reached 40 to 50% of the American people who are either first or second generation American. You just didn't reach people who happen to have Jewish background.

K: No, and of course you never mentioned that which I was very grateful for.

P: Of course not. That's the point you reached people with all sorts of backgrounds. It could reach Italians and others. They sort of feel a little pride for that sort of thing and now it doesn't have to be _____ and everybody will know it.

K: It was really....

P: I think of course you'll get a hell of a reception at the U.N.

K: I don't know.

P: The communists have to give you a good reception and that's one of the reasons we never got one, I never got one. Second, I think it will be alright. I just think they won't be ~~XXX~~ wild.

K: Well I'm taking a few cracks, not at the Arabs but ~~XXXXXXXX~~ at the nonaligned I'm saying lets not have blacks, let's not _____ an alignment of the nonaligned.

P: One point that is very, the idea that we had, of this idealism in policy is good. You and I both know Henry that alot of that's malarkey, but it's very important malarkey. What I meant is you and I both know that as far as our Soviet friends are concerned to them it's pure pragmatism and power. It's true of China and Japan and others. On the other hand, it's very important to make the point which we do believe you know that we must have something other than simply a test of strength and abalance of strength. There must be, a nation must mean something to others or it means something to itself and that sort of thing. These are some great lines in there. I want that speech of yours transcribed.

K: But the whole atmosphere yesterday Mr. President was so warm and everybody.

P: How did your hollywood friends like it?

K: They were crazy about it.

P: They were. Kirk Douglas and that...

K: Oh, he was absolutely. Well there were not just crazy...

P: I didn't realize that Kirk Douglas's parents were from Russia. I didn't know that.

K: I didn't know it either.

P: I thought he was a....

K: No they were moved.

P: They really were. That's good. It's more important to move than to .....

K: Even the tough newsmen felt this way.

P: Is that right? You talked to some of them.

K: Oh yes. Bernie Kalb and Gwertzman and Faleriony(?).

P: They really were?

K: Oh yes. And they've written it in a rather warm manner. And they all, I don't know whether you've seen the papers, are quoting you and...I liked that crack you took at the Committee.

P: How did that come out finally. How did they print it? Where I said about the ...

K: Without results.

P: Well, of course, the Churchill quote is so well known it's almost trite.

K: I hadn't heard it to tell you the truth.

P: Well many haven't but of course it's a great quote and he said it in relationship to the only company was under fire when he was in India you know. He went galloping along and they got his horse off from under him and he said it's the most greatest exhilerating thing in life to be shot at without results but I thought too when I said that, I looked over at the committee, Fulbright and the rest of them. They looked a little like...

K: Javits was almost beside himself?

P: Javits would appreciate that I think.

K: He said to me, you had put a real challenge to the committee now.

P: How's that. By saying they had to cooperate.

K: That's right and when you made the remark about doing it with Congress and I then picked it up.

P: No, too, I think too that it was good for you that I said that, which I probably the Chief Justice picked up, and certainly the newsmen must have appreciated it where I said that there is a tendency to over personalize achievements. That Kissinger did by reason of a trip to Moscow or the President did it. I said, these things are done by support of fine dedicated people and as you noticed I crossed my cheek when I said that but you know in the State Dept. and I even threw in the Congress. But I think that was a good thing to say.

K: I think that was very good.

P: That will help with your bureaucracy and you can always quote that. I was thinking, the next foreign service thing they put out you might tell the guy to emphasize that point.

K: I think we're going to print your whole speech in the foreign service thing. And from now on, the separation between this Dept. and the White House.

P: Sometimes I wake up at nights and say this problem we've got now but I've got to check with State and I say oh thank god I don't XXX have to do that anymore. That's going to be such a load off my mind.

K: Well, you can now go to meetings. You don't have to worry who maneuvers who.

P: And we are going to make it difference if we just didn't have some other current problems. Joe Aslop talked to Haig because he's terribly concerned about the VP thing and he points out that we continue to have destruction of authority and so forth because the Russians are watching and two years they'll come to the Chinese.

K: Could be.

P: Now, on the other hand, what we have to do is to go forward and do our job regardless of the Vice Presidential thing, however, it comes out because he's planning on Henry, just for your information only, a very tough game. He's now talking about going to the Congress. He says 100 members of Congress he's heard from, most supporting. He doesn't realize that they'll support him right up to the crime if the evidence shows he's quilty and he doesn't realize that those guys will support him are going to drop away if he ever does anything where they think it's something that he'll want. Don't you agree.

K: Exactly, no question about it.

P: It's just too bad isn't it but we can survive it if they go on the impeachment road, I mean if he decides to go.

K: WQ ell, I think there is no choice Mr. President. We didn't create the evidence and if he goes that route.

P: The problem is from our standpoint, he is going to take on Richardson for being so hard on their witnesses and so on but you know the average person doesn't give one damn about that, if the truth comes out. What I meant is, people only care about whether or not you are rough on the witnesses when you're going after an Ellsburg. Then they feel it is important but if they're going after an Agenw they don't give a damn if they use a rubber hose on him. Don't you agree.

K: Exactly, and the only reason the liberals are sympathizing with him right now is because they're afraid of Connolly or Rockeffeller or somebody that they think might beat them in 76.

P: Yeah. Incidentally, you have knowledge, as you know, I know you have that, you know have as Secretary of State your own security. Right?

K: Well, I haven't taken it because they look so incompetent and I wanted to take a look at them first.

P: Aren't they secret Service or?

K: No, they are State Dept. Security. We took them away from protecting foreign dignataries because they screwed the Pompidou visit so much up

P: I aremember. Let me think about it. Maybe we ought to put Secret Service on you the reason being they are pros and you see you'll be a hell of alot more target than Rogers ever was. You've got to realize that.

K: That's true.

P: And you'll... let me suggest this. That I would urge you to let Al kind of work that out. He had mentioned to me... so that you don't have to bust them. See my point.

K: Right.

P: Your protection of course is something that I have to take responsibility for and I'm going to be damn sure that its adequate.

K: Let me talk to Al about it.

P: You talk to Al about it. I hadn't realized, that if you think those people are not competent by golly, get some...

K: Well, I would like to get Kelly's opinion about that. Or somebody who knows. They don't look competent to me to tell you the truth.

P: Are they FBI people then or...

K: No, they have their own security force but they don't protect anyone else except their secretary so they don't have the communications or the

P: See, when the Secret Service goes into town they immediately set out a network with the police and everybody else and that's why they are so important and the FBI of course works with them.

K: These people have nobody else to protect except the Secretary.

P: I see. That'll work out. That's the least of our problems. When you get the speech done and work in those calls to Firestone and those people.

K: What I wanted to check with you Mr. President. I think now after having talked to Ingersoll who knows Anderson well, he thinks we should send somebody like Packard or David Rockefeller to Japan. He thinks Anderson would be better for a country like Britan.

P: That's fine with me if that's where Anderson wants to go.

K: Does Anderson know Annaburg is leaving.

K: He'd do that well.

P: And so I want to be sure that, no hurry, but within the week that you give him a call and say that this is going to open up in February and that you're upgrading the position you know and all that sort of thing but these calls can wait until after you finish your speech. Don't do any of this stuff until you get your speech out of the way and then you can run them in between foreign ministers up there. In the meantime on the VP thing, let me say that if worse comes to worse and he does go the impeachment route we'll survive that too.

K: I think the more we function as a government the more these things will be seen as aspects of the past.

P: I wonder if, take the Russians, they aren't going to think this with Agnew is all that earth-shaking are they?

K; Well, the erosionable authority in this country is a problem with us for the Russians, it is a problem with the Europeans. But you take the Europeans, in June they were being very snutty about your coming to Europe, the great favors we're going to do. Now we confronted them for 2 or 3 months and showed them that we still had a little bark left and now they're practically on their knees begging you to come.

P: Also we've come back some here too.

K: And we've come back here.....

Changing tapes.

K: Comes between the 26th and 29th of October.

message

P: How did the ~~xxxxxx~~ come through.

K: Through their Ambassador here.

P: Was he back.

K: Well, their Deputy Ambassador.

P: 26th and 29th. When can we announce that.

K: thr 4th.

P: ~~xxxxxx~~ You have to wait until the 4th to announce that.

K: That's what they said.

P: That's alright.

K: But that's only a week away.

P: That's good. We don't need any announcements/but you can announce this week that on the 4th and I was thinking if Agnew does go the impeachment route this week rather than next week and I'd like to open it with that.

K: I think we'd better not. That would really upset them but you can do it on the 3rd.

P: The 3rd I could do it huh.

K: The 3rd here is the 4th there.

P: I thought we could beat it by 24 hours they aren't going to be squealing much anyway.

K: I think they would. On things like that they are relly prety.

P: I mean the 3rd what do you mean that is the same day.

K: If you do it on the 3rd that's the 4th there. That we can do.

P: What day of the week is the 3rd.

K: Wednesday.

P: A week from this coming Wednesday. I'll have that in mind because i want to make that announcement in any event. Incidentally, it's sort of good to have a positive.

K: Absolutely, and even if you weren't there. If you were not holding a press conference that day it could go out from the White House rather than ....

P: I could announce it to the press and walk off.

K: That would be good too.

P: Then maybe have you stay and answer any questions on it.

K: Whichever you want.

P: ALright fine. Good luck with your speech.

K: Thank you Mr. President. Thank you for yesterday.

P: You don't need to worry about, I know the content is very important from other stand points but believe me, because it's the first but your talk yesterday, you said everything that really needed to be said. One thing I could urge you. Keep it to 2500 words if you possibly can. Don't go longer than 20 minutes. Can you do that?

K: I haven't seen the full draft yet but I'll do my best.

P: If you go. Or at least at a maximum X 3000 words and count the words because when you go over. They're used to long speeches there but it's very impressive to go up and say it and get the hell out.

K: They don't _____ me so much. It isn't that sort of an assembly.

P: I understand. You get better than I do thank God.

K: Well you were there during, as you said, all the communists were against you that meant all the noncommitted couldn't do anything.

P: And also the communists and so were the Arabs at that time.

K: That's what I mean. The communists, the nonaligned and the Arabs. So you didn't have a very good... Then you had the Vietnamese war

P: And also let's face it. We had in the U.N., that great tower of strength Charlie Yost. Remember.

K: Charlie Yost, exactly. And this was before your great positive achievements so I wouldn't judge it by that.

P: Alright Henry. Good luck.

K: I look forward to seeing you today at 1:00 but I have two questions before that. One, a number of networks are interested in filming my first day in the Department but I didn't want to let them take a picture of you and me unless you approved.

F: Oh, I approve. It's your first day in the office?

K: It's my first day in the office because I spent all my time ....

F: Oh, sure, it's all right with me.

K: I'd be very pleased.

F: I'm glad you called, I'll have to get out a clean shirt.

K: (laughs) Now, the second question I have, Mr. Chairman, is this: I wanted to bring somebody in for a few weeks to look at this whole problem of Congressional-State relationships and how one can have this dialogue you and I were talking about and I was wondering what you thought if Dave Abshire did this for me for about three weeks. His only job would be to go around the Hill and talk to senior people to find out how they envisage it.

F: Oh, he's experienced. He's okay with me.

K: Would that be agreeable to you?

F: Sure.

K: Good. Well, then we may announce it today or tomorrow. And that will be about three weeks on a consulting basis.

F: All right. That's all right with me.

K: Because then I won't be flying so blind.

F: I must say, Henry, this performance over there in the Senate and what they did in the Ways and Means is not very encouraging.

K: I want to talk to you about that at lunch today.

K: (cont'd) normal thing in the world and as if Russia were New Zealand.

F: Yeah. They can't believe that this Congress, you know, can be that obstructus and so defiant of the Executive. You see, it's been so subservient to the Executive for about 10-15 years and now they are turning around in a way you don't want them to.

K: Yeah, yeah.

F: It's a very puzzling thing.

K: That's right.

F: Henry Jackson is calling the shots over there because he's got all the Pentagon, all the Admirals -- Admiral Rickover and all those boys behind him.

K: Well, it's an unfortunate combination of a lot of circumstances.

F: It is.

K: I think it's really a profound threat to everything that we've been trying to do on East-West relations.

F: I do too. I certainly do. I said that yesterday. I said what I thought -- The Trident's a symbol of -- Your signal that you are sending is that detent is off. There is no sense in speeding it up two years just to please Rickover. It's going to be a close fight. We vote at 11:00 today. I think it's a damn shame if we lose it. It's going to be close. If you've got any special boys you can influence, I think you ought to do it. You know what was going to happen yesterday on that vote -- the first vote we won, 49 to 46. Then they reversed it and we lost, 51 to 44.

K: On the Mansfield?

F: Yeah.

K: Well, on Mansfield, I totally disagree with you.

F: I know. What I'm talking about is the same powers that turned that around are for the acceleration of the Trident. It's a demonstration of power, not just the substantive value.

K: Oh, I see what you mean.

F: You see, they had the muscle to influence the vote. There's a good story in the morning paper about how four of them changed.

K: I look forward to seeing you at 1 o'clock.

F: Okay.

K: Well, Senator the reason I'm calling you this morningis because I thought that before I made a move on this relationship between the Congress and the State Department which I was talking about in my confirmation hearings, I might get somebody to look at that whole problem how we can have that closer relationship I was talking about.

M: Hm huh.

K: And if you thought well of it, I would like to bring in Dave Abshire for a few weeks as a consultant to go around the Hill to talk to senior people how they envisage it and then I can make some specific decisions if you think well of him and if you think that this might be a good way of going about it, I'd like to announce it today or tomorrow--I don't know yet which day.

K: How are you?

D: Okay. Sorry I didn't see you out here--I have just one or two points that might be of interest this morning. One is a very interesting report that Marian Darnholf got about two or three weeks ago on cleavage--in the Politburo and I don't know if you heard about it.

K: No, I've not.

D: But she has told it to Brandt and if it comes up---pursuing it with him and if it doesn't I can put it in a letter to you or call you another time, but it is very interesting.

K: Yes, could you do that?

D: Yes, the other thing, I didn't see much of Mr. Brandt but I could see he was a little upset by what must have transpired between you and the foreign minister in Denmark--thinking you weren't taking it seriously enough, so that--the only,

K: That I was not taking him seriously enough?

D: Yeh, he was representing the Common Market and to know he was from a country of foreign stature and--

K: Yeh, but that's nonsense-what we don't accept--it has nothing to do with the Danish Foreign Minister, we don't accept that they give us a note and that then their foreign minister has no right to negotiate it--that he is just a messenger boy--that's our objection--got nothing to do with the size--if it were Sheel we would treat him the same way. What we can't accept is that he brings a document to us, then collects our reactions and runs back to Europe so we are left without anyone to negotiate with in Europe.

D: I see--that's understandable--okay, that's about all--talk to you some time.

A: It will be anytime that anyone calls me to tell me to be ready.

K: Good, well it will be around 4:30 or 5:00

A: I'll be on the doorstep at 4:00

K: No, no --we'll call you.

A: I mean I'll be ready from 4:30.

K: Okay and youwill forgive me if I do some work in the car.

A: Yes, I will, but I --what I was thinking was that I could get a chance to talk to you, which I have been wanting for a long time and not bother you for another month.

K: Are you coming back with me or staying over?

A: I think I'll come back with you.

K: I'll talk to you for a bit, but I'm so far behind in my work, that I absolutely must get some work done too.

A: Okay. Getting back means I'll have to limit my enjoyment, because I don't drink if I have to talk toyou.

K: If you have to talk to me.

A: If I talk to you on the way back, then I can't drink all evening.

K: I don't want you to talk to me on the way back--I want to work.

K: Now you sent a message--I got an enigmatic comment from you that I'm the extra man at that dinner--do you want me to bring somebody?

A: No, no. You are the essential extra man--I would have to replace you.

K: Oh I see.

A: I want to sit you next to Lady Bird and all of that.

K: Good, I didn't understand.

A: Now that you are--'

K: And the Alsop's won't talk to any of my girlfriends except Nancy.

A: (laughs)

K: I know you wouldn't let me into your house with any one except Nancy, I didn't know what the message meant.

A: No. The message meant that you were essential as a bachelor, which I hope is only a temporary condition.

K: Do you have a candidate for me?

A: You know my candidate.

K: Do you realize what your brother said to me the other day when I met him with some other girl? He said you can come to my house on Saturday, you can bring anyone you want, but of course you know whom I prefer. (laughs) I've got the message.

A: We both prefer the real show. So there you are.

K: But for reasons which you and you alone have correctly analyzed the ladder --

K: Do you have it with you at home?

P: Yes.

K: I wonder whether you might be able to redo it for me for tomorrow. There are a number of things wrong with it. I won't read it anyhow. I will do it extemporaneously. First, we have to pay tribute to the people that are there, the bipartisan nature since Mansfield will be there and a number of others. I need a paragraph on them to indicate support of the United States World Concept. The first page should be a little more personal. I like the Emerson quote. But then it tends to repeat almost verbatim what I said at the UN. Pick up more from the UN speech. Also pick up those parts on page 6 and 7 of the Pacem in Terris speech. It won't hurt to repeat that; no one ever hears what was said in a toast. You might want to elevate it more than the usual State Department jargon. There are enough people around that will qualify everything I say.

P: Yes. First thing tomorrow.

K: I think also when the monetary thing is settled that will be an historic event this time. It will be a new system. It should not be done as a technical negotiation. I think you should make the big decision with Pompidou and Heath.

N: Excellent idea. I had the idea of pushing for thing thing.

K: You broke the deadlock in the Azores and when in fact it is all done it should be signed at the head of government level. It should not be treated as technical.

N: Good idea.

K: At Reykjavik we had strong advice against it. When you go to Europe and meet Pompidou you should take that occasion to break the deadlock on the monetary thing. The technicians can work out the details. That would give him something domestically.

N: We will do that. If you could give Scoop a call. I think call him tonight to impress on him that I followed-up.

K: Hello.

L: How are you, Mr. Secretary?

K: How are you, Senator?

L: Fine.

K: Senator, I understand you are having hearings today on Mr. Sonnenfeldt.

L: We hope to wrap it up today. At least the hearings.

K: Right. Well, Senator what I wanted to tell you, on a confidential basis, is that I'm considering him, without a decision having been made also, for a position in the State Department which will also require confirmation. And I'm making a decision on that within the next two or three weeks. I felt in fairness I should tell you this so that you don't feel he's not being open with you. It makes approval by your committee even in a way more important. Because... well, you understand why.

L: Yeah, well, I really feel we should have confirmed him already, frankly, but we got a couple of Senators here who have been sort of dragging their feet on the matter so what I'm concerned, I know all I want to know about it and I'll get this thing over with as soon as I can.

K: Right. And you understand that if within the next two weeks we should send signals on you?

L: In other words if we should pin him down for some other job it would be a job of equal significance in some other capacity.

K: It would be a job of equal significance in another department and then of course it would be very important if your committee could nevertheless give him favorable consideration so there isn't any conflict between two committees.

L: Well, that's fine. I'll try to bring that about. I don't see any reason why he shouldn't be confirmed.

K: It may not happen, Senator, you know, I'm still juggling positions at State. But if I proceed it will be on the basis for a position of equal importance.

L: Yeah. O.K. And I'll try to reach a favorable conclusion on this end, too.

K: That would be very nice. Hope I have a chance to see you soon.

K: That I have in a memo.

R: Right. So that my feeling really is, Henry, that unless the , unless we go along with Long and let him see the file, with Hal's consent, we're in a position of wrecking Hal's career. As far as other people are concerned. As far as the President is concerned, this is a case where Hal, himself, wants his file to be seen so he can be confirmed. And anyone in the future who is willing to let his file be seen in my opinion it should be seen. So we're not establishing a precedent of opening up files to Senators against the consent of the person involved, it's the other way around.

K: Now we could do this, or we could, if he's willing to settle for a compromise we could make a summary of the file for him.

R: Yes, if he will settle for that. Now I don't think he will settle for it probably.

K: And then let him see the file on a personal basis as long as he doesn't refer to having seen it.

R: That's right. But I haven't seen Kurt's memo, but the memo basically is don't let anyone see the file, not even the individual just to see his file. But after all the individual also has a career and the precedent is that we're willing to prevent a career from being wrecked by complying with that person's request that his file be seen by the Chairman of the Senate committee. Well, that's not a bad precedent, as I see it.

K: So you would go ahead with it?

S: I guess its "ni hon way" this week, rathernthan"dobri utro"?

K: How are you?

S: Fine, how are you?

K: Good.

S: I'm calling on a matter which personally disturbs me very much. .... Bill Brown, head of the EEOC... the White House wants to name the deputy, Powell to that job. It's all right and his background fully warrants it. Ambassador Hall tentatively suggested that he be on the Commission to Geneva last year, but at the last minute some other name went up, I think from the White House. He was offered a couple of jobs which never appealed to him, in the nature of Ivory Coast and Haiti, but he would like a chance to be ambassador to a more challenging post..... some interest from the top. I know you can't follow everything, but...

K: As it happens Al Haig spoke to me about him on Saturday. I have first to fill a few vacancies here in the Department. As soon as that is done, I am going to turn to Ambassadors. I want to have all those filled by the end of this year. So, I very well am aware of him, and I am sure he's going to get most serious consideration. You can assure him you talked to me and I will personally keep him in mind. You think highly of him?

S: I got Johnson to appoint him... only Presidential commission I ever got. ... He's a good lawyer, very well thought of and has a big following around the country. He could be useful in many ways.

K: Right. You know the Chinese are giving a dinner for me before I go off to China. They asked me to give them names for a guest list. I wondered if you and your wife are free?

B: I wanted to tell them how sorry I was that I wasn't able to speak with them at the swearing-in.

K: Aren't you nice. I appreciated your being there.

B: I remember meeting your father at the inauguration.

K: He has about 15 scrapbooks. If you ever see him don't mention scrapbooks, you will have to read them all. I am calling you about two matters, but after I get back from New York and abroad, you and I should have that drink which we have promised ourselves for a long time. Anyway, there are two items. One, first, we are considering selling a ship, possibly a cruiser, to the Turks at scrap value, a ship of WWII vintage to replace a WWI vintage ship that the Turks have now. I know you take an interest in these matters and I was reluctant to go ahead with these plans .....Turkey is an old and close ally and we have had to cut back military aid recently because of Congressional restrictions on funds and military aid. It would mean alot to them and we would be taking a ship out of mothballs anyway. We would never use it again.

B: Would it delay it too much for the Congress to act on it?

K: Do you think there would be a problem...getting Congressional?

B: I don't think so.

UNITED STATES DEPARTMENT OF STATE

K: Since there's no requirement that there be Congressional approval?

B: Well, the legislation has passed the Senate but not the house..

K: So if we go ahead. ... I will be honest with you, we are concerned that, probably we can get approval in this case, but what happens when .....we are not really in favor of that legislation, even though I know...

I am concerned about the legislation itself, but I'm not raising that now. Our problem is that the Turks have asked for an answer in a week, and it is possible under existing legislation. We are prepared to go ahead if Congress passed this law, it will after all have to be submitted to Congress. Would that be satisfactory to you?

*

B: I think you are entitled to do that. You would not be strictly complying with the intent of the Senate.

K: What we would do then, if the Congress passes this, then we will submit it, retroactively submit it.

B: Oh, retroactively.

K: Yes, you and I understand each other. If Congress passes the legislation in this session then even though this agreement was consummated before,we would nevertheless submit the request to the Senate. If it doesn't pass, we would go ahead on the existing basis.

B: I think that's all right, Henry.

K: On another matter, the Indian rupee proposition. You know my own personal feelings about the Indians. I have been castigated bitterly by some of the liberal people around. This is a matter .... dealing not with dollars but with Indian rupees. .....

B: But you're only getting three cents on the dollar, which isn't very much really. The main point I was concerned about, the Senate..... that the State Department should act unilaterally because after all, it is tax funds.

K: It is, as I understand it, though I haven't had an opportunity to really familiarize myself fully... put before the Agriculture Committee and they have 30 days to register objections.

B: I don't know if that's exactly the situation....

K: As I understand it, that is something we would be prepared to do here. I am not asking you to do anything because the amendment has already passed.

B: .... I am looking at it from the point of view of the legislature and you are looking at it from the point of view of the State Department.

K: Exactly. I am looking at it from the point of view of the general relationships with India, having negotiated... in any event, after a month or so here, you won't have the feeling that the State Department is excessively inclined to cater to foreigners.

B: Glad to hear that, Henry, and I appreciate your calling. We should have that drink together, too.

K: As I said, after I return from New York and my trip abroad, perhaps we can get in that drink together, let's aim for the first week in November.

B: That sounds fine, Henry. And it was mighty nice of you to call Henry.

Dean Rusk - Secretary Kissinger
October 3, 1973

R: I have been trying to do a little work behind the scenes on this Jackson stupidity in connection with the trade bill. This morning I had a good talk with Hubert Humphrey (and I would appreciate it if the fact that I talked to him you would keep to yourself).

K: Of course.

R: I think what may be a considerable possibility since what the Soviet Union is now doing is pretty reasonable, ...it could be worked out on the basis of a bill that would say if the President finds that such and such and such and such, the President is authorized to withdraw Most Favored Nation...

K: We can live with that.

R: Yes, I think you can. He suggested that there are six Senators with whom you might want to have a good, private, personal talk, if you have not already done do.

K: As a group?

R: No, individually. Because they ... want to find their own way on this thing.

K: Right.

R: Anyway, the names are: Javits, Gaylord Nelson, Russel Long, Herman Talmadge, Senator Mondale and also, although I'm a little hesitant about this on, Caiborne Pell.

K: These all sound like plausible names to me.

R: I think it should be very private, He thinks since the five would be inclined to be helpful. And, of course, if you get Long and Talmadge and Javits and Mondale you will be a long way down the road. I realize this is an old idea. Nothing new from my end.

K: The names are new.

R: What can be worked out, although in the present situation is ....as soon as we give MFN to the Soviets they may backslide.

* UNITED STATES DEPARTMENT OF STATE

R: possibly work out on that basis rather than .... piece of legislation. I don't know how that fits the situation as you see it but... a little time helps here.

find some way not to launch to immediate conclusions. Some of these fellows have taken public positions and they need time to sort of back away from them.

K: We could do that in the Senate, but the House bill, which is a collection of stupidity is coming to a vote. What we need to get is the house bill sufficiently different to permit a reasonable conference...I think we could then hold the Senate bill until early in the session next year, I mean.

R: If I thought it would be of any help to call Carl Albert on this...

K: That would be terrific. ...the Senate roll, if he is given a restricted roll on the amendment to put... if we could even drop title V. like big scope for a conference.

R: Right. I would just like you to bear in mind that I have a very strong interest in this. On the advice of a senator I have not written a letter, say to the Washington Post, because they feel that quiet, behind the scenes work is the way this thing will be worked out. If there are individual senators ....

K: If you would have a talk with Albert and see what he thinks

R: Right.. Also I have one other suggestion while I have you on the phone.

K: Please, I want to ask you about something, too.

R: I think one of the problems for you is going to be to get our relations with Latin America. We should do something about the feeling of neglect they seem to have fallen into. I think you ought to get Latin American Ambassadors and Ambassadors from the OAS to take them on a boat ride, give them some drinks and just make them feel ...

K: Well, I am giving a lunch Friday in New York for Latin American reprresentatives at the UN. I know that's not exactly it, what you are suggesting, but...

R: That's right, that kind of courtesey, flattery if you like. It is greatlsy appreciated by the Latinos, who respond to that sort of thing more so than people from other parts of the world.

K: Yes, apparently.

R: On the second day of President Johnson's administration he called in all the Latin American Ambassadors to the White House as one of the first acts of the administration. They were so flattered that it was one of the first things he did and it made a big difference for quite awhile.

K: Excellent idea.

R: It doesn't have to be aimed at a particular subject, or anything. It is just one of those couresies they will appreciate.

K: I think your'e right.

R: Just give them a chance, its important to these Ambassadors, to send a telegram back hom saying I was on the river with the Secretary of State , and I said to him and so forth, sort of build themselves up back home, you see.

K: I may do it next week.

R: Before the weather closes in....

K: Also, I would like your opinion on the following. I am thinking of replacing Bill Porter as Under Secretary. He's a fine man and I will give him a good embassy, but I don't think he has the sort of intellectual mind that is needed.

R: I agree on that. I've known Bill Porter a very long time and I have the same feeling. Although he's a dedicated and loyal employee, he doesn't have the wide-ranging imgaination and initiative on that particular job.

K: I am considering the following people: Joe Sisco, Bill Sullivan, Nat Davis, Dave Newsom, Phil Habib. Of course, Phil I can't really take because I will kill him.

R: Oh.

K: Really, he had a very serious heart attack and he really might have died if he had not had it in a hospital.

R: If that's true I think that would eliminate him. Its a tough job sometimes. Free ..... came through on it. Dave, Newsom, though I would put at the bottom to start with, for that particular job. He's a little too much like Bill Porter.. I have unlimited respect for his talents and capabilities, that is Joe Sisco He's one of the ablest fellows to come down the track and I think he also knows Washington, he knows the Hill, he knows how the wheels of government turn. Bill Sullivan would be very good, if you want to change him as quickly as this. I don't know, I would put Joe Sisco in the number one and Bill Sullivan in the number two spot. In my time, you know, I almost put Joe Sisco in that job.

K: The only reservation I have about Joe Sisco...I share your view of his capabilities, but there is one problem. I think if he worked for you that would be a good test, but he does a lot of free wheeling, all over the place, frankly tending to place the Whiate House over the Department, which is something I benefited from at the time in my previous position, but I wouldn't appreciate it. now.

R: I don't think that is a problem, the free wheeling or the loyalty. Seriously, the way I delegated when I was there, I didn't mind a good deal of free wheeling as long as it was within the policy the President and the Secretary of State. I want to point out too that if you can harnass those same very considerable talents to work for you, this can be a great asset.

K: What do you think of Nat Davis. Frankly, I don't know him very well...

R: Very competent. He doesn't sparkle or inspire or reflect those qualities of leadership... but he's competent and I don't think you would regret it.

K: So you would prefer Sisco to Newsom

R: Yes.... he has the experience. and I have watched him go up and up in my estimation

K: Well, that's a very high test.

R: I would say so. I should mention, too that he is reinforced by an able and attractive wife. She's really something.

K: Yes, I know her. Bob McCloskey and I had a long talk last night. We both spoke of you with great affection. I hope you will be able to come up some time.

R: I do hope to get up some day, Henry, I just want to have you realize, that I wish you the best of luck and I want to see you succeed.
....
K: Dean, you have proved that. I want you to feel free .... if you see something that isn't quite right.. to call me or come up and talk.

R: Henry, I thought you might be amused by that 100 days letter.

K: I read it with the greatest interest. Very amusing.

As an Ambassador to Japan or if you were not bringing Bob back as Assistant Secretary to East Asia. I think that his ability is not as rounded geographically as might be needed to be Assistant Secretary for the Economics Bureau. I wanted to suggest to you Henry Wallich, Professor Henry Wallich. Henry of course is a good Republican. He's worked on the platform. He's widely regarded.

A: Well good enough.

K: Make sure he understands that.

A: I will.

A: That's fine.

K: In the first week of November.

A: In my consultations with other people on the Committee when they bring it up I'll point that out.

K: Good.

A: Henry, Hugh Scott said when he was at the Israeli Embassy the other night. First he found the Israeli diplomatic side alot more understanding on the Soviet Jewry situation than the Jewish lobby groups here in Washington. He said from a number of sources some of those people were telling him that they thought it was to our advantage for you to make a statement of progress in this area as soon as possible.

K: Progress of what?

A: With regard to the situation on Soviet Jewry and Soviet Jews leaving the Soviet Union. Not negotiations progressed but some of the developments and clarification of the statistics this calander year.

K: OK. I may do that at the Pacem in Terris conference.

A: Perfect place for it.

Sec. thought at first it was Gen. Scowcroft. Sec. asked if we got off the cable about ICCS to Le Duc Tho. Howe said it had not left. Sec. said this is the fourth week of crapping around with that. Howe said it is with the Secretary's things. Sec. said it must be brought to his attention - we cannot keep playing around and letting the ICCS compromise. Howe understood.

K: I just called Zayyat to take his temperature, and the guy is in a panic--he says he doesn't insist on having an assembly debate and if I tell him not to have one, he'll cancel it, and all he wanted to do is to read his letter and if I tell him that's no good, he won't do it, and I said why don't you go to the statusquo ante--he said if I proposed that they'd kill me--

S: That's understandable from his point of view.

K: But he said if I had any proposal at all, he would get on the next plane to Cairo, he said, could I say that we stand for the territorial integrity of Egypt, probably not, can we?

S: Well, territorial integrity of Egypt well no, I don't think you should get yourself in that at the moment. You have told him what you can, namely, we're for the restoration of the statusquo ante--

K: No, no, no, no, no. I mean for the ultimate negotiation

S: I know he is referring to the ultimate negotiation and they will interpret that as you having given a commitment in terms of total sovereignty. I think you have to stick to the formulas you have stuck to thus far, namely, reconciling sovereignty and security on the ultimate settlement.

K: Look Joe can you think up, he pleaded with me to give him anything tomorrow morning and I think he is looking for a face-saving thing but you think of something I can say to him

S: Right, that will at least be encouraging

K: If he wants to claim as a new initiative, even if it doesn't mean anything.

S: Just a--yes

K: Just a paragraph. Can you think of?

S: Sure, let me focus on it, I'll come up with sometihng.

K: I'll be back in 45 minutes.

S: At the moment I'm organizing a few of the long-going studies that we need to do as a result of WSAG.

K: I have talked to the President again and to the Soviets. I want you to know what we are doing. We are getting our fleet together in the Mediterranean and start moving it toward the Eastern Mediterranean. This will take us about 12 hours and we will start ~~going~~ moving it toward the Eastern Mediterranean. We will almost certainly approve tomorrow the military equipment within reason that you may need, especially if the Soviets line up with the Arabs, then we will certainly do it.

S: You will do it.

K: If the Soviets line up in the UN with the Arabs we will sure do it and if not we will probably do it, but we just want to see. But we would appreciate from you as much of the true military situation as you feel you can give us so we can make our evaluations, and also any plans you may have. We are going to propose when there is a Security Council meeting, whether or not the Soviets agree, that there should be a restoration of the ceasefire and a restoration of the ceasefire lines.

S: And you are doing that irrespective of their agreement or not.

K: We will wait a few hours to get their agreement. If not, we have concerted with the British and they will call a meeting and we will then propose this.

S: All right.

K: Do you have any views on the subject?

S: Well, I know there isn't and wasn't any decisions yet on whether to ask for a Security Council.

*

S: I think it is quite clear. The UN observers have also reported that from ~~behind~~ both fronts.

K: To all practical purposes there is no question.

S: The information I have on the military situation is that in the Syrian front the attempt by the Syrians to advance have been halted. On the Egyptian front I know about 16 Egyptian planes down, some of the Egyptian troops crossed the Canal and our people are dealing with that now. I wouldn't like to be in the shoes of those that are being dealt with.

K: (laughs) Well, that is what we are counting on.

K: We may have a Middle East War going on today.

H: Really.

K: I want you to know what is happening. I am sending a report to the President and to you of the events this morning. We got a report at 6:00 this morning that Israelis were expecting Syrian and Egyptian attack within 6 hours.

H: Yes.

K: First I thought it was an Israeli trick for them to be able to launch an attack although this is the holiest day. I called the Israelis and warned them to restrain. I called the Egyptian For. Min. urging restraint. I called Dobrynin. I gave all of our communications to Dobrynin and he called Moscow. I got a return call from the Israelis giving us assurances that no pre-emptive Israeli would be taken. The Egyptian called me back to say Israelis were launching a naval attack in the Gulf of Suez and 15 mins. later a call came from the Israelis saying that the Egyptians and Syrians were bombarding all along the fron and launching air attacks. Now it is not conceivable that the Israelis would launch an attack with single action in the Gulf of Suez. That has to be the prediction and all I want you to know is that we are on top of it here. You should say that the President was kept informed from 6:00 a.m. on and I will let you know what is going on.

H: Have there been any border crossings?

K: As of this moment I just know of a report from Jerusalem relayed to me by the Israeli minister. -- Air attacks all along the Egyptian and Syrian fronts. I don't know what Israeli counter action is. I have a report from the Egyptian that Israeli naval units are shelling them in the Gulf of Suez and they will be driving them off.

H: What is your view of the Soviet attitude?

K: My view is that they are trying to keep it quiet and they are surprised.

H: Do you believe that?

K: Yes. I think it is to insane for them to have started it.

It looks to me now that the Israelis are certainly going to hit back hard. They have already partially mobilized. Probably, I will be going back to Washington and will decide in a few hours. M: Yes.

K: We received an urgent call this morning from our Ambassador in Israel that they thought an attack might be imminent and they were asking us to use our influence and also to assure other interested parties they would not make a pre-emptive attack. We did that and I called the Egyptian Foreign Minister and the Soviet Ambassador, etc. Events seem[illegible] to have overtaken us. Now we are consulting with various parties and seeing what time is best for a Security Council meeting. We will keep you informed about whatever conclusions we reach. We would be grateful for any conclusions you reach. We would like to get a sense of what would emerge in a SC meeting before we go into one. I am speaking to you very frankly about what we are doing.

M: Thank you very much indeed. I might mention to you that the Israeli Permanent Representative has called me not to ask for a meeting but to simply give me an outline of what happend as he understands it and too he told me he had been speaking to your Mission here and that some consulting was going on and he promised to keep me informed likewise of anything that developed. That is where we stand. I have not heard anything from the Egyptians or other Arab representatives.

K: I had a brief talk with the Sec. Gen. to bring him up to date on what we have done. Of course, we believe this is a SC matter and not a Gen. Assembly matter.

M: Yes. Where are you speaking from?

K: From the Waldorf. Where I was preparing a speech devoted to peace on earth if you would like to make some suggestions as to appropriate themes.

M. I shall think about it.

K: It does not have my undivided attention. One thing I did want to say, is if there is a meeting and when there is we will do our utmost and we would appreciate any help we could get to keep it at as high a level as obtainable and avoid any cheap shots. J: Quite a Yom Kippur. What is your report?

K: My personal estimate which I don't want you to repeat -- it is clearly an Arab attack. The Israelis would not attack on Yom Kippur without provocation and the Egyptians have crossed the Canal in five places. And one report is that they broke through in one place. The Syrians have attacked in two places and have penetrated and I got a report at 6:00 that such an attack might be imminent. I called Zayyat and Dobrynin. The Syrians are not answering their phone. Also Eban. I got an Israeli promis that they would not launch a preemptive attack. As late as yesterday Zayyat was telling me the Egyptians would be very calm, quiet and give diplomacy a chance and are eager to meet with me in November and wanted to come to Washington next week.

J: What do you think broght this to a boil this way.

K: What we have to determine now, Jack, is whether there was Soviet collusion or not. We have offered the Soviets joint action in the Security Council to restore the ceasefire and the ceasefire lines with approval of the Israelis. This should smoke them out.

J: All will be nullified if these fellows -- if they make any effort.

K: The resolution is to return to the ceasefire line.

J: I know the diplomatic thing would work that way but all could be very very sharply affected if the Arabs have any success. It will be very hard to deal with them.

K: Our estimate is that unless the Israelis were totally surprised which is not impossible because of Yom Kippur they would be in their lowest posture ever.

J: No question about it.
K; Don't you think?
J: I am sure. I had second hand report that (Saper)(phonetic) called this morning and said they were in considerable difficulty. Said it had been very hurtful. I am sure they caught them at their lowest ebb of preparation. I gather it has been boiling up for a couple of days.

K: I wanted to bring you up to date on where we stand and to tell you my strategy. You may have to calm some people down.

H: Good. I am sitting with the President.

K: O.K. The Egyptians have crossed the Canal at five places and the Syrians have penetrated in two places into the Golan Heights. This we get from the UN observers. Our assessment here is re the facts, it is inconceivable that the Israelis attack would turn in two hours and have the Egyptians crossing the Canal.

H: No question about that.

K: Inconceivable. We have to assume an Arab attack.

H: I think the President feels that way.

K: The open question is, is it with Soviet collusion or against Soviet opposition. On that we have no answer yet. I have called first, as for as our public position, the Sec. Gen. who leaks like a sieve, to tell him about all of the efforts we have made and I have told him that I have been in touch with the Soviets. I have been in touch with Dobrynin and said we should jointly call a Security Council. The Soviets and we. And we jointly offer a resolution calling for an end of the fighting and return to the ceasefire lines established in 1967. I have told them this would be a sign of good faith towards both of us and we would hold up calling for a Security Council until we hear from them. I have informed the Sec. Gen. of that. The Soviets said they would get an answer from Moscow. This is designed in part to smoke them out. If they want the fighting stopped this will stop it fast. If they refuse to do this then we have to assume some collusion. Now if they refuse to do it we have two problems. The first is to get the fighting stopped and the second is the longterm policy. In order to get the fighting stopped we cannot give the Soviets and the Arabs the impression that we are separating too far from the Israelis. That will keep it going.

H: Right.

K: Therefore, as to the facts of the issue, if the Soviets could cooperate with us we will take a neutral position. We will say we don't know the facts but they should stop fighting. You see what I mean?

H: Right.

K: If the Soviets do not cooperate with us and whole heartiedly back back the Arabs on the immediate issue of the fighting we, in my judgment, have to lean toward the Israelis.

H: Right.

K: For these reasons: 1) In order to get the fighting stopped; 2) to prevent the Soviets from coming in at least with (bluster and get a cheap shot?) and 3) to put some money in the bank with the disassociation with the Israelis in subsequent efforts to get a settlement. All depends now on the Soviet reaction. Then after we get the fighting stopped we should use this as a vehicle to get the diplomacy started. Now there is no longer an excuse for a delay. The return to the ceasefire will have two aspects. If today the problem means the Arabs would have to give up a little territory - my estimate is that starting tomorrow evening the (Arabs) will have to give up territory. My view is if the Israelis make territorial acquisitions we have to come down hard on them to force them to give them up. You see.

H: Yes.

K: We have to do that in case of the Arabs but I think it is an embarrassment ~~xxx~~ we won't have very long.

H: Yes. Unless we have had a terrible erosion there.

K: That is the strategy that I am proposing. I think we have no choice. I think the worst thing we could do is to now take a sort of neutral position while the fighting is going on, unless the Soviets take a neutral position with us. If they take one with us, we should take a neutral position. That is ideal. If they don't join us and go to the other side we have to tilt.

H: Sure.

K: You see what I mean?

H: Absolutely.

K: If the Soviets are all out on the other side we have a mischievous case of collusion and then we have September 1970 all over again and we had better then be tough as nails.

H: The President is seriously considering going back to Washington.

K: I think that a grave mistake. There is nothing we can do right now. You should wait to see how it develops. Wait until at least this afternoon. So far not even a Security Council meeting has been called.

H: He agrees with that. His problem is if it is an all out war for him to be sitting down here in this climate would be very, very bad.

K: Let's wait for the Soviet answer. If the Soviets refuse to cooperate with us, we will know we are in a confrontation and he should then take leadership.

H: I think he will be comfortable with that.

K: If the Soviets do not face us, then I think he should stay down there.

H: Right. O.K.

K: You will make sure that the President is comfortable with this strategy. I think it is our only possible course and it has to be seen in the general context of his ability to act and of what follows afterwards.

H: Is there any effort to get the fleet in a decent posture. The President is concerned about that.

K : That is right. The fleet has been instructed into a position just short of calling them back to ship. They are to locate their people and move on several hours notice.

H: He does xxx want them assembled as soon as possible for appropriate action if needed.

K: That is being done but we wanted to wait until reports are confirmed and that will be issued within the hour. They need that much time to locate their people.

H: I will be back after discussing it with the President.

K: That is our assessment too and I have just said this to the President.

S: About the specific questions of a naval engagement the Egyptians talked about. There is no truth to that at all.

K: I cannot believe that you would start a naval engagement and have the Arabs cross the Suez Canal.

S: She will go on the radio in just a few minutes.

K: I want to inform you on a personal basis only for the Prime Minister that we have proposed to the Soviets that we jointly call -- the US and the Soviets -- a Security Council meeting and return to the ceasefire lines. An attempt to smok them out to see if they were behind it and ~~xk~~ give us a basis for leaning toward your position in the actual debate. This is only for the Prime Minister.

D: I understand.

K: It is a grievious suggestion. We cannot accept it.

D: I understand.

K: I have talked to the President again and he wanted me to call you and to underline again his very grave concern that this not be used to destroy everything that it has taken us three years to build up.

D: By whom.

K: By any of us.

D: Who really?

K: If you take the position of support all out for the Arabs that would be in effect encouraging what seems clearly to us and Arab attack no one in their right mind believes that the Egyptians could have ~~xxxxxx~~ crossed the canal in five places. I would be glad to have your military analysis on that part. Since all of the fighting on Israel territory I think the facts are clear. We are prepared before the SC to take a neutral position if you do and we are prepared to make a joint resolution just calling for ceasefire lin.

D: I understand and I have sent that.

K: Today the Arabs are on Israeli territory but we don't believe this will last 72 hours and after that the problem will be to get the Israelis back to the ceasefire line. If we agree on this course no matter what the military operations no matter how successful the Israelis may be we will stick to this proposal and we will be prepared to oppose them.

D: This is essentially what you mentioned.

K: We have not responded to an urgent Israeli request for additional military supplies. If it gets out of hand we will be forced to do that. For all of these reasons it will be important to our own relationship that it be handled as much jointly as we can and you should say this to the Sec. Gen. on behalf of the President. He just got through talking to me. I am coming back to Washington this afternoon and I will be in touch with you then.

D: O.K.

K: The reason I am hopeful we will settle it is that you did not leave town.

D: If I did not received your call until 9:00 I would have gone today We planned to take quite a nice dinner at our Maryland estate and we were leaving for vacation. You see how it happens. I ~~hpe~~ hope we can handle it.

K: Your Arab friends were terribly deceitful. Zayyat told me there would be at least the 3 months of quiet and he would meet me again in November and he wanted to come to Washington next week and since our conversations and the President's conversation with Gromyko we thought we had this time period to make a reasonable approach.

D: My impression too.

W: I wanted to tell you the following. We got confirmation from our observers in the Middle East saying about what you told me that there is heavy fighting along the Egyptian and Syrian lines. There is no fighting along the Jordanian lines. They indicated they would send more detailed reports as soon as they get more information from our observers. I had a conversation with Zayyat and he is asking for a General Assembly meeting to be convened. I told him that I doubted if it could be technically be done. I doubt if we could convene so quickly. I asked him about requesting a meeting of the Security Council. For the time being he has no instructions but will send a document to us and ask for circulating of these documents.

K: Our view is that it should go to the Security Council first.

W: Exactly. I don't think the Gen. Assembly has a chance. It is not technically possible before Monday. I do feel it is a matter for the SC. I asked him this question and he said he had no instructions with this reagrd. I expressed my deep concern and told him they should do everything to calm down the situation. He got rather angry and said "We don't attack. The others do and so on."

K: Our information -- our impression is the opposite. For your personal information and do not share it with others we are talking with the Soviets to see if we can develope a common approach in the SC. Untile we have that I think if there could be a slight delay if anyone pushes for a meeting which has not been the case yet, until we get the Soviet reaction if we are draging our feet a little bit it is to get the Soviet reaction. I understand no one has asked.

W: Nobody.

K: Our point is peace and security issue and it belongs in the SC and a Gen. Assembly meeting would be frivolous and we would oppose it.

W: I rather discouraged Zayyat.

K: We would oppose it even on Monday. I want to make that clear.

of a ceasefire and the ceasefire lines. If that can be done someone would call a SC meeting.

W: That would be the best approach. Hope it works. If there is any question I will call you.

K: If you call me and this would give the two governments a chance to concert their action.

W: Right. I think it important to keep in close contact. Don't you think the Soviets would be afraid to do that because of their relations with the Arabs.

K: They also have to worry if they are afraid of their relations with us.

W: I think the approach very good and I hope for the common approach.

K: Again speaking privately my estimate is the same as yours -- that they will not agree to it.

W: I know from my experience they are very much interested in not doing anything which would create the impression that they are working against the Arabs; or doing anything that would make their relations with the Arabs negative.

K: I think it so important to try that we should give it a chance. So far no one has asked for a meeting and we will not ask for one until we have the Soviet reply. If you can avoid it -- I know your position. If you can delay a meeting until we have had a Soviet reply; if anyone should ask...

W: You mean a meeting of the Security Council?

K: Call me when you get a request and we will discuss.

W: If I get a request, I will contact you. I tried very hard to get the Syrians information number. The Deputy PM left for London El Zayyat said he tried to get the Deputy but he left for London. K: I wanted to bring you up to date. We tried to call you earlier but you were on the way back. We received word very early, around 6:00 a. m. that the Israeli's were concerned that an attack was imminent. We got in touch with Egypt, Soviets and the Secretary General of the UN.

A: Yes,

K: We asked the Israelis not to make a pre-emptive move. They agreed. We informed the Arabs of this but war broke out anyway... just not enough time. We are now trying to coordinate action with the Soviets to perhaps get a resolution in the Security Council to return to cease fire line and for a cease fire. The Egyptians don't want ... W: I want to keep you informed of the developments here. Zahed (?) came to see the President and saw him in my presence. He asked him to convene an urgent meeting of the General Assembly. I mentioned this to you that he had already suggested that to me. He came then personally to the President requesting him to convene the meeting. The President reacted as I did. He said it was not technically possible. He cannot do it so quickly. After a lengthly conversation El Zahed agreed to send him a letter which he had prepared and signed in the office of the President and instead of having a special meeting of the GA he asked to circulate this letter. It is a two page letter which accuses the Israelis to have started the aggression and that they had to react and they accused the Israelis for having launched this aggressing along the Egyptian-Syrian border and continues the Israeli's policy of occupation of the Arab territory and the increasing of the utilization of the Arab territories.

K: I guess we will see it eventually.

W: It is an accusation of Israel for not having accepted the UN resolution etc. This is the situation and this letter will be circulated as a GA document on request of El Zahed, and to speak on Monday morning in the GA. He came to my office and told me that he had still no request for any Security Council debate. Is that right? I can imagine they don't want it.

K: We feel there should be a Security Council debate sometime later this afternoon and we will oppose any GA debate of the subject.

W: It is a case for the Security Council.

P: Hello, Henry. I wanted you to know I am keeping on top of reports her The Russians claim to be surprised.

K: The Russians claim to be surprised and my impression is that they were supposed to be surprised because apparently there has been an airlift of dependents out of the area going on for the last 2 or 3 days.

P: I agree.

K: And so our impression is that they knew about it or knew it was possible. They did not warn us.

P: What is happening now? What is the status?

K: Fighting has broken out on the Golan Heights and along the Sinai. The Egyptians claim that the Israelis had launched a naval attack in the Gulf of Suez which triggered the whole thing. That I just can't believe. Why a naval attack? The Israelis claim that so far the fighting is still mostly in Israeli territory and that they have confined themselves to defensive action. My own impression is that this one almost certainly was started by the Arabs. It is almost inconceivable that the Israelis would start on the holiest holiday for the Jews when there is no need to and there is no evidence that the Israelis launched air attacks, and they gave us an assurance which we passed on this morning that they would not launch a preemptive attack and we told the Arabs that if the Israelis launch a preemptive attack that we would oppose them and they should exercise restraint. My view is that the primary problem is to get the fighting stopped and then use the opportunity to see whether a settlement could be enforced.

P: You mean a diplomatic settlement of the bigger problem?

K: That is right. There is going to be a Security Council meeting almost certainly today and we are still debating whether we should call it or the Israelis should. Somebody has to call it in the next hour.

P: I think we should. We ought to take the initiative. Can't we get the Russians to? I think we ought to take the initiative and you ought to indicate you talked to me.

On the immediate thing we have to get the Soviets drawn in on the side of the Arab group - then it would be involved. If they join us in a neutral approach in which both of us say we don't know who started it but that we want to stop it, that would be best. If they make a defense on the part of the Arabs. C: I'm sure we would wish to do that too.

K: Whatever the situation in Copenhagen, it doesn't apply with regard to the Eastern Mediterranean. Let me give you our reading of the situation. We are quite confident that the Arabs started this and we in fact were given assurances, when we transmitted to the Egyptians and Soviets our request not to launch pre-emptive attack. We told them that if Israel launched an attack, we would oppose them publicly.

C: Was this recently?

K: That was during the night, but it was too late to be ...to affect decisions. Once we had the information. Now the ... our assessment of the situation is this We have approached the Soviets and proposed calling a Security Council meeting and that there be a simple resolution calling for a return to the cease fire lines and a cease fire. We are doing this because that is a neutral type of resolution which requires no condemnation and we suspect within a couple of days, unless our judgment is really off, the Arabs will be on their knees begging us to do this. We want to have a platform of having moved in this direction before that.

C: Before that, yes.

K: If the Soviets support us in this we are home free. If they do not, we will have to move quite drastically to make it clear that the Arabs were the aggressors in this particular instance, and more or less side with the Israelis. The reasons for this -- We are beginning, as you could see from the newspapers, and as I have told you, a series of diplomatic moves in an attempt to make at least some progress and this action depends on being able convince the Israelis, to make other security guarantees.

It would be unbecoming for the UN to turn itself into a ..... that is our position and we will maintain it throughout the crises.

As Popper pointed out we did not follow it in '67 but in '73 we will.

S: We are following it in '73 is the main point.

K: Yes, the main point, but I think we should stay calm and not go around discussing it too much. I will let you know whether we decide to go directly for a Security Council tonight, when we've got more information.

B: We were successful in preventing any statement tonight.

K: Well, did anyone want to make a statement.

B: Yes. The Australian President had a statement already prepared Which would have said that tomorrow that we were consulting for meetings that I have it right here in front. I can read it to you if you like.

K: Yes.

B: The President of the Security Council announced on 6 October that he had consulted urgently the members of Council on the fighting which had broken out in the Middle East that day. Paragraph. On the basis of information so far available the members of the Council had expressed serious concern that the situation which has developed and deplored the fact that hostilities had been resumed in breach of the cease fire. Paragraph The President had been authorized by members of the Council as a first step to ask the Secretary General to call on all sides for an immediate cessation of all military activities and to report promptly to Council members on their response. Paragraph. The members of the Council had authorized these provisional measures in accordance with _____ of the juanta without prejudice to the rights and claims or positions of the parties concerned. John Scali pointed out that this would be quite unacceptable from our side without a withdrawal at the same time that was coequal with the ceasefire from our point of view.

There are two things: No. 1) is I think as long as we know that the Soviets have been capricious and that way it proves to be there will be no limits on what we can do. If they play soft and spongy it would be very hard to be tough.

K: Here is what we will do. In deference to the message which you have sent us we will not go to the SC tonight though it originally was to go at 6:00 o'clock. We will wait for a decision on how to proceed until 9:00 tomorrow.

D: In the morning.

K: Yes. Give you a chance to go to church If you could get me an answer from Moscow which is a little more specific than this.

D: On what.

K: What exactly are your intentions. My impression is -- I understand you dont want to get into a public disassociation.

D: I will put it quite friendly. We are rather in a difficult position publicly.

K: If you can give us some indication what you are doing privately. You and I have handled these things private. We are interested in the results. We want a ceasefire and status quo ante. I repeat by Tuesday you will be asking us. It is not a question in which we are asking for a favor. We are trying to prevent an exacerbation of our relationship. A situation where in this country and the Congress will have very serious consequences. If you tell us you are working with the Egyptians and the Syrians and by Monday morning this will be over and no further debate is necessary.

If you will tell us that you believe that by Monday morning that there is in effect a ceasefire and return to the status quo ante. We don't want this to become a public affairs. Tell us something we can understand. It will be kept confidential as everything has been kept between us. I am not asking for you to agree for concerted public ation. I am asking you tomorrow morning for a concerted practical action. That will lead to the result we want. I genuinely believe and you will tell Gromyko and Brezhnev by Tuesday at the latest the situation will be a different show. Right, no?

D: I understand.

K: Our reading of the situation is that the Arab attack has been totally contained that now they are going to be pushed back and this process will accelerate as the mobilization is completed which will be no later than Monday morning and after that we will ~~say~~ what we have

seen before. This is our military reading of the situation. We think if the matter could be wound up tomorrow. The Arabs have proved their point. They have attacked across the Canal. They can withdraw on their own and return to the status quo. We can both enjoy a good SC debate.

D: I don't under stand in a political sense what do you think. What do you want from our point of view our position which is a principle from the beginning of '67.

K: I know your position.

D: It is not a public debate that I am telling you for use to tell the Arabs is very difficult. I had rather hear from Moscow but as I understand our position the difficulties we are now facing is that ~~Israel~~ the Arabs are trying to regain the lands occupied by Israel. They have been using that argument to us and for us to tell them you cannot free your land, it is rediculous.

K: I recognize the situation. I am not saying it is all easy. We have a different situation. There have not been any raids on Damascus and Cairo but I would not bet anything on tomorrow.

D: I understand.

K: Is is possible for the Politburo to imagine a complete course of action which we agree on privately.

D: What course of action do you propose besides SC.

K: A defacto return to the status quo ante a defacto return of the ceasefire. I have already told the Egyptians that I would make an effort after the Israeli election. I have told Gromyko I would talk to him in January. None of this we will do if these pressures continue..

D: I understand.

K: We have a framework out of which we could crystallize. The Arabs have now proved their point.

*

D: Henry, how could they?

K: You see they are going to lose. It is not a case where we are asking. Not like India and Pakistan.

D: I understand. The military point of view. I cannot argue with you. You know the situation better. I am trying to understand the situation better politically. Million or half a million.

K: ~~What~~ They have next to nothing.

D: What is the question -- asking them to return somewhere if they have nothing.

K: We have two choices; we can let this war continue until the exact calibrated moment when the Israelis have pushed out of every territory but before they start heading for Damascus. If we are lucky and hit that moment exactly right we can hit the ceasefire then. Probability is that the Arabs can hold on another 24 hours and then going to retret to their capital and wait for winter.

D: I understand what the situation really is. But for us to go to the Arabs and say look here I don't know how many you have one - one or two miles but you have to go back. They say you invite us to give back territory that belongs to us.

K: Can you not say that it was your understanding that an effort was going to be made for negotiations. They have proved their point of the urgency in which they see this and this is a good psychological moment for them to make a generous gesture rather than wait until the outcome of these hostilities. By Monday evening they will be flown out of there anyway.

D: I understand.

K: This is a new strategy of using the threat of ones own defeat.

D: I know. There are many that could be said. The question is from the practical way. From a practical point of view because they put on us all the cats and dogs. On the Russians because we asked them to give back ~~xxxxx~~ land which we have already said....

*

K: I understand your dilemma.

D: They will say you are in collusion with the US and Israeli.

K: Who will be the first.

D: Cairo. From a man you met. The Russians were in collusion with the US and (unable to understand).

K: If you and we could find a way of settling this now then it would be an overwhelming argument in all of the things we have been going through as to what the practical consequences have been of our relationship.

D: I understand.

K: I think it would overwhelm in one blow all of these things we have been facing. If it goes the other way and Monday you and we are going to be up at the rostrum calling each other names. It will be a disaster

D: I can assure you we will not be calling the US names. I am not sure what the Israelis will be calling.

K; You know some of the local people cannot always distinguish those two.

D: We will try to put them out of the country on this particular American line. You understand?

K: I understand.

D: This we could take care of.

K; It still would not change the objective condition. The various people who are harrassing you will be more inflamed.

D: I know. That is why I keep returning to the practical thing. You understand.

K: I understand it.

D: They would say you have spoken of liberating. It is impossible for us.

K: I will approach them to night and I will call you after I have talked to them.

D: I think it would be much better. From us, it would look like we are trying to sell them out.

K: We have to leave it at this. We will not go to the SC tonight to give ourselves a chance to think. You think and we will think. Try to get me an expression from Moscow by 8:00 in the morning.

D: Ask for ~~10:00~~ 9:00. That is 5:00.

K: Tell them they will have to go to early mass.

D: They would find it strange to have these kind of discussions going on over the weekend.

K: If I have any ideas I will call you.

D: Not at night. I go to sleep quite early.

K: You are not going to bed now are you.

D: No.

K: What you have to understand is if it turns into a propaganda battle on Monday in the GA, then our only protection is to be extremely tough and to teach the facts of life to people who like to make great speeches and we will see what is more important -- a speech or reality. I will be very brutal. That will be our strategy. We want to get it settled before then at least with an understanding.

D: As from the US no particular attempt from our side.

K: Anatol, in the GA it will be a bloody mess. No body can control it.

D: You are right.

K: It is going to be a blood bath.

D: It is true.

K: Then your allies are going to get up there and you will have to do as well as they.

D: As to speaking about allies I read you were going to build a pipeline.

K: A pipeline .

D: I mean your Asian friends.

K: I am saying the GA will be a mess. Why don't you report to this to Gromyko.

D: You keep in mind what I mentioned to you. About asking them to withdraw from what is theirs.

K: I understand that problem. Maybe there is some formula we can both think about. Let's not let time slip by. I believe the military will rapidly deterioate and we will be in a mess.

Foreign Minister Zayyat
October 6, 1973/8:48 p.m.

K: Hello.

Z: Hello

K: Mr. Foreign Minister. How are you?

Z: Fine thank you.

K: I just wanted to touch base with you at the end of a rather hectic and I'm sure rather trying day for you and for all of us. Let me tell you candidly what our evaluation is and I'll speak to you in the candor that we always have. First, I thought we had done rather well in our discussions yesterday, in establishing a basis of some mutual confidence and I look forward to seeing you down here and resuming our discussions in November. Now we are in the difficult situation that if the fighting doesn't get stopped in a reasonable time events may again get out of control. Now, our evaluation is that if the fighting goes on the Israelis will probably gain the upper hand. You know, you can disagree with this but this is our estimate and therefore when we suggest that we would prefer a ceasefire plus a restoration of the status quo anti.l...

Z: Anti what Mr. Kissinger.

K: No anti, before this last round started.

Z: Very strange.

K: I understand your point and we talked about that on Friday but then that will in time work to the advantage of the Arab side if the evolution is the way it may be. I just wanted you to know on a personal basis that if the fortunes of war should go the other way we would not look with favor on any further Israeli territorial claims. And we would like to have this thing wound up in a way that does not make it more difficult to resume what I thought was a beginning of a better possibility for discussion. I don't have a very concrete proposal and we have tried to be restrained today in the hope that perhaps something could be developed.

Z: Of course the question of you know when you think about 5,000 Egyptians killed and then going back to where we were is something out of the question, in Cairo. If I were in Cairo I would think madness.

K: How many Egyptians killed?

Z: I don't know how many people but I don't know how many killed but could be thousands killed.

K: Of course, our impression is that the action was initiated probably by your side this time but we may be wrong.

Z: Even so, but how can you advise anyone after doing this to go back where he was. I mean this is completely unreasonable. And just remember that you were speaking what can we give them since they ceasefire. Everything was so good that they started the cease/fire the fact of their occupation for 7 years 6 years was quite alright because of the ceasefire. I think it better for them and the evolution to find there is a war really and therefore find a solution for it.

K: That I agree with you on completely.

Z: They were so pleased and didn't want to do something because there was a ceasefire. And the ceasefire which was costing us every day that which I spoke to you about. I don't know who began this or how it began but we should move with the best _____ which we have now.

K: Which is what?

Z: I don't know but a position of going back to where we were of course nobody can suggest this to the government but me anyhow but I don't know what other positions are up. I didn't go to the Council because really I _____ to a rough frame. I didn't know what to do in the Council, the Council can have votes with me but with one veto. XXXXX

K: What is your view?

Z: I don't know. Do you have any suggestions. You have been studying this for some time and you know the other people we don't have relation with them.

K: You see our theory is that the other side is going to launch a very strong attack within the next day or two and then we will have another major problem to contend with and we would like to keep the fighting contained as much as possible to give diplomacy an opportunity. I mean you have certainly made your point which you had already made to me eloquently about the intolerable nature of the situation.

Z: The situation is really impossible for us. It has been repeatedly said this is American land. Nobody can _____. Security was assured for Israel by the water canal and therefore how can they leave the security.

K: No, I think it was a very effective operation in many ways.

Z: There is no security there. Security is possible only at the acceptance of coexistence.

K: I unfortunately don't have a concrete plan Mr. Foreign Minister but I do believe you have made a very, the events of today, have made a very strong point and now the question is how to go from here to some positive result rather than to an expansion of the war which then could reverse many of the things that have happened.

Z: I would like Cairo.. I would do anything. I don't care very much for war or for all this kind of thing.

K: Look, I really, you convinced me yesterday very much of your serious intent and good will.

Z: In any world how to get peace is the most important thing.

K: I couldn't agree more.

Z: The question now, what can I suggest to go back to establish the _____ of yesterday. I don't think I can even whisper it.

K: Supposing it happens in a day or two anyway.

Z: You know _____ of their occupying Cario because then we have the German _____ or the British _____. I hope that you are not going to help them do that.

K: Certainly not. I told you we will oppose it.

Z: Yes. So I think if there is no extra help from anywhere we can defend what we have to the best of our abilities but there is a point now that this question of security was over-rated and perhaps no protection. We can tell that now and begin asking something, doing something perhaps.

K: That I understnad and from that point of view we now show statesmanship. Something positive could emerge out of all of this. If it's done in some concrete and practical way. That's why I called you know, I don't really know. I just wanted you to know that I'm open for discussion and that we are not lined up in order to create difficulty.

Z: Well I should hope not because it is not good for anyone.

K: But you see this now goes to the General Assembly.

Z: I'm not going to the General Assembly. There is a mistake about that. What I wanted to do is to give the General Assembly the note I gave them today. On Monday I am going to give the ____ again and that's all. We don't want a debate in General Assembly.

K: You do not want a debate.

Z: No.

K: Well, that is a misunderstanding. I thought that you wanted it.

Z: No. I don't want it until November to give you a chance. What I am expecaed to do is to read the letter which I gave to the President today to read it as a statement of what had happened and sit down and hear other speakers of _____ as they wish. Because there was no meeting today I _____ any demand or request for a debate. I know the radio says difference but I hope you look _____. But I didn't ask for a debate and did not even raise the question. If this would help. But this is something _____. Ask them what is going to happen in the spot, this is more important.

K: Now supposing you know we said we were going to give this opportunity. How can we get the fighting stopped now.

Z:I don't really know. You are far away. You can have more cool head, you can tell me what to think and I plan to take a plane tomorrow morning to see the President and then come back. I will do anything because I sincerely believe until the end all wars are going to end by some sort of peace and athe peace that we want. For this I think there is understanding, you have said it repeatedly.

K: You explained that to me on Friday.

Z: Yes, and it has been said before you can say clearly, perhaps you cannot say it but this a fact. So if we can have any encouragement of any endorsement of this by America for example you can _____ think clearly that the _____of all states to preserve rewards for rewards. Something like this. I'm not speaking for myself. I don't know, can you think about it until tomorrow and we will call you again and see what can be done.

K: Let me think about it tonight and I will call you tomorrow.

Z: I think this is a chance for Americans to do something and if you were sincerely, and I'm sure you were, _____ of the _____ of _____. Now is your chance to speak to them both, without the great confidence that

Israels had and the great lack of confidence which he had.

K: Yeah. I understand.

Z: If you don't want me to raise the question on Monday let me know.

K: Good. Alright.

Israel is well aware of the militant feeling of the Egyptians and Syrians. If they attack they will lose although the attacker can cause damage ~~from Israel~~ which Israel wishes to avoid. Israel will not repeat not launch an attack, noting that Israel would successfully defend itself if attacked, she emphasized that the Israeli Government wishes to avoid bloodshed.

K: That is correct.

K: The Israelis are telling us that Egypt and Syria are planning an attack very shortly and that your people are evacuating from Damascus and Cairo.

D: Yes.

K: Yes. The Soviet evacuation is the fear of an Israeli attack, then the Israelis are asking us to tell you as well as asking us to tell the Arabs.

D: The Israelis?

K: Yes. They have no plans whatever to attack.

D: Yes.

K: But if the Egyptians and Syrians do attack the Israeli response will be extremely strong.

D: I understand.

K: And we hope you might do the same thing and use your influence to the greatest extent possible with your friends.

D: Just a minute. This is the end of message.

K: That is right. I would like to tell you as you no doubt -- that this is very important for our relationship that we do not have an explosion in the Middle East right now.

D: What is our relationship?

K: Until an hour ago I did not take it seriously but we have now received an urgent phone call from Jerusalem saying the Israelis believe it will happen within six hours and they are mobilizing.

D: Who? Israelis? Don't you think the Israelis are trying to do something on their own.

Oct. 6, 1973

K: If it is, we are telling them not to do it. I cannot judge it. As of yesterday, our evaluation was that the Egyptians and Syrians were making military preparations but we thought another one of those bluffs. You understand?

D: I understand.

K: As of yesterday, Israelis had made no preparations that we had picked up but as you know they can move fast.

D: I understand and I will transmit this message. I will do it and take all measures necessary.

K: You can assure Moscow we are taking most urgent messages with Israeli.

D: I understand and will do it right away. You are where?

K: I am in New York.

D: Very good. I can reach you.

K: Yes. On Chile -- never mind you had better get your message off.

D: Could we use the...

K: Use the White House. Use the hotline and I will tell Scowscroft.

D: On ordinary phone. The military you will tell.

K: Are you coming to the White House.

D: Could I call through the ordinary phone.

K: Certainly. Can Scowscroft get you on the direct line?

D: Yes.

K: On the line that goes to my office. We will move immediately.

K: Mr. Secretary General, I wanted to report to you about some events that have happened this morning that may conceivably get out of control. I received a call at 6 this morning from our Ambassador in Jerusalem that the Israelis believed that an attack by Egypt and Syrian forces was imminent, and since then I have been on the phone with the Israeli Foreign Minister, with the Egyptian Foreign Minister several times to urge maximum restraint on all parties and I have received word from the Israelis that they would not launch preemptive action. The Egyptians called back and said there was an Israeli naval attack taking place in the Gulf of Suez which was not the usual method of Israeli attack. As soon as I hung up from that I received a message from the Israelis that Egyptian and Syrian air attacks were going on all along the fronts. No troops had yet crossed at least. This is what I know as of this moment and I just wanted to talk to you and express our cooperation that we are attempting to establish.

W: Thank you very much.

K: I don't know what action is called for yet. I think we should try to calm the situation as much as possible, but it may get out of hand. What would be helpful if you could contact the Syrians before you contact the Egyptians.

Executive and the Foreign Minister

W: I was sitting next to the Syrian/Minister/ yesterday, but they did not say anything about this.

Quiet diplomacy has produced results. The tax on immigration is not being collected. We have received assurances it is not being applied, hardship cases submitted to the Soviet government ....the rate of immigration is in the tens of thousands, where it was in 1960

D: OK, why not.

K: We are getting frantic appeals for Sidewinders ~~and~~X from the Israelis and the Defense Department is giving them the run around.

H: You can tell them the President said to do it.

K: The idea was to have the stuff delivered to an air base and have them come out in El Al and pick them up. This is money in the bank. Now whatever happens in negotiations, if the Arabs come out ahead they will be totally unmanageable. This way, if we don't help them they won't come out ahead and we will wind up with nothing.

H: I've discussed it with the President and he is in full agreement.

K: I have been talking to the President all morning on where we stand. We have had another very urgent request from the Israelis for some ammunition and various items from that list, including 40 Phantoms which of course is out of the question, but the President's inclination is that if the Israelis will be able to pick it up, to give them some other stuff, laying claim for diplomatic....

S: They are most interested in sidewinders at the moment, Henry.

K: Do you think you could handle it at defense so that it doesn't leak?

S: I think we can do it.

K: We did it in '67.

S: They have indicated they would pick it up, and not have to get our transport involved.

K: Could you let me know by the time of the WSAG?

S: Yes, sir.

K: Perhaps you could go through the list of things you think we could give them.

S: Sidewinders are what they are most interested in now, in fact they are sort of quietly desperate about that.

K: They have made three separate appeals to the President now. They say their losses have been very heavy.

S: Well, their aircraft losses have been substantial because of the SAMs. There is something very peculiar about the Egyptian front. They seem to want Egypt to come in.... Egyptians didn't move their forces heavily across the Canal last night. The Israelis seem to be lying back. The forces they moved across were relatively small. The Syrian front is much more problematical. In both cases they may be .... subtle game of attempting this time to show they really are vulnerable in view of the feeling around the world that they are just bullies.

S: They can too.

K: They will do it, too. I'm not so worried about the Jewish community.
.....

S: The fact that they have been deterred from pre-empting may lead them to hold back in response just to gain sympathy, to show they have made themselves vulnerable.

K: I don't think that's what they are doing. I think they really were surprised this time.

S: Then why haven't they moved in vigorously in the South?

P. I spoke to Gen. Gowon in New York. I have had a very friendly relationship / with him stemming from the trip you sent me on a couple of years ago. I wanted to determine his attitude. He has a very constructive attitude. He thinks we should think of our major goals. He likes the President's statement on Africa. It only needs implementation. He would respond favorably to a future visit -- a State visit or whatever. He is distressed by the newspaper comments that did not take into account the President's heavy schedule. He has a good feeling toward you and General Haig. I think a phone call by you or the President . . he's in his room now.

K. Would he take a call from me?

P. He spoke very favorably and friendly when I asked if he had seen you. He is an absolutely stupendous person and a future force in Africa. I think a phone call . . . he will certainly take a call from you. He took my call.

K. I see.

P. I recommend a phone call from the President. Then if he accepts a chance to come back . . . The demogogues will call this thing anti-Black.

The time offered for Key Biscayne was Friday afternoon between the Secretary General's lunch and the Foreign Policy Association in the evening. There was no possibility in two hours and forty minutes . . to fly down and get back. The others I can't explain. I'm not trying to excuse him at all. He won't try to make anything out of this. K. Where are you?

H. In my room, about to go to see the boss.

K. We haven't heard from the Soviets. I think around noon Zeigler ought to say we are going to the Security Council. Before it's done check again. We have next to no support. On the other hand the Arabs are doing better than anyone thought possible. I have just talked to the Israelis. They will need until Wednesday or Thursday. They are not all that eager for a Security Council mtg. In fact, nobody is--the Israelis, the Soviets, the Egyptians, the British. On the other hand I think we can have a low-key meeting. For the Security Council to do nothing while fighting goes on is absolutely intolerable and I think we have to go ahead. We should seek return to the status quo ante.

H. Yes -

K. If we go we must ask for return -- the Israelis will never forgive us for a straight ceasefire and they'd never observe it anyway.

H. It's going to be tough if we are all alone.

K. On the other hand, a simple ceasefire request would make it seem that we have turned against the Israelis and this would have incalcuable domestic consequences . . and international ones too, and we would have changed our position of yesterday.

H. Are the Israelis panicking?

K. They are almost . . they are anxious to get some equipment which has been approved and which some SOB in Defense held up which I didn't know about. I think myself we should release some of it.

H. I think so, too.

K. I think if the Arabs win they will be impossible and there will be no negotiations. A change would be ascribed to our own domestic crisis.

H. Right, I agree. I think we have got to stand by principle.
We'll have to provide the stuff we have been committee to unless they can stabilize this thing quickly -- two or three days.

K. That's what they think. If we don't move today somebody will move with a simple ceasefire resolution.

H. On our return --I though we should go back normally tonight.

K. I think you should come back tonight. That's when you were coming back anyway?

H. We had planned to come back tomorrow night.

K. I think it would have ginned (?) things up too much if you had come back last night.

H. If you need anything . . .

K. If Zeigler makes the statement, that's enough. They have been in touch with me and . . . check with me again because I might have heard from the Soviets.

H. Anything else the boss should know, Henry?

K. No, those are the main things.

H. Interesting report. The Israelis are shocked by the confidence of the Arabs.

K. Yet, that's right.

H. This might make easier negotiations.

K. Depends on how we conduct ourselves. We must be on their side now so that they have something to lose afterwards. Therefore I think we have to give the equipment.

H. What are we talking about, ammunition and spares?

K. Let me see, I have it here. (reads from list) What we can do is send those which have already been approved.

H. Do we airlift them.

K. We don't have to do anything. They are sending a plane over and we could do it on the ground that they were picking up things they had already ordered. My profound conviction is that if we play this the hardway, its the last time they're going to listen. If we kick them in the teeth they have nothing to lose. Later if we support them they would be willing to help with Jewish emigration or MFN or other stuff.

H. Will be in touch before noon.

K: Their attitude.. My impression quite honestly is that they were taken aback by what the Arabs did this time. This is confidential information, but they have informed us they pulled out all advisors against the wishes of the countries before the fighting began.

M: Since the fighting broke out?

K: Before the fighting broke out, they knew about it about two days in advance. So, there are no Russians involved.

M: That's good. The position we are going to take tomorrow is to request a return to the situation to what it was before the fighting started. Our estimate is with the Israelis succeeding, now that will look increasingly attractive.

P. We'll have to do that. With Brezhnev I don't think we will learn anything.

K. . . . Somebody on the Arab side will put in a simple ceasefire resolution. It will be the India/Pakistan thing all over again. We're going to be in a hell of a position in vetoing or voting against a simple ceasefire. We had a message saying they will have their equipment by Wednesday or Thursday but they will not accept a ceasefire before they have thrown them out. My view is that if we can not break ranks during this crisis we can really do it afterwards because then they will have something to lose.

C: Right

K: All this of course is only for the Prime Minister or Foreign Minister.

C: Yes. I'll have to talk to Maitland. We are motivated that its ethically more correct and the Arab world will take offense the other way.

C: Do you think the other members of the Security Council will come along.?

K: How can they refuse? .... a messy debate. A dangerous precedent to have a war going on for 48 hours and for the Security Council not to be seized with it.

C: Quite. I agree with you. Have the Russians expressed a point of view?

K: They havepromised to concentrate criticism on Israel and not on us.

C: Won't they try to stir up the debate?

K: I don't object if they draw it out. That doesn't bother us right not, isn't that what I understood you to say yesterday?

C: oh, yes...

K: a discussion going.. and a framework. the idea of stopping the Arabs is not going to be our problem on Wednesday. .. this is really..

C: I agree entirely.

K: If we wait until Israel has won and then come out.. we're in trouble.

We've not yet decided to put forth a resoltuion or just a general discussion. We will be prepared to have informal consultations tonight. .. major reason is the argument you made to me earlier with respect to the impact of a war going on for 48 hours without anyone doing anything .

W: Thank you very much. This is the right approach. Whatever the outcome of the meeting should be, I think it will show the UN that at least we are trying.

K: Our ... will be non-inflamatory and low-key.

S: good.

K: It will not turn into a propaganda battle.

W: We can continue consultations even with debate g;ing on.

K: Of course, dangerous to substitute bilateral consultation for Security Council consultations.

W: I agree completely. As far as the General Assembly, neither Egypt or Syria wants debate in the General Assembly. What is agreed is that before the beginning of the debate :. Egypt and Syria and if Israel wants -- the three delegations. . make informal statements. Agreed that nobody else should speak so then after these 3 or 4 statements, general debate would continue.

K: Very constructive approach. That means the Security Counc l meeting will be in the afternoon.

E. I have two things to add to what Shalev told you. You will be getting a military roundup very soon. I have had some telephone talks ... the night was not particularly good. More forces were sent over.

K. You're talking about Sinai?

E. I'm talking about Sinai but even in the north there was further penetration there, in the Herman area. Our garrison fell at Mt. Herman. We're not at full capability because of the special circumstances of yesterday. You'll get the military reports and I think they will reinforce the conclusions in the message.

K. I have just discussed it with my colleagues--not the message but the general strategy.

E. I understand you're asking for a special Security Council meeting tonight to pre-empt . . .

K. Yes, to pre-empt somebody else introducing a straight ceasefire resolution.

E. You could ask for a meeting and table a resolution tonight. Then ask for discussion tomorrow.

K. Well, if that can be done. Our judgment is that we need a platform on which to stand.

E. I have just been given a radio report that Britian had received instructions to call for a meeting. Perhaps you can have a word with them telling them not to hurry . . If you could ask your Ambassador to be in touch we could go over it.

K. We haven't given him instructions. Let me check with the British about whether they are going to proceed. I can't believe they are going to proceed without checking with us.

E. You could make two points (a) you will ask for a meeting (b) it's your opinion that is all it requires. That will have pre-emptive effect and gain time. The full military report will reach you and will reinforce the conclusions in the message. The Ambassador will return this afternoon and will want to see you.

N: What did he say?

K: It was a friendly message, but it didn't say anything. One thing it did say was that the Russians pulled out all their advisers against the wishes of the Arab governments and we have confirmed that through our sources. Also they have withdrawn their fleet in the Mediterranean.

McKee telling me that Port Said has been attacked by Israeli airplanes and he is quite upset about this and instructed by his government to bring that to my attention and to the attention of the Assembly and SC.

K: By what reasoning.

W: I think they still don't understand that war is war. If one has a war, one cannot avoid civilian targets.

W. I don't know whether they will ask the Ambassador to talk: saying attacked by Israeli aircraft and wanted to bring to my attention and to the attention of the President of the Council. Zayyat will make a statement on that this afternoon. He wants to interrupt the general debate in the pleniary. I asked him if he would make this statement in the SC. He said no they would not speak in the SC. You would speak in this procedure as originally (planned.)

K: I have never seen a diplomacy like this. Have you any idea of what they think they are doing. All our information is that they are going to get beaten in battle. I have never known why a side that is losing a war insists on time. We will maintain our position no matter who is winning.

W: For your information. The Ambassador told me sort of confidentially, I don't know why he stressed it but he said the military was in good position as far as the two bridges along the Suez Canal. He said the military situation was not bad for them. I got different information but I think it is in the light of this opinion that the SC debate is not good for them.

K: I think by tomorrow the debate will pick up.

W: Exactly. My opinion is the situation will be different and they will be happy to...

K: My view too.

W: The other important information I want to give you is yesterday evening I got a report from our observers from the General saying the Egyptian high command requested withdrawal of all of our observers along the Suez Canal. Request to be made by your Government or the Sec. Gen. It was a consensus of the SC on the 10th of July, 1967, after the 6 day war that these observers were sent to the Canal Zone.

K: Exactly right.

W: I waited during the night for a request and did not get it. I rank up this morning and asked him and he said he did not know about it and he would check with Cairo and shortly after that he contacted_____ and came to see me. He said he had gotten instructions of withdrawl along the canal for their own security. They are now behind our lines and cannot serve any purpose any more and thanking us for the good services done in the past and they are not needed anymore and we ask your withdrawal. I sent around 10:00

this morning a letter to the President informing of this request and informed MacIntyre about this. In the meantime, which is also important, we got the report that some of them -- 2-3 of them have been escorted to Cairo by the Egyptian forces. The rest apparently still there. We are waiting for a final report. This is the situation that is rather awkward.

K: There is nothing you can do about it.

W: Nothing because it is quite clear they cannot serve any purpose.

K: Right. I have to get our Ambassador before the meeting starts. I will talk to you later.

K: I know you have already talked to Sisco but I wanted you to have a word from me too about the situation. What we have tried -- I want to give you a sense of our strategy. First we tried to prevent the outbreak and when that failed, we tried to get it ended but the situation was that the Arabs did not want a Security Council meeting and therefore no other member of the SC wanted to have one. We canvassed all day Saturday both for a meeting and a resolution that might pass. Of course, we were in the closest touch with the Israelis. When it became apparent that all would happen in a Security Council meeting would be a shouting match and inconclusive, we continued this strategy. We tried to keep the Russians from doing anything rash by staying in touch. I think it is being worked out now. We moved it unilaterally to the SC last night. I think we will crystallize this thing over the next 24-48 hours.

A: Fine. I told Joe that in 1956 Dulles stopped them you know and Lescoff (sp), the field leaders, said they took a swim in the canal, and we stopped them. In 1967 I was with Alazar (sp). We were in a village close to Damascus. He now runs the whole show. On the ground he is the Commander in Chief. I said you made a mistake. He said you mean going to Damascus. I said yes. He said you know who pulled us off. You did. They have lost their greatest asset of 1967 and I listened to all of the plans. With their air superiority I believe they will get control. And that we should not try to stop them.

K: We have maneuvered in such away that they have not had too much interference.

A: As the Shah once said to me, "I am sympathetic with the Arabs. They can lose a hundred battles but the Israelis cannot lose one.

K: We have maintained a position and I think the Israelis are satisfied with what we are doing and yet we have not broken off with the Arabs and we are going to try to dance that line for awhile.

A: Wish you luck. Anyway that I can be of service, let me know.

K: Thank you. You have been a good friend and I will keep you informed.

P: Henry, I thought you would be intrigued to know that Tricia called me last night. She had to go to the Italian Columbus Day parade -- she knew the press would grab her. I just talked to her a few minutes ago and she said all they asked about in addition to how did you like the parade was Israel. She had asked me last night what should I say. I said just tell them that your father says that the survival of Israel is a cornerstone of American foreign policy so she told them that. She said they just went away just thinking that was great. That really covers the New York situation. Also, that will get back to Golda.

K: Well, it will get back to her and Dinitz is going around town - You know, know, about 20 Senators have called him to ask him what to do.

P: Is that right?

K: And he says just support the President.

P: Great, great. Dinitz is all right then.

K: Oh, he's terrific.

P: But you see that little statement -- you can read it tomorrow -- used it with Pakistan, used it again -- the survival of Israel is a cornerstone of American foreign policy. That's all you have to say.

D: I want to tell you that they are expecting this information. We are not going to do anything at the Council. No kind of resolution in the Security Council. Our representatave in the SC has instructions not to have any prolemics with the American representative. Meanwhile we continue to consult urgently with the Arab side. In this connection, we would like and hope that you will do everything not to force the SC to accept any resolutions.

K: You can count on that.

D: Until we have finished our consultations with our allies.

K: May I make a suggestion to you. Your Arab friends are going around New York saying I am giving them an ultimatum.

D: In New York?

K: Yes. I thought we had an agreement specifically.

D: They are trying to delay the SC meeting.

K: It is not going on yet.

D: No?

K: It has been delayed. My own recommendation is we don't care whether it take place or not much. Let's have it, get it over and adjourn it. I promise you we will not introduce a resolution.

D: I can give instructions along those lines. In Moscow it is now _____ hours.

K: Let's see what happens. You can promise Moscow flatly there will not be a resolution in the near future. There will not be a resolution. We are making a very mild statement.

D: I understand.

K: It states our general position in such a vague way. We are not saying there must be a return to the ceasefire line. Just saying one way to achieve peace.

K: Good. I don't know why I am saying good. That is up to you.

D: I am calling your attention to what our Chief of Staff said in answer to that question he said not yet. The cable I have said not operating yet. I presume we are now busy mopping up the remainder of the Egyptian forces on our side of the Canal.

K: May I make one other suggestion. It would help if your Foreign Minister in New York would not make a proposal.

D: I want to make that point. He told me you talked to him.

K: It puts us in the position of having aligned ourselves with you which we don't object to but it is in our common interest to keep precipitating.

D: Absolutely. He said this to me and I confirmed no need for him to talk. Now he called me and said the rumor at the UN is that the Syrians, the French and British will probably talk. Even if the Syrians do talk we prefer they do not but their is still the possibility we will say nothing.

K: I don't object to your talking as long as you do not put forth a definite proposal.

D: No. I suggested to Eban and said if the Syrians do talk he said he would say what he said this morning and reserve rights for future meetings of the Council.

K: I am not in contact with the French but I will call the British.

D: I will tell Eban we are of the opinion that no one will talk. If the Syrians talk and he feels it necessary to say something he will say something about this morining.

K: No concrete proposals. You will find our statement extremely mild but our major point is to prevent the Russians from replying. The less we do now to precipitate the better.

D: The exercise is to be very conservative.

S: You are right. May I make a suggestion. We have one line in here where we say the least damaging way to bring this about is to bring the parties to the ceasei-fire line.

K: We want that to stay.

S: I understand it is not a demand.

K: If he interprets it as not a demand.

S: Once in confrontation with me he said I had given him an ultimatum. When we say the least damaging way to do it this means there may be 50 other ways but this is the least damaging . Does not mean we will settle for something when we are trying to force them back. Or he said we presented him with an ultimatum.

K: That is the chance we have to take.

S: We will take the chance.

K: Yes.

S: I am prepared to go ahead.

P: Hi, Henry. What's the latest news? I got the military news.

K: Yeah. Well, on the diplomatic front we had another message from Brezhnev asking us not to table a Resolution and promising us he would not table a Resolution without consulting with us, telling us they are using a great effort on the Arabs.

P: Yeah.

K: First of all, if this turns out to be true -- Well, first of all, we're in no hurry to table anything.

P: No.

K: We're making our record. We're the only ones that are pushing for anything.

P: Yeah, yeah.

K: But if we bring it off -- By Thursday it will be over in my view.

P: Oh, sure.

K: If we bring it off, Mr. President, if this thing ends without a blowup without either the Arabs or the Soviets, it will be a miracle and a triumph.

P: Right. The one thing we have to be concerned about,which you and I know looking down the road, is that the Israelis when they finish clobbering the Egyptians and the Syrians, which they will do, will be even more impossible to deal with than before and you and I have got to determine in our own minds, we must have a diplomatic settlement there.

K: I agree with you.

P: We must have. We must not tell them that now but we have got to do it. You see, they could feel so strong as a result of this, they'd say: Well, why do we have to settle? Understand? We must not, we must not under any circumstances allow them because of the victory that they're going to win - and they'll win it, thank God, they should - but we must not get away with just having this thing hang over for another four years and have us at odds with the Arab world. We're not going to do it anymore.

K: I agree with that completely, Mr. President. But what we are doing this week is putting us in a position to do --

P: To do something, that's right.

K: To do something.

P: And to do something with the Russians too.

K: Exactly.

P: I'm not tough on the Israelis. Fortunately, the Israelis will beat these guys so badly I hope that we can make sort of a reasonable -- You and I both know they can't go back to the other borders. But we must not, on the other hand, say that because the Israelis win this war as they won the '67 war, that we just go on with status quo. It can't be done.

K: I couldn't agree more. I think what we are doing this week will help us next month.

P: Maybe. I hope so. But in any event, on Brezhnev, he may be wanting -- Of course, the other thing that Brezhnev may be thinking of, his clients are going to get clobbered. You know, that's the only reason Kosygin came to see Johnson.

K: Yeah, but in '67 they were ~~scheming~~ manuvering their fleet around, they were threatening war, they were castigating us at the Security Council ..... breaking diplomatic relations with us, threatening our oil installations. And no one has made a peep against us yet.

P: That's great.

K: And that's a major triumph for our policy and we can use it in the MFN fight.

P: Thank God, yeah. You've got the Congress in good shape and you've got ...

K: I had a good talk with Stennis.

P: How good? Does he think we're doing the right thing?

K: Oh, he says he's marking it down on his calendar. He said it's a great day.

P: Because why?

K: Because he thinks we're in control and we're handling it well.

P: Right. Good, good, good. That's good. Actually though, the Israelis are really moving now, aren't they?

K: Well, they will be by tomorrow morning. I mean, they're in a position now from which they will --

P: They'll cut the Egyptians off. Poor dumb Egyptians getting across the Canal and all the bridges will be blown up. They'll cut them all off -- 30 or 40 thousand of them. Go over and destroy the SAM sites. The Syrians will probably go rushing back across now.

K: No, the Syrians -- that will turn into a turkey shoot by Wednesday.

P: Yeah, yeah. .... surrender.

K: Either surrender or a terrific shellacking.

P: Just so the Israelis don't get to the point where they say to us: We will not settle except on the basis of everything we got. They can't do that, Henry. They can't do that to us again. They've done it to us for four years but no more.

K: The first thing we've got to do is to get them back to their lines prior to the ceasefire.

P: I agree.

K: Which this they've promised us. But no one else knows we're going to manage it. And the next step then will be to start the diplomatic offensive.

P: Right.

K: Right after the election, which is two weeks from now.

P: That's right. Oh, I know, you've got to wait until after that. The first of November.

K: Right.

P: Good. Let me know if anything comes along.

K: But if we can hold this present situation another 48 hours, Mr. President it will be a great triumph for you.

P: Maybe that's right.

K: No. Yeah, because we can brief the hell out of this one.

P: Why?

K: Just compare it to '67.

P: Yeah, I guess so. Well, we thought we could brief the #@*! out of Jordan. It didn't help much.

K: Jordan we never briefed much.

P: Never did, did we?

K: No.

P: That was really a good one though.

K: But there we couldn't tell the truth.

P: We really with no cards at all - just like India/Pakistan - played a hell of a game.

K: Exactly.

P: This time we don't have any cards either.

K: We're playing a pretty good game.

P: That's right. Okay, Henry, thank you.

K: How are you, Senator? I wanted to give you a brief word on the state of play. We have now had information from the Russians saying they are using their influence to restrain and they hoped we are doing the same thing. Of course, we are already doing this. Also, very confidentially, I have made this exchange with the Egyptians and I have concerted with the British for the SC meeting this afternoon and with the Russians to keep it from degenerating into a shouting match. The reason we are not formally putting forward a resolution is because it does not do any good to have a lot of competing resolutions, all of which will fail. We are trying to crystallize a consensus and I wanted you to understand our strategy. As soon as a consensus exists we will support it as we were ready to do from Saturday on. For your own private information, we took the position that everyone should return to their position when the fighting started. The Arabs told us this would be very unsatisfactory to them. We took that position because we assume the Israeli position would change.

M: You mean last Friday.

K: I want you to know that whoever is ahead at the time of the resolution, we are going to be urging a return to the positions of Friday. My judgment is this will be working against the Arabs soon. You may be catching some flack on this. I don't see how we can have another territory grab.

M: Akin called me. He got wind of a resolution and he was much opposed to it. He wanted to support your position and not have something contrary to what you were trying to do. Scott came in later and agreed. We said we would take that position. It is impossible to have any resolution here until you get a chance to make your position known and make these contacts.

K: We don't object to a resolution that calls for a return to a position of Friday for the reason that we think that position will be reached certainly by tomorrow and after that the Israelis are going to be advancing into the Arab country.

M: I see. O.K. You can talk to Scott on that basis and I wish you would too.

S: You're at the right place though. You'll find a way.

K: Mr. Chairman, I just wanted to call you to bring you up to date on what's going on.

S: That's mighty nice of you.

K: What we are doing is, we're not making any grandstand plays. We could have called a Security Council meeting on Saturday but we first told the Russians we wanted to stay in step with them and have them act responsively. We then went to the Egyptians and Israelis and to the British and French and it turned out that there was no consensus for anything.

S: No what.

K: No agreement to do anything so rather than force a confrontation in which we would get out voted we stayed in contact with them and kept offering our good _____. Then yesterday afternoon we went ahead and unilaterally called a Security Council Meeting for today and now this morning we had a message from the Russians saying they want to stay in step with us and they would do their utmost to keep the situation from getting out of control. So even though you may not see much visible action, I think we've contained the crisis and we think that in another couple of days we'll have it quieted down.

S: That's fine.

K: So, we think the Israelis will destroy the military situation and just for your information we will be in favor of the restoration of the ceasefire lines as they were when the fighting started. That was our position Saturday afternoon when the Arabs were gaining territory. This will be our position tomorrow when the Israelis will be gaining territory. We'll apply it totally even-handedly.

S: Well you're referring back to the other war?

K: No, to this one. In other words we want them all to go back to where they were Saturday noon before the fighting started. You know when the Arabs were gaining they didn't want to go back to their lines. By tomorrow it is our judgment the Arabs will be pleading to get back to those lines. K: For your information in case it hits before you get briefed. I have gotten Mansfield and Scott to introduce a resolution into the Senate expressing the Senate's support for the Administration's handling of this crisis.

M: Good.

K: And urging a solution which involves a ceasefire and return to the position of ceasefire prior to the fighting. The reason I did that is so that when this turns against the Israelis we have some support with us.

M: O.K. That will be done sometime today?

K: Yes. Also it keeps a lot of other resolutions from being voted on.

M: Good.

K: Don't mention it.

M: No. No.

K: Just in case there is a question asked. You can say for the Senate to decide.

M: Can I say you have been in contact with them.

K: You can say I have talked to Fulbright, Mansfield, Scott, Stennis and Symington and also also some others and Morgan from the House Foreign Affairs.

M: Fulbright, Mansfield, Stennis, Symington and Morgan.

K: Yes.

J: Has hugh Scott talked to you about this resolution.

K: Yes.

J: Have you worked anything out with him.

K: I talked to him and to Dinitz too to make sure it did not bother them. We would welcome a resolution along the following lines. An expression of approval and recommendation that supported a restoration of the ceasefire at the line prior to the Friday hostilities.

J; They have one in here that exercizes it full diplomatic ...and elsewhere to achieve a defensible border. Whatever the words of the 242 are. Does that bother you?

K: No.

J: We have two parts. Approving the way the crisis is being handled and supporting restoration of the agreed upon ceasefire line.

K: I would not use ceasefire line -- that creates confusion like in 67.

J: Support restoration.

K: Of the positions the two sides occupied before the outbreak of hostilities.

J: Last is the pragmatory phrase. O.K.?

K: Good.

J: Is that all right today.

K: That would be fine.

K: The power is getting weak on your line. Both of our intelligence is listening. I want to tell you we are sticking with what I told you this morning. We are making a field statement saying we don't want to assess blame and we are saying some principles of a settlement in a very general way which includes the ideas I gave you but stated so vaguely they are just there to invoke later on. If your representative can restrain himself I think we can have a quiet session. I understand the Egyptian may not speak and we have urged the Israelis not to speak unless the Egyptian speaks. And I understand the Egyptian said he would not speak. If we can get these two quieted down we could have a brief session.

D: You will not propose a resolution.

K: No. We are making a philosophical statement. Just translated from the German.

D: Good.

K: I am counting on you to not come in with a resolution.

D: For all of my information there is none.

K: As I understand it Malik is not a member of the Central Committee and he would not dare overrule you.

D: Definitely.

K: In all seriousness I wanted to know your instructions to avoid any confrontation with Malik. Our statement is phrased in such away that it should provoke no reaction by even the Arabs. We have just one sentence referring to return to previous positions. It is not as a proposal but will facilitate a good atmosphere. In our judgment by tomorrow evening it will be greatly welcomed by your friends.

K: Or Wednesday.

D: You mean the ceasefire.

K: I don't know whether they will want a ceasefire but the military will be such they will not be occupying much of Israeli territory by tomorrow evening. It does not make any difference then, we can drop it,; we are not putting in any resolution. After this speech, we will do nothing. I assure you we will not do one other thing today. We do not now plan to put in a resolution.

D: This is the point.

K: As I understand Brezhnev's message this morning it was we should stay in concert with this. Our answer to that is yes. We will do nothing until we hear from you.

D: Have you had a chance to speak to Zayyat?

K: I have talked twice to him.

D: Today?

K: Yes.

D: Is he going to with the war?

K: HA. HA. HA. You must know the present situation of thought is not their most distinguished characteristic. His position is they are going to win the war. I said to him what if the Israelis gain territories. He said we will force them to take Cairo and we will not stop until they have taken Cairo. Because then we won't settle. You must recognize this is a terrible threat to make.

D: Yes. What are you going to do then?

K: If the Israelis take Cairo, I can tell you informally, I will not hold a Security Council meeting on that issue.

D: You will not.

*

K: I don't think that is our problem to talk sanely about. Anatol, we will be willing support no matter who is at what side of the line a return to the previous positions. When sanity returns this has to be the outcome. It may be easier for you to support this if the Israelis cross to the otherside.

D: I have no command of this. I understand what you are saying, you are going to leave it with a proposal for the time being.

K: My impression is their assessment is they think they may be winning.

D: He thinks one way publicly and the other way privately. It is difficult to say.

K: He did not make a specific proposal. He was not nasty. He just did not have a specific proposal. It is a new theory of warfare. I don't know if they learned it at your staff college or not. I am convinced that if you start a war you know where you are going.

K: I forgot to mention to you this morning that I had worked out with Benites, the President of the GA, that he would recognize only three speakers. We did not want a debate in the General Assembly. It would have been a massacre. The Syrians, Egyptians and Eban spoke and the GA adjourned on that topic. This afternoon at 3:30 we are speaking. We have a rather good statement for the Security Council but it is mild.

N: Yes.

K: So far no one else has asked for the floor. The Soviets are playing the game we discussed this morning. They are laying low.

N: Yes.

K: We will be the only ones speaking and the only one with a proposal. I have just talked to the Egyptian For. Min. and he will not speak unless Eban does. I have a call into Eban to tell him not to speak. I have Waldheim lined up. The tactical situation is that we will be the only one with a proposal on the table. It will not be rejected and will not be voted on. By tomorrow they all will be begging for it.

N: We hope. I had an interesting talk with Kendall on the phone. The day after Schultz left, Brezhnev asked to see Kendall. Kendall had a couple of hours with him and brought in three nice projects. On the MFN he explained the situation that this whole opposition is pretty much the Jewish Community. Some elements of labor which opposed it for reasons that had nothing to do with trade. He said that at the conclusion Brezhnev very warmly said he did not want minorities in either country to destroy this relationship he had established with President Nixon. He is prepared to go further and to work on it. That was his attitude at least.

K: He has a big investment in this.

N: One thing on that I wanted to tell you. The question came up as to whether the trade bill would come down the Jackson/Vanik amendment but with credit in it. I told him if it came in with the credit in it I would veto it. I don't want to start the MFN if credits are in the trade bill. I will veto it. I would rather not have it. You give that signal out.

TK: You are very nice to call.

K: I tried to reach you yesterday. Were you calling me?

TK: No. Just returning your call.

K: I just wanted to bring you up to date. On Saturday, first our efforts were to prevent the outbreak of the war and after that to get it ended. The difficulty we faced was that the Arabs were opposed to a Security Council meeting and for their own reasons so were the Israelis. We tried to stay in touch with the Soviets, the British and not one member of the SC was ready to have a meeting. Therefore, no resolution could have passed ad we thought it a mistake to try to force a resolution which would just have exacerbated every body. Curiously enough the Arabs, Israelis, British and Soviets were pleading with us to take that course.

TK: You mean not to have a SC meeting.

K: Not to have a formal one. We held informal ones all day Sat. night and it enabled the Soviets not to be in opposition with us and it enabled us to say in close touch with the Egyptians as well as the Israelis. We decided yesterday afternoon just not to go to the UN. It would leave the UN totally discredited so we asked for a SC meeting and we are going to present not a formal resolution but our view which is the outbreak of hostilities should be ended and a return to the positions held by the parties before the fighting started. That is going to look more attractive to the Arabs today that it did Saturday because the Israelis are gaining the upper hand and it will look more attractive to them tomorrow. We are prepared to turn this into a resolution if it gets any support. In the meantime we have had active exchanges with the Soviets. We are trying to keep them out of this and it now looks as if we are in a pretty good position.

TK: What do you thin, -- I don't know what that beep is --

K: Are you recording?

K: When you hung up it occurred to me there might be some slight ambiguity. The return to the ceasefire line is the one that existed on Friday night, Oct. 6, not in 1967.

S: In the legislative history we have covered the fact we were acting in support of what you had already done as well as what you were trying to do in the future. Javits has been in the meeting. I am with the VN legislators now. He will make more of a point of that. Resolution reads -- deploring of outbreak of hostilities in the Middle East. Resolved that it is the sense of the Senate that we deplore the outbreak of hostilities in the Middle East and we support the good offices of the United States President and the Secretary of State to urge the participants to bring about a ceasefire and the return of the parties involved to lines and positions occupied prior to the outbreak of current hostilities and further that the Senate expresses the hope for a more stable condition leading to peace in that region.

K: Excellent.

S: We did not say more peaceful -- more stable position leading to peace.

K: Could not be better from my point of view.

S: We have made legislation history by saying we support what you have done as well as what you are trying to do. Javits, I think wants to be in on the act. But he is going to say on the floor what a great guy you are.

K: How are you?

D: Fine. How are you? Is this call from me to you.

K: It is from me to you.

D: With your permission I will give you the latest information I have and the special thing from the Prime Minister. The situation on the front looks considerably better. We have gone over from the containment to attack both on the Sinai and Golan Heights. Our military people think that a good possibility we will push the Syrians all the way across the ceasefire line and we are also moving out the Egyptian forces in the Sinai.

K: I have seen a report that you have crossed the canal.

D: I have seen this too and I talked to the Prime Minister's office an hour ago and I could not get any confirmation. I was waiting confirmation on that. I will read to you this subsequent message. Continuing with the military revue. It is all the more important for us to gain time to complete the job. We will not only reject -- I am waiting instructions from the Prim Minister -- we not only reject that which freezes the cease fire but which calls for return which is unrealistic because there is no guarantee they will withdraw their fordes. I want to tell you we suffered very heavy casualties both in human and equipment. From the SAM-6s which were very effective against our planes. I don't have an additional figure against the 35 planes I told you about yesterday. The human casualties I think are over 100 or maybe hundreds. We have no confirmation.

K:: Hundreds?

D: Yes. Hundreds. It is quite possible that we will take some military positions on the other side of the canal. I am saying this without confirmation. The earlier message from the Prime Minister is that it is possible that we will take military positions on the other side of the canal and on the former ceasefire line of the Golan Heights in hot pursuit and to insure ourselves against new attacks and to have some new political cards to play as we talked yesterday. I don't have confirmation of any action such as this because the fighting is still to the best of my knowledge still on our side of the ceasefire line. Now I have a special message from the Prime Minister to you which I will read and when we see each other I will take it to Peter

so he can take it. "The Prime Minister wishes to convey to you her profound appreciation not only for your help but for your wise counsel. She says in the cable that you understand exactly the situation that goes on in our minds as if you were sitting with us here. The aims of our fighting are absolutely clear to you. It is our objective that the heavy blows we will strike at the invaders will deprive them of any appetite they will have for any future assault. Our extraordinary military efforts extolled a heavy price , especially planes. We are faced with a tremendous gap in quantity. Our planes are hit and being worn out. The Prime Minister urgently appeals to you that there is an immediate start of delivery of at least some of the new Phamtom planes. End of message."

K: I will do my best and tell her for her information I have talked to the President this morning and to General Haig about the replacing of aircraft losses which as you know met some oppostion yesterday and he has agreed in principle.

D: I see. How do we proceed. Shall I wait to hear from you.

K: You had better wait to hear from me. It might effect your own calculations .

D: That is very important. I will send a message right away.

K: I don't want to mislead you. We will maintain our position on the ceasefire line. We discussed this yesterday withour prejudice to the immediate military operations. That is the position we will take at the Security Council. We will not introduce a resolution just a philosophical talk.

D: Of course.

K: One other thing. We have had a much more conciliatory Soviet message this morning urging us to urge restraint but we have answered that we are urging restraint. At any rate we are warning them against any action and I am giving a speech tonight in the Pacem in Terris conference and I am making two pointed references that detente cannot survive irresponsible actions. In one context I mention specifically the Middle East. I am going also in this speech to mention our MFN position and I hope to God this is not a week whenever Jewish league will start attacking me on this position.

Dinitz
Oct 8

D: To a degree I can speak in the name, that I don't think that it will happen this week in any way.

K: I don't think it would be very wise. That is not my major problem. The final question I have Mr. Ambassador is the Lebanese have asked us to appeal to you that you should not violate their sovereignty and rather than send you a message through the ambassadorial channel I thought it easier to tell you directly and not have too much paper work.

D: I am sure we have no designs to violate their sovereignty.

K: If you have no such designs and you could pass such a message to me that I could pass to them and to the British it would help establish the climate we all need.

D: I will confirm it to you. We will keep the British out.

K: Confirm it to me and if you could do it soon it would be helpful.

D: I have one item for you -- an additional item. I have received many calls during the morning from senators of all sorts. All with sympathy and request for help. I assured them all that American Government is urging peace, stability and seeing things eye to eye and that we have no problem. Some wanted to sponsor a resolution and instead of this I think what they are doing at this stage is coming out with a statement. Scott will be contacting you shortly.

K: He has done so and I have told him that I have no objection to the sort of resolution and I discussed it yesterday with him. I am not pushing it.

D: I am not either by the way. Sen. Bayh and Senator from Calif. and Kennedy came out with a statement. They are all lining up. I am not asking any initiative on their part. Just briefing them and many are asking whether they can help materially. I say to them I am in close touch with the Government and we have no outstanding problems.

K: Right.

D: Yesterday I gave you information from our intelligence re the Russians and the Syrians. I have a correction. They are not sure about it and ask me to tell you not to use it unless we have further confirmation.

K: O.K.

D: Whatever can be done on the planes and other equipment we would be grateful and it would be helpful.

K: The other equipment I will do something about today.

D: I will wait to hear from you and I will tell the Prime Minister what you have told me.

K: I will try to get the anti-tank and electronic stuff today.

D: Hello, Henry. I just received an oral message -- a very short one, but I think it is fairly urgent. An oral message from Brezhnev to the President and he asked me to tell you personally about it. The message is very short and I will just read it. "We have contacted the leaders of the Arab states on the question of of ceasefire. We hope to get a reply shortly. We feel that we should act in cooperation with you, being guided by the broad interests of maintaining peace and developing the Soviet-American relations. We hope that President Nixon will act likewise."

K: Mr. Chairman, we've had a difficult time getting together.

M: Yeh, I've been moving around

K: And I was at a meeting. Just wanted to give you a brief rundown on where we stand.

M: Right.

K: Mr. Chairman, ever since we got word of impending conflict, what we have been trying to do is to get--first to try to prevent it and that failed, and then we tried to get it stopped -- now we are still in touch with all the permanent members of the securi ty council and constantly in touch with the Egyptian and Israeli foreign ministers, and very much contact with the Soviet Union, we tried on Saturday to get a security council meeting started asking for an end of hostilities and we couldn't generate any support for it from anybody and therefore a call for it would simply have meant that there would be no resolution and we would have been worse off. So we spent all our time trying to generate a consensus on some resolution that people might agree on, we also asked the President of the Security Council to have informal consultations and he couldn't get any support, so we went through that process all day yesterday and then finally late in the afternoon we decided to call for a meeting ourselves when no one else would do it with us and we are now going to have a meeting this afternoon and we will try to get the fighting stopped, but I wanted you to know that--

M: the resolution now--just--

K: We want to see what the [redacted] situation is, we don't think it is a good idea to have a resolution that doesn't have support, because then we're worse off, and we don't want if we can avoid to be in a confrontation with the Soviets and Egyptians and so we are now positioned that we are the only country that's in touch with all the parties--and we will put in a resolution just as soon as we think it has enough support to pass

M: Yes, ah huh.

K: But I wanted you to know that we a re very active, and that as soon as we see anything jelling that can work, we'll propose it but I think you'll agree what we don't want is a yelling match that makes the situation worse;

M: I agree with that.

K: Right, Mr. Chairman, I'll keep you informed. M: Okay, Mr. Secretary. Thank you.

S: Well, I don't know that it is a reply. He really is going -- as little as I heard -- is that he is going into the history of the efforts to achieve a peace, which was pretty much the line that he took in the General Assembly as well. So he is speaking.

D: Well, you see the situation, I don't want really to do this in any way because I don't know what Egyptians will do and quite frankly [as a matter of fact] sometimes even Moscow doesn't know. I don't want you to [later on] tell me I am sorry you give me a solemn promise which I couldn't keep. In a sense I couldn't keep, not deliberately; we have an agreement but simply Zayat is uncontrollable. Today he refused -- Yesterday he refused to come ..... which you mentioned when he spoke with _____. He was not intending to make a speech in Security Council but then he consented to make it. On the General Assembly again he refused to have it in the morning or to make his speech when we asked him to find out what he's going to say he was unavailable on. So this is like you say he may come with a resolution or situation which overall the principal of support against the aggression and Malack will be forced to support. I'm speaking from this end. But Malack in a specific agreement to do something to put you in an embarrassing situation I.....

K: You have to help us study the problem you know.

D: I know because with the telegram going to Moscow I tell you very frankly that we will prepare to keep our part of the bargain but sometimes it could happen that U.N. will allow something that I couldn't control in Moscow.

K: Hello.

R: Yes Mr. Secretary.

K: I just wanted to find out what happened at the Security Council.

R: Well, we made our statement. The Egyptians then spoke and they -- Zayyat said that he -- they would not accept a ceasefire resolution or call for any return to the status quo ante unless we meant by that a return to the June 5, 1967, lines.

K: Did he leave open that _____ accept a straight ceasefire resolution.

R: No he did not. Oh did he leave open. Yes he did. He didn't really give any hope that he would but he didn't rule it out.

K: Was it nasty or was it in sorrow or in anger.

R: I would say it was mostly pretty straight. The one thing that seemed to anger him was when he spoke about our trying to pin the blame for starting the hostilities on the Egyptians at which point his voice rose a coupe of decibals and he said, you know, let the U.N. speak for itself let's not site evidence which they themselves have not put forward on this point. Then the Chinese spoke. I didn't hear that one sir but I don't believe it was... someone told me it was pretty much a straight Chinese line.

K: Which is what.

R: You know, it was blaming the super powers both of them for the situation and calling on the Israelis to withdraw in saying this is all the Israelis fault but I do not have the details on that.

UNITED STATES DEPARTMENT OF STATE

DATE/CASE ID: 14 NOV 2002 200102979

K: How was it left.

R: I gather that no resolutions were put forward. The Egyptians said that they were not going to put a resolution forward. Eban spoke briefly and said merely that what they had said about the Israelis beginning the hostilities was a lie but that he would reserve any further statements until a later time. I'm not absolutely certain, there may have been another speaker because we were tied up at the time but I'm told the U.K. spoke. I'm sorry I don't know exactly what the U.K. said. I was told Mr. Secretary that no one put forward on this occasion any specific draft resolutions or anything more specific than we really did in indicating that return to the previous conditions would be the least damaging way to.

*

*

K: He supported that?

R: D,d the U.K. support? I don't know and I can try to find out for you.

K: It's not important. It's just how to understand what's on the Arab mind because by Wednesday that's going to be-~~XXXXXXXX~~ the Arabs are going to be thrown out of everything and the Israelis will be in Arab territory.

R: Well, I think it sounds likely that thats the case although we have some interesting late reports that the Israelis have taken quite a beating not only in aircraft which you know about but you may not have seen the latest thing which says that on the Syrian front they lost 150 tanks.

K: Really.

R: And they have reduced the estimate of Syrian losses from 400 to 300 which is the ratio which means the Israelis have taken quite a beating in relative terms you know compared to anything before. Are you reading me Sir, there seems to be alot of static.

K: No, I understand I was just thinking. OK. Thank you very much.

K: Hello

C: Oh, Henry, I didn't want to intrude on your evening.

K: Not at all. I was at a dinner for the President of the Ivory Coast.

C: It sounds immensely rewarding.

K: Mercifully. It just ended. He thought it was necessary for him to speak for half an hour in French with another one half hour translation.

C: We're very alone on the line aren't we.

K: Yes.

C: It's merely this. You and I talked about this thing between the ceasefire lines one way or the other. Eban made some remarks in New York which would point that if the politicians in Israel have their way they'll stop on the line and if they do that and this is an entirely a _____ remark. It's not HMG at all. I think its very important that the U.S. and/or the west get its credit for them stopping on that line. I think we want to think about some wording for that.

K: Let me understand it.

C: If the Israelis can push the Arabs back to the line and stop there and don't go beyond it (which is what we were talking about before). We want to get some credit if we can for the U.S. and all of us for having started them to do just that.

K: I agree. That's been our strategy all along.

C: But have we worked on any wording on this. Because it could happen suddenly.

K: Is that what you think?

C: Well, it's my personal thought. It's not my government's thought. It could happen quite suddenly and very soon that they get to the ceasefire lines, the Israelis, and they stay put. And then this sort of strategy we were talking about before really doesn't work very well. Do you see what I mean?

UNITED STATES DEPARTMENT OF STATE
REVIEW AUTHORITY: ROBERT H MILLER
DATE/CASE ID: 10 MAY 2004 200102979

K: Yes. I see what you mean.

C: If it was either one way or the other way we have the problem that you and I discussed that if the Israelis push them back to the line and then the Israelis stay on that line and don't push further then we've got a new situation in a kind of way which we need diplomatically before we review our situation with the Arabs. I mean to take credit for if we can contrive to do so.

K: I couldn't agree more.

C: Are minds work the same way.

K: And I can tell you that if the Israelis cross the line they'll move against us.

C: If they do that.

K: I see, but if they don't you want us to take credit for it.

C: That's my suggestion. It's not my _____ view.

K: But how would we do it?

C: I don't know. That's why I think why we want to apply our minds to wording which is directly what we hoped would happen.

K: What is your view -- well it's happening now.

C: Well, Eban's remarks in New York that implied they might do that. He made that today ....

K: That they might stop at the line?

C: Yes.

K: OH, yes, that I think is possible and that we strongly urged him to do.

C: Oh you have done.

K: Yes.

C: Then you can take credit for it.

K: Oh yes we can take credit for it.

*

C: Well that's fine.

K: I thought you wanted some public statement.

C: Yes. If it does happen because I think they'll have political problems in Israel. I think the military will want to go on further.

K: Well, what do you think is going to happen in the Security Council? Are you people planning to put forward some resolutions.

C: No, not at all.

K: Because you think it would be vetoed.

C: I don't think we have any particular proposition to put forward.

K: You mean like the straight ceasefire.

C: Well, we could do that but I think you felt, and I think we say in view of that was rather too simple. But I think if the Israelis stop on the line the sort of statutes that you and I were discussing a couple days ago are slightly overtaken by events. Because We were thinking either it would swing one way or the other.

K: Right.

C: But if they do, I mean, it saves self-restraint that they do do that and in a way makes the western diplomacy more difficult. With the Arabs I mean.

K: That I agree with.

C: It's still a question of just trying our minds of that contingency and if we have any ideas. I haven't gone to London mind you. If we have any ideas on that it could happen quite abrupt see and we ought to take advantage of it from the relations with the Arab world and everyone else.

K: Are you people surprised at the course of hostilities.

C: No. They are going rather slower than I think we anticipated.

K: Us too.

C: That's the only element of surprise in it.

K: But that makes alot of difference.

C: Yes, but it also gives us a little bit of opportunity to think out what we're going to do.

K: Exactly.

C: I do emphasize that this is really my own personal thinking and not based on any instructions I've had.

K: I fully understand that but our thinking is exactly on the same direction as mine.

C: Fine. and if I can think of any formula. That could pose a new question so to speak in the posture we end up with, if the Israelis just stop on the ceasefire lines.

K: I agree. If they could stop there that would be the easiest way to end it.

C: It's the easiest way to end it but in a way will leave more things unresolved.

K: I think Rollie, the situation has changed fundamentally. This has been such a brutal fight for the Israelis. They will not have the same cockiness again.

C: No, but I think that this does, if they were to do that, it does provide quite an opportunity for you to step in if you want too.

K: That's right. And that's our intention.

C: That was the thought that was put in ~~the~~ mind by me I thought.

K: Exactly. Thank you.

D: I explained to Eagleburger a few lines on the current situation in....

K: Yeah, come on, I'm in a great hurry. What is it?

D: There are no basic changes on the ground. The major thing is we have destroyed a hundred Syrian tanks today. Only 30 Syrian tanks remained in the Golan Heights.

K: You destroyed 100 today?

D: We destroyed 100 today. Only 30 Syrian tanks remained within our area of the Golan Heights. There are more outside. Our losses in planes increased to 49 from the beginning of the war. We lost 11 today. All of them six____ Syria. The rest can... not meaningful, the rest of the changes. The Egyptian front remains steady. They lost several dozens of tanks when they tried to cross the bridges today. On the ground there was no change.

K: We have a report here that you hit the Soviet Embassy in Damascus.

D: Somebody just heard it on the radio, but we have no report of this whatsoever. I would inquire of course in Israel.

K: Mr. Ambassador. I have talked to Schlesinger. You can now go ahead. The only other thing I would like to point out to you is a situation now developing in which it is very hard for us to resist a cease-fire in place proposal. Therefore in designing your strategy you should keep that in mind.

D: Cease-fire in place, you mean back to the lines...

K: Cease-fire to whatever line they are at...Eban and I discussed. You might be ready to accept Tuesday night.

D: Next week?

K: It depends on the tactical position. It's a hell of a position for the United States to take. ...Our tactical assessment is that we may be in a position where we veto a resolution urging you to go back to '67 borders.

D: Yes, but nobody takes that seriously.

K: Maybe not, but we can get a majority vote. May not be serious but it will pass unless we veto it. ....going back to the line, also their staying where they are after weeks of fighting it will be a hell of a thing to defend in public opinion. There is no reason to suppose that will develop. If I were an Egyptian with some sense of balance, I might at some point tell the Russians....

D: When I last talked to Eban he was under the notion that such a resolution would be vetoed by you.

K: That was on Sunday. He told me he ..... Tuesday. Here it is Tuesday...until Thursday or Friday. Going to be extremely tough. at that point.

The situation really is placing us a number of difficult situations which to make a long story short, whether we will be able to get the parts we need as well as the planes. But I thought if it is not possible now, maybe very early in the morning I would like to bring the Military Attache with the material to you for you to get a complete picture and together we can then cable the Prime Minister the situation we are facing.

K: All right. Let me see, let's aim for about 8:00 -- shortly after 8:00 in the Map Room of the White House.

D: Fine, I will be there.

K: Is it a difficult situation?

D: Difficult in the choices that we are facing. To make it simple, in the Canal we have ..... 5 divisions of Infantry, which means about 50,000 people and 700 tanks. Although the bridges are destroyed behind them, the choice is then to press forward with the Canal behind them. The question that we are facing is how to handle the situation and that depends on what we will be able to get .... planes and etc.

K: Anti-tanks is easier than planes in the short time.

D: I suggest that we wait until the morning. If you think it is advisable that Haig (I believe he means Scowcroft) participate too because I will bring my General.

C: More on the Middle East. Now that it has broken out and you're right in the midst of it, I think the only good that might come of it is that these Egyptian and Syrian forces are broken sufficiently to eliminate the threat for a long time to come. I was wondering about the losses that the Israeli Government has sustained in the air and what we can do about helping replace those losses.

K: Well, of course, we have two problems, Frank. One is to help and the other to start a massive influx of equipment while the battle is going on is a rather serious matter.

They are completely contained, there were some attempts during the night to break south web and all the tanks were eliminated. They lost some tanks, some planes, the situation is that they are completely contained to narrow--and this is important that the bridge is narrow so they cannot develop a _____. We are continuing--I'm still on the Egyptain--continuing a regular air attacks on air fields and missiles. The Egyptians are guarding their planes, they don't send them up. They are using the missiles instead. We are expecting--we have information about additional _____ squadrons from Libya and a Mig squadron from Algeria as well as some _____ from Iraq.

K: Yeh.

D: On the Syrian side, the thing is going well. The last telephone call we had is we are almost in complete control of the land and the problem that we are trying to do now is to hit the reserve arm brigades that are still outside of the Golan Heights by air action and to prevent the joining of the Iraqi _____ position which according to our information is moving toward Syria. K: Good, Mr. Foreign Minister. I'll call you later this afternoon when we are able to see things here more clearly.

E: I also want to talk about the Soviets role. Perhaps if I can get away to Washington, we should talk about that.

K: We might do that later tomorrow morning.

K: Ron, on the way into the President.

Z: Right. _____ did well. The quote is that Mansfield said that as far as the Congress is concerned, we support completely the course of action being undertaken by President Nixon and Secretary of State Kissinger.

K: Excellent.

Z: Now, the only touchy part and I just wanted to get your quick advice. They were asked about did anything come up about the Soviets encouraging other Arabs to join in and the way they answered that was simply that Dr. Kissinger made it clear that he is in constant touch with the Soviet Union, the PRC, and all permanent members -- you know, constant touch was the line they used.

K: Fine.

Z: Is that the way you want Gerry and me to handle it?

K: No, you can say we are urging in very strong way restraint on all the parties, especially the Soviet Union.

Z: Should I say anything about the message?

K: No, no.

Z: Okay. We are urging restraint.

K: On all parties. Don't ever mention another message between Brezhnev and the President.

Z: All right.

K: And the President is aware.

H: Yes, he knows.

K: ..the resolution is..if if surfaces that we rejected a simple cease-fire we're through in the Arab world and here.

H: I know...I hope..we can.. keep the noise down.

K: I will see Dinnitz tonight. I will then see Dobrynin too late to do anything. I will then propose to Dobrynin that tomorrow night we are moving in the Security Council ..and getting the British to put up a proposal ...that is dilatory so that it will be adopted on Friday. This will give them Friday as a fighting day and if they reject it they get even another day. If they have suffered the losses they have -- they may not get to do much fighting.

H: I think they're making more noise than feeling..;

K: If they ...lost...in Sinai were crushed..

H: Oh boy.

K: They are just not doing well.

H: We just can't take any other position.

K: What's the alternative.

H: There isn't any. talke about materiel, but..

K: We have the King ready to go on and the Saudis ready to go and I am holding them both.

H: The agreement on a resolution that can be strongly imposed...only 48 hours away.

K: I got the gist of this in the morning but I didn't want to get the President hepped up. I have gotten some time -- 36 hours .

H: Good, I think its being handled bery well. It's agonizing for the Israelis as long as it goes on. It gives the Arabs a sense of unit and confidence will grow. It will be totally unmanageable.

D: No, half an hour. Henry, I received a message for the President and to you from the Secretary General. I have not translated it yet but I will translate from the telegram as I read it.

K: But you'll send over the substance a little later?

D: OK. "Acting in the spirit of mutual understanding reached with the President on this score, we during the last days were having consultations with the leaders of Egypt and Syria on the correction of ceasefire. Frankly speaking these conversations with the Arabs were difficult and prolonged but we have now the opportunity to say to the President that the Soviet Union is ready not to oppose the resolution of the Security Council in favor of ceasefire. The President of course understands that in the present situation to work in the Security Council for the resolution of ceasefire the Soviet Union could not do it but the main thing is that we will not oppose. We will not vote against. Our representative will abstain during their voting. To come to this decision was not really easy. A decisive factor was that we, took into consideration this particular case, the pro-interest of supporting this and other developments, preserving and developing all those positives which have taken place during the last years of the Soviet/American relations and in the international situation in general. We would like to draw attention President, to one more circumstance. It is necessary to limit for the first time being the decision to ceasefire and either we will broaden the resolutions with more additional conditions on this matter for instance about their creating certain kinds of conditions or withdrawing troops on a condition. This very clearly will lead to the failure(?) that would really matter. This would have the ability to act combined. We are mentioning about this only because there were some hints on this kind of decision which were heard in a speech made by the representative of the U.S. during the last Security Council meeting. If that kind of position were put forward it would put us in a very difficult situation and the Soviet representative would be sure in this circumstance to object and vote again. We hope that this will refrain from happening and the combined action of the Soviet Union and the United States will facilitate or help to establish

this line on the Middle East and the resumption of actual efforts to reach a political settlement. This business about a revelation or perhaps allegation of your sending supplies to Israel. This was really a very important step and of course could ruin the whole national situation and we got rather hot on this matter. S: I will get on to Israeli.

K: Point two. The President is beside himself with what he considers inspired newspaper articles and I urge you to keep your people under control in what they say to the press. If it gets back to the White House that someone has talked to Israeli personnel there will be hell to pay.

S: Do you have anything specific?

K: I have nothing but he said he has. I was going to wait and call you about this after I had something else to talk to you about. S: I know. Let me tell you where we are. This is the point where you had better intervene. The charter people have been very cooperative in the sense they are scouting around trying to find them. The problem is there does not seem to be a great deal available. Whether this is in any way politically motivated on the part of these people, I do not know. What has been done before is when this came up in the context of other emergencies -- I think related to VN -- what we threatened to do is the Secretary of Defense has the authority in coordination with the Secretary of Transport to mobilize up to 200 aircraft for DOD operations in support of this kind of an emergency. This would be civilian type. When the Defense Department threatened to do this then the civilian carriers got off their dime and did something. The situation of course is not necessarily comparable in the sense that they were talking about VN rather than Israel. We have been having a problem on the Pentagon side. They are dragging their feet. That is our impression. I would suggest if you could take a minute with Schlesinger and ask him what he thinks of this notion. The civilian carriers are not falling in line.

D. Is it an infantry brigade?

K. An armor brigade.

D. Will they fight us or will they just stand there?

K. They will just stand there.

D. I will have to pass it on to my Government.

K. We will get you the name of the area.

D. This is called, Dr. Kissinger, to fight war with all of the conveniences.

K. He said it is a wooded area and not agreeable. Eagleburger will call you. Call me through the White House board. I promised the British an answer tonight. They have to promote a ceasefire and they are getting extremely restive. I told them

to wait until tomorrow. My present plan is to tell the British Ambassador around one that they should start exploring it, which should delay it into Saturday to give us another 48 hours.

D. When you said ceasefire, both in regard to Britian and Russia, is that ceasefire and standstill?

K. ...But you should be in a good position.

D. My judgment is that you should be better off...With the situation in the far north after tonight I have an inkling that the Russians will not be interested in a standstill tomorrow.

K. Well, that is their problem. I can only deal with one thing at a time.

D. I wouldn't wish that on the Russians, Mr. Secretary, that they should have your mind.

K. If they now do have a new proposal I will have to think it over and we should have another 48 hours. I think I should get it going underway.

D. I think the important thing now is to gain time. I have another several things I would like to discuss.

K. I was told by Scowcroft only a half an hour ago that the planes will be on their way.

D. I was told this afternoon to call the Secretary of Transportation who was out. I talked to the Under Secretary who said he would help me and get back. Scowcroft said he would get back to me.

K. I was told half an hour ago they are forthcoming. I can't actually handle it at this moment. Ignatious and Brinager were meeting to work it out. Where are the El Al planes?

D. They sent two yesterday and one or two flew today.

K. I am moving heaven and earth here....I want to tell you another thing. We are sending two tomorrow, two the following day, and two the next day. That is better than one a day because it gets a pipeline going.

D. If I see it that is six in three days.... I got another message from the Prime Minister and she cannot understand the delay. Is there any movement on the tanks.

K. Lets get the present stuff moving before we get too frantic on something else. Can I call you around midnight? Will let you know about Britain.

D. All right.

K: Hello Jim.

S: Hi Henry.

K: I've just been meeting on an urgent basis with Dinitz, who says they a running out substantially of ammunition. They based their strategy on the assumption that they would get the ammunition replaced this week, as the President had promised them on Tuesday, and that they a stopping their offensive in Syria because they can't move because of lack of supplies. And the Egyptians have transferred artillery over ar now they are saying ~~the~~ there is problem of a major thrust into the Sinai. A: it is true we gave them our assurances.

S: Well, what do you want to do?

K: Well, I don't know what I wa nt to do. I just feel that we did make some undertaking - you know it would help us. I was raising hell with them for not keeping their offensive going for a day while we were setting up the scenario on diplomacy. And now they have got to stop it.

S: Well, we can . . .

K: Are you sure that your people - I know that you are serious, but I frankly have no confidence that Clements and Hill and Company aren't sabotaging this every step of the way. If you want my candid opinion.

S: Well . . .

K: I just don't find the initiative. If something ~~wants~~ they wanted to happen then it would happ

S: You mean on the obtaining of charter flights?

K: Well, on just getting - you know some way in four days could have been found. I don't know what it is, it isn't my job. I just don't see... except for you I don't know anyone over there who has any intention of making this happen. You know that Clements would just as soon move them the other way.

S: Well, ~~he~~ he will do what the President wants.

K: Yea, but the way he interprets what the President wants is not necessarily what the President wants.

S: Well we have the possibility of just telling the U.S. aircraft to go on whatever they need.

K: I just findit hard to believe that every company would ~~xxfxxx~~ refuse to charter unless somebody sort of told them in a half-ass way.

S: Well the problem with that is that they have good business outside. Unlike other circumstances, back during the Vietnamese war when they agreed to charter, they were going around with their feet - equivalent half empty on the charter flights.

K: For example, did anyone talk to - you know I never objected the question by the fella I had - who is head of Continental Airlines? ~~Siebo(?)~~ Six?

S: ~~Siebo~~ Six, right.

K: Bob ~~Siebo~~ Six. Now I know Goddamn well he is a great patriot and if somebody told him we needed airplanes, I just can't believe that he wouldn't do it, unless you winked at him and said but if it doesn't happen until next week my heart won't be broken.

S: Well, it is -- what is --when are they going to start running out of reserves?

K: They are out now. They have stopped their offensive. And they are now in deep trouble in the Sinai. I am basing this on a message from the Prime Miniter to the President. And you know maybe it is not true, but it is a hell of a responsibility to take.

S: Well, if we started now and really turned the screws on these guys, I suspect that we can collect a few aircraft for tomorrow. But I think if you want to do something about it, you better let a U.S. aircraft fly all the way in.

K: That I would have to discuss ~~that~~ with the President.

S: Or another thing we could do . . .

K: But can't we turn the screws on these charter companies? I am just convinced that if the screws were turned, they would have produced.

S: I think that that may be right. We never went back at them again because of the decision to go with the Military Airlift Command to. . .

K: Well then _____. They could then pick it up in the Azores if they wanted to. It is already there.

S: The stuffs in the Azores. What do you mean they? Are you talking about the charters?

K: Well, if the charters picked it up here and the Israelis picked up what is already in the Azores, that would at least put some steam behind it.

S: Well, how much do they need?

K: I have no estimates of that.

S: OK. let me see what I can do. One thing we could do we could take these ten or 12 C-130s that we are planning to give them and load them up and let them go all the way.

K: Well, let's do that. Well, I will call Dinitz and tell him to have his military guy get in touch with you.

S: OK.

K: But will you tell Sumner (W) for Christ sakes to get off his ass, because if a catastrophe happens there is going to be some accounting. From our point of view we needed the Israeli offensive moving. If the Israelis are on their knees tomorrow night, we are not going to . . .

S: Well, Henry it would have been desirable for them to tell us that they were going to run out of ammunition.

K: Well, on the other hand I must tell you we told them every day that this stuff was coming. There wasn't a day that we didn't tell them

that they ~~had~~ would have 20 aircraft in the morning and then they didn't have them in the evening.

S: I really can't say that that was the case until the night before last it was assumed that these guys were going to be able to haul them themselves along with the aircraft that they would round up. It wasn't until yesterday that we - the night before - that we started this search for aircraft on their behalf. So, ah, the situation . . .

K: We can reconstruct what went wrong later. Let's see what we can get going here.

S: OK

K: Because this whole diplomacy is going to come apart if they look impotent. It can only work if they look as if they were gaining, not if they look as if they were losing.

S: OK. The first thing to do is to have those C-130s that we turn over carrying ammo. Do you want US pilots to fly in those C-130s? I don't see any reason why not.

K: I've never thought this thing through from that point of view. Why don't you work that out with their military attache?

S: OK, very good.

K: OK, good.

S: OK.

K: Thank you.

S: You bet.

The difficulty to prevent Jordanian troops there from escalating into involvement of the fighting.

K: But does that mean we'll attack Jordan?

K: Mr. President.

P: The morning report.

K: Mr. President, I was just checking ours and just talking to the Israelis to find out what was going on. The Israelis are still advancing into Syria, although they are now getting heavy counter-attacks and the Iraqi armor division is beginning to fight them.

P: The thing we have here from CIA indicates that it was pretty tough up there in the Golan Heights and that sort of thing. So apparently they are having a pretty good fight up there.

K: That's right. But they claim to be advancing and they claim to be reaching their objective. Of course it is obvious that all the fighting is tougher for the Israelis than it has ever been before.

P: Of course.

K: We had a call from Heath yesterday, transferring ~~with~~ a request from Jordan which we received already directly that if he is forced to move an armored unit into Syria, whether he could get an assurance from the Israelis that they wouldn't attack him.

P: From Jordan?

K: That was a hell of a question to ask.

P: Of course they'll attack.

K: Well, I asked, I put it to the Israelis and they said they are not trying to add to the divisions facing them from Syria, but they're not looking for an excuse to attack Jordan.

P: No, they don't want to fight another country. Well, it's really going on, isn't it?

K: Oh, yeah, we've had an appeal from Sadat to prevent Israeli attacks on civilian targets and we're sending a reply back saying we've made that appeal to the Israelis. Then we've had an appeal from King Hussein. Today diplomacy is going to begin moving. I'm seeing the press at noon, to see whether they can put up a simple cease-fire.

P: With the idea that the Soviets really would abstain?

K: That's right. That would still pass it.

P: The Soviets certainly wouldn't, unless the Chinese .... But the Soviets why would they abstain from such a thing? I mean ....

K: Well, they just because right now there's a sort of a balance in the sense that the Israelis gained in Syria and lost in Egypt.

P: Although they haven't gained in Syria quite as much as we'd hoped apparently.

K: I can't get a clear report of that.

P: Now what about our own activities with regard to resupply, etc. Has anything gone forward in that respect?

K: Well, last night we finally told Schlesinger just to charter some of these civilian air lines, airplanes from civilian air lines for the Defense Department and then turn them over to the Israelis.

P: Good.

K: We've tried everything else and these civilian airlines just wouldn't charter to the Israelis directly.

P: That's alright.

K: So that's going to start moving later today.

P: But they have not yet actually run short of equipment?

K: No. And of course the most important assurance you gave them was that you'd replace the equipment.

P: The planes and tanks, right?

K: Right. So that they can expend what they've got, knowing they'll get more.

P: The lines that be, it seems to me, if you're .... simply that we're not going to discuss what's going to be done, but the President has always said that it is essential to maintain the balance of power in that area.

K: I'm giving a press conference today.

P: But maintaining the balance of power, do you think that's too provocative?

K: No, we've always said that we....

P: That's what I mean, That's a signal to the Israelis, etc.

K: I'm giving a press conference today. I've got to navigate that one.

P: Yeah. Well, there's no more to be done. Of course I don't know anybody that's got a better idea as to what we're doing.

K: There's nothing else to be done, Mr. President. After all.....

P: In terms of intervention, that's out of the question.

K: Impossible.

P: In terms of massive open support for Israel, that will just bring massive open support by the Russians.

K; And it wouldn't change the situation in the next two or three days, which is what we're talking about.

P: .... the Israelis are not looking at two or three days. That's our problem, isn't it? They may be looking at two or three weeks before they can really start clobbering these people.

K: In two or three weeks the international presses will become unmanageable.

P: I see. Well then, if it's two or three days then the Israelis have just got to win something on the Syrian front. Right?

K: That's right.

P: That's the point.

K: That's exactly it.

P: Do the Israelis know that the international pressure will become impossible?

K: Well, you know, they keep telling us to take care of them but that's great for them.

P: That's right. No way. Well, anyway, good luck. Call me back.

K: I'll call you back.

K: Hello.

H: Hi, Henry.

K: Al, you know having a massive problem with the Israelis because the sons of bitches in Defense have been stalling for four days and not one airplane has moved.

H: Oh no.

K: Oh yes. After the decision on Tuesday not one God xxxx damn shipload - not one has moved. And they are now out of ammunition. They are stopping their Syrian offensive. The Egyptians have transferred artillery to the other side of the Canal.

H: Oh boy.

K: And may start an offensive tomorrow so now the question is whether they are going to collapse in the Sinai, and you know what this does to the diplomatic scenario I described to you.

H: Yes, yeah.

K: Which absolutely required an Israeli offensive.

H: Yep.

K: And they told us they were running out of ammunition. They conducted the operation on the assumption that it would be replenished by the end of this week. That is a combination of Clements, Hill and Noyes. Now my orders apparently just aren't carried out over there.

H: All right. Do you want me to call Jim right away?

K: Well, I have called Jim. Will you call Clements and throw the fear of God into him?

C: Yes Henry.

K: Let me read you from what is called an oral note which Dobrynin handed me. "Acting in the spirit of understanding which is characteristic of our relations with the President (don't throw up please) we were consulting during the last several days with the leaders of Egypt and Syria on the question of termination of hostilities. Frankly speaking the conversations were protracted and not easy but nevertheless we are now able to say to the President that the Soviet Union is ready not to block adoption of the caeasefire resolution in the Security Council. The President of course understands that in the present situation the Soviet Union cannot vote in the Security Council in favor of the ceasefire resolution but the main thing is that we will not vote against it. Our representative will abstain during the vote." Now this of course is in total strictest confidence.

C: Of course. Now, as far as the participants in the event of consent, [redacted] I won't claim hard to get in the slightest intention but we obviously have to get our lines fairly straight.

K: I think after you have decided to proceed we will then instruct Scali to talk to Madlen.

C: That's fine. It's what is on the ground that worries me.

K: What happens on the ground is that they will probably continue fighting until it is adopted.

C: I'm sure they will. There is no doubt about that. The question is will they go on afterwards and repute any of this. But I don't believe they will personally.

K: My smell Rollie is that this is going to do it.

C: Exactly.

K: OK.

K: Well, we should start murmuring in the middle of the afternoon.

C: It might get out before then. Does that worry you.

K: How could it?

C: It'll be the middle of the afternoon here. Thats alright but I don't know whether... what I don't know is whether they need to assign anybody else in the Security Council before they finally make up their minds to do it.

C: I'm with you.

K: You see/what I mean.

C: I'm with you entirely. Fine. Well, we'll work on that basis Henry...

K. Hello.

D. Dr. Kissinger. I just came back from Clement. I mean Schlesinger and Clement was there, and I also had a talk with the Prime Minister. When can you see me?

K. We have a few other problems tonight.

D. I understand this. I am not trying to.... I thought I had some important things on the political situation.

K. I have Dobrynin coming in a few minutes with a very important message.

D. It might be related.

K. Can you tell me about it now?

D. We regard the message that your people sent us as very serious about the threat and the Prime Minister hopes that you are regarding reacting to it very strongly.

K. There is no question of that. I was very upset about the harrassment from the pro-Jewis senators this afternoon. As if we had not done enough.

D. The Committee, or two or three members, knew exactly what you had done. They were concerned with two Phantoms a day and that shipment did not get out even today. That was Symington and Javits. I felt I had to tell them.... and also emphasized what you had done to help.

K. We will not heed to Soviet threats and we are staying on the schedule we discussed with you.

C: Ah, look, have you got anything from Dobrynin?

K: Yes, I've had a word with Dobrynin. And he says this, he said your information is correct, but irrelevant.

C: What does he mean by that?

K: He means that, he asked me to say that they had no right to say flatly that the Egyptians will accept it, but they do say that if you put it forward on the assumption that the Egyptians will accept it it would be a very good gamble.

C: A very good gamble?

K: Yeah. But what he was really trying to tell me is, now I know the Israeli attitude which will be yes, but. They may raise one or two....

C: Well, yes, we've been explaining this to our Ambassador in Tel Aviv. I certainly didn't tell him what was going on, but he seen the Director General of the Ministery of Foreign Affairs Kidron earlier in the day. And they were just playing hard to get. They said, of course, they were under great pressure from the military as they were expected to be. They should go through with it.

K: What you people have to assume is that we wouldn't ask you to do this if we didn't think there was a reasonable possibility.

C: No, no, no, that I take 100 percent. I mean there's no problem with that at all. We have to take a little bit. I don't mean this with any mistrust of your information.

K: No, no, it's entirely up to you. I'm just giving you the answers I receive.

C: Yes, sure. When you say the information is correct but irrelevant, I'm a little bit perplexed by that.

K: They seemed to be convinced that the Egyptians do not want to be in the position of, they do not want to....

C: They do not want to be ....

K: They do not want to be in the position of having asked for it. But

UNITED STATES DEPARTMENT OF STATE
REVIEW AUTHORITY: ROBERT H MILLER

they apparently would accept it if the Security Council passed it without their indicating that they wanted it.

C: Yes. Imposed by the Security Council. I mean, without their asking for it.

K: That is correct.

C: I get the sense of that and they wouldn't come out in refutation of it in other words, obviously. I mean they might make a bad public demonstration but in reality they wouldn't.

K: Eventually they will accept it.

C: You still feel this is right Henry, don't you?

K: I would not have...

C: I mean in your own judgment.

K: My own judgment is that it is the right thing to do. I believe it is the way to peace or at least a good gamble on it and I think it would be a useful role to play and the reason we have asked you is because we thought you were the most trustworthy of the members of the Security Council.

C: I thank you Sir.

K: No, I am serious.

C: But, no, I take that in all seriousness too.

K: We have no interest in playing games with this.

C: I realize that no but there will be a pretty difficult balance, you will see. The balance on the issues and the balance on the timing and the timing on the ground is something that is really going to be the decision isn't it. That neither party on the ground wants to take it any further.

K: My judgment is... I've had very extensive conversations with the Israelis. They are aware of this scenario. They authorized me to trigger it. They did not say they would accept it.

C: No, they wouldn't.

K: But they wouldn't.

C: Naturally not.

K: But I would obviously not move if I thought this would get us into a total confrontation with the Israelis.

C: But I have from our people in Tel Aviv from the Ministry of Foreign Affairs, from Kidron, is that they would be prepared to look at it unless they could do some sort of trade between the North and the South.

K: First of all....

C: This is generalistic.

K: First of all Rollie I don't believe that the Ministry would know it as well as the Prime Minister with whom I am in close contact almost 3 or 4 times a day. Secondly, I don't want to mislead you. I'm not saying that the Israelis are in fact going to accept it but we believe it may start a negotiation.

C: I think that's right. In reading this telegram from Tel Aviv of what the Ministry said it is what you expect a Ministry official to say.

K: Especially a Ministry official who to my certain knowledge, since the foreign Minister isn't being kept fully informed, the Ministry isn't.

C: It's a democratic answer again. That I agree with. Alright Henry, let me get back to London on this.

H. One of our problems with Ward and Clement was that WSA G hadn't met enough and they weren't talking with him on the problems.

H. I told him to get professional military men in the cornerstone of the action groups because they don't have hangups to get in the way.

K. It was probably a mistake not to have the meeting. We didn't think there would be any problems every day. They told us they had gone.

DH: We have been over and over your suggestion with the Prime Minister. We don't think that the time is right for this initiative and we don't think we could take it now although for the next few days we will try to wrack our brains to see if we have other suggestions. Our contact with Sadat has gone so far as to say that he feels so strongly he would invoke a Chinese veto if anybody proposed something of this sort. Therefore, the Russians would in our view have no chance whatever of looking on Sadat and forcing him to do so. This, at least at present. If you really want to do this, if you and the Soviet Union were to abstain, of course we would do our best, if you wanted to get the Australians to try this line.

K: Let me get back to you if we want to revive it. If we have any other ideas we will be in touch with you.

DH: If we have any other ideas I will give you a ring tomorrow. At the moment, haven't got any idea. Didn't think we could take initiative of a simple resolution of cease fire as you ask because we think Sadat really would reject it, what's more he would reject it vehemently. I have talked to the Russians and told them this. It doesn't look really too be a starter. Australians of course might be willing to do it. MacIntyre is in a particularly good position to do it. If you want to launch it. Having gone over it again and again, don't think you can get the support in the Security Council, Anyway are you very worried about the effect generally about detente with the Russians?

K: ....massive resupply for Israel on our side....

DH: Two other things. The French have exactly the same impression as us of Sadat. We think relations being what they are with Sadat if there had been a glimmer of hope in a move like this he would have said so, on the contrary he gave us a totally, worse than negative signal.

K: I understand this. As to your question about whether detente is our motivating consideration... Detente is not an end in itself. I think developments now are going to drave us towards a confrontation.

DH: I know, this is a great worry. Couldn't you fix this with

K. Bill, I was talking to Jim about your problem. I knew you were going to get charters together once we convinced you of what we needed.

C. I didn't know that was what you wanted. It is all done.

K. Can we find a better cover than the Defense Department?

C. That is a tough one, Henry. I will think about it and see what I can do.

K. If we could announce that we are switching from military command charter flights, except a one day emergency flight, then we will be o'k.

C. I have raised this question with the airlines and they prefer some kind of cover. Another name which would represent a pool in which all the planes would be shown.

K. Who is paying for it is the question.

C. That is a serious question. These people will not function except under DOD auspices and their guarantee of repayment. We can use a cover but--

K. Iven if we guarantee the repayment?

C. No, they will not charter to Israel.

K. Excuse me I have another call. I will get back to you.

K. I am no longer so sure they want it and I am assuming you don't want us to present it.

D. I gave Mrs. Mier a negative answer and she endorsed that.... The other proposal is that the privilege of appearing in the Council is not limited to the Council. I thought vaguely about Denmark, Brazil, but I don't think they would be any more reasonable to the Soviets than Australia. The British refusal you think is quite final. K: Jim,

JS: What is this telegram that you have, what--

K: Look, I don't want it spread all over the bloody Defense Department, that is the problem. They claim ~~they~~ they have now stopped offensive on the Syrian front because they are out of ammunition. They claim further that I had told them that they could keep going because they were getting--that their ammo replenished and in relying on that they've kept going and they didn't get them. Now what this does to the diplomacy I described to you yesterday is near disaster because they were supposed to be triggered yesterday, diplomacy was supposed to be triggered tonight --tomorrow night , Saturday night, but that diplomacy requires Israeli pressure--

JS: I understand that.

K: Which will now not be forthcoming. On the other hand, the Israelis will now hoard the stuff we rush in and then they'll strike when the diplomacy was supposed to have been concluded. That's water over the damn now, we'll have to discuss that some other time. But I just think there was massive sabotage.

JS: It's just not true, Henry.

K Well, let's not get into that. One thing we cannot have now given our relations with the Soviets is American planes flying in there. Any thing else is acceptable.

JS: Okay, now they claim Henry it's only five hours ago we talked to these people, we've been asking them what their daily supply is, they have exhibited no uneasiness about it at all.

K: Because they don't trust thepeople in the room

JS: You mean to say that when General ~~Gore~~ Gur is alone General Sumner that he doesn't trust him?

K: No, with ~~Gore~~ Gur with Sumner, he should trust him.

J:S Sumner has been trying to get it out of ~~Gore~~ Gur for five days and ~~Gore~~ Gur has been perfectly relaxed about ~~it~~ the day supply.

K: Because ~~Gore~~ Gur claims that -- I mean Dinitz--I don't know ~~Gore~~ Gur ~~xxx~~--Dinitz claims that was because every day we told them which is true that they were going to get 20 planes moving. And every day it didn't happen.

UNITED STATES DEPARTMENT OF STATE
REVIEW AUTHORITY: ROBERT H MILLER
DATE/CASE ID: 24 MAY 2004 200102979

K: If it had been moved, they would have been all right.
So they say.

JS: Every day goes back one night--

K: Now I told them Tuesday night based on an assurance of Sisco, about which youhave nothing to do--said they were going to get 20 charters the next day. And we told them Wednesday night if everything else failed, we were going to requisition it through MAC (?). Then we told them Thursday night it would now be requisitioned through Mac and then we told them Friday morning that this wasn't working.

JS: That's right. It's two days --

K: It's about 48 hours, but youre responsible for 24 hours, I'm responsible for --be that as it may, let's not worry about what happens. It seems to me we have these options. We've got the 10 C-130's which we could load.

JS: Right. We've got ammo in the _____ now.

K: Yeh, but we don't know when that's going to be released.

JS How about your negotiations with the Portugese ?

K: We just send a telegram two hours ago.

JS: Okay. Well they simply cannot be that short of ammo, Henry. It is impossible that they didn't know what their supply was--and suddenly they've run out of it.

K Look they have obviously screwed up every offensive they've conducted. And they are not about to take the responsibility themselves. I have no doubt whatever that they are blaming us for their own failures.

JS: Right.

K: But you try to make that case here and above all, I really think we have this thing 90% licked. And you tell the madman you have of a deputy who is spreading the word that I'm driving the Saudis crazy that I have a promise from the foreign minister Saudi Arabia--

JS: I told them at about 6:00 this evening--he seems to be somewhat relieved.
You mentioned this to me earlier to tell him.
He said he hoped it worked out that way.

K: It may not work out that way, but the only way it is going to work out if we are going to get a quick end of the war. Of which we nearly have all pieces in place, but we need an Israeli offensive.

JS: Okay, now Henry if they have enough ammo to carry him tomorrow we can get the ammo in by tomorrow evening. But first of all we have to find out what their supply situation is.

K: I would give a hell of a lot if I could keep them going through tomorrow so that they are not sitting there when this goes into the Security Council.

JS: The only way to do that is to move ammunition in tonight. And it's almost ---it must be damn near dawn there.

K: It is dawn in Israel. It's 8:00 in the morning.

JS: Are they ought of ammo or aren't they?

K: How the hell would I know.
They said they were stopping their offensive.
I was meeting with them tonight to synchronize the diplomacy for tomorrow. And I said where are you going to be tomorrow night, I was getting leary when they called me after having pleading with me to give them another day, they called me at 4:00 this afternoon and said you can trigger everything tonight. And I couldn't do it because I didn't have--I had geared my timing in such a way that I couldn't recover all the pieces. I could have done it yesterday--I need 24 hours to get it going.

JS: It's amazing to me--I sat with them from 5:30-6:30 and they simply did not mention ammunition problems -- they didn't indicate any issue in that area. All they talked about was the re-equipment and to get it in within two days.

K: They are so terrified now--or claim to be terrified of Israeli thrust into the Sinai--I mean Egyptain thrust.

JS: That's incredible planning on their part.

K: Look, they fucked it up.

JS: Hm huh. Okay, let me try to find out what the hell their status of supplies situation is. We had the impression that they had 15 days of supply.

K: I bet you they counted their supply on the experience of the six-day war.

J: Could well be.

K: I bet you they didn't expend as much in the whole six-day war as they do in one day of this offensive.

JS: That might very well be, Henry.
I think that is very likely. Sooner or later they could have come back and told us what their problem was.

K: Well because they would have had to face themselves and I must say in their defense--not on the airplanes on which they and we never agreed--but on the other one,we told them time and again that they were getting all the consumables and they should fight as if they were coming.

JS: Right. But they never told us they were running short.

K: Because you know what happened--as well as I do. These guys got the whole thing screwed up--every time. They are living in 1967. All day long yesterday they were telling me they were heading for Damascus and they were going to stop on the outskirts. This morning they told me they would stop ____public transportations if they can. Now they obviously can't make it.

JS: Okay.

K: No question in mind that 80% of the blame is theirs. But that doesn't help me tomorrow night. And you know I just have to have them going
q as a fierce force while this is going on.

JS: If they are out of ammo now, there is nothing we can do to get it there for today's offensive. The nearest step is in the Azores and you know that's kind of screwed up unless we takethe US aircraft off and fly it in. It won't be in for 5 hours--

K: How about at least C-130's.
I think what we have to do is to get them the 10 C-130's. We have to twist the arm of the charters by telling them they will never get another defense contract--that's going to produce.

JS: That's right, but we can get that stuff out all right, but we are not going to get it out there for Saturday.

K: No, but that at least will get it moving.
So let's do it --a combination of the Azores ____, the 10C-130's and forced charters. And that I think will be it if we put Sumner working on it tonight

JS: He's there now. We've got John Wickam there--Look we have a group that is working this 24 hours a day.

K Jim you and I have no problem because we are in complete agreement on the strategy, as far as I can see. You have to delegate it and I have and you have a few people down the line who were put there tkx to sabotage that stuff not by you.

JS: I think it's

K: *I think on the other hand you have the goddamn Israelis screwing up everythin*
they are doing.

JS: If only they had said they had a problem. Four days, they've been sitting there. Three days ago they were telling us how happy they were about the consumable situation.

K: Let's you and I try to work it out as quickly as possible.

JS: Okay, very good.

K: Good.

D: Expresses great satisfaction ...about things what said the President to the Ambassador. Sure... shared his view and he would like me to tell to Dr. Kissinger he adheres exactly to the same points of view, Hope , no matter what difficulties, ...many good things done and will... to keep it.

K: Good, Hope ... going to prove that.

D: Situation in Middle East and Security Council ...for days, US and some countries with which they consulted don't come to the conclusion of immediately convocation of Security Council. We don't know exactly reson of that. Question, reply..... military situation in Middle East how it develops, it develops different, can only through last days. In one day don't have time . Don't think try to follow us ...our part. We concerned on position about cease-fire. Same time tells ...use bombardment of civilian tartets in territories by Israel. Make it more difficult. Indication argued ...Arab capitals and peoples. That's why difficult to discuss on this, questions specifically... ~~rx~~ Arabs are objecting... to accept Security Council resolution which deals only with cease fire. They insist should be accompanied simultaneous cease fire and should be another additional part of solution which had to say about, be stages withdrawals of Israeli troops from Arab territories, which was occupied in 1967. Isn't finished yet, finally consultation with Arab countries about, insist on position ....don't have text yet.

K: We have worked for three days on assumption you are now cancelling.

D: For two days might ...have been quite prepared to do, now Arabs are objecting to this. Like to decide situation on bit scale...which means will remove cause of all conflict. This will be really major decision which will have to decide thing ...

K: Now we are right back to where we were last Monday.

D: Looks so...

K: ....took 48 hours to make possible

D: For two days, the day beforeyesterday and yesterday and in the morning yesterday, I gave you reply...even I was shaken up with you...you know I was shaken up...telegram from Cairo don't received any for some days. Two days our position very close, we were prepared to abstain...no other interpretation. Very firmly, don't want to have complication. For two days, Arabs changed position. Telegram from Cairo say stick with Mr Singer, reply or not. We are complaining you don't...Really waiting that you get the British or something. For two days we are on record not not to vote at all...abstain with you. ...Arabs categorically objected.

K: In the meantime, you sent in 140 airplanes. May be why the Arabs are so tough now.

D: Not really. Security Council resolution two days ago...no connection with airlift. Nothing from your side. Maybe you relied too much on British. Maybe Australians ....prepared yesterday.

K: Yesterday the British talked to Sadat....what caused delay. Sadat never would have accepted....

D: Yesterday morning ...sent telegram yesterday...I was shaken last time I talked to you. Now we really have known if it wasn't mentioned to you yesterday. Very clear Security Council yesterday morning, I know up until today Malik had instructions very clear -- abstain. Sent very strong telegram to Malik, when you have complained. Immediately called to Seuli, going to abstain.

K: Point is, now objective military ....despite very friendly words of Brezhnev, trying to avoid collision, you have 140 airplanes. still much ...we cannot not supply our friends while you are supplying yours.

D: Well, you had made decision.

K: You waited for 5 days. Tonight Egypt launching attack in the Sinai. ....tomorrow when some American airplanes reach Israel

Arabs are going to start yelling. We will not under any circumstances let detente be used for unilateral advantage. No illusions about that. I have .....airlift for four days. ....way of getting political settlement. Friends have refused to participate in something took you two days to get Arabs...they change their minds. I think once we were in it with you, Arabs, if President had given the word to Brezhnev...believe at last moment on day it was supposed to be implemented say they wouldn't do it. We made agreement this manner, Israelis objected to, we went ahead with it. ...important to us...you can tell Brezhnev to save itself the effort. We are not going to accept the Egyptian position. Only exacerbate the situation by proposing it to us.

D: All right, fair enough.

K: ...want to accept Egyptian position, deal directly with it. I have had Egyptian position since Wednesday.

D: Did they propose this to you before or on Wednesday.

K: On Wednesday Egyptians sent us a proposal, of which they said they gave you a copy, and which is totally inconsistent with your proposal. Israel return to '67 borders, peace conference of great powers, Palestine and Arabs, discuss only international .....and security and future of Palestine.

D: Wednesday, quite prepared to support...

K: I told the President, despite this message from Israel, I relied on your word. Quite inconsistent to what Arabs told us. I amuse Arabs.....you knew Egypt would agree in no sense, how you support, if Egypt wouldn't agree.

D: I understand this point of view. Change ...few days ago.

K: Fine with us and we just have to see what happens now.

D: Is completely unacceptible, two part resolution.

K: Well, what's the second part?

D: Stages, back to borders.

K: ...secure and recognized borders.

D: '67.

K: No, unacceptable, may be in.....in Moscow not to...and obligation not to exacerbate situation. Until this afternoon I believed....had

possibility of pressing for settlement. pressing for a cease fire. Now hasn't happened, you are pulling in .....unable or unwilling to produce ceasefire...are obviously on collision course no matter how many .....what do you think we can say to the people on Monday, had them quieted down of the weekend ...so utility of detente .....to both of us. You don't think we will accept a military set back in the Middle East, can't believe it.

D: Wouldn't believe it.

K: I recognize you have problems. .....have to...No law that says you have to send in 140 airplanes.

D: I understand, is a problem.

K: Until this mumute not one American airplane has landed in Israel. Not one. .....My whole strategy based on reliance on you. I can tell you, in addition to whatever else is achieved, my own credibility with respect to what .....not exactly high at this moment. ...but not from you personally, put in ...to me yesterday afternoon, getting contrary report from Sadat than I was from you. I said I had absolute confidence ....never liked to us before.

D: Could you imagine ~~[illegible]~~ You are taking position proposed to other countries. Circumstances to be changed. This is situation...exactly I should put it on really stake much while people involved have two days making new suggestions. Now wer in a situation to do it.

K: Why do we have to deal with you, that depends on Sadat, why not deal with Sadat directly.

D: Up to you and the President to decide. ....disastrous results. As you now changed situation we will not .....

K: .....work out this when finished able to demonstrate that special relationship. Developed would have concrete results, if you read the press conference, this was line I took.

D: I did.

K: On Monday this will be done to ....

D: .....public relations.

K; Monday you will have sent in 50-100 airplanes.

D: You are now free.....

K: Only insane Arab leaders...victory for you. Only strategy is to make Arabs don't feel they can..... so three or four days from now we'll see what the situation is. ....many proposals like 67 borders, make the situation worse.

D: All right, send back telegram.

K: President is extremely agitated. I know you ....to make favorable recording...

D: In my telegram, I will quote, unquote you. I can assure you... otherwise, is dangerous.

K: We had understanding to work on this basic issue in January. This has been completely disregarded now. Will not let ourselves be pressured into it. It would not be ....not be helpful. Hear something today, tomorrow. NSC meeting....Don't have to get it today, meeting isn't til Monday

D: All right.

1. A call to the sides to immediately cease fire and all military action on the positions where the troops actually are.

2. A demand to start immediately after the ceasefire phased withdrawal of the Israeli troops from the occupied Arab territories to the line in accordance with Res. 242 of the Security Council, with completion of this withdrawal in the shortest period of time

K: Because if you are seened to be weak, there's no telling what will happen.

D: Hm huh. I know. I know. That is why I was a bit concerned that Sumner of this weakness.

K: I'm dealing with a bunch of idiots.

D: Yeh. Yeh. From Sumner, God knows where it will go.

K: Okay, let me get Schlesinger again.

D: To tell his aides to set up--

K: Right.

D" All right. And I will pass the information on as soon as my military attache will get timetable. Because that is crucial.

K: That's right.

D: I don't want to mislead the government again. So I'll get the timetable first before I cable the Prime Minister.

K: This time if you don't get action I'll quit.

K. I just talked to Hume. They have been talking to Sadat and Sadat says they will never accept a straight ceasefire.

D. They discussed directly with Sadat? I must send a telegram to Moscow right away....

K. I am pressing them and they will call me back in three hours.

D. Both our countries will abstain. Even in this case it is my firm decision....

K. We will still press the British to....

D. If Sadat even told them so, we will definitely abstain and will keep our word in this case. If we both abstain it will be of political significance. What is now the problem? The British are not decided?

K. The British are reluctant because they think that Sadat will not agree to it. If Moscow could talk to him.

D. In three hours I will not get an answer unless I go by ordinary telephone.

K. No, that is too dangerous.

D. I think so. Really, even if he said so....

K. Because the British are afraid of Sadat saying no and going ahead....

D. Maybe we should go with Australia.

K: Well - but this item has been ~~xxxxxxxx~~ recovered now by flying in C-5s.

D: Right

K: And ah

D: Can I ask you on this supply thing sir so that I will be completely clear. The three C5s will fly today. You don't have an estimate morning - night- or something.

K. Hello.

H. Henry.

K. I am so sorry we will not be able to meet tomorrow. I was just talking with the President about the matter discussed with Rowley yesterday. We were hoping that you might see your way clear to doing that matter which we discussed.

H. Yes. Have you seen or have the Israelis told you what Sadat said last night? Sadat said that a ceasefire in situ might be possible but they would have to have the agreement that Israel go back to the '67 line. They have repeated their one condition. I have sent our Ambassador in Cairo back to see him. I said suppose we were to propose a ceasefire in situ immediately followed by the introduction of an international force, immediately followed by a conference or some international initiative by the Secretary General. Would this appeal to him.

K. We just can't cooperate in that. We are not ready for that. We think he will accept, unless we have totally been misled. We believe the other thing will work as long as they claim they are yielding to somebody.

H. Suppose Sadat turns us down?

K. Then we are in a stalemate.

H. Then we will be in a worse position than before. We will have lost any ability to make a move. It looks like they will turn this down.

K. That is what you think. I have been told by the others that they will accept.

H. You have been told by the Russians?....

K. I don't see any reason for them to say this and not mean it. What are they to get from it? It was repeated no more than an hour ago.

UNITED STATES DEPARTMENT OF STATE
REVIEW AUTHORITY: ROBERT H MILLER
DATE/CASE ID: 21 APR 2004 200102979

H. Sadat says no, according to our sources.

K. When you speak of an international force you mean total withdrawal?

H. What I think is this. Suppose Sadat agrees to a ceasefire in situ. The international force is introduced while an international conference or Secretary General or some international machine goes in.... Won't that be possible without a full withdrawal?

K. It won't be what... I think we have agreement on this from the Russians and might from the Israelis.

H. All you have is Dobrynin's word that the Russians believe that Sadat would agree and our information is that they could not agree to this. It would be an almost direct conflict of report unless the Russians were willing to pressure Sadat. Would they agree to this?

K. My impression is that if they have tricked us on this they will pay the price of our entire relationship. They have all to lose.

H. I will have another talk with Ted and give you a ring back but I think our credability will be completely lost if we were to make the public initiative and he would not have it. He himself has given us the conditions to which he would agree to a ceasefire and it includes all the old things.

K. And the Israelis have given us the other position. The Israelis said it has to go back to the Canal. We can probably get them to go along and the Soviets can get the Egyptians to go along. Maybe we should try.

H. The decision doesn't have to be made by Sunday night.

K. I thought by tonight. We can also ask the Australians to do it.

H. My impression is I can't see how the Russians can do this unless they are willing to say they will cut off their arms.

K. Maybe that is what they are willing to do. They didn't ask for you to do it and since we can't propose the resolution it can't be a maneuver directly against you. They would have preferred France to introduce the resolution.

H. I see. What time is it in the US? About 10:00 in the morning? I am traveling to London tonight with Ted in his plane and I will have

another talk with him. We can't really risk being turned down by Sadat and on our present information from him, we will be.

K. Unless they are committing a treachery the Russians assure me they will go along with it. Where would they be to put it forward and we abstain and Sadat refuses and they back him up. I don't understand what they have to gain. Especially when they wanted us to ask France.

H. What do you think the Israelis response will be? Yes?

K. Yes, but it will not be accepted unconditionally. Let them put forth their conditions and then we might be able to go.... It is just having these maniacs in some sort of balance....

H. We have to try something.

K. Therefore, the Russians said any complicated ceasefire will be refused. The only thing they are willing to abstain from is a simple ceasefire.

H. Let me think about it again and say in another three hours I will have another report in from our Ambassador who is meeting with Sadat again.

K. You will not get a prior agreement from Sadat.

H. No, but then I can't say. Suppose Russia...him into saying yes. That is not going to be a happy situation. Let me think about it and if it is to be worthwhile.

K. If this goes on we will have to send a massive airlift in there. I just know....

H. What is the state of the battle?

K. The Israelis claim that they have beaten the Iraqis and I would expect them to turn on Sinai. Today we start flying into Israel which is very dangerous.

H. Let me ring you back in three hours. Thank's for ringing.

I had a long talk yesterday with El Zayyat after the Security Council meeting--and they decided the following which I wanted to let you know--apparently they feel very strong militarily, whether it is justified or not, at any rate, he put to me the following points. He said they are ready to accept a ceasefire, if the Israelis give a commitment to withdraw to the 1967 lines.

K: Yeh, well that's out of the question.

W: I told them this. I said I don't think there is any chance to get this. But I thought I should tell you because he mentioned quite a number of points, point one, commitment to withdraw to the 6th of June lines, point two--this commitment --the help could be done indeed by the United States, then three, he would give an Egyptian commitment to international forces in Sharm ash Shaykh and also to international buffer zones these international troops in the Golan Heights--not in the whole area but in an area along Syrian border and then he said we would accept an international conference to negotiate details, etc., but some sort of arrangement for the Palestinians would be found and the Palestinians would have--participate in such a conference. I thought I should let you know this. I am of course fully aware that especially the first point is not acceptable to Israel because I have spoken to Aba Eban the day before. And I told him this first point is as far as I can judge, definitely not acceptable to Israel. He said but why should we not be more flexible since we have military advantages before.

K: Oh it is a massive airlift Mr. President. The planes are going to land every 50 (15?) minutes .

P: That right. Get them in there. And the only ~~condition~~ addition that I said - I told them to check the European theater to see if there were some of those smaller planes that they need and fly them detailed down there so that they can replace their aircraft losses. And the other thing is that these big planes you can put some of those good tanks - those M 60 tanks on if necessary if that would have some good effect and put a few of them in there too.

K: Right, Mr. President.

P: So in other words don't - if we are going to do it, don't spare the horses just let

K: ~~I~~ Actually- with the big planes Mr. President we have also flexibility. We can fly the skyhawks in.

P: Put them on the plane you mean.

K: Yes. I don't think there is a way - no country will let them overfly.

P: All right. How many can a big plane take?

K: It can take five or six.

P: All right - put some skyhawks, do that to. You understand what I mean If we are going to take heat (?) for this well let's go.

K: I think that is right. And I think Mr. ~~President~~ President we discussed this in the group - I think after I(?) left. We can offer to stop the airlift if the Russians do after a ceasefire is signed.

P: Exactly. I think we should say - I think a personal message now should go. I mean you have been sending messages, but one should go from me Brezhnev saying

K: Everything I am sending too goes in your name

P: Good. But I think he should know now look here. Thex peace of ~~this~~ not only ~~xxxx~~ this area but the whole future relationship is at stake here and we are prepared to stop if you are and we are prepared - you know what I mean. I don't know - have you got anything developed along those lines so that we just don't have

K: I have - I am developing it now and I think I could call Dobrynin and point it out to him.

P: Right, right. Put it in a very conciliatory but very tough way that I do this with great regret because - great reluctance but that we cannot have a situation that has now developed and we are prepared to _____ tit for tat. The situation which regard to nothing on the battle so far.

K: On the battle - it is the Israelis _____ no, that hasn't been announced yet that they have knocked out 150

P: And lost 15. Yes I heard that this morning.

K: Something like at 10:30 this morning.

P ThE Egyptians

K: Again seem to be heading more south than east and are not ~~x~~ really trying to break into the Sinai at this point. So they are just keeping their defensive position of _____ down the coast. And they may be ~~gxxxgx~~ going for _____. But ah

P: Nothing new in Syria.

K: In Syria the Israelis have told us this morning they have stopped their advance on Damascus. They stopped about 20 kilometers short. And they are now heading south for Syrian infantry divisions. There is a report from some foreign correspondents that went up to the front from Damascus on this Syrian side and indicated the Syrian army now was getting to be demoralized and were abandoning equipment. But still Mr. President they are the reason why the Egyptians are holding. Much of the Israeli army is still tied up down there. The estimate of our

group was that it would take the ~~K~~ Israelis three more days to knock out the Syrians and that they couldn't really turn to the Egyptians for another four days to five days.

P: What than do we plan then.

K: Well what we plan ~~xxxxx~~ is to try to get it wound up this week.

P: _____

K: Yes.

P: Well I know you are going to get ~~xxxxx~~ it until someone is knocked out. That is the problem. Well at least I feel better. The airlift thing is - as I told Al if I contribute anything to discussion it is the business that don't fool around with three planes. ~~Xxxxxxx~~ By golly no matter how big they are. Just go gun ho

K: One of the lessons I have learned from you is that if you do something you might as well do it completely.

P: Do it completely and

K: You never have the choice to do it half out right.

P: Even Jackson will support this. OK. Best of luck.

G: Henry, this is getting to be a weekly habit here.

K: I know, I understand

G: It was very unfortunate and I had to be up there. But I am just wonder if they go after me on the Middle East which I imagine they will - again do you have any guidance or suggestions in lightof some of the developments that are taking place.

K: Well, ah

G: For example, the Post has a story this morning that the United States and the Soviets are seeking to get Israel to go along with the ceasefire in place.

K: I wouldn't go into any of this.

G: Yes, I am aware of those reports but I certainly couldn't comment on them or something like that.

K: About - yes I would say it is a very fluid diplomatic situation. But you can assume that the Administration is making _____ to bring about a ceasefire.

G: Yes.

K: But you know we are in close touch with the Israelis on all of these matters. On resupply - just for your information we have begun airlifting stuff in there which we are not too eager to get circles(?) before we have to because of the Arab reaction.

G: I was notified by the Defense Department yesterday, but ah it wouldn't be appropriate to say that it is in process, I take it at least until it gets there, huh.

K: It is in process - you can say that you can be sure that the United States won't stand by and let the Soviets put arms in there.

G: Yes. The effect on our relations with the Soviet Union up until now - the way you answered the question the other day in your press conference, does that stand.

K: That you still hope the Soviet Union will keep involvement within responsible limits. Say it has not reached intolerable - well you know we may have to throw down the _____ later this week but that is a pretty irreversible step.

G: Yes. Is Jordan coming into it.

K: Well Jordan has moved a brigade in there - just for your information in an area well out of arms way so that they don't have to engaged themselves on their front.

G: Well out of what way?

K: Well out of harms way. Out of the combat operation.

G: I see.

K: They have moved it into Syria.

G: But not into the combat zone?

K: Well I wouldn't say that, but for your information it is not in the immediate zone.

G: I see.

K: That is really miles away. It is the absolute minimum they could do.

G: I see. Well that is good. Well I also want to bring up what is happening in Thailand but is there anything else on the Middle East that you think I should be aware of.

K: No, I think those are the major developments. You know the Soviet airlift continues at a fairly substantial level.

G: There was a comment I saw in one of the papers this morning that the Russian involvement hasn't yet reached the stage that it was in 1967 in terms of their attitude and their ah

K: That is right.

G: Yes. And another thing that could come up is the threat - the possibility of cutting off the oil. I was thinking in terms that that did happen in 1967, we hope that won't happen in this situation, but we must fact the possibility that it could happen and then I am going to take off after the Congress for not getting the oil fueling from Alaska.

K: Exactly, I think that is right thing to do. OK

G: What about the Thailand situation. What can I say

K: Well, I don't know any more than you do. Apparently the Government has resigned, but we don't know what it means.

G: Or why they have resigned, or anything?

K: No.

G: Yes. OK Henry. Thanks for call me.

K: My own guess is that it means a switch toward neutralism in Thailand but I wouldn't speculate yet.

K: Since the Berlin airlift and a plane is landing in Israel every 45 minutes. We're trying to keep it as quiet as possible because we don't want an oil cutoff which would mobilize Western Europe against us and produce and we are also flying in F-4s at a fairly substantial rate now.

R: I've been told that generally all the Phantoms you've got allocated at 14 when they desperately need 50.

K: With...wait a minute, they have to have some understanding for our problem. First of all its at 20 now. We just tell them every day what is coming in the next day because we have to scrape them out of combat units and elsewhere.

R: In other words, you say you've got 20.

K: It is now at 20.

R: Now at 20. Henry, will it be up to 50?

K: It will be up to what they need to replace their losses which we've promised them. I haven't got the exact figure here.

R: The question is so damn desperate. I mean will it be soon.

K: It's going to be at a substantial rate every day between...and you know I think, I'm not talking about myself, but it's very poor tactics to come after the President when the President's alone overruling everybody and has been doing things beyond what any of his advisors recommended. This is what I'm telling you as a friend and if some of the people who are bringing pressure could keep that in mind it would really help matters.

R: Well, I agree. There is only only one man that can make the decision and that is the President.

K: And he has made that very big decisions constantly all week long. I mean who do you think is keeping the Jordanians, Saudis, and the whole diplomatic thing in line.

R: I understand he is probably seeing Stennis and Jackson and I think this is something he ought to tell them.

K: I don't know whether he is seeing Stennis or Jackson.

K: Hello.

F: Well, good morning. How are you?

K: How are you Mr. Chairman. I was just going to call you to bring you up to date on somethingsthat have happened.

F: Good.

K: I have been talking to the Soviet s since early this morning. This is again strictly for you.

F: Yes.

K: And they are now exploring with the Arabs a possibility of a ceasefire link with the reference to Security Council Resolution 242. On that we could live with on our side and we'll have to do a little arm twisting with the Israelis but I think we can sell it. And they promised us an answer within a reasonable time. I would guess by the end of the day.

F: Well I ah - do you still think - I was going to call after I talked to you to see what you thought. (When I see the Soviets? ? ? ?)

K: I would - if you could spare the time Mr. Chairman. Just point out to him how important this is for the detente. I wouldn't go into excessive detai l on a particular formula.

F: Well I can't do that anyway.

K: But if you were willing to point out to him that what we are trying to do is to keep the detente alive and that this could really be a crucial turni ng point in this respect. Coming from you ~~this would~~ that would have a t remendous amount of weight.

F: Well I thought Jackson's speech was really terrible.

K: Well, it is outrageous.

UNITED STATES DEPARTMENT OF STATE

F: Well they just looked determined to present us detente.

K: Well it really is unbelieveable t hat - what they are trying to do is get us back to the ~~XXXX~~ Dulles period, at an age in which both sides can kill humanity. I don't know what kind of a world they think we will be living in if that happens.

F: Yes.

K: If they succeed. And if we think what would happen to this country if we had Berlin crisis, Middle East crisis, Cuban crisis every x six months.

F: It seems to me if we don't position who decides going to allow the other to be eliminated so you have inevitably just be a constantly increasing arms build up on both sides.

K: Exactly.

F: And then it becomes more and more difficult to solve anything here. That is the way it looks - I don't pretend to be an expert. It is more or less of a stalemate is that right?

K: It is essentially - its a strategic stalemate. I mean there will be somebody gaining tactically here and there but neither side can score a knock out.

F: The other big powers just won't allow it. I mean when it gets really critical they'll put something in.

K: Exactly.

F: I was going to ask you a technical question in view of various moves. It doasn't seem to me there is really any authority without asking Congress to send troops in there, is there? You don't want to comment on that.

K: Frankly, I haven't looked into this.

F: There is no formak of commitment. There is no treaty or anything else. I don't think the old - so called Eisenhower Doctrine is still applicable to this country's (wish??). I mean maybe these lawyers can straighten it out but its long since passed out of that era - it was so long ago.

K: I would have to look into this.

F: Well, I don't x want you to _____

K: But I can tell you Mr. Chairman that this is not our intention.

F: Well, of course I want to tell, Henry, if he asks me about it you know I want to say well there is or isn't - these are facts of life. I mean just as I

K: Well, I don't know whether that is a happy thing to tell him right now because that might - might liberate some of the adventuristic _____ I have already assured him that if it stays confined to Arabs against Israel that there was no chance of an American

F: Well there shouldn't be.

K: Of an American military involvement. But I left open what we would do if Soviet troops showed up.

F: Yes. Well that was really the contingency that I meant if it did develop. But I think whether or not there is any commitment or legal justification then you just have to

K: Well I would have thought if Soviet troops were at, the President would not want to do this without Congressional support. I don't frankly know what the legal situation is, but

F: Well, I am going to call him and tell him that in view of this hour and so on if it is still convenient I'll come by there unless he has changed his mind or something and we talk on the phone. And I will call him now in just a few minutes.

K: Good. If you would be willing to give me a call after you have talked to him [redacted] I would appreciate it.

F: Well I will not be back in my office here. I am going from there to the airport. So how would I get you.

K: Well ah

F: See that you give me the right number if you want me.

K: Well call me at the White House and if I am at the State Department I have a direct line. And I will make sure that it gets to me.

F: Well which numbers shall I call.

K: 456-1414.

F: OK. That is the White House. Your number is often very busy anyway because I will be on my way to the airport and I have to leave [redacted] at 1 o'clock.

K: And will your office have numbers where I can reach you. I will [redacted] call you tonight in any event and bring you up to date on where we st and.

F: Fine. Well I'll see what we can do with him

K: The major thing now is to urge Soviet restraint and to keep in mind that those of us who want to bring about detente really will be put in an impossible position if we don't settle it in cooperation with the Soviets.

F: Yes, well I - do you think you will have any influence with him.

K: Not ~~xxx~~ until we and the Soviets have made a decision.

F: Oh, I just thought there might be a good intermediary with the - ~~if~~ somebody would take an initiative.

K: Well I think after the Soviets and we have agreed then we need somebody to put forward the resolution.

F: That is what I mean.

K: And then I think we should use the Indians to restrain them.

R: Henry.

K: Dean, how are you?

R: Fine. Say I think this call has been overtaken by some things I heard the President say but I just wanted to be sure that somebody had reminded you of this quarter century policy of supporting the political independents and showing integrity of all the states in the Middle East in one way or another, we've supported that policy in relation to Kuwait, Lebanon, Jordan, Saudi Arabia, Daman, Egypt, Morocco, Tunisia, Algeria, etc. One of the reasons I mention this is that I found that in private talks with Arabs intelligence that some reminder of this didn't really convince them but at least took some of the sting of feeling out of the conversation. Because its worth quite a stirry of interest in and support of Arab countries in a variety of situations since 1948 but I notice that President Nixon picked up a couple of points in relation to Lebanon and Jordan but this applies to most items. After all we strained our relations with France to support Algerian independence. We strained our relations with Britain and France in support of Egypt in the Suez crisis and all sorts of things so I just wanted to mention this as a--something that I have found sometimes helpful in talking to individual Arab representatives. But if you've got somebody to give you a full list of them it would be quite a list.

K: Good. Well, that's very helpful. And it was _____ to some extent by what the President said.

R: Thats right and thats the reason why I said I think my call has been really overtaken by events to some extent. I think its obvious that you people up there are fully aware of this and I would assume that Joe Sisco would long since have recalled some of these situations but its something that is not unhelpful when talking to highly excited Arab Ambassadors or Arab Foreign Ministers.

K: Right. When will you be able to come up here Dean.

J: Right.

K: And we have been following an Israeli timetable. Now their estimates of the situation were always excessively optimistic and therefore they never met their own timetable which was also one ~~&~~ reason for the stop and go of the resupply in the first four days because I thought it was more important for them to get assurances of total resupply than nickel and dime it to death on weapons that by their own calculations would never ~~had~~ have ended this battle.

J: Right. ~~SECRET~~

K: Second, the diplomacy is still being carried on in the closest coordination with them and it will stay this way and I told you about this resupply.

K: Mr. Chairman, how are you? Thank you very much.

F: Just heard about it an hour ago.

K: I heard about it in a meeting discussing the Middle East, a more unlikely setting couldn't have occurred. I didn't even know my name was in there.

F: Well, it can't have come at a better time. Hope it has some influence.

K: I think it might make it a little harder for various parties to tackle me.

F: I agree.

K: I talked to Dbrynin yesterday and your conversation with him had a good effect. He said he sent it immediately to Moscow. I thought you should know we got . exchanged some messages with the Egyptians yesterday. They invited me to come to Cairo which I didn't think I could do under these conditions.

F: Its a good omen anyway.

K: Exactly. We are saying I could come as soon as a cease fire is reached. Kosygin has gone to Cairo today. Jackson will undoubtedly say he is doing it to exacerbate things, but they don't have to go to Cairo to exacerbate things, that's perfectly clear to me now. Egyptian message had a series of demands, all unfulfillable short of total victory. If we can get the Arabs to cut down demands, and get Israelis to accept cut down list...

F: Hope you can do that.

K: Working on it. Are you having a busy schedule there?

F: I just made a speech on this subject. Going over to see Wilbur Mills this afternoon. Try to influence him to...

K: Good, if you could do that. If you tell the Soviets they are risking detente, just what exactly is being risked?

F: Well, I'm going to tell him just what's been going on, do what he can to get things back on the track. Don't think he is emotionally

K: If you can it would be a big help. I hope to give you a progress report, hope its a progress report.

F: Good luck to you. Again, the prize is a great thing, great symbol.

K: I am very pleased. As I said in my statement, I made a statement, nothing could have received that meant so much to me.

F: If you get a cease fire in the Middle East we'll give you another one.

K: Hope to get a cease fire within a week.

C: Thank you so much for returning my call. Mrs. Curtis and I were in Argentina for the inauguration of Peron. We went down on White House appointment you know and I visited quite at length around with a number of people I knew. I called to make a suggestion which seemed quite urgent. John Lodge ought to be continued on in Argentina. He has had ten years experience, been in a very difficult position, he's a linguist (speaks Spanish and Italian -- there are a lot of Italians down there), his contacts with Peron are cordial and good, he has already had a meeting with him. Mrs. Lodge has befriended Mrs. Peron and I think she relies on her a good deal. It seems likely in the troubled times, expecially there where they change so often, and there's a chance Peron will establish a stable government, a good thing that Ambassador Lodge be continued. Also the way things are hanging right now. Couldn't give you the reason for this, but the second man down there, a man named Krebs, is persona non grata with the government, both houses have passed a resolution barring him. Just wanted you to know.

N: Yes. Yes. I was going to make two suggestions. It occurred to me that you should make a little statement.

K: I have told everyone that I wanted to say that I would like to thank you for giving me the opportunity and above all for the leadership that created the conditions.

N: Fine. Fine. I was going to suggest that it might be well for you to drop over here and have a picture taken with me congratulating you. How about 12:30.

K: Absolutely.

N: That will give us some time. Come after you make your statement.

K: I will be there at 12:30.

N: Make your statement before you come so they will not ask you to do it here.

K: Right.

N: The other thing is you should consider that your portion of the award -- it would be a nice gesture for you to say you are going to contribute it to the American Red Cross for disaster relief for the Pakistanis and for the Africans and Nicaraguans. How does that sound?

K: I do not have to do that today. I have never accepted any money.

N: I think it would be a very good gesture. It would mean a great deal to those areas. It would hit the three areas. Shows interest in Africa, and our Pakistani friends and Nicaraguans. You consider it. I would not put any in for Israel.
K: I would not put any in for
K: Absolutely not. That would be out of the question. I never give to Israel.

N: You should not.

K: I feel a little like Groucho Marx when he said anyone who...

S: How is the diplomacy going?

K: We have had an exchange with the Egyptians which was very moderate and they invited me to Cairo. They stated extensive demands. Kosygin seems to be on his way to Cairo. I think this is going to jell.

S: I think that's right. We should remind our Egyptian friends that there is only one power that will benefit from the humiliation of the Arab States and that is the Soviets.... You were talking abou the airlift.

K: the comment is not adequate of what's going on.
My concern is to demonstrate to the Soviets that we are getting more in

S: I think we are. The airlift we are moving on. We are flying in also. I think we probably have some edge on them in terms of total capability. ..CFA s is seven times the size of the AN 12.

K: Rught. I would like us to be at least 25% ahead of the Soviet effort.

S: ...

K: All I want is when the Soviets look at this..when we have paid a ...fee. that they get a sense of their being in a mixed game. Our best hope is to get so much pressure that there will be a settlement.

D: How are you?

K: Okay.

D: Three things, first this is a--Mr. Brezhnev and Mr. Gromyko asked me to congratulateyou heartily with the Nobel Prize.

K: Thank you, I appreciate that.

D: And they would really like to congratulate you. Second, I have instructions to tell you on a very strictly confidential basis for you and for President Nixon, I am to mention to him and you that we are now having consultations with Arab Leaders.

K: Yes, and Kosygin is in Cairo.

D: Yeh, this is exactly what they asked me to tell you. But you already know.

K: No, no we know a Soviet VIP is in Cairo, we've told the Israelis to stay away from Cairo and the Cairo airport.

D: This is Kosygin.

K: We didn't have it confirmed.

D: But they specifically asked to tell you and to the President --

K: I hope you have noticed that we have tried to keep things very quiet here.

D: No, I know. I noticed that it is on low key under the circumstances. But this is really for your information.

K: You know we cannot help if there is speculation because

D: No, no, I understand

K: Frankly, we know a Soviet VIP plane is there. And therefore a lot of people know something.

D: Yeh, I understand.
This is just they asked me specifically to tell --he is there in connection with this consultation and including a consult with the about formula issue proposal--

K: Anatol, you should understand because I don't want to mislead you, the ceasefire formula--the one on Saturday, we had discussed with the Israelis--this formula, we have not yet discussed with the Israelis.

D: About the 242?

K: Yes.

D: 242.

K: Yes. But we think they will accept it, but we didn't want frankly our press to be agitated against us.

D: Yeh, no, no.

K: So there may be 24 hours after if you come back with something.

D: Yes, I understand.

K: I just -- don't want you people to be misled.

D: Yes,

K: You can be sure that what we said to you we will stand by.

D: Hm huh. And the last one, Henry, here is some oral considerations by Mr. Brezhnev to the President. It is not immediate in the sense of proposals, but so to speak of our relations in really good terms, I should say in a quiet way, it is on four pages--probably--it's oral however, maybe I will send it to you--nothing really

K: Can you send it over within the next hour.

D: I could send it right away.

K: Send it over, just for our records.

D: Just for your own. And if you have some comments or other, please let me know.

K: Okay.

D: I could come to you anytime--or by telephone.

K: You know our policy as I have told you, is to try to really to the utmost to not only keep the detente going, but to strengthen it.

D: Yeh, this is really what--this too--this oral consideration--by Brezhnev. I think it is rather helpful, just for the whole background--there is nothing immediate or specifically new, but in general how it is presented, I think you will find it interesting.

K: Good.

D: Okay. Nothing else for the time being, no?

K: No, we are waiting for you.

C: We're ready Henry. I looked at the draft last night.

K: Good. What is it? 31/2.

C: No Henry, its 2.9. The reason its 2.9 is because we found on investigation that the 1.7 that you heard me talk about in the meeting yesterday which is the credit to date, that cannot be cross-referenced to this supplemental. D: I have thought a lot about this and there is not really anyway I can justify my doing this. There is one think you should know and just for you and the President which I was not able to say the other night. when you talked to me. My wife has a sort of chronic illness. She has been treated the last four or five years for Parkinson Disease. The treatment is good but it leaves her very much reduced in energy to do things so this sort of rules me out of taking on anything that requires anything like that.

P: Hello.

K: Mr. President.

P: What's new on the diplomatic and military front this morning.

K: On the military front it looks still like a stalemate. On the diplomatic front -- all the intelligence analysists who don't know what is going on are now analyzing that something is going on simply because of the Russian visit, the low-key comments from Arab countries, and so forth. I don't think anything will go off until Kosygin has left Cairo.

P: Yeah, yeah.

K: And that's the big . . .

P: The question is whether -- what he is there for -- whether to gin it up or cool it down.

K: It's inconceivable -- well, either way, Mr. President, we are not slowing anything down just because he is there. We are pouring in arms at a rate about 30% greater than they do. Our total tonnage today should start exceeding theirs. We are not -- as I said -- we are not slowing anything down but it's inconceivable to me that he is going to gin it up.

P: Yeah, yeah, yeah.

K: And there is still . . .

P: You haven't received any message from him?

K: We won't until he gets back, I am sure. But their press is still mute and I think they are trying to work something out. Now whether that is possible with the Egyptians, I don't know. All the information we have is that the Egyptians have been taking a tougher line than they have.

P: I have read the talking points.

K: You have?

P: Yeah.

K: The major point, remember, is that meeting was set before we did anything. They are not coming here to protest.

P: Yes.

K: And I would not float any particular idea on them because they are not the ones that are going to be able negotiate it and the particular ideas are already before the Egyptians and Russians.

P: Yeah. Well, when they come down to say Israel must withdraw to the '67 border, what do you say.

K: You say that should be negotiated after a ceasefire.

P: Well, to be negotiated -- does it mean -- do we agree to that goal?

K: Well, I think it is unattainable, Mr. President, and in my conversations I have always fudged it and said that is an issue that should be addressed within the context of the Security Council Resolution 242 and the major point to make to these people is to separate the ceasefire from the post-ceasefire and the argument that I found very effective is -- they want America to engage itself in the diplomacy afterwards -- that you promised to do. But that means also now that the war has to be brought to an end under conditions which enable us to be in touch with all of the parties. And secondly that if we now try to settle it at the result of the war it will be an endless negotiations with the war going on.

P: That's right. Well if we aren't there to work on the settlement, it leaves them with no other option -- just beat the hell out of the Israelis.

K: To have an endless war to push them bach.

P: We are the only ones who can influence the Israelis.

K: And that is a point to make. Another point to make is that the military situation has already changed as a result of the war.

P: Oh, it's changed. How do you mean?

K: Well, they will say how do we know that after a ceasefire there won't be a stalemate. And one point to make to them is that the situation has changed strategically. That no country now can claim supremecy in the area anymore and therefore they have to rely on . . .

P: In other words, basically, that Israel can no longer claim supremecy.

K: Right. I wouldn't phrase it that way because . . .

P: I understand. All right, I've got the word.

K: I talked to the Foreign Minister of Saudi Arabia yesterday extending your invitation to the King and he was very pleased. In fact, you can hold him back for a few minutes when the others leave.

P: Yeah.

K: And do two things -- thank him for the very moderate and constructive role he has played all week and secondly saying you hope to see the King as soon as a ceasefire is achieved as can be mutually arranged. I would tie it to the ceasefire, Mr. President, because otherwise they'll have another reason for delay.

P: Yeah.

K: And we don't want him -- it's not in his interest to be in the forefront of the diplomacy because he will be stuck with all the problems.

P: After the ceasefire . . .

K: After a ceasefire -- they may want to get him over here before.

P: We don't want that.

K: No. That would not be advantageous.

P: We don't want anybody.

K: I think by tomorrow this thing is going to break one way or the other. It may break unfavorably but then Kosygin goes back to Moscow . . .

K: Hello

D: How are you?

K: Okay.

D: Three things, first this is a--Mr. Brezhnev and Mr. Gromyko asked me to congratulateyou heartily with the Nobel Prize.

K: Thank you, I appreciate that.

D: And they would really like to congratulate you. Second, I have instructions to tell you on a very strictly confidential basis for you and for President Nixon, I am to mention to him and you that we are now having consultations with Arab Leaders.

K: Yes, and Kosygin is in Cairo.

D: Yeh, this is exactly what they asked me to tell you. But you already know.

K: No, no we know a Soviet VIP is in Cairo, we've told the Israelis to stay away from Cairo and the Cairo airport.

D: This is Kosygin.

K: We didn't have it confirmed.

D: But they specifically asked to tell you and to the President --

K: I hope you have noticed that we have tried to keep things very quiet here.

D: No, I know. I noticed that it is on low key under the circumstances. But this is really for your information.

K: You know we cannot help if there is speculation because

D: No, no, I understand

K: Frankly, we know a Soviet VIP plane is there. And therefore a lot of people know something.

D: No, I understnad.

K: But you can be sure that we will not confirm it in any official way or leak it.

D: Yeh, I understand.
This is just they asked me specifically to tell --he is there in connection with this consultation and including a consult with the about formula issue proposal--

K: Anatol, you should understand because I don't want to mislead you, the ceasefire formula--the one on Saturday, we had discussed with the Israelis--this formula, we have not yet discussed with the Israelis.

D: About the 242?

K: Yes.

D: 242.

K: Yes. But we think they will accept it, but we didn't want frankly our press to be agitated against us.

D: Yeh, no, no.

K: So there may be 24 hours after if you come back with something.

D: Yes, I understand.

K: I just -- don't want you people to be misled.

D: Yes,

K: You can be sure that what we said to you we will stand by.

D: Hm huh. And the last one, Henry, here is some oral considerations by Mr. Brezhnev to the President. It is not immediate in the sense of proposals, but so to speak of our relations in really good terms, I should say in a quiet way, it is on four pages--probably--it's oral however, maybe I will send it to you--nothing really

K: Can you send it over within the next hour.

D: I could send it right away.

K: Send it over, just for our records.

D: Just for your own. And if you have some comments or other, please let me know.

K: Okay.

D: I could come to you anytime--or by telephone.

K: You know our policy as I have told you, is to try to really to the utmost to not only keep the detente going, but to strengthen it.

D: Yeh, this is really what--this too--this oral consideration--by Brezhnev. I think it is rather helpful, just for the whole background--there is nothing immediate or specifically new, but in general how it is presented, I think you will find it interesting.

K: Good.

D: Okay. Nothing else for the time being, no?

K: No, we are waiting for you.

D: I understand. This foreign minister not yet--in your office. The foreign ministers of _____

K: No, they are coming in at 11:30, but we don't think we should give them this formula do you?

D: No--well it's up to you, but I don't know I doubt very much if their reaction will _____ but you may have better indications that we have, but this is my impression, because they are under the pressure from _____

K: No, no we will wait for you before we make an open initiative.

F: Fine here. I have been traveling since I have been here. I am in Little Rock now..

K: Is it exhausting?

F: Pretty much.

K: What I would think. I wanted to bring you up to date where things stand. As you may know Kosygin is in Cairo. He is basically putting forward the proposition that you and I discussed the other evening. Cease-fire in place and linked to the implementation of the Security Council Resolution #242.

F: Good.

K: The Russians have told us they were supporting it. He has tough going because the Egyptians want a fixed date to withdrawal of '67 borders. The thing we all have to remember is with all of this detente talk, without the detente Kosygin would not be in Cairo. The Soviet press would not be accepting our airlift and all hell would be breaking loose. We have talked to the four Arab oil men, including the Algerian, and made the same proposition. We made a commitment if there is a cease-fire we would put the whole prestige of the United States behind getting behind a solution to the causes of the war. Even though it seems quiet we hope within the next 48-72 hours something will break and we hope in the right direction.

F: Sounds like progress.

K: I hope we are going to get somewhere.

F: You feel the Russians are really trying?

K: There are only two interpretations -- either perpetrating a hoax on us which would rip the whole relationship and prove Jackson right for the next 10 years or they are trying to help and I don't see why the former makes

any sense at all from a hardline point of view. Why send us a communication that they are supporting one particular approach. In order to stir things up they don't have to send Kosygin to Cairo. Things are stirred up enough.

F: If there is any rationality left at all it is the only solution I can see. I cannot see that it would be in their ineterest to go through another ten years.

K: That is also my belief. I believe they are trying. Everyone is so inflamed. I had the sense from the Arabs yesterday that with a little give here and there this might actually begin to move.

F: Yes.

K: We made the same proposition to -- to make sure we were not at the mercy of Kosygin -- to the Egyptians through a private channel to Ismail who is my opposite number in my former job and the Egyptians have not yet refused it. An interesting sign.

F: Hope it turns out this way.

K: I will keep you posted. When are you coming back.

F: Next Tuesday or Wednesday, I believe.

K: Theoretically I am supposed to go over to China Monday night but I will never make that. I have a two day cushion I was going to spend in Japan. I could still get off on Tuesday and go direct.

F: Best of luck. Wish I could do something for you.

K: You have been tremendously helpful. I will call you the date after tomorrow even if I have nothing to report.

D. Mr. Brezhnev asked you to convince the President of the following: This is not exactly the text of the message but I'm reading..."We continue to carry on very expansive consultations with the Arab leaders. For its consideration we need a little bit more time. At the same time we - the Soviet Union, the Soviet leaders - want to think of what kind of formulation should be included in the text of the draft resolution of the Security Council. In our opinion this resolution should include the following main provisions:

1. A call to the sides to immediately cease fire and all military action on the positions where the troops actually are.

2. A demand to start immediately after the ceasefire phased withdrawal of the Israeli troops from the occupied Arab territories to the line in accordance with Res. 242 of the Security Council, with completion of this withdrawal in the shortest period of time.

3. A decision to start immediately and concurrently with the ceasefire appropriate consultations aimed at establishing a just and honorable peace in the Middle East.

This is the main point. I will repeat it. (Repeated the above three provisions).

K. Appropriate consultations with whom?

D. Our commentary involves the following conclusions. We feel that the best thing would be to have limited number of participants in these consultations. We, the Soviet Union, are prepared, if it suits you and the immediately involved participants and Israelis, for this kind of consultation on the part of the Soviet Union and the U.S.

K. Why are you so hard on your allies?

D. On what allies. We have many allies. I would like a clarification.

K. The one ally you have as a permanent member of the Security Council.

UNITED STATES DEPARTMENT OF STATE

DATE/CASE ID: 24 MAY 2004 200102979

D. For the sake of conversation, why not drop them.

K. Actually we are no more eager to have your allies there than you are. We are not much more eager to have our own allies there.

D...Let's have these conclusions between the U.S. and the Soviet Union. The question arises about a guarantee if the resolution is to be adopted. I agreed together with you, if it is acceptable to both of our clients, that the U.S. and the Soviet Union in a recent forum guarantee the fulfillment of this resolution. We also are prepared to guarantee the territorial integrity, security and inviolability of the borders and the frontiers of all, including Israel, taking into consideration at the same time its right to sovereignty and independent existence. With these kind of guarantees from the U.S. and the Soviet Union we feel that hardly anybody will have a doubt about the viability of the guarantee. So Mr. Brezhnev would like to share his thoughts along those lines with the President and he would like to receive the reaction of theWhite House. On my own there are two basic things: the Middle East and our relationship to cement with you.

K. I understand. You will see in the message that the President will send to you at about 10:00 or 10:30 [this he has and wants to work on it personally) --which is not an answer to this--that he makes exactly the same point without going into details. Should I still send the message of the President's to you?

D. Yes, I will mention that it was received before this.

K. Because we won't have an answer in two hours. Thinking out loud without having talked to the President, the most difficult point here is point number two about immediately after ceasefire that the Israelis should withdraw to a line under Res. 242 which really isn't established yet. First let me say I realize you're making a very constructive effort....

D. Yes, I'm being very constructive.

K. Why don't we consider it later rather than debate it out now and if we have a counter-proposal we will get back to you.

D. Did you get it all down.

K. Yes, the FBI, CIA and we all have taken it down and your KGB man too.

K. When Dinitz mentioned 20 helicopters...

S. They have asked for a total of 50, 25 of two kinds. Defense is now sending eight. It's a big kind.

K. Will you let Dinitz know that tomorrow. We were supposed to tell them when we shipped the whole compliment of Sky Hawks.

S. They were talking about it and whether we should ship ten more.

K. Can you get that done?

S. I will get that done right away and...

K. The Soviets have sent us a three-point plan which I will get over to you, of which points one and three are highly acceptable. Point two is not acceptable, however. It calls for a withdrawal to the line in Res. 242 which they will not accept. As to the frontiers....I called Dinitz and left out point three so I will have something to use as an incentive tomorrow. They are as obnoxious as the Vietnamese. !

S. I think you have it started just right. By the time we get something down we can live with they will be relatively pleased.

K. They also told me they are going across with more tanks. I am afraid it will turn into a turkey shoot. If they keep going across somebody is going to get killed, that's for sure.

S. The real danger is the Egyptian army is going to panic.

K. Once they get across in division strength that means the ~~sand~~ SAM belt is gone. When they saw the army from top and bottom they are going to disintegrate. They are not that good. They won't be able to get supplies. They'll die of starvation. What I can't understand is how they broke through the Canal.

S. That is a mystery to me. They had this new defense position. They broke through two divisions, one infantry and one armor.

UNITED STATES DEPARTMENT OF STATE
REVIEW AUTHORITY: ROBERT H MILLER
DATE/CASE ID: 24 MAY 2004 200102979

K. Is that the detailed report?

S. Yes, they attacked through a strong point because if they went through a weak point they would have two strong divisions surrounding them.

K. They broke through a strong point and went across the Canal. They are a good army or the Egyptians are very bad.

S. The Israelis are very smart and audacious and willing to take chances and back them very strongly.

K. It is going to turn into a nightmare. I wonder if and when I should go to China. The Russians suggested negotiations be conducted between them and us and not have any other UN members, together with the Arabs and Israelis. You can imagine what Chou En Lai is going to say to this. Of course, the Europeans will go right up the wall.

S. Of course, the trick of trying to get negotiations with permanent members of the Security Council...

K. I am going to get a message out to Ismail. Do you think that is all right? I thought I would say this will remain my position regardless of the military outcome but it might make them suspicious.

S. I like it and you should send off a message but telling them that might tip them and antagonize them.

K. I am afraid they will all get hung. I think this is the end of Sadat.

S. I think you are right. They might just run them out.

K. They have to be careful. The fact of the matter is when all is said and done it is a Soviet defeat. The same reasons why we could not accept an Israeli defeat will operate against them and even if they say the supplies did it, that should make them realize they better get on our side.

S. In that sense it couldn't have been better.

K. When should I go to China? Next week has the advantage...Larry said the President will start a peace initiative when I am gone. I can't think he will do too much without me.

S. I will want to reflect a bit. My first reaction is that he would.

K. You think he wants to give up a winning compromise. He will be up to his eyes in alligators with Cox next week.

S. He wants to be out in front with this one.

K. Supposing I go in two weeks. He can move even more easily then. I have three choices; to go next week, to go in two weeks, or to go in four weeks. Which do you think is best?

S. Honestly I don't see how you can go next week. I think it would look bizarre now that we are at this point under almost any circumstances.

K. Should I delay two weeks or five weeks?

S. Five weeks would bring you up to November....

K. I then move up against the Nobel prize and NATO. My instincts are two weeks.

S. If things move we may be at the point of a ceasefire and the meetings or something started.

K. I will have a ceasefire my Monday. I promise.

S. I agree there will be a ceasefire but I mean all the....will have quieted to the point it should be under control. That is probably too early to anticipate any real negotiations will be underway.

K. Have you heard about the Egyptians. They have already prepared for my arrival there.

S. That is probably that draft public announcment. That's beautiful! They are something else.

K. In the nutty Arab world I am sort of a mythical figure. The Arabs think I am a magician.

S. That's right. Might not be possible right now.

K. *But I probably would have had an unbelievable welcome.*

S. I think it would have been unbelievable. They have been so far. It has to be against all their instincts. They underestimated their military capacity.

K. If they had accepted our proposition last Saturday they would have been in a superb position.

S. They really would have. They just wanted a little more I guess. It just doesn't make sense.

K. I will send those three points over to you.

S. Ok. Goodbye.

K: Actually that is a good cover for me to get out of town. I had already explained that Ziegler should call a few selected press people about 2:00 in the morning. Tomorrow morning he could give a briefing at the White House. It would be all White House. Not State Department. Moreover, when I come back what ever comes out of it, then he should step forware.

H: I understand you and you are right.

K: Hello.

Z: Hi Henry. What is your reading this morning on the general direction we should take on the middle east.

K: Stay cool. Don't jazz it up. Just hold it where it is.

Z: Should we break off at your remarks last night.

K: I wouldn't do much beyond that. I said it now. I said it deliberately in a place where it couldn't get a hell of alot of news. You know, I didn't distribute them ahead of time. I haven't seen them in the newspapers.

Z: It's on the wires.

K: But it isn't in the newspapers.

Z: It'll be in the afternoon papers. But it's not a boom headline story. But the breaking from State yesterday and your remarks indicate that there is diplomatic activity between the U.S.....

K: I scolded McCloskey. We should not...he shouldn't have done that. There is the slightly self-serving quality in all this briefing. I mean by McClosekey. It is not our custom to discuss diplomatic activity while its going on.

Z: What do you feel is our best position to take on the oil thing. He'll be asked about the 5% reduction in production.

K: Say we can handle it. I know that as a token thing but if you say its a token thing, that will force them to escalate it. Let's say you're aware of it. Isn't it possible for us in effect to say in this delicate phase we don't think any useful purpose is served by...

Z: I think that's the best answer and I think that would be useful. We had a very constructive meeting yesterday, we're in touch with all parties.

K: On the constructive I'd refer to what the Arabs Foreign Minister said.

Z: That's what I mean. And we continue to be in touch with all parties of course in touch with the Soviets and in this delicate phase it would just not serve the interest of achieving a peaceful peace in the Middle East by commenting on the oil thing. Right?

UNITED STATES DEPARTMENT OF STATE
REVIEW AUTHORITY: ROBERT H MILLER
DATE/CASE ID: 24 MAY 2004 200102979

K: That's right. I think that's the best thing to do and it will make us look better when its all over. I must tell you that if we get through this without breaking it with the Arabs or Soviets it won't be a bad achievement.

Z: That's true. Can we say anything about Eban's remarks.

K: No. Just say...just keep giving the same answer. It's premature. We said that we want to end hostilities and now so that we can have a comprehensive settlement afterwards and that is all we...there is no useful purpose to go into further discussion.

Z: Right. That's enough on the press. Now how do we stand.

K: We won't really know until Kosygin comes back from Cairo but you should not officially concern.

Z: I'm not talking press now.

K: I personally think that unless the Israelis score a spectacular victory which will then totally _____ the Arabs that we're going to bring it off.

Z: When do you think the chance exists for doing that?

K: Sunday or Monday.

Z: How does that effect your trip.

K: I'll have to delay it. You know I have a cushion of two days of the Japan stop but I might have to put it off by a week or two.

Z: OK. On that score while I have you on the line. The Daily News and I've talked to McCloskey about this, is just up the wall and....

K: I told him to coordinate it with you.

Z: We talked to some degree but I want to raise this Daily News thing with him because it's not good for you. In otherwords, the Daily News....

K: It's ridiculous. The New York Times has been killing us. Well we'll have to drop the USIA guy.

Z: I think that is probably right. Drop the USIA guy and put the Daily News on. I think it is almost essential from our stand point. The Daily News is...

K: There is no question about it.

Z: Alright. I'll talk to Bob about that and say I have discussed it with you One final thing. On this ceasefire if there are any questions about that hold the same line. Right?

K: What about it.

Z: In other words should they ask about what is our goal on the ceasefire just to stop the fighting or to have a ceasefire which relates to withdrawal.

K: We haven't been in a position have we?

Z: No.

K: Then that's what we must hold.

Z: I mean your remarks last night sort of indicated we wanted to stop the fighting now and then work for a....

K: That's our position.

Z: Yeah.

K: The problem is whether there should be a reference in the ceasefire resolution to a final settlement but that gets to complex, we shouldn't get into that. But we should say the first problem is to stop hostility and then to move toward a diplomatic settlement as rapidly as possible.

Z: OK. Bye.

K: Hello

R: Henry.

K: David, how are?

R: Well, I am just great and first of all congratulations on the Nobel Prize. I think that was really great.

K: Aren't you nice.

R: I am so pleased about it. Nobody could have deserved it more and it was rather daring of them to do it I must say...

K: You are putting it mildly.

R: My impression, Henry, is you are off to a grand start. I have been seeing it from a distance but hearing it from a number of different angles including, for instance, President Medici down in Brazil.

K: Oh, really.

R: He is very enthusiastic about your talking with Goodson(?).

K: Yes, that turned out very well.

R: And I think the whole--what you did at the Council of the Americas -- rather the Senate for Foreign Relations with regard to the Israelis -- and has just given immediately a whole new hope to the Latin Americans which I think is so important.

K: I hope we can now follow it up.

R: But I must admit your Middle East situation has certainly blown up. Is there any light in the tunnel?

K: Well, I think we can--so far we've managed to keep the Arabs and Soviets beyond the point of no return.

R: That's a great deal.

UNITED STATES DEPARTMENT OF STATE

K: If we can hold it together a few more days I think we may be able to work out a ceasefire.

R: I certainly hope so. I didn't call you about my conversation with Zayyat because I didn't really think there was anything of sufficient newness or importance but....

K: They told me they had given you a message for me and I didn't know what it was.

R: He said that?

K: Ismail said it.

R: The message was something that he felt that you had taken his proposals of two years ago and distorted them, twisted them around was the way he put it. Really resurfaced them with new proposals which would involved further compromise by him and he wasn't prepared to do it. He was very tough and at the same time extremely friendly personally.

K: Does he speak English?

R: Perfectly. I think now according to him, out at his country place outside of Alexandria, _____ Arab and I must say for a person who is about to launch a major drive, he was remarkably relaxed. I guess its been now in accordance with him. He listened veryattentatively to what I said. I did not show or read from the paper but it is very essentially what she said. He headed up--and his first statem ent was well done and then he proceeded to say that--to take a very tough line. But I didn't think this was really a message. I mean, that's why I didn't call you because I just didn't think to the Israeli--it was an attitude not a message to my mind and I think to a considerable extent the attitude was a posture more than anything else. But I tell you what did disturb me that Ismial whom I did have a very good meeting. Have you seen him.

K: Ismial no, but I've been in contact with him.

R: I see. Ismial shows with great enthusiasm about your first meeting with him in Washington and said how he thought you covered on a very phylosophical basis _____. That apparently he was very disappointed in the Paris meeting where he felt that you had sort of crawled back into a harder more sort of State Department, as he put it, line and he felt that there was a falling apart of some of the ground gained in the first meeting. Not having been at either one I'm just reporting to you.

K: The trouble was--I like Ismial very much.

R: I do too and I think he certainly likes you.

K: The problem is in the second meeting I tried to make concrete what had been discussed in the first one.

R: Apparently he didn't like the concrete.

K: I know. It's easy enough to make general statements.

R: I can undestand that but I'm just reporting. He did. .. Both he, I think probably the most positive thing was that both he and Sadat were--made it very clear that they wanted to continue conversations. There was no indication of a cutoff, they were tough, but by no means saying we won't listen or talk. I think that was all to the good. The thing I found absolutely amazing, Sadat is obviously feelimg the pressures of .....and I think he is beginning to recognize that frightening away capital is not the way to build his country. So he is clearly movin g away from naturalization and socialization that created a committee to help people who want to make private investments is aquitted by ..... and hsa mostly the more conservative people on it such as Nisner(?), the former central banker and finance minister, all of them are very good.

K: Actually David, I think once we get the present crisis behind us the chances for a diplomatic settlement are better than they've ever been.

R: I quite agree and this...you'll be interested that most of the time I was with the President he was cynical that that would happen and his reaction was that this in his judgment was an effort on the part of Sadat to save face for the Arabs and secondly to force the Israelis to the bargaining table. In other words to break the deadlock. And if thats true its great but one very interesting thing that he was very insistent that I not discuss with anyone and I have with only 2 or 3 people in the bank. He asked me whether we would open a bank in Egypt. They've closed down all the banks. I said are you serious. And he laughed and said yes, why not. Obviously there are all kinds of problems but don't you think that's extraordinary.

K: Yes.

R: What we'll do obviously. We can't do anything in the present conditions and there are lots of other angles to be considered as well but I asked him well, who could we talk with in his government and

and he saidHijazi in the Finance Ministry and so if and when this thing passes why we're going to send people to study it and keep in touch with you to see whether you feel it would be useful but I thought it was a good thing is a way that he was as friendly as he was and that he had this attitude toward private investment.

K: Absolutely.

R: We're not at all altogether negative.

K: I consider that quite positive.

R: He called me by my first name and his personal attitude just couldn't have been more positive. I reserved for one day and Ismial gave a dinner which Hijazi and for Foreign Minister and really the top people in the government came which --again for a country which doesn't have diplomatic relations and so on is good. Gorbail(?) was the fellow who organized the whole thing.

K: He was here as head of the Interest Section. David, I wanted to ask you one other thing. As you know, I'm bringing Ingersoll back as Assistant Secretary.

R: I hadn't heard that.

K: From Japan.

R: For what?

K: East Asia. And that means the Ambassadorship to Japan is open and of course I'm so anxious to have you associated with the Government I was---it is such a crucial post that I was wondering whether that could tempt you until we could make the other move.

R: I'm inclined to feel that I can do more from here for the moment than I can in an Ambassadorial post but again I don't want to give an off the cuff -- I'm going to Japan the day after tomorrow and...

K: Can you give it some thought. I'd be very grateful.

R: Of course I will but Henry this one other thought too. I'm going back to Latin America--we're looking for a new chairman for the Council of the Americas which remember had that meeting with the President and were ongoing discussions with your people there. The suggestion has been made that Bill Rogers might be a good person for this. Would this create problems from your point of view?

K: Not at all.

R: In a way you know he might enjoy it.

K: My estimate of his capabilities isn't very high.

R: But he does have a certain prestige nevertheless.

K: That's not much--he would be Chairman.

R: He would be the sort of figurehead.

K: Excellent.

R: In that respect don't you think he would be good.

K: I'd strongly support it.

R: I just didn't want to do it.

K: No hard feelings.

R: Another thing is what we're doing with respect to Israel in the thing is to continue to give them credit lines and extend credit for grain shipments and this kind of thing on a regular basis and I take it you don't see any problem about that.

K: No.

R: It seems to me the more we can do it (strictly non-war basis) that probably is a good thing.

K: I think that's right.

R: We also extended a 20 million dollar sugar credit to the Egyptians while we were there and I don't know whether we should or not but we haven't cancelled it.

K: There is no reason too because we hope to have very good relations with the Egyptians when this is over.

R: I would think this is not at all impossible and I really do think that despite his very hard line on this subject that the general fact of what he did while I was there is impressive, but a front.

K: He had to take a tough line.

R: I didn't call you because it really didn't seem to me that he had said anything new from what you already knew.

K: Thats fine and its a pleasure to talk to you David.

R: I'll be back in another week and of course you'll be in China.

K: I doubt that I'll get off.

R: Really. Oh dear.

K: It depends how that Middle East thing plays out.

R: That's too bad but it will just be postponed I hope.

K: Certainly.

R: Is that working out a little better?

K: Very well.

R: Good. Have you gotten any word on the _____ situation. The claims.

K: No, but I hope to work that out when I'm there.

R: Good. All the best Henry and congratulations again. Thanks for calling.

K: The way I've always assessed it. I've never had any illusions about it. We will resist foreign policy moves as we always have. We don't mix into their domestic policy. What they have done. You know, there are necessities on all great powers. We can't ask them to break all their relationships with the Arabs. I don't believe that they knew that this was coming.

S: I do myself.

K: I do not.

S: You do not.

K: No. But, they gave them alot of equipment. Since then I think....

S: It looks to me like -- another thing they were divided about.

K: Thats probably true.

S: This enormous equipment program. Really, its....

K: This enormous equipment program was also the price they had to pay for not delivering one g.d. thing for them diplomatically.

S: That's true.

K: I mean we tracked them through two summit meetings making them look like idiots.

S: That's true. I think my own instinct is that there were some of them that wanted to do it and had actually planned doing it and others who didn't.

K: That is almost certainly true.

S: I further think that you have to conclude... I found that Brent agreed with this more or less, and he's so conservative, that you have to conlude that it makes the ... that it adds a few points to the possibility that the military or military-minded faction will win the ultimate argument probably next summer.

K: Yes, but I've always expected that.

S: I know you have.

K: What is going on now Joe, unfortunately I have to go to a meeting. What's going on now is a revolting spectacle. We have had a Congress that has voted us out of every confrontation. We have been under unbelievable pressure. We have conducted detente in an absolute pragmatic cold eye way and the only reason they now want to wreck it is to punish Brezhnev for having been seen with the president. Who the hell stood fast at Shien Fu-huags(?). Who the hell stood fastat Jordan in 1970. Who the hell fought the Berlin issues. Who ever got any support from any of these people who are now screaming detente and what the hell has been our practical policy in this crisis? Who the hell started the air lift? Who's been phasing the Soviet's down? I mean for us to be attacked and being snookered by the Soviets is just revolting. What did they snooker us with?

S: I agree with you.

K: What did we not do that we should have done. And you know g.d. well that Phil Zurla isn't an advocate of a tough policy. He is an advocate of the destruction of Richard Nixon.

S: That's all.

K: And the reason they are now coming after me is because I am the one man left in the Administration who has more or less unsolid public position.

S: Well, thank God I wrote that series on American foreign policy just before all this started.

K: I mean all these people who've been cutting our defense budget, been screaming that we are to belly coast, who for 20 years have been creating the malice are now attacking the one people who have been using detente in an offensive way. But for Christ sakes if you can avoid writing about me in that sense you'll do me a great favor. I don't mind these articles.

S: Well, It think its important and you'll be pleased with the final outcome so you must trust me about that.

K: OK Joe but.....

S: How does it look?

K: I think we are going to succeed.

S: You do?

K: Yes.

S: Does that mean the emphasis is still on the East bank or not?

K: Well, if you want my personal opinion. I wouldn't bet much on that.

S: OK Sir. Thank you very much.

D: Will this say something?

K: Anatoly, about that letter. The President agrees that I should go to Moscow. You understandthis will present us with enormous domestic difficulties.

D: Well..

K: Oh, never mind. I think its important that we say publicly it was done at the invitation of the Soviet Government.

D: I see no difficulty in that.

K: In our interests to announce it about 1:00 this morning our time.

D: 1:00 am

K: Yes, I think we should leave about 12:30

D: This is acceptable.

K: Thenwwe should say it is the invitation of the Soviet Government..I am going on urgent consultations. Of course we will be delighted to have you come with us and ....we are assuming that no unilateral actions will be taken while I am in transit.

D: What do you mean?

K: No military threats. And I am assuming both of us will keep the situation calm ....I don't believe while I am there I will be able to negotiate a final settlement. I will be able to negotiate a cease-fire.

D: One night sleep. I put on menu. You want to..I will put it this way -- that you demand it be in Leningrad.
K:
K: Say that I insist I get to go to Leningrad. I will not go unless I can meet in Leningrad . Look we appreciate the letter and we gladly accept the invitation. I am going to see if we can bring about a cease-fire. All we want is to say it is the invitation of the Soviet Government .

H: On this thing we are working on. The President wants to go out tonight and announce your trip.

K: Impossible.

H: Why?

K: First of all, we have now told the Soviets we would do it at 2:00 in the morning and secondly, I will be at a Chinese dinner that the Chinese are giving me. When does he want to do it?

H: Whenever we put this other mess together which could be anywhere from 6:00-8:00. He would assemble the press in the Press Room and with cameras.

K: And say what?

H: Say in consultation with Chairman Brezhnev and that he has been in communication with him.

K: Say at the invitation.

H: He wants you to prepare the statement that he should say. Very brief.

K: Why should he do it?

H: There are a couple of reasons. One is he feels it for the reason of what he is going to announce after that.

K: He is going to make them both at the same time.

H: Yes.

K: A disaster.

H: Why?

K: My honest opinion is that it is a cheap stunt. It looks as if he is using foreign policy to cover a domestic thing.

UNITED STATES DEPARTMENT OF STATE
REVIEW AUTHORITY: ROBERT H MILLER
DATE/CASE ID: 24 MAY 2004 200102979

H; The domestic thing is not controversial. A very good one. A very good settlement. It would also look very weird for him to make a major announcement on Watergate and ignore the fact you are going to Moscow when everyone wants to know what is going on in the Middle East. I don't see it as a contrived phony. I think you have two very important things happening.

K: He is not firing Cox?

H: As of now no. Just giving him a desist order which will probably result in his resignation.

K: I would not link foreign policy with Watergate. You will regret it for the rest of your life. I don't think he has to do either of them himself.

H: He has Ervin, Baker and Stennis. We are doing a hell of a thing here. He has to do it.

K: But if he gets that mixed up with foreign policy, Al, then he has to do this with the Jewish Community. It will forever after be said he did this to cover Watergate. I really would plead with you. If he wants to make it as an announcement separate from the other.

H: He wants to do that. That is his idea.

K: No, no, no. - He is going to make both announcements together.

H: You mean at the same time.

K: Right. I would be opposed if he even wanted to make an announcement. Now the Soviets have asked us -- by his stepping out there it becomes high profile.

H: You are the best judge of that.

K: That does not bother me nearly so much. I think that is poor tactics. Also we would have to get back to the Soviets. This will be a situation where the President has put his prestige on the line. Right now the Soviets have asked us to come. We should do it as a reasonable low-key thing simultaneous announcement. We call some newsmen in the middle of the night. It is still a big thing but not the President's going before TV announcing it.

H:. O.K.

K: I tell you it will do him more good that way. It will be a second story that will override the first. I really mean it.

H: I know you do.

K: If he is insisting we will do it but I think he will regret it.

H: O.K. I will see what I can do.

K. The Israelis grabbed another hunk of territory so we will have to place another resolution tonight. The major reason I am calling is about your letter. I have postponed my trip to China. I am going to go about the end of November.

G. We will hold off until then. I am so sorry to bother you.

K. I want you to understand I didn't make that selection and as McCloskey explains, he can only take one person from the weeklies. What I have---If he takes only one of the weeklies I want him to put the three names in a hat and draw for the one that should go.

G. What is this nonsense? This has not ever happened before.

K. He says if he takes one he will have to take News and World Report. I will get this thing equitably settled. I am not going for four weeks.....

G. That has no use to News Week. They probably resent us for having two seats when they only had 14.

K. The fact of the matter is when you have 14 seats there is no paper you exclude that doesn't have a grievance.

G. The point is when you are taking any there is a basic sort of six that get attacked for getting it: networks, UP, AP, the Post, Time and Newsweek, all of whom do a job of foreign reporting.

K. I will get it straightened out by the next time we meet. I will get McClosky to change his mind.

G. It is just being near you. It is a great advantage.

K. I just want you to know I am third in line to the Presidency so you better not antagonize me.

G. Not really, how about the Speaker?

K. First Carl Albert, the President Pro-Tem and me. I want you to know that the Constitution only prohibits me from being elected and doesn't say anything about....

G. Henry, I'm going to call them up. I am so excited for you and I am so glad I will know a President and will you remember I am a friend.

K. That I have never doubted. You were right. The first time I had heard of it was when you called me. Then when you wrote--by the time we meet I will have it settled. Let me worry about it.

G. By your good cheer it is a hideous, terrible moment.

K. We can't survive crises like this. We survived a major war by the skin of our teeth. Now we have to settle it. It we have no authority in this country, we are in desperate shape. I am not excusing anything that happened. I wasn't in the country....

G. I feel so sorry for you trying to settle the war with this....

K. This is between you and me, I called Haig on Sunday about midnight in Moscow and said will you get this done right away. He said "no, I have to get a few other things settled." I asked him like what? He said firing Richardson, Cox and Rucklehaus. So I am sitting there and I am dying.

G. Henry, that was the first you heard!

K. That is the very first I heard of it on an open line to Moscow.

G. Well, listen, all I can say is you pulled off the only thing that made us all feel we were....

K. Don't worry about....I will fix it.

G. I will just shut up about it. I won't say anything to the fellows.

K. You can tell them. We will try to do something between next time. I understand Ed Cline thinks this is retaliation for the shitty thing they did to me last summer.

G. The paranoids think that Henry. You are too professional and wouldn't do anything like that.

K. McCloskey feels on very good reasons on his part he could only take one weekly. Why he settled on Time instead of Newsweek I don't know. I don't want them to carry a grudge. Tell them enough to quiet them down. How is Helmut?

G. He is on his honeymoon. He just got remarried.

K. I know, I met his fiance.

G. I will take care of this. I am just at the publishers meeting down here. I will be back in New York.....I have a serious problem with Joe that I might talk to you sometime when things are calmer. I think he has to write less often. He is just no good any more.

K. It is none of my business but if you could....

G. .....No, I can handle it I am sure. I just sort of put it off.

K. I will take care of the other thing. Looking forward to seeing you when you get back.

G. Bless you.

S: Let me tell you where we are and what we have decided. I hope your government understand the difficult.. we are faced with a situation where , one , if we don't go along with the proposition we will be faced with vetoing or abstaining. You can well imagine the impact of what this would be. A very difficult situation. Here is what we have done.

We have suggested some changes to the Soviets and they have accepted and we will submit this jointly. The changes in the key paragraph are...

D: Wait a minute.

S: Don't you have it in front of you?

D: No.. If you will read it a little slower.

S: The text that we present.... confirm its desire about immediate cessation of all kinds of firing and of all military actions and demands that the forces of the sides be withdrawn to the positions they occupied at the moment of adoption of the cease-fire position.

D: It just shows they don't understand anything..

S: They have accepted the two changes. They are: ..the word demands, they have suggested the word urges. Next, on the forces of the.. instead of withdrawn, it should be returned to the position that they occupied at the time the cease-fire became effective. The Secretary wants you to know that he has linked it to two other things.. The first thing is it will be difficult to ... their rationale. It is better to argue in the next 48 hours about it than something more fundamental.

D: The Russians argue this.

S: Yes, they recognize the ambiguities in terms of the line but they prefer the.. to be in that rather than the key question of the resolution. What we said is because the line is ambiguous, we want it to be understood.. if someone begins to argue about what line, we say let's be clear that the line is not clear. Then, secondly, he said that the thing that will make this cease-fire in effect, is for you to carry-out the POW issue. Thirdly, the President has sent a letter to Breshnev on this POW issue. It is being submitted now, and very soon..

D: I want you to understand and tell it to the Soviets. All during the night they have shelled the bridgeheads and caused us casualties in human being and in tanks. They started moving infantry on the bridges in an attempt to cut us out. So when we saw this we pushed them back. And we improved our position. We are not moving back no matter what resolution. I have tried to explain this to the Secretary, but he has been with the President. . I am urging you not to. . we beg you that we don't put into position something that rewards the Egyptians.

S: I understand. The first point is because of these ambuiguities. When this argument comes up and this argument will occur in circumstances when there are ambiguities.

D: You must be with us on this. The Russians are leading. . They pass the resolution with you. Then you will say you can't fight this as it is something you passed with the Russians.

S: This point, we made to the Russians.

D: So why don't you make this point to the Russians in the proposal.

S: Touche.

D: I will pass this on to the Prime Minister. She is holding on another line.

S: Fine.

N. I know, you never can tell with the White House switchboard. You got Eban. He was all right. How about Congress?

K. They say they would agree to it. But who knows what that position was. They will never agree.

D. Don't you know through your reconnaissance.

K. We haven't done any air reconnaissance. Lets say we do not know what the actual situation is frankly.

D. You don't know yet.

K. We have sent two urgent messages today to stop and I have had the Israeli Ambassador in here to stop.

D. Brezhnev, when I left....

K. It isn't right for Voronsov to say he had to complain to the Politburo. You can't give us a resolution and expect an answer in ten minutes. It is amazing. We....

D. It was agreed upon by you and Brezhnev that there would be a ceasefire in 12 hours.

K. Your resolution said they should return to the position at the time the ceasefire was agreed upon....We made another not to determine whether we could agree to something that nobody could enforce. The Egyptians say one thing, the Israelis another, you don't know and we don't know.

D. He had to call again to Moscow. He agreed on the second line. Then in a few moments Sisco called.

K. He had no right to do that. I straightened that out. It wasn't easy to get a winning side to accept a ceasefire. From that point on Israel was winning and we nevertheless agreed to it.

D. We didn't make any definition in Moscow as to who was winning.

K. We made a great effort to make the agreement.

D. I am more worried about our understanding than the Arabs....

K. We have spent all day today to get the Israelis to stop and I think they have now stopped.

D. I would like to see you tomorrow. If you don't mind.

K. I think we have the...in principal of the Israelis in our joint auspices.

D. They agreed to this one.

K. Not yet 100 percent. If we can get the prisoner thing settled they will agree to it. I had along talk with the Prime Minister. I have already sent a message to Brezhnev to that effect.

D. Do you think we should talk tomorrow. You are having a press conference tomorrow?

K. No, on Thursday. I also wanted to talk to you. There will be a few ups and downs within the next few weeks. We have settled this in a very diplomatic way....

D. This is exactly the point. All right, Henry. The most important thing is the agreement between you and Brezhnev and the whole situation in the Middle East. If we hold that firm it doesn't matter what happens, we will survive. If we drag this anchor through the winds.---

K. You have known me long enough. I will not trick Brezhnev. That is the stupidist thing I could do. Even if we win this one we could never have a trusting relationship again. We cannot control everything the Israelis do. They swear that Egyptians started it.

D. The question is to stop and continue discussions politically with the Secretary General.

K. That we are prepared to do. I had a meeting with the Jewish community on the MFN issue. We are making progress now. We are going to drop Title 4 from the House bill.

D. It all?

K. Altogether. It is too complex to change overnight. They are going to work with me to work with Jackson to change his Senate bill and when it comes to the House we will change it once more and get an acceptable bill. It was by far the best meeting we have had.

D. Were my friends there.

K. Fisher, Stein and Moss were there....I am telling it to you not to ask anything of the Soviet Union but to give you a sense of the mood. I think we had a marvelous meeting this week.

D. When Brezhnev spoke to you I was next to him by telephone. But he asked me once again to come. He was pleased with the meeting.

K. Tell me one thing....I give you my word of honor I knew nothing about what happened today except....

D. Tomorrow you will call. We can go through what happened in these few days.

K. I have postponed my trip to China.

D. When are you going there?

K. At least a month. At the end of November.

D. What was the reaction of the Chinese? I think they will have more time to prepare.

K. Not very well. They know we introduced two joint resolutions. I will call you tomorrow.

D. Of course, I will pass this message on to the Prime Minister.

K. We have been assured by Israel it is purely a defensive decision... Put that Jewish mind to work so that when the pressure starts you can start withdrawing a few hundred yards....

D. I will ask the Prime Minister if she can find some sandpile.

K. Not right now. The time to make moves is just a little bit before you are forced to and make them figure out what you just did. Then they have to generate new pressures. If you withdraw a few hundred yards....Tomorrow stop the fighting. Somebody will say announce that as of Thursday you are returning to the original position. You see what I mean?

D. Yes.

K. What I mean is that is my strong tactical advice. The trouble with your people is they have too much integrity.

We would like to underline that Moscow has its own reliable information which proves that this is the fact and that the Israelis apparently decided to widen their bridgehead on the West coast of the Canal. We will express the confidence that the United States will use all the possibilities they have and its authority to bring the Israelis to order.

K: Well, you have our answer before we got your message.

V: That's right.

K: And you can be sure we are in the most urgent contact -- of course, we get the opposite claim from the Israelis.

V: Well, but . . .

K: I just want you to know we do not have independent means of checking it. I think frankly today's order of business should be to stop it whoever started it.

V: Exactly. Henry, and that's the way it goes later on in the statement. I will continue reading, okay?

K: Oh, I am sorry. I thought you were finished.

V: No, no. No, no.

K: How the hell can I win an argument if I let you finish.

V: You won this argument already but I think you will like what I will say further on. So, it goes without saying that Israeli forces in this case should be withdrawn to the positions where they stayed during the acceptance of the ceasefire decision.

Second, President Sadat suggests that the Soviet Union and the United States agree among themselves about measures which would insure physical parting of Egyptian and Israeli forces with the help of the observers of the United Nations.

Three, Sadat suggests in particular immediate use of the United Nations observers and first of all the personnel of the United Nations which was placed previously along side the Suez Canal and which is now in Cairo. That is our point of view, Brezhnev says, that it would be really wise to do so since the personnel of the United Nations, which is in Cairo now, need only appropriate orders and they could be immediately dispatched to the place of conflict.

K: All right.

V: Quickly we suggest that the Soviet Union and the United States urgently submit to the Security Council a draft of appropriate resolution to this effect. If the United States side agrees to that, the draft could look like that and follows the text of the draft:

K: What is it?

V: I am getting to it: The Security Council referring to its resolution 338 of October 22, 1973, (1) Confirms its decision about immediate cessation of all fire and all military activity and demands that the forces of the sides should be withdrawn to the position where they were at the moment of the adoption of the decision on ceasefire. (2) Suggest to the Secretary General of the United Nations to immediately take steps for immediate dispatch of the UN observers to supervise the observation of ceasefire between the forces of Israel and Egypt, using for that purpose first of all the personnel of the United Nations which is at present in Cairo.

K: All right.

V: Period. And the last line says that Mr. Brezhnev would like to underline to Secretary Kissinger the urgency of these matters. . .

K: Yuly, I don't have to check this with the President because I know he agrees. The only suggestion I have -- I have two suggestions.

V: Okay.

K: One, could we delay the start of the Security Council meeting until 2:00?

V: Easy.

K: So that we could get our delegates together.

V: Okay.

K: Second, I would recommend deleting from the instructions "withdraw to the line they occupied" because it will lead to endless debate. I don't think anybody gained a hell of a lot. What could they have gained in a few hours?

V: Well, obviously they have gained something. Otherwise our side wouldn't raise this question.

K: I don't know the situation and I have no basic objection to it.

V: It would be better, of course, to keep this. There will be agruments, exactly of a half a mile or something like that but politically that will be expedient of course to urge that everybody would return where they were last night.

K: Of course they will never agree on where they were last night so it doesn't make any difference.

V: Well, let them argue -- not fight at least.

K: Look, I agree and I will instruct Scali immediately. You can inform Moscow.

V: Good.

K: That we agree -- that I urge that the meeting be put off at least until 2:00. We will inform the Israelis if you will inform the Arabs.

V: Okay.

K: I will instruct Scali in this sense and we will agree to this resolution.

V: You will agree to this resolution.

K: We may have a word about "withdraw to the Line" but as long as we both understand this that is not going to be easy to enforce. I am not going to quarrel about it.

V: I think in Moscow they gave some attention to this phrase so we better keep it here.

K: Okay. Now we are sending over to you an oral message for the General Secretary about the appropriate auspices issue.

V: Fine.

K: I think he will like. Let me get my people immediately sothat we get the word.

V: Fine, Henry.

K: Send over that message.

V: I'll send the message.

K: Good.

K: Now, we have the immediate problem of the allegations by both sides that the other side has broken the cease-fire.

V: Yes.

K: And I recommend that at the Security Council we do our utmost to act together, if that's possible. Our judgment, but we're willing to listen to you, it's just our best judgment, is that we have the Security Council ask the Secretary General to call on all parties to observe the cease-fire immediately.

V: Yep, right.

K: And, if you are willing to have the Security Council call on the UN observers to make their services available to the two parties. You know, the observers that are there. We are also willing to consider the proposal of the Scandanavian countries to send a force there, but we're not proposing it, we're telling you what we are willing to consider. But I think the meeting today at 12:15, the easiest is, rather than a new resolution, to have the President of the Security Council be asked to appeal to both parties, and to all parties, and to offer the services of the UN observers. I want to tell you that we are urgently in touch with the Israelis. Above all, I think we should not have controversy between our two delegations today.

We really think for this purpose, first of all, the personnel of the United Nations which is present in Cairo -- Why, you've got personnel in Jerusalem, you've got personnel all over the place. But you know this is not an issue. They ought to be using personnel from both places. *That's a mere technicality.*

K: No, I wouldn't mind saying the United Nations personnel in the Middle East and first of all from Cairo.

P: That's better because there are relatively few in Cairo, quite a few in Jerusalem who could come down quite quickly.

K: Well, why don't we say that?

P: We will.

S: You want us to do this or you're going to do it because we don't want it done in two places, you see.

Now, what I think we should tell the Russians is that if they want to make a joint resolution we can make it confirms the immediate cessation of all activities and have a second paragraph on the observer personnel. That part we can make joint. We cannot make it a joint resolution that demands that they return to the prime, at the moment of the adoption of the ceasefire because that's inconsistent with the original resolution. If they ammend it to make it at the time that the ceasefire went into effect we will abstain from it.

S: Right.

I think myself that if you press them hard enough you can get the deletion of that portion and that's what I think we ought to do in order to stay together. K: Hello.

D: Dr. Kissinger. I just got a reply from the Foreign Minister. With regard to the first paragraph we have no difficulty. With regard to the third paragraph, that of the U.N. observers, we are prepared that they should appoint a liaison officer and we discuss the thing on the spot we have no objection. With regard to the second paragraph the return to the original place. The Prime Minister wants you to know that we have intelligence document which we can pass to you as well as signs in the field that they have opened an attack, which all of this they have communicated to their forces to improve their position. They have inflicted on us _____ this both in tanks and personnel. And only then we have reacted and we can document it to you.

K: I understand that but that doesn't change the situation.

D: No, and therefore, as a result of this battle have developed, there has been no marching in the field of what the situation was when the ceasefire initiated. And therefore it is totally impossible for us or for anyone to accept that paragraph two because it is completely obsolute. It is no possibility, speaking in terms of responsibility, and it is in terms of fixing it. So that is why we would--not only we -- nobody would be able to reascertain it.

K: That I agree with but supposing such a paragraph passes. What difference does it make?

D: It makes only a difference in the sense that it would allow the Russians and the Egyptians to demand withdrawal of our forces on some of the possitions that they are right now as a result of the Egyptian violation. That is the point.

K: Because quite frankly, the President feels that if we don't agree. I mean, what they are proposoing we will not agree to which is in a position...

D: That of course is ridiculous because that wasn't even asked by the resolution.

K: Since nobody will be able to tell where that was to begin with it cannot be given practical effect.

D: That is why it shouldn't be adopted this paragraph.

K: But it is important for any future attempt by the Egyptian side to try to grab some territory that we did not insist that the fait accompli is still...

D: That is why we accept the idea of observers. Because only when you have observers in the _____ mouth can you effectively tell whether movements have taken place so I think if I made the argument for the Russians in the discussions should be that now that there are observers a fixed position can be attained.

K: You know what will happen? There will be a majority for that position.

D: For the position of their attempt.

K: We have two choices. If we say withdraw to the position where they were at the moment of adoption of the decision on the ceasefire that's ridiculous. That's inconsistent with the resolution.

D: That shows that....

K: I know, let's not argue about it. The second point is supposing they amend it to say at the time of the ceasefire.

D: That is what we were discussing because the first one I dismissed right away and on this the Prime Minister and the Minister of Defense have a very documented development.

K: My problem is what do we do at the U. N.

D: That's what I said...

K: We can veto the fourth Russian draft. That we can do. We can abstain from when it says at the time of the decision of the caeasefire but we can't veto that.

D: I think the thing is very--if I may, I don't see what difficulty there is to say that before the Security Council can determine who was at fault they cannot demand of any side that we acted through the XXX fighting.

K: Yes, but they could take the position, it doesn't make any difference who was at fault. The easy way to settle it is to go back to the line.

D: But who will determine this?

K: I think it is indeterminable.

K: Hello. David I need you over here but before I see you. I'm at the White House. I'd like your judgment that _____**** Waldheim says he has some U.N. forces lying around in Scandinavia.

P: What he has is a statement by Scandinavian countries... call and bring you up to date their long standing offer to furnish forces.

K: Let's not waste time on that. The Egyptians have called for a Security Council meeting at noon or 12:15.

P: Right. Can I tell you what I think the situation in New York looks like.

K: I don't give a damn what the situation looks like. I want to know what we and the Soviets can propose.

P: Well, the quickest thing would be to see if we can get the President of the Security Council after hearing the parties, to appeal to both sides to observe the ceasefire. After that it is possible to get a resolution passed as in 1967 demanding that the parties comply in violation cease. The latter will be more difficult because there will be considerable tendency to ask for a one sided resolution in which the Israelis will be found to have violated the ceasefire etc. In fact Scali has just told me I was just on the phone with him, that Mollok has not yet received instructioms but of course wants to blame the Israelis for what has happened. And this is the thing we want to avoid.

K: Right.

P: So that I would suggest that if it works that way that the President's appeal is the way to wind up this meeting quickly if we can and then we should see in the hours and days to come where we go from there.

K: How about the U.N. observers.

P: The U.N. observers are on the spot. They've been pushed out of their old observation posts. We know their headquarters is intact in Jerusalem there are some in Cairo ....

D. What are you doing here with Voronsov?

K. The moment he is alone here there is a crisis.

D. When I left Moscow...all the members of the Politburo... Now it looks really rather negative after your trip to Israel all these developments.

K. We had another joint resolution this afternoon.... You agree with the Egyptians on something.

D. The only point which I was surprised you refused to accept was paragraph 2 about the ceasefire line.

K. What paragraph 2?

D. Of the resolution calling for them to return to the position previously agreed upon.

K. First of all that isn't true. The extraordinary difficulty is deciding where the line started. We didn't want to get into a hassle about where the line had been. Finally we joined you. I had to talk to the President.

D. It looks fine again. Were you surprised?

K. I had absolutely no knowledge of this.

D. I think nothing really.

K. Voronsov called me at 10:00 this morning. By 1:00 we had agreed to it. That is not an undue delay.

D. What is the situation in the field?....

K. The Israelis swear that the Egyptians attacked them first. We have no separate information.

D. What is the situation? The fighting continues or stops?

UNITED STATES DEPARTMENT OF STATE
REVIEW AUTHORITY: ROBERT H MILLER
DATE/CASE ID: 12 MAY 2004 200102979

K. I think it stops. We have urged the Israelis in the strongest terms to stop it.

D. Did they begin to...the position as they issued on Sunday.

K. They say they would agree to it. But who knows what that position was. They will never agree.

D. Don't you know through your reconnaissance.

K. We haven't done any air reconnaissance. Lets say we do not know what the actual situation is frankly.

D. You don't know yet.

K. We have sent two urgent messages today to stop and I have had the Israeli Ambassador in here to stop.

D. Brezhnev, when I left....

K. It isn't right for Voronsov to say he had to complain to the Politburo. You can't give us a resolution and expect an answer in ten minutes. It is amazing. We....

D. It was agreed upon by you and Brezhnev that there would be a ceasefire in 12 hours.

K. Your resolution said they should return to the position at the time the ceasefire was agreed upon....We made another not to determine whether we could agree to something that nobody could enforce. The Egyptians say one thing, the Israelis another, you don't know and we don't know.

D. He had to call again to Moscow. He agreed on the second line. Then in a few moments Sisco called.

K. He had no right to do that. I straightened that out. It wasn't easy to get a winning side to accept a ceasefire. From that point on Israel was winning and we nevertheless agreed to it.

D. We didn't make any definition in Moscow as to who was winning.

K. We made a great effort to make the agreement.

D. I am more worried about our understanding than the Arabs....

K. We have spent all day today to get the Israelis to stop and I think they have now stopped.

D. I would like to see you tomorrow. If you don't mind.

K. I think we have the...in principal of the Israelis in our joint auspices.

D. They agreed to this one.

K. Not yet 100 percent. If we can get the prisoner thing settled they will agree to it. I had along talk with the Prime Minister. I have already sent a message to Brezhnev to that effect.

D. Do you think we should talk tomorrow. You are having a press conference tomorrow?

K. No, on Thursday. I also wanted to talk to you. There will be a few ups and downs within the next few weeks. We have settled this in a very diplomatic way....

D. This is exactly the point. All right, Henry. The most important thing is the agreement between you and Brezhnev and the whole situation in the Middle East. If we hold that firm it doesn't matter what happens, we will survive. If we drag this anchor through the winds.---

K. You have known me long enough. I will not trick Brezhnev. That is the stupidist thing I could do. Even if we win this one we could never have a trusting relationship again. We cannot control everything the Israelis do. They swear that Egyptians started it.

D. The question is to stop and continue discussions politically with the Secretary General.

K. That we are prepared to do. I had a meeting with the Jewish community on the MFN issue. We are making progress now. We are going to drop Title 4 from the House bill.

D. It all?

K. Altogether. It is too complex to change overnight. They are going to work with me to work with Jackson to change his Senate bill and when it comes to the House we will change it once more and get an acceptable bill. It was by far the best meeting we have had.

D. Were my friends there.

K. Fisher, Stein and Moss were there....I am telling it to you not to ask anything of the Soviet Union but to give you a sense of the mood. I think we had a marvelous meeting this week.

D. When Brezhnev spoke to you I was next to him by telephone. But he asked me once again to come. He was pleased with the meeting.

K. Tell me one thing....I give you my word of honor I knew nothing about what happened today except....

D. Tomorrow you will call. We can go through what happened in these few days.

K. I have postponed my trip to China.

D. When are you going there?

K. At least a month. At the end of November.

D. What was the reaction of the Chinese? I think they will have more time to prepare.

K. Not very well. They know we introduced two joint resolutions. I will call you tomorrow.

V: (missed first part) message from Brezhnev and reads like that and they haven't received your message yet. They crossed each other.

K: Right.

V: So it reads like that: First, President Sadat has informed us that in the morning on the 23 of October Israeli forces in violation of the decision of the Security Council renewed firing on the West Coast of the Suez Canal and are moving into the southern direction. We would like to underline that Moscow has its own reliable information which proves that this is the fact and that the Israelis apparently decided to widen their bridgehead on the West coast of the Canal. Thus Israel once again challenges the decision of the Security Council. This is absolutely unacceptable. All this looks like as a flagrant deceit on the part of the Israelis. We will express the confidence that the United States will use all the possibilities they have and its authority to bring the Israelis to order.

K: Well, you have our answer before we got your message.

V: That's right.

K: And you can be sure we are in the most urgent contact -- of course, we get the opposite claim from the Israelis.

V: Well, but . . .

K: I just want you to know we do not have independent means of checking it. I think frankly today's order of business should be to stop it whoever started it.

V: Exactly. Henry, and that's the way it goes later on in the statement. I will continue reading, okay?

K: Oh, I am sorry. I thought you were finished.

V: No, no. No, no.

K: How the hell can I win an argument if I let you finish.

V: You won this argument already but I think you will like what I will say further on. So, it goes without saying that Israeli forces in this case should be withdrawn to the positions where they stayed during the acceptance of the ceasefire decision.

UNITED STATES DEPARTMENT OF STATE
REVIEW AUTHORITY: ROBERT H MILLER
DATE/CASE ID: 11 MAY 2004 200102979

Second, President Sadat suggests that the Soviet Union and the United States agree among themselves about measures which would insure physical parting of Egyptian and Israeli forces with the help of the observers of the United Nations.

Three, Sadat suggests in particular immediate use of the United Nations observers and first of all the personnel of the United Nations which was placed previously along side the Suez Canal and which is now in Cairo. That is our point of view, Brezhnev says, that it would be really wise to do so since the personnel of the United Nations, which is in Cairo now, need only appropriate orders and they could be immediately dispatched to the place of conflict.

K: All right.

V: Quickly we suggest that the Soviet Union and the United States urgently submit to the Security Council a draft of appropriate resolution to this effect. If the United States side agrees to that, the draft could look like that and follows the text of the draft:

K: What is it?

V: I am getting to it: The Security Council referring to its resolution 338 of October 22, 1973, (1) Confirms its decision about immediate cessation of all fire and all military activity and demands that the forces of the sides should be withdrasn to the position where they were at the moment of the adoption of the decision on ceasefire. (2) Suggest to the Secretary General of the United Nations to immediately take steps for immediate dispatch of the UN observers to supervise the observation of ceasefire between the forces of Israel and Egypt, using for that purpose first of all the personnel of the United Nations which is at present in Cairo.

K: All right.

V: Period. And the last line says that Mr. Brezhnev would like to underline to Secretary Kissinger the urgency of these matters. . .

K: Yuly, I don't have to check this with the President because I know he agrees. The only suggestion I have -- I have two suggestions.

V: Okay.

K: One, could we delay the start of the Security Council meeting until 2:00?

V: Easy.

K: So that we could get our delegates together.

V: Okay.

K: Second, I would recommend deleting from the instructions "withdraw to the line they occupied" because it will lead to endless debate. I don't think anybody gained a hell of a lot. What could they have gained in a few hours?

V: Well, obviously they have gained something. Otherwise our side wouldn't raise this question.

K: I don't know the situation and I have no basic objection to it.

V: It would be better, of course, to keep this. There will be agruments, exactly of a half a mile or something like that but politically that will be expedient of course to urge that everybody would return where they were last night.

K: Of course they will never agree on where they were last night so it doesn't make any difference.

V: Well, let them argue -- not fight at least.

K: Look, I agree and I will instruct Scali immediately. You can inform Moscow.

V: Good.

K: That we agree -- that I urge that the meeting be put off at least until 2:00. We will inform the Israelis if you will inform the Arabs.

V: Okay.

K: I will instruct Scali in this sense and we will agree to this resolution.

V: You will agree to this resolution.

K: We may have a word about "withdraw to the Line" but as long as we both understand this that is not going to be easy to enforce. I am not going to quarrel about it.

V: I think in Moscow they gave some attention to this phrase so we better keep it here.

K: Okay. Now we are sending over to you an oral message for the General Secretary about the appropriate auspices issue.

D: But, but, Mr. Secretary, I am telling you exactly what is happening there. As I was on the way to phone you they told me that you were looking for me and I will give it to Eagleburger in a very orderly form.

K: Okay, will you do that.

D: Right away.

K: Okay.

D: Thank you.

D: Yes. Not only this. Even now the message is that we are not shooting except in self-defense. Except in return. We are not initiating any action. We stopped right away.

D: What did he do?

K: Well, by announcing everything you took yesterday.

D: I talked to them about this, too, and they said if was a situation of the correspondents, but I wil check. Did he talk himself, or . . .

K: Well, no, the Defense Ministry announced the strategy which I had proposed is now impossible.

N. Now that you have your ceasefire abroad, how are you going about a ceasefire at home.

K. I have been calling various people again. I had a long talk with Jackson and the primary thing is to keep our authority and if he is that interested in Israel he better get in line. And I called Humphrey.

N. Did it do any good? Jackson is going to have egg all over his face. Detente did this and now we are the only ones who can negotiate with these thugs.

K. We have to win this domestically....criminal activities at the moment of a diplomatic triumph you would have to fight for your political life. What did you do?

N. Nothing. By turning the tapes over there can't be any doubt.

K. Your Attorney General stabbed you in the back.

N. Yes, after he and Irwin and Baker had all agreed this was a good proposition. Cox turned it down.

K. The worst you can say is the firing of Cox was a tactical mistake by being too early.

N. The point is that Cox was given an order and he defied it. If you defied an order when you were negotiating with the Russians you would go down too.

K. I didn't mean that. The worst charge you can make against the President...I wouldn't make that charge but to make a national crisi of that issue....

N. We have cooled the issue somewhat by the Sirica thing. They are not going to get another Special Prosecutor.

N. Not with the authority to investigate the President. That is what Richardson sold out on.

K. He picked the wrong man. Then we gave him a charter which gave your most violent opponent his...to go after everything even if he couldn't get an indictment.

N. Anyway, how about the others. Any sympathetic voices.

K. Yes, Jackson and Doc Morgan is totally sympathetic and I am asking them to call their friends. Humphrey was basically sympathectic but he is such a weakling. I reported on what happened and what you did. That this thing is on a razors edge and we need the full authority of the government and keep in mind what is at stake.

N. There was a time, Henry, when a person in your position could call an editor of the New York Times or the Post and say we need this now and they would turn cartwheels. We don't have that now. The idea that you came back with a diplomatic triumph of first order and they don't pay any attention.

K. It was the biggest triumph in many ways. It was a very difficult situation and then you pulled it off. It was your decision to push in the chips. I did a lot of finessing but you....

N. I hope you make that point to the leaders tomorrow. You must say to the group that 'I came into see the President and told him you are going to get as much blame for 3 as for 30.

K. Everything Mr.President, that you said to leadership came out just exactly as you said it and I will never forget it.

N. Well, keep fighting. I will do the press conference tomorrow night. You'll...make the evening news. I will go on at 9:00. It is really pushing the President to go on and get kicked around by those bastards....

K. The break-in at the Watergate was a boy scount prank and the coverup a second rate effort and to back up....

N. They are doing it because of their desire to kill the President. And they may succeed. I may physically die.

K. You are at your best in adversity.

N. We will see. It will be tough tomorrow. I will not give them an inch. I can't be up to what I was in San Clemente because then I had a few days rest in Florida. I'll be all right. I'm frankly just very disgusted. It isn't just the press. The people aren't really as bad. What it is is the leadership in the ivory towers in New York and the Times and the Post. They are destroying the country. They were all McGovern supporters....

K. This weekend was one of this country's diplomatic triumphs and Time only gives it one paragraph. You can say it broke late but Cox broke late and they managed to give it six pages.

N. What they care about is destruction. It brings me sometimes to feel like saying the hell with it. I would like to see them run this country and see what they do.

K. Can you see Carl Albert in this crisis. He would be running it from Walter Reed. And Gerry Ford, fond as I am of him, just doesn't have it.

N. The real tragedy is if I move out everything we have done will crumble. The Russians will look for other customers, the Chinese will lose confidence, the Europeans will...They just don't realize they are throwing everything out the window. I don't know what in the name of God....Stu Alsop and Joe, even our friends won't step up to it. They ought to be shamed into it. Well, don't waste any time on them. Just talk to the networks.

D. Because as I mentioned to you when I was in Moscow it was completely out of the question to send any troops. Now they have become so angry they want troops.

K. Why through us. What was achieved?

D. You allowed the Israelis to do what they wanted.

K. When this first operation started I pleaded with you to get people to return from the lines and it took a week.

D. It was already agreed upon by you and Brezhnev....

K. Be that as it may, if you want confrontation we will have to have one. It would be a pity.

D. You know we don't want to have a confrontation.

K. It is inevitable that there will be mutual charges in the first 24 hours of a ceasefire. We introduced two joint resolutions....

D. I will send this but I am sure this was what he received... I will send it right away but I am sure they discussed it and put the instruction this way. I just didn't want you to think....

K. But you have sufficient influence on the non-committed to prevent this resolution from being put forward.

K. .....

R. Well now, I don't really feel that way. If I think something important has happened over the weekend. ....

K. I was talking about foreign policy. I called you about a point of honor. You said I had tried to persuade my good friend Richardson not to resign because of national security. This is absolutely untrue as Elliot will confirm if you call him. I saw him only once during the week for lunch, at his request, to discuss general foreign policy problems. I had no reason to tell him anything. The whole evolution was unknown to me. The lunch came about because at the unveiling of Ford he said you and I haven't really had a chance to discuss foreign policy, so I invited him to lunch. We did have a brief talk as friends about cabinet offices in this period and our conclusions would have led Elliot in the direction he took on Saturday rather than the opposite. In short, neither directly nor indirectly did I get involved in the decision.

R. Of course I saw McCloskey....of that message in my piece this morning. I think what happened....

K. I don't want you to rectify it. I just want you to understand that nothing like this happened. You can call Elliot.

R. Of course I take what you say at face value.

K. I am sure Elliot will support it.

R. It you tell me it's good enough. Let me explain how it was played. In reconstructing what had happened in those critical five days in order to be faithful I have to be vague. Al Haig was pressing upon Elliot and upon Ruchelshaus very strongly on the foreign policy question.

K. I didn't know that. If it was done at all it was without my knowledge or approval.

R. In the private information that was given to me about how strong this pressure was the point was made that he had not only done this directly to Ruchelshaus and Elliot but had involved you in it because of your friendship with Elliot.

K. That is not true.

R. I will correct it Henry if you feel---

K. No, it's important but just really for the seriousness of our relationship the only subject that Elliot and I discussed at lunch was that our feelings at this time about Cabinet officers should do what is right and not drift because only in that way can we restore public confidence. That was not related to any specific event.

R. Of course, I was told about the lunch and it was used as evidenc on the assumption by my informant that the same thing that Haig was doing. And by the way he doesn't come out of that story very well. They had involved you.

K. Elliot and I had been meeting regularly in every position he had had because of our friendship. I left Friday night thinking that tape problem had been settled.

R. By the Stenis compromise?

K. I know very little about it. I was only told around 7:00. I was told that Richardson supported the compromise. Whether it was good or bad it seemed acceptable. I was in Moscow when I heard of the....

R. You are pushing. It was done. The only question is if you want me to correct it.

K. It was only one sentence. If you find sometime to wrap it in something else.

R. When there are recapitulations of the extraordinary chapter of the last few days it can be picked up and I will see that it isn't picked up.

K. I don't know what I would have thought about the Stenis compromise. I have not had time to analyze it.

R. I don't think I have much doubt about your answer.

K. I addressed it as a solution and not a problem and was glad to have all behind us.

R. It is not behind us. The problem now is while the presentation of the tapes may exonerate the President they open the gates to jail of a lot of people who didn't know there were any tapes and for them to get into this position when they thought they were just carrying out orders, they are going to sing. You think we are going to get out all right.

K. We have a little crisis tonight at the UN. The Soviets are toying with the idea of calling for dispatch of Soviet and US troops.

R. And if it is made?

K. We will veto the sending of any troops. The Forces will be either so huge as to overpower the other two and threaten the peace or it small to have any effect.

H. That is too....Why would Sadat come up with that.

K. Because he is desperate.

R. When you have some time I cannot let you go without saying one thing. I have seen a lot of press conferences and.....by Richardson. It was conducted under enormous pressures, emotional and otherwise, with more dignity and lucidity. He became a Presidential figure in the middle of that.

K. The principals, the WSAG now practically is the principals.

H. Have you talked to the President?

K. No, I haven't. He would just start charging around....until we have it analyzed.

H. It seems to me if the Soviets have acted in good faith in your judgment and if this would quiet it down, it is not going....and if it would be necessary to put a joint force in there I am not so sure it is totally tragic in the....I think they caused it to have a Soviet force in alone.

K. Right now it would be an absolute storm in the U.S., a storm in Europe and eventually operate against the Israelis. In other words they would have to attack us to get at them. I would rather put our force in after they put theirs in.

H. There could be committments, discussions, and willingness. What we don't want is to have them go in. I am afraid there would be some fighting and then we have a problem.

K. What do you mean?

H. Between the Soviets and Israelis. Isn't there some way of deciding the modality? If we go back tough we have to be prepared to be really tough....

K. You cannot be sure how much of this is due to our domestic crisis.

H. I think we owe a lot to that.

K. I don't think they would have taken on a functioning President.

H. They wouldn't. The only way we could do this if it is necessary to put something in there....Convince the leadership in the morning to work out modality in the meantime. If the peace-keeping forces that I cannot think....It even brings us together even more than the resolution.

K. It would wreak havoc with the Chinese and the Europeans. The bastards may have originally had this in mind as a way of getting in there....We sent him to the front today. If Schlesinger sent him to the front....

H. The Israelis were very, very believable from what I heard from them today.

K. That is what I believe.

H. But if they have lied to us....

K. Yesterday they trapped the 3rd Army. That army is probably starving to death right now.

H. They are all on the East Bank and have no supplies I presume.

K. There was one road also which Israel cut.

H. That is not that big an area that they cannot handle that. To let that unit survive and get the hell out of there if it has to. In any event the key point is questionable. You can work a peace-keeping force....

K. Jackson has already called this afternoon protesting violently.

H. Any conception of that?

K. Yes.

H. How did he know that?

K. It leaked out of one of my meetings.

H. On top of our other problem it could be the end...or the beginning.

K. Don't forget that is what the Soviets are playing on. They find a cripple facing impeachment and why shouldn't they go in there.

H. If they do and start fighting, that is the serious thing. They go in there and that....They genuinely believe Israelis are.....I am sure the Soviets are on the ground all over the place.

K. Sure, they have their intelligence.

H. It is really a question of Israelis leveling with us and if they say....

K. The Israelis yesterday grabbed a hunk of territory and cut the last supply line for....Today the Third Army has been trying to cut its way out and has failed. That is the problem.

H. O'k.

K. I don't believe that the Israelis started it.

H. I don't after Dinitz.....

K. That was the issue. If the Russians had wanted to play fair they could have had the Israelis return to the original line rather....

H. It seems the Israelis must have.....

K. I told Dinitz to come up with some offer we can make. It will be hard as he will have to justify it. I don't think we should bother the President.

H. Are you meeting at the White House or--?

K. The State Department.

H. He has to be a part of everything you are doing.

K. Should I get him up?

H. I wish you would hold it at the White House.

K. All right.

K.. I think we have to go to the mat on this one.

H. This is a reaction to your tough response?

K. No, we just said we would veto any UN resolution. What they said is they would join if someone else proposed it.

H. Where are the Israelis at this point?.
K. They've got the 3rd Army surrounded.

H. I think theyre playing chicken. They're not going to put in forces at the end of the war. I don't believe that.

K. I don't know...What's going to keep them from flying paratroopers in?

H. Just think of what it will do for them. Of course, their argument is that Israel is not complying.

K. I think the Israelis should offer to back up. That is dangerous for they might insist they back up beyond the point where they were.

H. We don't expect the Israelis to take that sort of thing.
Do the Israelis know. I mean, have you brought them along?

K: Hello.

D: Henry, we have the following message from Brezhnev to President Nixon.

Mr. President:

We have precise information that the Israeli troops are attacking now with tanks and military ships on Egyptian forces on the western part of the Suez Canal. They are trying to capture this port by violating the UN Security Council decision on the Middle East ceasefire. At the same time Israel's military forces are attacking on the Eastern part of the Suez Canal and again Egyptian troops to the south of the Canal. These violent actions of the Israelis were taken only a few hours after the Security Council once again confirmed their decision on a mutual ceasefire and after your very firm statement made to us that the United States would take the full responsibility to assure the full ceasefire from the part of Israel.

Mr. President, we are sure that you have responsibility to make clear to Israel that the troops should immediately stop their actions of provocation. We would like to hope that you and we would be loyal to our words which were given to each other and to the agreement we have reached with you. We would very much appreciate your message about the steps which are taken by you in order to insure that Israel will obey the second Security Council decision. Respectfully,

K: Thank you, Anatol. Now we will send you a message within a couple of hours on the substance but you can already tell him the following: We have told the Israelis that a continuation of these operations will mean a total reevaluation of our relations including supplies. Secondly, we have demanded that they stop the action. Thirdly, we have demanded that our own observers see that they are not on offensive operations until the UN is in the _____. Fourthly, the President has personally called, in the last five minutes, the Israeli ambassador and has made the same point to him.

R: Fine. Henry, congratulations. You're doing a terrific job. God, I can imagine.

K: I couldn't tell you how saddened I am. I consider you one of the guarantees of virtue in this administration.

R: It is sad.

K: I understand.. and while I didn't know the issue then, the principles we discussed would have led you in that direction.

R: I think that's right.. One of those situations that enfold inexorably. There were points along the way when a different course might have been taken.

K: I didn't understand why the compromise had to lead to the firing of Cox.

R: It didn't. If you read my letter to the President, you'll see why I urged on Friday to prepare compromise and let the .. suggestions from the Hill and American people.. there was no need to couple with it the ultimatum to Cox. They didn't need to do that.

K: That could have been done two or three weeks ago. If that had happened it would have been Stennix versus Cox and on that you would have supported the President. The thing that bothers me is that Murry Marder and Scotty Reston both alleged that I tried to dissuade you from your course.. Now, our meeting was at your initiative and as far as our discussion of general principles, it would have led you in the opposite direction.

R: .. your name was used loosely over the weekend, but I don't think..

K: I would have thought the principles that we discussed at lunch about the proper conduct of Cabinet members would have led you into the direction you took. And since I didn't know what was going on until I was in Moscow and informed of it 20 minutes before it took place, my name couldn't have been used without my authority.

K: The only point I insist on is that I didn't make any..

R: I believe you. I never thought you did.

K: When I left I had no reason to suppose anyone was moving in on Cox. Haig told me you were fully aboard on this.

R: I was aboard on the Stennis proposal and going aboard even if Cos shouldn't accept it. I was not aboard on Cox getting the ultimatum.

K: I thought you were even aboard on that. But I didn't talk ... anything about national security.

R: They gave me a big pitch on Monday about things being so sensitive .. the Middle East.

K: Oh, yes.

R: I knew about that. At the end of the week when I was to fire Cox, and..

K: I consider that a reasonable argument. My only point is that I am not involved.

R: I understand and know you're not and I will

K: The only way this country will get through this is to have some areas of policy where this country is right and my point is when I talk to someone it is my perception of the national interest.

R: That is true. I get the Post, but I don't see the Times.

K: Marder implied it and Reston said "even Kissinger's old friendship..

R: Do you want me to call him?

K: It would be nice. Or I'll call him and tell him to check with you.

R: Why don't you do that.

K: OK, but beyond that, my experience with you is at the highest level and I want us to stay in touch.

R: I feel the same way. I think I'll be around..probably writing.

K: If you'll be around Washington, why don't we make it a point to get in touch

K: as we have in the past. Maybe you'll be able to give more of your time to foreign policy.

R. Listen, how are things?

K. We faced them down.

R. You got them not to put in troops?

K. That's right.

R. I don't know how you did it. I was so worried this morning when I heard this. You got it in hand.

K. Yes, unless they break loose again.

R. That is fantastic. I heard that you had mobilized the military forces the world over.

K. They sent us a note last night saying they would put in forces unilaterally if we didn't go in with them. We refused to reply for 10 hours, mobilized, and sent them a reply.

R. Well, if you ever deserved a treat from Kenny Riland.....
(The rest of the conversation was about having a treatment from Dr. Riland, when he was arriving from New York, and the fact that he could come over the State Department or to the Secretary's home any time he wished.)

K: One other matter it is important for Moscow to understand, if this matter of our introducing airplanes becomes enormous issue, I'm sure it is obvious to you it will be necessary to (a) explain the delay, (b) prevent exacerbation of relationship. Don't have to do it before Monday, but...

D: Henry, we know this quite well, the trouble is with American public opinion.

K: Don't treat it as a threat now.

D: I didn't intend it as a threat. But Henry tell me, what do we do, realistically? What do we really do? Put yourself on our side. What do they, we do in the framework of the bigger relationship?

K: I will tell you what could be done now. _____ Resolution first, second should be guarantee withdrawal until '67. Israel has stated clearly they would not accept '67.

D: What about in the UN?

K: We think it would be better to negotiate it directly. Otherwise it will force the U.S. to betray allies in the UN or get into a totally violated position.

D: But Henry, we should say to Arabs you should accept Israeli or American resolution? What do you do?

K: If you had not sent in all those airplanes....Now Podgrony and Gromyko made imflammatory remarks to the Arab Ambassadors and we know about Brezhnev's message to Boumedianne. And sending 40 airplanes does not help the problem, it only exacerbates the situation.

D: Henry, I want you to know we have talked to no government against you. We have done nothing to exacerbate the situation.

K: Obviously you have exacerbated the ah..situation. No limit to what can be done. Do you think the Israelis like to be told to go along with a cease fire in place, should they agree?

K: Sen. Jackson implied _____. not break down in National Security policy.

D: What he is doing now?

K: He's introducing a resolution some time soon. He called this morning, and Israel must have talked to him. Sen. Javits must have talked to him. Much more comfortable to say we tried to wrok with the Soviet and the Soviet Union violated the proposals. So far no European.

D: Anyway the question is really about the resolution, so we don't agree.

K: We can go back to what we had agreed ...back to the 242...say something about negotiations. I have not idea, but if haven't done something by 4:00 this afternoon, we plan to go ahead as planned. H. Not the Jewish leaders--

K. Well, the Jewish heads of organizations. You know that this is going to backfire.

H. Of course it's going to backfire. He had another item that I thought was a good one. As I look at this damn news tonight Jackson really helped us there.

K. I am beginning to think that Jackson is a menace.

H. I agree. The President said to "Tell Henry to send a message from me to Brezhnev.

K. Not at all. Let them sweat.

H. I agree.

K. They played chicken with us and they lost.

H. Have you seen that report about the amphibious force going in. They had a whole flotilla going in to Egypt and they pulled away.

K. We came so close to Soviet military intervention as we can get. Have you seen the Brezhnev letter?

H. No.

K. As I remember I gave them some tough answers.

H. ....The last guy did it. That was just great where you took the media on.

K. About undermining the country?

H. Yes, it was really a first-class success. I just wish we had a spokesman as soon as you with some sense.

K. I think he came out fine on this.

H. Thanks to you. Last night was something. I got home and told Pat....

K. Nothing compared to this morning. The President called me out of the leadership meeting and they wouldn't leave. Schlesinger said they just sat around bitching until I kicked them out and said when I leave a meeting it ends. Off they went and bitched in their own Departments.

H. I bet. Well, those were the two items he wanted me to bring up.

K. What was the second?

H. The second was to send a message from him to Brezhnev to tell him that Jackson has blown this out of control and wants him to know it doesn't come from us.

K. Jackson is disgraceful. I may call Dobrynin later this evening and discuss it with him. You know, if they had moved it would have been more dangerous than '62.

If Brezhnev really believes that this is immenint as a result of the Israeli posturing after the Egyptian forces (to consolidate) at the Canal, he may have well been obliged to intervene unilaterally to save the Egyptians as well as his own prestige." Then he goes to say that he suggests there are three things that might be done urgently to hold the conflict situation down. First is to dispatch to the Secretary General of the United Nations as many observers as possible. Secondly, ~~xx~~ the start of the negotiations as envisaged in para 3 of 338 and thirdly, the resolution of the negotiations as the first type of a problem which endangers the whole situation namely the _____ of the Third army. Now I don't know whether there's any possibility of being able to do any deal between you and the Russians.

K: We are in communication with the Egyptians and they have now indicated that they would settle for an International force. If that is true we will support that.

W: Thank you, well, quite busy. I am very grateful for returning the call. I have, of course, spoken to Joe Sisco and informed him, but I wanted to keep you informed of the situation here. The situation is that as you know, the Russians got instructions to accept the new American amendment. Only the French position is reluctant. The French Ambassador was just here and he said they would ask for a separate vote on the amendment.....excludes the permanent members. They will vote for the resolution, but ask for separate vote on the amendment in order to show they are not in agreement with this.

K: You are in no doubt, Mr. Secretary General, that we will veto any resolution which doesn't have it in it?

W: Yes, I was informed of this by Joe Sisco.

K: We will not compromise on this.

W: Yes, that is understood. No problem. Any more, non-alligned .....change and the Russians, only the French want a separate vote

K: Well, that's their privilege.

W: But, after that, the French will vote for the resolution as it stands.

K: Excellent. There is one other thing that concerns me, Mr. Secretary General. We are fundamentally opposed to the introduction of any East European contingents, any communist countries. There must be enough neutrals in the world to do it. If there were Eastern European countries it would produce a crisis of confidence here, if any contingents from communist countries were included.

W: Well, there is a strong trend to have in addition to the Nordic countries one African, one Asian like Malaysia, African like Nigeria.

W: I am very grateful. That will be particularly needed. The latest development which I discussed with Scali here. Egypt wanted another meeting after the resolution was adopted, which should be in the next hour, to discuss my role in implementation of the resolution. I agree with Scali that it's not a very good idea to have this evening another meeting. Instead, I intend to write an interim report, in the form of a letter to McIntyre and....., proposing as an immediate ..... measure, I could send.....to the Middle East, Cairo.....dispatch quickly to the area three contingents, three neutral contingents from Cyprus, that is the Finnish, Austrian and Swedish, each battalion has about 200-280 people.

K: That sounds reasonable to me, if they're from Cyprus, and that's on the regular budget.

R: (On your press conference) you looked awfully tired. You must be exhausted.

K: I was up until 4:00.

R: I have had great difficulty with this decision last night and I guess my difficulty with it is this -- it was put to you at the end and I understand that you cannot really answer the thing in public. The question that I thought was the critical one and the one that bothers me is the evidence given for so important an act seemed so flimsy as not to be credible. Here it seems to me that there is a real problem.

K: That may be but if our country has reached the point where people think that the government orders an alert for other than overwhelming reasons then we are in an impossible situation.

R: That is the prior question. That is not my question. I am assuming that you had reasons and that you had justification and you did not give them and you probably could not give them.

K: Let me tell you why I did not give them. That would have produced a direct confrontation between Brezhnev and the President in which we would have a score card of winners and losers of the record which I did not think proper in the situation. Since we are still in the situation although it is easing now in which we wanted to prevent an irrevocable Soviet act -- if you read what I said -- it is clear that I was trying to prevent an irrevocable Soviet act by my press conference.

R: I think that was clear and at that point I think you got over quite effectively. I am saying now that the vote has been taken now and they voted for the resolution. I think

K: We had very strong reason to believe that there was a good possibility that they would put their own combat forces into Egypt and early next week I will be glad to give you the evidence.

R: Don't you think it should be donw now without any involvement of the government. If we could say on our own authority, I think it very important.

K: There is no way I can give it to you. I can give you one piece of evidence which you could have gotten from others. They alerted 7 of their 8 airborne divisions and pulled all of their transport planes to where these divisions were but there was some collateral evidence on top of that that made it extremely ominous.

R: Seven of their eight airborne divisions were alerted. Were they moved?

K: No. They were put on high alert. You don't have to move them. Once they move them, it is gone.

R: Then suddenly the transport into the Middle East which led us to believe their airtransport was to be with those divisions.

K: And there was another conclusive piece of evidence which I cannot give you.

R: In other words the transport would have stopped the actual transport into the Middle East. This looked like diversion of that transport to airlift the troops.

K: Right.

R: We cannot name places.

K: No.

R: That is something.

K: I tell you even that is the less conclusive part of what concerned us. That I would like not to talk about for a bit. I think and I am confident you will recognize why I won't when I talk to you about it sometime.

Secretary/Lord Cromer

C. I thought the President was absolutely great. By allusion to the State Department remarks this afternoon, I think you might have a hornet's nest. I was at a lunch today--as you know, I have no complaint, but they were full of complaints over no consultations on anything. So when the President goes on the air and says he has received less than cooperation from the Europeans, this can cause a lots of unhappiness. I know what..

K. Well, we are willing to take this, Rollie. We have just about--the Europeans have to face the fact that the President is fed up.

C. They weren't called in to be told.

K. That's not true of you.

C. That is what I am saying. I am ringing you up as a friend, not as an Ambassador. I have no complaint whatsoever. I'm ringing just to say you might get a blast.

K. Let's be honest. We could have consulted to the devil and back with the Europeans and they would not have changed one iota.

C. That might be true. I am not getting into the right or wrong of the thing. From what I heard at lunch today they are pretty unhappy.

K. We might reach a point where on both sides of the Atlantic there will be a need to reassess U.S. relations. Let me tell you what is irritating the President: refusal to put " " in the declaration. The whole declaration is not worth fifty percent of the effort they put in it.

C. I'm not making excuses but it will not translate into that language. If you look into the technicalities..

K. They refused synonyms. I have told my people to stop pushing it. If you accept--if we accepted it exactly as it stands that wouldn't make a tinker's damn one month from today. If we accepted a five times revised draft it wouldn't make a difference. We're getting a blast but what can we do?

C. When you ha vetime I would like a half hour, just you and I together, because I think we are getting to a crossroads in time.

K. I agree.

C. Could be we could help more. But I think you will be getting a brick bat from this.

K. Did it bother them more than McCloskey?

C. No. I think McCloskey was very upsetting. There is no problem, except people. There's much more amour propre now.

K. What McCloskey said is that we are surprised our allies separated themselves publicly from us.

C. Well, you say that. It isn't quite that simple. They will always put their interests first--as would you and as would we.

K. Mr. Ambassador, this is a call not as Secretary but as a friend.

D. I understand.

K. We are going to get a hot line message within an hour. I just wanted to tell you it is my honest judgment if you don't move in some direction to get serious mention on the enclave you will lose everything.

D. Maybe I don't know what your suggestion is.

K. My suggestion this morning was to offer some time... You should know once the President is involved he will order that we should join the others because we have nothing to hold on to. It is water over the dam at this point.

D. The supply business? That is what you mean?

K. The supply business or something else Israeli ingenuity could produce. His suggestion is a negotiation.

D. I told you that is what we intended to offer them.

K. You told me it might be. I didn't know you wanted us to pass it on to them.

D. We don't want to reveal all of the cards. Maybe I didn't make myself very clear. I did not mean for you to withhold it from them.

K. That would be considered humiliating and it's just as well. I know what you are trying to do. Maybe you should play it your way for awhile and they may buy it.

D. We have a mutual friend and he just called me on the direct line and he said something that I wasn't going to tell you. But since you called, he said tell my friend, Henry, that if Golda Mier or any other government opens this route he will not survive 24 hours in Israel. I didn't....

K. The tragedy is that my judgment is that Israel will lose everything on this route but it is better for them to be raped and forced than to make it as a decision.

D. In this embassy we have three girls who lost either a brother or a cousin in this fighting. This is an example of what it has done to

UNITED STATES DEPARTMENT OF STATE
REVIEW AUTHORITY: ROBERT H MILLER

our country. In the closing of this route we have lost scores and scores of lives. If we open the route, we vitalize two or three divisions that will be a threat to our bridgeheads. We know what their intention is as of this evening. They are threatening us and the President of the U.S. We cannot let them execute these plans. We are not trying to....We cannot afford to have this army revitalize and they will be. They have the missiles and tanks ready for reloading. We saw them and we have tapes as of this afternoon.

K. I am trying to tell you it doesn't make a bit of difference. You w ill be forced if it reachs that point.

D. The Prime Minister asked if she should write a message to the President.

K. Write if it makes you feel good. It is almost totally impossible....

D. We are prepared to release them but should we...them. Should Israel take these enemies...

K. There is one...that you can hold the road after the ceasefire.

D. It is not a realistic argument here. The Soviet Union decided they cannot have the Egyptian army humiliated so we are trying to.....

K. Let's see what the hot line message says. We don't know what it says yet. We may not have a problem. I am honestly very pesimistic. At least there should have been a proposal that is being considered.

D. By the way, now we have allowed the Red Cross to go in for the wounded. This evening.

K. You know I am on your side. If that 3rd Army could disappear tonight nobody would be happier than I. I have no interest in the 3rd Army, but this thing is going to get too big for us. It is my judgment but in no official capacity whatever. What I advised you this morning I advise you as a tactic for what I was sure would happen. It hasn't happened yet. Let's not worry about it now.

D. We will wait and face the situation as it comes. I don't think we have any other choice.

K. I think you have practically....If you turn out to be right I will celebrate with you.

D. In any event we will celebrate that you were wrong.

K. Never have I more wanted to be wrong.

D. This is the only thing that keeps me believing is that we can work together with this.

K. You won't be pressured one second before it becomes inevitable.

D. I appreciate it.

And judgment will tell you that we can't see the importance of the composition of these forces, the United Nations force, is an important element, so we believe that these forces would be composed of the contingents from the, as you call it, communist and socialist countries and that this termination couldn't be justified in this particular case. We mention this because amongst other measures of relief, it is not quite clear whether to do so as if the American representatives are observant against inclusion in this personnel from the socialist countries.

K: Why don't we let them argue about that in New York.

D: Yes, but it's important for them to know, to get some instructions, because otherwise they will argue for another recourse. They will say they don't know how many it will take.

Fighting broke out..They have the impression that this is beginning of a new attack against the 3rd Army and that is against the Security Council resolution and then he said the 3rd Army will not surrender. They will keep fighting. He was very emotional. First essential step is return of Israeli forces to line occupied on 22 of October as demanded by the Security Council resolution. If this doesn't happen, Egypt will have to extricate 3rd Army by other means. and no question of POW exchange for any country...this is turning point. K. I will give you the President's reaction. Right now if you want it.

D. Sure, I will go back to my office. Just a moment.

K. Let me give you the President's reaction in separate parts. First he wanted me to make it absolutely clear that we cannot permit the destruction of the Egyptian army under conditions achieved after a ceasefire was reached in part by negotiations in which we participated. Therefore it is an option that does not exist. We will support any motion in the UN that will...Secondly, he would like from you no later than 8:00 a.m. tomorrow an answer to the question of non-military supplies permitted to reach the army. If you cannot agree to that, we will have to support in the UN a resolution that will deal with the enforcement of 338 and 339. We have been driven to this reluctantly by your inability to reach a decision. Whatever the reasons, this is what the President wanted me to tell you is our position. An answer that permits some sort of negotiation and some sort of positive response on the non-military supplies, or then we will join the other members of the Security Council in making it an international matter. I have to say again your course is suicidal. You will not be permitted to destroy this army. You are destroying the possibility for negotiations which you want because you are not making possible.....

D. Your proposal to let the army go is very close to our proposal.

K. You can make any proposal you want to us and we will transmit it. We are not transmitting anything to the Egyptians. We have not had an answer to the last message, but that only went out two or three hours ago. Maybe it will turn out they will accept your proposal and I will have a drink with you. As it stands now it is our official position that if you do not make some proposal along these lines, we will have to go along with the majority of the Security Council. We can probably make a proposal and you can delay the implementation of it on practical grounds and get a little more time.

D. If we make an offer on the supplying of non-military supplies?

Maybe the Egyptians will be so desperate they will accept your proposal. It is not my judgment. It is inconceivable that the Soviets will permit the destruction of the Egyptian army and that the Egyptians will withdraw their army. It will bring down Sadat. It is not something he will agree to.

D. I am not authorized or feel competent to give advise. But why can't I answer that Israel offers to let this army go intact with all side arms but cannot have 200 tanks go with these people so they can go back on us.

K. The agreement was ceasefire in place. Now they won't accept losing all that equipment and giving it to you.

D. They can blow it up.

K. You are asking them to destroy 200 tanks and pull their army out. They will never to it and the Soviets won't take that. Why don't you bluff for a day and see if you can get it.

D. That is what we tried to do.

K. If that is going to be your formal answer we will of course transmit it. It can be under no....

D. Mr. Secretary, if I asked my government to transfer to you the military plans we were able to obtain about the defenses of this army, will it make any difference. What is their operational plan?

K. Right now I don't think they have any plans.

D. They do as of today. We have it on tape.

K. That is their way of breaking out.

D. If they want to break out and go home we could help them. They don't have to kill our people. Their plan is to cut us and fortify themselves with tanks and missiles. It is suicidal for us in either way.

K. It is.

D. 10,000 tons of supplies that the Soviets have provided them. Twenty-four hours and we would have to rush to you like last Friday night.

K. I have given you the President's views of the ceasefire agreement.

D. It is not we who force your confrontation with the Soviet Union. By its actions they have forced it.

K. If the Soviet Union did this to you or Egypt after a ceasefire agreement I would urge on the President the most drastic measures.

D. We did not do this without them fighting us after the ceasefire. You say it's immaterial. The note of Brezhnev is full of mistakes and you know it, Mr. Secretary.

K. I know only the basic situation is produced by bottling up of the Third Army, and I think you can make demands that no additional military equipment go into there.

D: You wanted me.

K: The Egyptians have asked for a SC meeting tonight. They have now made another appeal to us from Sadat and from New York -- El Zayyat through Waldheim in which they say the Third Army will never surrender no matter what you do and that they will take drastic measures if you continue blockading them. They don't care what line you go back to. They won't quibble about that and they are willing to talk about prisoner release and other matters. It seems to me you are going to come to a crossing point tonight of either making concrete proposals or. I tell you this as a friend, I have kept this from the President who is preparing for a Press Conference. I don't want him to say something you will regret. I have no doubt what he will do when it gets there. We also have a hot line message coming in from Moscow.

D: Can I tell you what the military situation is. I will not elaborate.

K: Our own information is that you did not start it.

D: Thank God.

K: But that does not make any difference. What produces the fighting is that they are desparate.

D: Absolutely correct. They are attempting to break out.

K: Why don't you let them break out and get out of there.

D: We would be willing to let them break out and go home but they are not trying to break out and run. They are shooting at our forces and...

K: Why can you not let them take the tanks with them. The Russians will replace them anyway.

D: We will not open up the pocket and release an army that came to destroy us. It has never happened in a history of war.

K: Also it has never happened that a small country is producing a world war in this manner. There is a limit beyond which you cannot push the President. I have been trying to tell you that for a week.

D: We are not trying to push the President.

K: You play your game and you will see what happens.

D: The PM is sitting now on suggestions on what to do.

K: I am suggesting to you to make a constructive suggestion.

D: I understand and I asked you if you have any thing in mind.

K: I gave you what I have in mind.

D: About the food.

K: That while talks are going on you permit non-military supplies to go in there and perhaps you can establish the principle that no military supplies can come in from the road and you pull back from it.

D: One of the suggestions from the PM as I left the phone to come to you is that she thought she would send to you Gen. (Riva?) with a complete proposal of how to solve the situation.

K: That would take ten hours.

D: At least. She thought he could convey that would mean either swapping people, territories. Things that would solve the question. We cannot let them out without getting something in return.

K: That is right but you have to buy time for this discussion. We will be glad to propose that there will be immediate discussions between you and the Egyptians to solve this problem. We are willing to be cooperative but I tell you what will happen is another maximum Soviet demand and you cannot put the President in confrontation day after day.

D: We don't want to.

K: Always has happend that after ceasefire one country traps the army of another.

D: It is not exactly what we want to do. I will pass your urgent message to the PM.

K: I am telling you as personal advice. I guarantee if you want me to take it to the President you will get a much worse answer.

D: I am completely confident in accepting your advice. Believe me.

K: I have got to see the German Ambassador now and raise hell with him about your ships.

D: Yes. O.K. I will talk to the PM and I will tell her may be...

K: I think you have a bargaining situation and I think you can get something for it. There has to be a bargain.

D: How do we go about it?

K: By at least getting talks started on that narrow issue.

D: On the food.

K: By getting a certain standstill enough so they don't get so desparate you do not get constant fighting.

D: Our people say at least 2-3 days of food and water. We hear talk from the commander they say in 2-3 days the UN will get us out of here. That is the situation there. We must strike some sort of a bargain out of it.

K: Make a proposal.

D: All right so that is what I was ~~xxxxxx~~ trying to ask you. I will tell the PM that if she does not think...

K: But before 9:00 tonight make a proposal to confuse the issue. Or you will get a condemnation on you.

D: I will talk to her again.

D: I know there is discussion with the British but I do not know the discussion. Yesterday he received the British Ambassador. What does it say?

K: That we should pass it on to the Israelis.

D; What is the message?

K: It has to do with the Israelis withdrawing certain distance, what the Egyptians are willing to do, etc.

D: I do not know of this message from Moscow at all. For your information we asked the British to see Sadat.

K: No. No. It was just that -- we have been asked by the British to pass on to the Israelis and I wanted to find out what you thought of it.

D: The British asked Sadat?

K: Sadat asked Gromyko and Gromyko gave it to the British.

D: The message addressed to the Israelis?

Scali/Kissinger

S. Hi Henry.

K. Hi John.

S. Did you hear my defense of you?

K. What were you defending me against?

S. They quoted you out of context.

K. Who did?

S. None other than your friend Malik who said you had admitted the Israelis violated the ceasefire in your press conference. In my right of reply I

K. What did he quote?

S. He said you said the ceasefire broke down and Israel made some territorial gains. In any event I thanked him for the tantalizing reference to the news conference because I had already sent the complete text to all other missions of the Security Council and I just said I wanted to ~~xxx~~ thank the Ambassador for exciting interest because I thought it was so fairminded. They will all read it and see you were more balanced than anything that has been said here. We had this meeting with him afterwards.

K. How did it go?

S. He insisted on the Poles. I retorted by offering Romania. I said it is Romania or none at all--no blocs, neither the Warsaw Pact nor NATO.

K. What did he say?

S. That is discrimination. That is like going back to the cold war. On the observer side I said we would send 50 or 20 or were willing to withdraw ours completely in return for none of yours. It hit him like a sledge hammer.

K. He also is pretty dumb.

UNITED STATES DEPARTMENT OF STATE
REVIEW AUTHORITY: ROBERT H MILLER
DATE/CASE ID: 27 APR 2004 200102979

S. He said that he didn't understand this. We were trying to dictate to the Secretary General. He is furious because we won't accept Poland. We are trying to dictate to the Secretary General and that Poland is a great country.

K. Poland, with a long and distinguished history of affection for the Jewish people. They haven't had a pogram since the last Jew left.

S. He said he had very firm instructions on this.

K. Has anything changed in their attitude -- since the alert?

S. He has become more obnoxious.

K. More obnoxious since the alert? Are they beginning to hit us harder?

S. In the language they are using, yes. I gave a very reasoned answer and said we both had a responsibility at a time when there are charges and countercharges, none of which can be verified.

K. What is your view as to what we should do now?

S. We should stick firm on this offer we have made them.

K. I mean if the issue of withdrawal of the Israelis to the Oct. 22 line comes up.

S. I think unless we get the Isrealis to back up we are not going to have a friend in the house.

K. The British won't support us?

S. No. You see, we are in a unique position now because we got the non-aligned to go alone with us.

K. Do you expect a Security Council vote tomorrow?

S. We go into an informal session to consider the Secretary General's report. After that, there is to be a formal session. So if we are going to agree with the Russians on it they are going to have to come to us in advance, if not, we are going to have a problem. You see, the Secretary

General's report does not go into the makeup, terms of reference, size of forces or estimate of what it will cost for the first six months, which is 30 million bucks. I think there is now a widespread suspicion that the Israelis are stailling so they can get Suez City. The language used tonight was just awful. The questions being directed to are "Do you mean to say the U.S. is impotent to stop Israel?" I just replied we believe very sincerely in the ceasefire but I never answer that question. I just ignored it.

K. Thanks, John.

S. You will be in tomorrow? -- to look over the draft.

K. Oh, yes.

S. Are you going to take over any part of these negotiations with the Russians?

K. No. You are in charge of that negotiation -- unless Dobrynin appeals to me, you are in charge of negotiation.

S. They will probably report back and say I have been tough, and that we are trying to dictate to the SYG and who are we to say the Polish ..

K. Keep your relations friendly, if possible.

S. But if he keeps creaming us ..

K. Then you have to hit him

S. Since we have had these negotiations come up it made him look like a goddamn fool for ranting and raving. The non-aligned afterwards were delighted about my statesmanlike attitude on this.

K. You are having more fun than a UN Ambassador deserves.

S. Right. Good night.

As you know we are pulling Bob Ingersoll out of Japan a s the Assistant Secretary of State and therefore we are looking for an Ambassador for Japan which we consider one of our absolutely key posts and the President wondered and I strongly endorsed it, whether you would consider that position.

G: Well, that's a...

K: I can't really think of a more important Ambassadorial post we have.

G: That's an amazing invitation sir. I genuinely appreciate it. Let me take the subject under brief advisement. May I do that sir.

K: Please. But I really would like to tell you that we are very serious about our relations with Japan and about the decisive role the right individual could play there. Bob is doing a very patriotic thing in coming back from a position of much greater independence to being a bureaucrat but I needed him back here to help me run East Asia.

G: I think its a superb selection on your part on terms of Bob and I would be pleased to give it consideration.

K: He thinks you would be a superb selection as his successor.

G: When is he returning?

K: He'll be returning after my trip to China around the end of November and of course we'd have to get you confirmed and so forth and there can be a hiatus of a month. Because we'd like you there as quickly as possible.

K: I'm almost certain not. I think its generally thought desirable to put ones holdings in a blind trust but not necessarily to dispose of them. But those restrictions are much more severe in the case of Defense Department personnel. You wouldn't really be in a position to influence contracts.

G: That's correct. I think this from a common sense standpoint should have no great effect.

K: I'm not sure. I can look into it and I'll get word to you this afternoon. But to my almost certain knowledge it does not require of disposing of stocks you hold.

G: Let us assume that while I'm going through my decision process.

G: So at least let me have the weekend and I will be back in touch with your office with my first evaluation of the subject and than I may wish to visit with Bob personally. I could go to Tokyo for that purpose.

K: I'd be delighted.

G: And ultimately maybe at least a few private words with you to determine...

In fact, never have we told anyone else about our messages, our strategy and so forth. Now I find that an exchange between Brezhnev and the President, which used to be kept in very secret channels, is in an alert order going to every commander around the world. And I find Jackson on television speaking about a Brezhnev -- about a Soviet note to us.

S: The Jackson thing must have come from elsewhere, Henry. The problem was -- and you're quite right and I was astonished --

K: I mean, the alert order says --

S: I know. On the alert order, I was amazed. First of all, we should not have had copies of that Brezhnev letter. Tom took one away and brought it back to the building and talked to the Chiefs about it during the JCS Conference. No that is an obvious mistake.

K: On the 10th.

D: Of November.

K: Yes. And I have offered the Egyptians that I will stop by in Cairo on the way there. You know they invited me urgently when I was in Tel Aviv and I turned it down.

D: Right.

K: And I am doing that as a means of keeping them quiet.

D: Right.

K: And they have accepted that. That's point one. Now point two . . .

D: That would be around the 9th then?

K: No, I will get there about the 7th or 8th.

D: I see.

K: Because I may stop in Tehran, too, on the way. We need some strategy with those Arabs that are not totally lost. I mean, of course, they. . .

D: Tehran and Cairo or and other countries or . . .

K: I haven't worked it out yet. Maybe an hour in Amman.

D: I see.

K: On the way. And I've got to look at a map on what Amman is on the way to.

D: It's a one-way street, Mr. Secretary.

K: Well, I don't think we will turn history in Amman.

D: No, I don't think so.

K: Perhaps you will drive me over from Jerusalem.

D: That's easy, we have an open bridge, you know.

K: I told you once when I went to the A_____ Bridge I thought if a man from the moon came and said there is a victorious army, there is a defeated army. There was the Jordanian looking like a world beater and the Israelis soldiers sitting there like a slob on a chair. He didn't get up when his general came up to . . .

D: I know the guys -- _____ in the university in Jerusalem.

K: Oh, really.

D: Yeah, during the _____.

K: I went there with General Narkiss and I tell you that private sitting on the bridge barely acknowledged Narkiss' existence.

D: . . . only a student. When they go without uniforms they expected Narkiss to salute him.

K: Whether he acknowledged his existence or not he certainly didn't think he needed to get up when the General came up to him.

D: That's the way it is.

K: Okay, but now, Mr. Ambassador, two things: one is Sadat sent us a rather hysterical message again.

D: This morning?

K: Yes, just right now.

D: On what?

K: Well first, he said he is working on a totally new comprehensive peace proposal which he may give me when I get there.

D: Uh-huh.

K: Well that at least wastes a little time and since I am then on the way to China nothing can happen until I get back.

D: Yeah.

K: I just don't want to do anything without telling you.

D: Sure.

K: Second, and I want to sit down with you and tell you what the General, my General,

D: Yes, I heard yesterday in your press conference that you had a very fruitful talk with Dobrynin about procedure, sites and methods for the new negotiations.

K: Yeah, I want to talk to you about that in a minute -- that's all baloney.

D: Uh-huh.

K: The trouble with you, Mr. Ambassador, is that you go straight ahead and I go in circles. If I can teach you people tactics --

D: Yeah.

K: Now the hysterical message from Sadat is: that their third army is surrounded and that you are trying to get them to surrender and that they will have to take unilateral measures regardless of consequences and that you are not permitting UN observers in there. All of this may be true, but we want to give them an answer. Let me make a suggestion. First of all, of course you want to check with your Government. My recommendation is that we can tell him that you would permit observers in there and just tell me where they should go and just don't say in general. Secondly, I would consider it a very good move if you would say you would let non-military supplies in there of some kind because it can then be used against them if they start an offensive.

D: Well, what I read in the morning, they have already started shooting.

K: Well, that may be but I think it is best to have a position that we can then later defend. And it is also a position which if a debate starts in the Security Council about what can move on these roads, we can then sustain having taken it previously and not being beaten into it.

D: Our -- I cabled, by the way, last night my Government asking them to think along these lines because I figured that's what would develop.

K: Could you get me an answer in an hour or so?

D: Yeah, I will try on these two points: on the observers and on the . . .

K: On the observers, what I want from you is a very specific answer where I can then tell Sadat we have been urgently in touch with Israeli Government and you will -- then observers should report to this and this place.

D: I have one point, if I may . . .

K: And secondly, any proposition at all we can make on humanitarian supplies -- you know food and so forth, that isn't humiliating.

D: Yeah.

K: I mean you can still screw it up on the road -- I mean let's make a particular proposal.

D: Right. I will check what can be done on the second one. We had a very disturbing concern in Israel over the fact that the Russians are sending 70 observers which 50 of them are officers -- they snuck into these _____ places I told Eagleburger last night. I don't know really quite now but sometime soon it is possible during the day if I can get an impression from you, Mr. Secretary, of how do you view this hope situation of the connection between the observers and the emergency force.

K: Well, I want to -- we won't accept 70 observers and we have already told Waldheim. We told the Russians two things: all observers have be part of the UN Observers. There won't be -- we don't hold still for separate observers. And secondly all observers -- that number of 70 is not acceptable for us for the UN force.

D: They are there already, you know.

K: Yeah, but you know, they haven't any status. We can't prevent the Russians from sending people into Cairo. Then if they send 70 officers we can't protest it.

D: Yeah, I understand.

K: What we can do -- they asked us to send 70 of own and join them. We told them we won't send 70 of our own. Two, we won't join them. Three, we won't have any separate U.S. -Soviet arrangement -- it has to be part of the UN. And fourth, 70 is too many. Now we have an arrangement with Waldheim that he won't take more than 20 of from each of the superpowers.

D: These 20 of each, how will they be related to the force.

K: They won't be related to the force at all. They will be part of the observer group. We will not permit any Soviet or American personnel in the force and we will insist on an absolute distinction between the observers and the force.

D: Yes, that is important because the Prime Minister thinks that is one way to infiltrate into the force.

K: We won't have them in the force in any...

D: Fine, I will get busy on these two problems.

K: Will you get back to me? Really since I don't believe the Crisis is over would you please make sure that we can get the necessary press support.

D: Yes, I will get...

K: At least that they don't--I mean Marvin Kalb, people like that, ought to be controllable.

D: That's a friend, Marvin Kalb, he speaks of you as the best friend in the world.

K: He isn't attacking me. But when they make all these insinuations that this was done for Watergate reasons they are weakening for the future.

D: As I told you two newspaper men called me and one of them was Marilyn Berger and I worked on the telephone for about half an hour to convince her, and I think she took out all the references. She was going to write the story that the President needed this for Watergate and I said....

K: Well, they are saying two things, the President needed it for Watergate and the second is that the President has lost his judgment. Now the fact of the matter is you know XXX who did this.

D: Of course. On her I think I corrected the story and I asked, also issued instructions to all our counselors along these lines but I will try to do what else I can today.

K: Good thank you but get me an answer on the other business.

D: Ok.

K: It has to do with the Israelis withdrawing certain distance, what the Egyptians are willing to do, etc.

K: In my view the best thing to offer food and water, non-military supplies.

D: OK, I will pass that on. That also will not solve the problem, though. Will delay confrontation.we are going to have with Egypt.

K: You will wind up in my judgment, we will end up on the wrong side of the confrontation. It would be a whole hell of a lot better to establish the principle of limited supply now.

D: I'm not negating this,

K. The crazy bastard really made a mess with the Russians.

H. What?

K. Didn't you listen to his press statement. First we had information of massive movement of Soviet forces. That is a lie. Second, this was the worst crisis since the Cuban missile crisis. True, but why rub their faces in it. Third, Brezhnev and I exchanged brutal messages. That has never been acknowledged before. Four, Brezhnev respects me because I was the man who bombed Viet-Nam on ____18 and mined the harbors on May 18.

It was decision about

D: / In connection with the Security Council/sending UN ~~security~~ forces in the Middle East. And judgment will tell you that we can't see the importance of the composition of these forces, the United Nations force, is an important element, so we believe that these forces would be composed of the contingents from the, as you call it, communist and socialist countries and that this termination couldn't be justified in this particular case. We mention this because amongst other measures of relief, it is not quite clear whether to do so as if the American representatives are observant against inclusion in this personnel from the socialist countries.

K: No, we want to exclude countries that belong to existing military alliances.

D: In this case...

K: Regardless of social system.

D: Yes, but, the question is, in this case...

K: We don't insist that any members from Thailand.

D: No, I understand, but this rather looks from our side.

K: Not at all. Well do you consider Sweden as being on our side?

D: Well it was _____ whether Sweden alone, but the question around representation of two different kinds of areas too, not on just representation from other areas...

K: Why don't we let them argue about that in New York.

D: Yes, but it's important for them to know, to get some instructions, because otherwise they will argue for another recourse. They will say they don't know how many it will take.

K: Well our view was that they should be drawn in the first instance from maybe some of the forces on Cyprus.

D: Yeah, I understand.

K: Because I like to have Swedes in warm climates.

D: Yes, I understand. On immediate basis.

K: And our basic view was that they shouldn't contain people that belong to existing military alliances, which would have excluded Canadians.

D: I understand.

D: Okay.

K: And then we can consider what else to do.

K: I think we should now both try to quiet this thing down.

D: Yeah.

K: And, you know, I didn't go to Moscow in order to produce a crisis between the Soviet Union and the United States. That wasn't the purpose of the trip.

D: Well, it looked as if...

K: I mean the way things are developing now I would have been better off never going there and letting the Israelis continue military operations.

D: Well, Henry, whenever you have the time, maybe I'll. Then I'll tell him my own point of view. But it's nothing really new for what is great importance. What was done was done. The other question was his special interest in terms of anything else onto this. All right?

K. There is a meeting at 9:00 of the Security Council.

D. You get the news from your Embassy?

K: Between us and the Soviets they look quiet. They are totally quiet.

P: Yeah.

K: And, the . . .

P: And the general reception to what has happened is -- has been adequately played or . . .

K: I think it has been adequately played. They are grudgingly saying that it was necessary and that it was well done. Reston has a shitty column today saying it was probably necessary but maybe we over reacted.

P: You should have laid on him a little harder, Henry.

K: Mr. President, if a Soviet paratroop division had beein in there, they would have said it was . . .

P: Reston, you have got to remember that when he calls you have to assume he is an enemy -- huh?

P: Enemy in the terms of posed war policies and so forth.

K: Mr. President, when one analyzes how it has played, it was basically, considering that most of the reporters are our opponents -- I think it was basically played extremely postively.

K: Right.

P: How working with the Soviets has been constructive and we must continue to and we've got to avoid it and now is the time for a permanent settlement and so forth.

K: Right. Right. I'd be constructive but not too specific on the settlement.

P: Oh, God, I don't intend to be specific. I won't say anything about borders or anything like that. But put down what you can in the way of talking points, will you please.

S. Splendid.

K. The reason we don't want Major Generals running lose over there is not to get the pot stirred up. Can we settle it now?

S. Sure, the important thing is the 3rd Army.

K. No, getting the ceasefire straightened away is the most important. If the Israelis and Egyptians get something worked out on the 3rd Army that is ....We have no interest in the 3rd Army.....

S. We have some interest in the 3rd Army. It is our help arranging the ceasefire and they were captured after that, which compromises somewhat our position in being the peace maker in the area.

D. Exactly.

K. You could have said what makes you think we will do anything unilateral. We have no intention of taking action.

D. What you said was to wait for a reply. I sent four telegrams to Moscow--this was a unique situation--to wait for a reply from the President. What did they receive? This is not....Someday in Moscow...much more easy to discuss.

K. We very truly thought you were threatening us out of the....

D. Exactly, you have it with us. Wait for the reply. By the way nothing was said. Then you are trying to make it look like it was a Cuban or Hanoi crisis.

K. Don't remind me of that. It was not well done.

D. It was done badly. It was unbelievable. He won't believe he compared it....More things are involved for both sides. There is no need to discuss this. What was done was done. We will now have to look forward. This message is oral to the President and to you in connection with Soviet/American observers. I was instructed to tell you in a written message...that the Secretary General would like to say that we...substance of yesterday's message from... about Soviet/American observers.

K. I know of one. You sent me on discussions.

D. We also...from the promise that the Soviet and American observers... will ask as a contingent of the observer force of the UN. We want to stress that we consider it very important that the American observers will start the dispatch of their forces, having in mind that it should give the USSR and US the possibility of getting authentic information.

We expect that the US on its part will also take necessary steps before the UN...The American said that...to Egypt front about of... and the President Nixon in his letter...that a number of the American officers should be there to oversee the ceasefire. On the same day we informed the President of the dispatch of 70 Soviet observers to...and sent them immediately to the line. It would mean that this understanding reached with us would be broken. We would hope that....

K. Don't you think the President answered it yesterday. We are prepared to send observers as soon as the Secretary General requests them and we have told him he should request them.

D. You should mention it to him again. He said that Scali...

K. I will get in touch with Scali immediately.

D. Waldheim is under the impression...

K. I thought they were talking about some number yesterday. Let me call Scali.

D. Send out U.S. observers and I will....

K. I will call you back within an hour. Why don't we get together on Monday and review just what went wrong.

D. What time would you like?

K. How about lunch.

D. I will try. Fulbright would like to have me for lunch. Maybe I could switch it on Tuesday.

K. I also have a lunch. It was either a deliberate...of thinking by you and of thinking by us or it was a horrible misunderstanding. I can assure you from our side it was not deliberate....

D. I will ask Fulbright to postpone Monday.

K. Too much is at stake for us to be angry with each other. Let's not have it longer. As a friend---

D. For two days I was mad. I know that anger in Moscow is still very high.

D. I understand.

K. This was not well chosen and not deliberate. General Haig called you immediately.

D. I know.

K. We are in a difficult period between the two of us now. If you had no intention of acting unilaterally our letter was a mistake. I should have warned you but I was outraged.

D. ...I simply asked you if you could tell me 15 hours. That is all right with me. You really think that I was pressing you to get an answer. I simply asked you the usual question--when I could expect an answer, sometime today, sometime tomorrow. You immediately qualified that as a pressure. That I usually do, did before, and will again.

K. I don't get into that--

D. No, I just wanted you to have this information.

K. Can't you tell them that now?

D. I am sure our people are telling them now to the UN.

K. I urge you, Mr. Ambassador, not to appear tricky and do not make this look like a delay or it will not be understandable.

D. I will phone them to make it in advance. About the ceasefire. Dayan said that he wants you to know that there is consistent shooting and attempts to build bridges 24 hours a day. My people have orders never to incite anything, only to return fire. Right now it is quiet on the front. Except an attempt to bring helicopters and back in with boats they are to only shoot on these things and not on the front. Could you also ask the Egyptians to keep the ceasefire because we are under very strict instructions.

K. I will urge the Egyptians to do that.

D. That is all the information we have.

K. I will communicate immediately with the Egyptians.

D. Fine.

K: What we did was to make all arrangements.

GM: Our man went to the point of destination — waited and when the group from Cairo did not arrive he went to the UN headquarters — 10 kilos away and asked him if we were expecting something and he attempted to get in touch with Cairo. Our man was on the spot from 3:00 to 5:30. It is true that someone from here should have gotten in touch but it was our assumption that from the Cairo side something went astray.

K: With all due respect we passed the message to Egypt and to request all conditions be accepted and you would be in touch with Zayyat to work out details. If that did not happen Egypt did not have any way of knowing. I just told them the set plan was accepted and you would work our details with the General. The fact is that your people did not make contact — they were waiting. You told us what to pass on to them — we did that. One person should have gotten in touch with the General — up to that point everything was worked out but from that point the Egyptians were waiting.

GM: Mr. Secretary, they got the message we accept.

D. Exactly, you have it with us. Wait for the reply. By the way nothing was said. Then you are trying to make it look like it was a Cuban or Hanoi crisis.

K. Don't remind me of that. It was not well done.

D. It was done badly. It was unbelievable. He won't believe he compared it....More things are involved for both sides. There is no need to discuss this. What was done was done. We will now have to look forward. This message is oral to the President and to you in connection with Soviet/American observers. I was instructed to tell you in a written message...that the Secretary General would like to say that we...substance of yesterday's message from... about Soviet/American observers.

K. I know of one. You sent me on discussions.

D. We also...from the promise that the Soviet and American observers... will ask as a contingent of the observer force of the UN. We want to stress that we consider it very important that the American observers will start the dispatch of their forces, having in mind that it should give the USSR and US the possibility of getting authentic information.

We expect that the US on its part will also take necessary steps before the UN...The American said that...to Egypt front about of... and the President Nixon in his letter...that a number of the American officers should be there to oversee the ceasefire. On the same day we informed the President of the dispatch of 70 Soviet observers to...and sent them immediately to the line. It would mean that this understanding reached with us would be broken. We would hope that....

K. Don't you think the President answered it yesterday. We are prepared to send observers as soon as the Secretary General requests them and we have told him he should request them.

D. You should mention it to him again. He said that Scali...

K. I will get in touch with Scali immediately.

D. Waldheim is under the impression...

K. I thought they were talking about some number yesterday. Let me call Scali.

D. Send out U.S. observers and I will....

D. What time would you like?

K. How about lunch.

D. I will try. Fulbright would like to have me for lunch. Maybe I could switch it on Tuesday.

K. I also have a lunch. It was either a deliberate...of thinking by you and of thinking by us or it was a horrible misunderstanding. I can assure you from our side it was not deliberate....

D. I will ask Fulbright to postpone Monday.

K. Too much is at stake for us to be angry with each other. Let's not have it fester. As a friend---

D. For two days I was mad. I know that anger in Moscow is still very high.

K. As a friend, one thing about yesterday evening that can only be explained in terms of emotional stress over a domestic situation.

D. I understand.

K. This was not well chosen and not deliberate. General Haig called you immediately.

D. I know.

K. We are in a difficult period between the two of us now. If you had no intention of acting unilaterally our letter was a mistake. I should have warned you but I was outraged.

D. ...I simply asked you if you could tell me 15 hours. That is all right with me. You really think that I was pressing you to get an answer. I simply asked you the usual question--when I could expect an answer, sometime today, sometime tomorrow. You immediately qualified that as a pressure. That I usually do, did before, and will again.

K. Hello, Mr. Chairman.

F. How are you this morning?

K. It has been another sleepless night. That is why I wanted to call you.

F. We are not having another one?

K. No, this one has had a happy outcome. All day yesterday we received messages from the Russians and the Egyptians. The basic problem is the Israelis have an Egyptian army bottled up by cutting their road after the ceasefire that was to last. This is the basic problem from which stems most of the fighting. It is hard to tell who is trying to break out and who is whittling them down. All day frantic appeals have come in....The Soviet note was not nearly as brutal as before. It was much more civil than Wednesday. We decided that we could not permit a situation to continue in which there was a danger of constant confrontation with the Soviet Union as a result of action taken after a ceasefire negotiated with the Soviet Union. We, therefore, decided that Israel would have to permit non-military supplies to reach the army. After receipt of the message by the hotline which more or less requested non-military supplies we told the Israelis if by 8:00 this morning they won't agree to this, we would join the majority of the Security Council in expressing the sense of humanity that something like this would have to be permitted and told him they would have to get in touch with the Egyptians and discuss the matter of implementation of the ceasefire. I told them we were in a position of being beseiged by Sadat and Brezhnev with claims of bad faith. They are ready for talks on that last subject but went into orbit on the first one. They claimed they would go public and say they were being raped by the super powers for the crime of being small. This consumed hours of time last evening. We held our position. At any rate at 4:00 this morning the Egyptians accepted direct talks with the Israelis on the Suez Canal to discuss the military problems that exist provided one convoy was permitted through today.

This is the situation now. One non-military convoy is going through and the Egyptians and Israelis are meeting within the hour.

F. If you can make them meet and start talking it is a great accomplishment.

K. If the Egyptians complained to Brezhnev and the Israelis to us and we get together on the hot line, it is an insoluble problem. None of us know who to believe.

F. Right.

K. I think we can avoid an acrimonious Security Council debate to wait and see what the Egyptians and Israelis can work out.... This was a US-Israeli confrontation.

F. You have to come to that sooner or later.

K. They are in my opinion more nerve-racking than the Soviets. They are tougher and full of ingratitude.

F. They are all of that.

K. We faced them down. We want to bring....and they say their only crime is being punished for being small.

F. That is all you are going to get. "You are doing this in the interest of history and mankind. In their interest." I reread last night a Goldman piece from 1970. Have you read it?

K. I don't remember the content but it is a very balanced piece.

F. It is very supportive of your policy right now. Nobody is a better authority on the Zionist cause. He spent 50 years in the cause....what he advocates is a neutral Israel relying on its cultural and scientific accomplishments to hold the allegiance of the world.

K. The cause of Israel as a Middle East Sparta means they will go down by....

F. Have your men just let you read it. I think you will enjoy it. You can read it in 50 or 60 minutes. It is a very well balanced, sensible appraisal. If they rely on arms they will be destroyed by arms. He has respect for the intellectual and scientific qualities of the people and if that is the road they take, they will be respected.

K. We have now proved to Sadat that he will get more from our diplomacy than Russian blackmail because we have not gotten a.....now.

F. Turn it away from....arms at any time.

K. They are saying that we and the Egyptians are raping poor little Israel.

F. This is the first time that the Russians have voted for a peace-keeping thing in the UN if I am not mistaken.

K. Didn't they vote on the Congo?

F. No, they refused to vote for and refused to pay for it. Most of those cases they were not present as in--

K. Korea, or they abstained.

F. Or by the example in January on the Suez Canal. This is the first time they have voted for it. That Middle East thing was arranged by Hammarskjold outside of the Security Council. They didn't agree because the Security Council hadn't been involved. This is the first time.

K. I must say this, Mr. Chairman, whatever views one can have as a pragmatist for the UN I don't see how we could have gotten this through without them, even just as a forum or machanism.

F. Absolutely. I hope you will find occasion to emphasize that point.

K. I will do it before your committee as one of the places.

F. Good. Look you getter get some sleep. Don't go too far.

K. I have just had a call from Zayyat saying the Israelis say they have no instructions to let a convoy through. Zayyat wants to call Cairo. Can you get someone to get in touch with his hotel and get a line cleared or put him through our nets?

S. We can put it through our switchboard.

D. The Security Council meeting, not official but closed, . . . This is substance of version. . . they talked but Malik considered your reply of let's have 20 or 25. Malik said why should we. We want to send 70. . . . 70 is quite all right with us. On the whole the figure on the observers--he counted 118 observers including your side--is not very much. Altogether the U. S. and Canada have more than 100-120. . . what he asked. Scali did not answer this and Malik is waiting for a reply.

K. Let me tell you what our problem is. If you read the President's letter, he said to the General Secretary if you accept this idea we should get together and discuss numbers. The next thing you have sent 70 people in there.

D. We mentioned that to you.

K. The point is we never had a chance to express our view that 70 was the right number. If you agreed to the idea, then our representatives would get together immediately to work out modality. We think 70 is too large.

D. Out of 2000 people there?

K. Wait a moment.

D. . . . after 2000 observers. Around that, I don't recall exactly. More than 100 of yours and we haven't a single Russian there. We went 70 to make a voice. You already have more than us. Just to make a point that you are tough. What are you trying to do with that point?

K. Let's not go in one week from cooperation to proving how tough we are.

D. What is your point? What are you asking now? To scale down 70 to 20 or you do not accept? We don't see any harm because you have a lot of people. You could match it. What is the difference, but that it should be the figures you gave us? What is the logic?

K. How about having 51, you have 26 and we have 25. You are stronger.

D. If you like, we can have 70 and you can send Scali and Somebody else. We don't mind.

D: I understand whatyou are saying.

K: What I am suggesting is that you just tell them you meet say tomorrow at three or God knows when

D: I understand and that's what I recommended. I will tell you probably what the difficulty is -- it is that they want another convoy. But

K: They didn;t say that to us.

D: I know, but this is my guess because I haven't gotten the description yet, as I said.

K Now the last time they made a condition for a convoy, this time they just said we are prepared to meet again assoon as possible, they didn't say anything about this.

D: I understand.

K: But even if you are worried about a convoy it is better to meet ~~whenix~~ while that convoy is still on the road.

D: I don't mind telling you--I sent a recommendation to my government--

K: I don't even say you should meet today--it's already gone, but I would really urge you to let me transmit to the Egyptians before the end of the day a proposal for a meeting tomorrow. That's what gets you through another day of Security Council things.

D: I understand. Believe me I will not fail to inform you the moment I succeed in doing this.

K: Cause if you can get that--we need some maneuvering room here in town if another crisis builds up tomorrow. The longer you can stay where you are, the less the issue of where you should return to arises.

D: Yeh. Right. I think I can get back to you shortly. I'm going to work on it.

F: Henry, I know you have bigger things other than this worrying you. Is it possible at anytime to have half-hour for you and a couple of others to look at options on the Trade Bill?

K: I was calling you about that. At the Leadership meeting the other day, the President sort of implied that he would prefer to have the Trade Bill consideration in the House deferred until January.

F: Yes.

K: Carl Albert just called me.

F: Mills is calling him.

K: He said Mills is calling him and said if that happenes the whole Trade Bill will be lost. Therefore, Albert is asking me if he takes it up next week if we will object to that.

F: I think under current circumstances we have to object to it. That is what I want to talk to you about. The alternatives are: 1) To have the President say I am committed to an believe in normalization of our commercial relations with the Soviet Union but I hipe the House will vote affirmatively on this bill (will include prohibition on MFN credits.) I may veto it if I cannot cure the problem in the Senate. I would like to go forward with the Bill now so we can have a status quo.

K: He cannot say that.

F: He cannot veto it but he recognizes this is the only way to get a vote in the House now. The consequences are as follows: We don't get anything on the Trade Bill this year. The negotiations stop in Europe. We ~~mxkxss~~ miss the 75 deadline because you want get a Bill until Sept at the earliest if ever. We might lose the Bill because people are turning against it. By next year, the climant no doubt will change. We will lose trade negotiations and it will have some effect on trade negotiations. I would think losing, though economic, would hurt your declaration of principles.

K: We cannot possible do this to the Soviets now after what we have been through with them the last few weeks.

F: We have been discussing with Brent about saying to the leadership on the Hill about dropping Title 4 so we don't bring this issue up now and go ahead without Title 4.

K: That we are willing to go along with.

F: There is no response to date in the Congress to that. I don't think the Jewish leadership is doing it.

K: I have been assured by the Jewish leadership we can tell Congress if they inquire of the Jewish leadership they will support it.

F: That won't do it. Supposing the President said if the bill comes down to me in this fashion I will veto it. I had rather have an opportunity to try and negotiate it between now and the time.

K: You know the Senate is not going to be any softer.

F: Then he can veto it then.

K: Then you have no bill anyway.

F: If you h and the ~~Soviets~~ Soviets are successful in the Middle East maybe we are going to lose this thing.

K: What do you mean.

F: Supposing with the help of the Soviets you get a permanent solution to the Middle East problem surely the Israeli will feel some obligation to help.

K: Baloney. They are going to come after the President, me and everything we stand for.

F: At the moment we cannot get the Title 4 dropped. If you tell me that you cannot allow this to come to a vote, I am not going to argue that point. I recognize that the Mid-East is more important than the Trade Bill.

K. I can tell them tomorrow if you will let another through on Wednesday. Would you let me know tonight?

D. Tonight I cannot even get the Prime Minister. It is 2:00 in Israel.

K. I mean in the morning Israel time.

D. I don't know if you have received the information about our meeting today. We passed it on to Eagleburger and Scowcroft. I think we are moving ahead on the question of the wounded.

K. We made a very strong pitch on the prisoners.

D. Don't tell me you have a cold.

K. I have a soar throat.

D. That is not from Fahmi? Getting a cold in the vocal cords is the absolute domain of our Foreign Minister.

K. Make this as an urgent request of the President. If you can make it 100 fine, 70 fine.

D. I already made it 50 from you just a few minutes ago.

K. That was my own personal suggestion.

D. I will pass on your request.

K. I must really urge you that if it doesn't happen, Fahmi is going to see the President on Wednesday. I am in a terrible hurry.

D. The idea that I have is that Israel take upon itself to establish the principle that in return for prisoners of war there be a permanent resupply and you get off our back on the road.

K. That supplies come out of Israel?

D. No, from wherever they come from. The way we do it is in return for our prisoners they do not have to haggle for every convoy.

K. I think this is an interesting idea. My mind works in the same direction. That is an interesting idea. Don't do it out of any sentimentality. It is with realization of what we are up against here.

D. I want to dispose of this and get quickly on with peace and you getting us to go back to the '67 lines.

K. Let's think of it in this direction.

D. Let's keep it between ourselves as a possible scenario between the Prime Minister and the President.

K. Exactly my view and I had the same idea today. If the President could tell Fahmi on Wednesday you agree to do this on Wednesday, it will keep him from promising more.

D. When is he to see the President?

K. On Wednesday, we have delayed it as long as possible.

D. If he stays another day maybe we can have negotiations.

K. You always make these indecent proposals.

D. But sometimes they are accepted.

If we attempt to get the Egyptians entirely across the Canal is saying Sadat should commit suicide. That's his judgment. Iwouldn't ask....

D: Well, it is a help to know what he thinks. We are weighing all the things. It is very useful that the Prime Minister will have a chance.

K: I am just trying to give you a sense of what I think is in the situation and not...I might be wrong. If today those two generals settle it differently, you will have my congratulations, we'll have two dinners.

D: Oh, I am going to gain weight.

K: Maybe tomorrow.

D: Tomorrow, and should we draft something and bring it to you for your approval?

K: Yes...

D: We will bring a text for your approval. What time do you want it?

K: Let's say in the late morning.

D: With the President?

K: Yes. or in the afternoon.

D: Can we count the on breakfast with you?

K: Yes.

D: Would you rather have it in my house.

K: As opposed to where else.

D: Say in the hotel.

K: I think in my present position I shouldn't be entertaining ladies in a hotel.

D: (Laughter) Well, then, my house?

K: I would be glad to have it at your house or in the State Department.

D: Fine, then. In the State Department , with your permission.

K: Hello.

D: Hello Henry.

K: Anatol, I'm on the way to the House Foreign Affairs Committee..

D: Congratulations. What are they going to do with you?

K: They're going to confirm me again.

D: They have not given it up? Henry, about 1:00 today so it's settled.

K: Fine.

D: The second thing I would like to ask you the following question.

K: But I frankly don't think that Fulbright knows about it yet because he asked me yesterday for advise on what he should say to you.

D: He knows.

K: OK fine.

D: He knows because we mentioned to him that we are going to switch it. Yesterday I spoke with him. His wife called my wife so that was a confirmation again so he knows that there is really no problem. The question now what is really Henry. I received a message and I would like your assistance in this. Message from Brezhnev to President and Brezhnev asked me to deliver it personally to the President. I feel its rather important in general in the sense it was my impression yesterday there was a meeting rather important in Moscow and they would like so to speak to know his opinion right away about our relations which they feel are rather _____ now. And a rather a crisis of confidence which is more or less on the level of the Brezhnev and President. So as you know its very unpleasant talk for me because I spent so much time and energy to on the contrary to keep it up not down so I think it may be useful really for me to deliver the message. There are some contrary _____ but they are not important enought.

K: Can I see that message first. I think it will be helpful to both of us.

K: I will make it today.

D: This is the point you see. When you mention to me then I will tell you. OK.

K: What do you mean when I mention to you.

D: When you are expecting to try to arrange it today. Yes.

K: Right. We'll discuss it at lunch. I'll do it late today.

D: Let's aim it on the second part or I will bring it to the lunch.

K: Bring it to the lunch and we'll have it about 4 or 5 oclock today.

Helmut Schmidt called me up yesterday from Bonn and said that he wanted to sended Poles, Poles is sort of the Paul ~~Faulker~~ VOLCKER of West Germany, here as soon as possible this week to spend an hour with me. I said well Paul Vaulker is in Paris right now and if you want to transact any business they are there and Paul has been, we have him scheduled to go see Schmidt tomorrow anyway and he said no, it has nothing to do with our international monetary negotiations but he clearly did not want to discuss what this was about on the telephone and just dropped it at that and sao I said, well, I'll be glad to see him. He has called since then and we have set up an appointment for Friday morning.

K: That's going to be a pretty tough session.

K: Right.

P: Now, let me ask. What is the situation with regard to Dobrynin? What would you like to do on that.

K: Well Mr. President. It's entirely up to you. Were you staying in Camp David today.

P: I haven't decided but we can easily do it here if it would be useful.

K: I think the best might be if he and I came up but that's not spend the night, and came back around 9:30 - 10:00.

P: Spending the night is fine. There's no problem there because nobody else is here.

K: It would give me a chance to get started earlier in the morning.

P: Yes, I see your point. In other words you'd like to just come up have a meeting and have dinner and go back.

K: And perhaps he and I can sit in a cabin for an hour after wards and then come back.

P: Bring him back with you. Fine. What would you like to do. Would you like to. What would you suggest as a time on it?

K: It's entirely up to you.

P: No but I mean in other words, have him up here. Now I don't want to come with him. I mean I'll have you and him ride in a separate helicopter see.

K: Comeing back.

P: Both ways.

K: I thought you might be staying up there.

P: I may. That's my point. You'll have to bring him in a helicopter in any event which will leave me the freedom to either go back or stay.

K: Exactly Mr. President.

P: So you can go from the Pentagon strip or whatever but now, my point is when do you... Do you want to get up here to have a talk with me before

K: I think I should Mr. President.

P: Either that or....

K: I could ride up with him and we could put him in a cabin and then call for him when you and I are finished. That's no problem.

P: Unless I get back this afternoon for a little while. I may be back sometime this afternoon for a little while. Alright, what is the situation.

K: First of all with respect to Dobrynin Mr. President. He's running all over town claiming to be the injured party. Now I think they behaved inexcusably and we shouldn't let them up for air on that. I don't we gain anything by apologizing. We should say they made a threat. They poured forces, they put their forces on alert, their airborne forces, they sent a very tough letter and you had no choice but the problem is where we go from here. Now he's got two problems. One is what to do with the Egyptian third Army. The third is how we handle the negotiations. The negotiations are easy, that's all set up. The Egyptian Third Army we are going to settle directly with the Egyptians and the Israelis so we don't have to tell him that. What we have to avoid is that they get credit for everything we do. I am in the process of working something out with that Egyptian Foreign Minister which is if the Israelis play ball you may be able to announce after the visit with Golda Meir.

P: Having to do with the Third Army?

K: Having to do, speaking the proposal that I'm thinking of is like this and I've tried parts of it on the Foreign Minister yesterday and he seemed to be receptive. The Israelis let through nonmilitary supplies to the Third Army. Guaranteed, so that they don't have to apply every time and maybe even move off that road. The Egyptians release all Israeli prisoners and open the Straits of the Gulf of Suez from their blockade which they've put on. On that basis the Third Army wouldn't get any military supplies and couldn't become an offensive force. That's what the Israeli..... are seriously playing with them. Now if we can get Mrs. Meir to accept that then we would have settled that problem. Now is she wants more.

P: She _____ going to get it.

K: What she wants is for the withdrawal of all Egyptian forces from the East bank of the canal. That's out of the question.

P: Nope. She cannot get her way this time. Too late. She's going to find a very tough problem when she walks into my office this time. You know what I mean. There is not going to be any of this horsing around anymore. I'll be courteous but she cannot come in and in that arrogant way again and say well they all withdraw and this and that. She doesn't have the cards anymore Henry.

K: That's right. I agree with you.

P: Too bad but that's the way it is. Now with regard to the Dobrynin thing we'll leave it that you and he will come up. Do you think it would be well to have dinner with him.

K: I can have dinner with him alone if you'd rather not/

P: I'm just trying to figure what you want. I could have him come up and be here for a meeting but whatever you think is useful I could do. I'd just soon not bother with the dinner frankly but...

K: Then why don't you just have a good talk with him for an hour and he and I will have dinner at Laurel.

P: I'll just tell him I had some other plans.

K: I'll tell him you have plenty of other things to do.

P: Sure. What I may do. I may have to come back and then come back up but I'll come back separately a little early. I would say this. Perhaps we...

K: If you would rather not do Camp David at all we can do it in your...

P: No, I think, don't you think. Well, you thought Camp David was a good idea didn't you.

K: Right. Well, I just transmitted your original idea. It was better not to do it last night because, first of all I had to see the...

P: Well, let me say you thought it was a good...

K: But if it is in any sense inconvenient for you.

P: It isn't really particularly. It may be very convenient.

K: Because he has no right to come up there.

P: No, what I meant is that in terms of what would be useful on the diplomacy side. Well, let me put it this way. What we might do is to have you come up here and I'll be coming up earlier and you come in and we have an hours talk and then you and he could have dinner, sit around awhile and go back. I think it would mean alot to him and I think it would be mean alot to Brezhnev. It's a very small gesture. You see my point.

K: To have him up at Camp David.

P: Yes, don't you think so.

K: Yes.

P: Isn't that reason you thought well of the idea.

K: That's why I thought well of the idea.

P: I know we don't have to do it but my point is if it does.

K: If we pay some personal attention to him. The only thing is I'd be rather tough on what happened last week no matter what screaming he does.

P: I will. Don't worry. He gave me a hell of a problem.

K: They gave us a hell of a problem. They sent us a stinging note and we had every reason to suppose they were going to take unilateral action.

P: I know. Don't worry. We aren't going to mark off one inch.

K: ~~XXXXXX~~ We have this problem Mr. President. We are [redacted] in the driver's seat in the Middle East. For example, I've got the Egyptians yesterday. The Russians you know sent 70 observers in and were screaming at the Egyp tians that they had to take them. Well I worked out with the Foreign Minister yesterday that they are going to send 40 of them back. The Egyptians are going to do it on their own so we're not involved because 70 is just too many in a 300 man force.

P: Yeah. Good. Don't worry, I'll be very. . . . We'll take the line on Dobrynin. I know exactly what to do.

K: I would not get into too great specifics on the Third core.

P: No, that's our deal. No, my feeling is this. The Camp David exercise first is good P. R. It's look like something is going on that's a big daeal. Second, it's good from the stand point that Brezhnev will think we are giving him some attention (special). It doesn't cost us a damn thing and then we give them ~~XXXXXX~~ nothing on the hard side.

K: Exactly.

P: Basically, it's software. But I would suggest that unless you hear otherwise why don't you tell him that you will fly to Camp David to see me at 5:00 here. That gives you the whole day there. Or is that a bad time.

K: Maybe a little later.

P: Fine.

K: Togeth er with him.

P: Yeah, I could have the meeting with him from 5:00 to 6:00 and then you can have dinner or when do you want. . .

K: Would it be good if we left at 6:00. and we'd be up at 6:30 and then I'd spend half an hour with you. That's too close to dinner.

P: No, don't worry about that because I'll probably. . . I'll probably have a chance to talk to you earlier anyway.

K: I can do it at 5:00 if that's more convenient for you.

P: No, I just thought you were going to talk and have dinner and so forth you'd want to get back that's all. So, would you rather make it 5;30.

K: Good, we'll leave at 5:30.

P: Leave Washington at 5:30, see me at 6:00 and then we'll meet from 6 to7 but I;ll not have dinner. I'll have you have dinner with him.

K: I'll tell him you have some work.

P: I have other people. I have dinner plans, that's all. He doesn't need to know who it is.

K: Good. OK. Good Mr. President.

K. Well, that wasn't my understanding of our conversation.

M. It Well, I am sorry. It was not my understanding and several times I said we had no additional space.

K. And I said we would cut the names down in some way.

M. Mr. Secretary, I don't see how we could have done that after notifying Time magazine it had already been chosen.

K. It was my understanding that something could be done.

M. The only way it could have been done was when you asked that three of the film crew be taken off the plane. It could have been done then but I came to you and said we were asking for a hell of a lot of trouble.

K. Now, my understanding was that I had explained my situation with Kay Graham and something could be done. Either to remove what seemed to be arbitrariness or to put them on.

M. There has never been an additional seat since then and to remove arbitrariness....to remove someone who had been told they were going.... and tell them they were in a drawing and that they have to take their chance.

K. In addition to your credibility, there is the problem of my relationships too.

M. I just think you were---

The White House already got in trouble from knocking off USIA to put on the New York Daily News....I thought I had calmed everybody down by saying there were other trips and they would all get to go next time. My impression now is that Newsweek has settled down to a degree.

K. Maybe because I had told Kay I would look into it. She is a formidable enemy to have.

M. Mr. Secretary, if she would become a formidable enemy on something like that...

K. It doesn't make any differences. That is no consolation.... if she shows she is a shit. She was a strong friend in very difficult period in early Watergate phase when she leashed her people against me.

M. Of course I have none of the antecedent. If you want this done instruct me. We will find some way to do it. It will mean bumping one of the officials. I must say I disagree with doing it.

K. You have disagreed for two weeks and I have not up to now interfered with your judgments. I am not sure at this late stage it would create more havoc. It was just a misunderstanding. I had assumed it was done.

M. I never did get a direct answer from you.

K. She and McNamara were behind me when it was very tough and I was thinking of leaving giving me a lot of moral support. She was a good friend. This is the first thing in five years she asked something of me.

M. She is putting your friendship on a narrow----

K. We don't know that and will never know.

M. We will if they don't go.

K. What will that prove?

M. Would you like me now to find some means to get them on.

K. Let me think about it at this stage.

M. On a separate matter about Newsweek. Truett has asked twice this week if you could see him. He is doing something on the Middle East.

K. I couldn't have agreed to see him. I haven't seen him since I came to State. I used to see him. That is independent of my relationship with Kay Graham.

M. My position has been I don't think you should see any newsmen alone. We disagree on that. I don't know what your relations with him are. He will want to bring van Voorst with him.

K. I see no need to see him.

K. I made a very impassioned defense of detente.

D. He said you particularly mentioned about detente.

K. It was a closed session, but I will get you the extract.

D. No, no, I am joking. He mentioned he was very much impressed on your presentation on the detente issue.

K. I made very strong defense of detente.

D. He mentioned it. He is a fellow who is a rare one to say somebody brilliantly represented so I was impressed on the detente question.

K. Very good.

D. What about the...are you...

K. Before I get to the main subject let me say another thing. I saw in a Los Angeles paper today an article from Moscow.

D. It was by an American?

K. Yes, it was an Americanand was very close to what you said yesterday. It said the Soviet leadership was very angry with me.

D. Who was the author?

K. Seeg, and it said from now on Brezhnev would insist on protocol when he sees me.

UNITED STATES DEPARTMENT OF STATE
REVIEW AUTHORITY: ROBERT H MILLER
DATE/CASE ID: 28 APR 2004 200102979

D. I think it is invention.

K. My suggestion is if this is inspired it is not all that helpful.

D. Henry, I can tell you this is not the way we are doing that kind of inspiration... You could easily check an American correspondent. It is very easy to be checked. He will immediately tell you and your embassy who mentioned it from our side. I doubt very much that they would tell an American correspondent about their grievances. He would make his own deductions. First there was an agreement and afterwards a confrontation. It doesn't take a very wise man to figure that out.

K. It had a lot of detail. You know, it sounded---I normally don't pay any attention but it sounded very plausible.

D. I don't believe...if they wanted some fellow not from America... Maybe some of the fellow said something, even I doubt this one quite frankly.

K. Well it sounded very plausible. It repeated many things that you said.

D. From...it is not only my point of view. I told you they feel the same, that is very clear Henry. I am telling you...

K. Look, I am not asking to be loved. I am saying we are in a very difficult situation. The two people who helped put the detente together is the President and me and there is no sense in attacking the two of us while we are trying to do this. Whatever mistakes were made last week were not unilateral. Mistakes were made on both sides. Although I can tell you, having to deal with Egyptians is enough to test anyone's nerves.

D. I'm not arguing about that. I think it is not worthwhile to argue. If you look in perspective at the big things we have done and have to do in the future, all of these things were very small but got out of proportion in sense of word which Brezhnev had given to them.

K. We now have the art of statesmanship. Now is for us to keep this thing together and to go back to the big things we did together rather than let it besplit completely. We did important things for three years and shouldn't let three days get in the way. On behalf of the President pass on his message to your leadership that he feels, that he attaches the greatest importance to continuation of what has been known as the detente policy and the greates importance to the confidence established between him and the General Secretary.

D. Yes, he said that he is going to write a letter.

K. He asked me to reiterate.

D. Will he write a letter?

K. Yes, he will write a letter but we haven't had a chance. It may be Friday. We have been preparing for the Egyptian and Israeli visits. It will be a very positive letter.

D. I understand, you need some time...I understand.

K. On your specific proposal, we are prepared to designate somebody to meet with somebody you designate to discuss how to implement Article 3 of Security Council Resolution 338.

D. Where?

K. They can meet in Geneva, or here, whatever you decide.

D. You are here.

K. Let them meet wherever. Should he go to Moscow? Eventually they can take a trip to the Middle East.

D. Why don't they begin with the Middle East?

K. We have another idea that hasn't been fully decided yet. We may upgrade the head of the Interest Section in Cairo and send a more senior person there with the agreement of Egypt and he could get together with whoever you have.

D. Just trying to develop ideas you mentioned...

K. We don't exclude a trip to the Middle East.

D. Just to give them something. I know for instance, Gromyko will hardly like the idea. When he is in charge, you are in charge. ...people in Cairo, just to put Atherton. I don't know, maybe I am wrong. That is my impression. Do something we ask you.....

K. Then let me raise this tomorrow with the Israelis.

D. I think it would be better. I mentioned to Gromyko and Brezhnev your discussions with....but thinking aloud, they are waiting for their reaction.

K. Let me raise it with the Israelis tomorrow.

D. Yesterday it was one thing, today another.

K. Let me see what the Israelis reaction will be.

D. They didn't react negatively, but they are waiting further because you said you haven't discussed anything...

K. I will give you a definitive answer tomorrow.

D. I will send to Brezhnev the message from the President, but on this particular issue I won't say anything until I here from you.

K. We have given strict instructions to this department to keep their mouths shut. Now it turns out you have over a hundred ships in the Mediterranean. If that keeps up we will be driven into--

D. How many have you?

K. Less than 50. Look, you used to have the same number of ships as we had and then it increased.

D. Is this a number game or a word game?

K. In the past your number was about a third of what you have now.

D. Are they military or commercial?

K. No, military. We don't object to commercial. These are submarines and others. You have double the submarines you normally have and nearly three times as many surface ships.

D. I will....just thinking aloud.

K. That is right. It would certainly be noticed if there was some reduction and would bereciprocated. You can tell them that.

D. I will tell them. What really they want up to now we didn;t... What about the second proposal?

K. What second proposal?

D. Using UN helicopters.

K. Let me discuss that with the Israelis. I understand.

D. All right. UN business not ours....I have a small matter that became apparent. We discussed with you about 36, or 32. Malik went there and the Swedish officials say they have 37. Could we finish this. Malik asked me today if we could settle on the 36 and forget about it.

K. Yes, we will settle on 36.

D. Could you get Scali these instructions.

K. Yes, I shall, You can tell Gromyko but don't tell Malik until I have told Scali which will be another hour.

D. I will wait two hours more. Our information is nothing, nothing really new....mentioned staying until Golda Mier is out.

K. There aren't going to be any spectacular results. I will see him again tomorrow.

D. How are things with Golda Mier? I hope you will tell....

K. We will tell you about it tomorrow, or Friday. She will be here today.

In other words, what really matters with these Russians is what we say to them privately and what we do to them. K: Yeah.

P: I would play it in such a way that you aren't afterwards. They'll misquote you but if they quote that you are breathing fire about the Russians.

K: No, I'll play it in very low key with the Russians.

P: Yeah. Fine. How did you meeting go with him afterwards?

K: We mustn't forget they tried a big bluff last week and when they say about alert they had everything.

P: I understand.

K: But we had a very good meeting and I think we're substantially back on course now. See what they're trying to do is only we can really deliver the Israelis so they are constantly trying to get themselves into a position where they can claim by threatening us or by pressuring us by doing this or that they have made us do what we were going to do anyway but the meeting went very well and we parted very cordially.

P: You will get this message from me by 6:00 or 5:00 or whatever it is.

K: Very well, I'm taming Fulbright. He stepped out with me and complimented me on the policy and ...

R: No kidding, good for you. Oh that is the best news because I was worried about his position.

K: No, I've got him under good control right now.

R: Marvelous. Now I got a call from the Israeli Ambassador saying that Golda Meir is coming over with, you knew of course, come to see you, you invited her but he wanted me to come down on Saturday to call on him.

K: I think it would be good.

R: You do.

K: Say I thought it was an Executive session. I expressed our general views, with which they are familiar.

McC: Okay. Anything new I should know about the Middle East?

K: Not that I know.

McC: Are you going to be seeing Mrs. Meir separately?

K: Yeah, I'm having breakfast with her tomorrow morning.

McC: Okay. One of the things I'm likely to be hit with today is atrocities against Israeli prisoners. I think George Vest has heard that Valeriani had some whiff of this from I don't know where. He hasn't done anything with it yet.

K: Well, I wouldn't get into that.

McC: Yeah, okay. I had done up a little bit more on Europe and I wondered what you think of it.

K: Yes. But why go into that?

McC: I won't, but if people get into my office and start arguing about it.

K: I would not say that publicly.

McC: Yeah, Okay.

Joe Sisco is on the other line. He needs a word with you.

K: Okay.

S: Fahmi has just called and would like -- he's just had an urgent message from Sadat. He would like if possible to move up the 2 o'clock meeting by any period that you can, 15 minutes...

K: Well the earliest is 1:45.

S: All right, I'll call him back and tell him.

K: Well, now, wait a minute. Let me get you on something. Dobrynin yesterday proposed to the President that they and we send a high-level official to Cairo to help supervise the ceasefire. Now that again puts us into that special role on one side of the line. I am opposed to this. What I think thought we can do is to appoint somebody to begin talking with them about arranging the joint auspices. It's best thought that we don't always say no.

S: Well, I think that you could...the only one who can really talk to them sensibly in terms of the joint auspices, and you will have to find ways during the trip.

K: Joe, will you give me a one-sentence answer then, because the President is waiting. Who, you? How about Atherton?

S: Fine. We're both going to be on this trip. In the next day or two?

K: Whom did you think?

S: I didn't think either. What kind of timing are you talking about? Today? Tomorrow?

K: I'm talking about maybe announcing it Friday to begin operating a week from Monday. And I think I can't spare you.

S: Oh, you meant in terms of who would be the man named at Geneva. I misunderstood you. I thought you meant begin to consult with the Russians right now. Is that what you're talking about?

K: The man who would then maybe eventually wind up in Geneva. But just so that we can deflect this one proposal.

S: Well I had in mind myself and Atherton.

K: Both of you?

S: Well, or one of us. It depends on what level they're going to appoint.

K: Th ey will appoint whomever I...I thought we'd appoint Atherton and keep you here.

S: Well, it's up to you. If that's what you want to do, it's all right with me. But it's not something that ought to be decided in 5 minutes. I've got a memorandum for you in terms of outsiders and insiders.

K: So, I've got the problem of a Brezhnev letter to the President, of a Presidential insistence on answering it this afternoon, of a proposal of two men going to Cairo, which I'm trying to deflect. That does not have to be our final word. This has to be our preliminary exploration.

S: Well then why don't you tell them that you will name either ~~you~~ he or me and make your proposition as you've indicated.

K: Is that a possible proposition?

S: Certainly it's possible, for a period of time it is, yes. You and I can clarify this in three minutes alone.

K: Joe, if I had three minutes, I wanted to come to the Department to talk to you about this.

S: I'll come over there.

K: Joe, I've got a 12:45 meeting, for which I'm late.

I've got a 1:45 meeting with Fahmi. I don't see any possibility of talking to you.

S: Well, the other question is, do you want me there at 1:45?

K: Yes. Absolutely.

S: I'll get two minutes with you at 1:43.

K: If I'm back by 1:43.

S: Well, there's a problem in the Schlesinger meeting and I have to take 30 second more. That is, the letter to Hussein, as you know, we stopped because he was going to answer a letter to Hussein which was negative on the question of the military assistance. We are working out with the Pentagon a set of proposals so that you will be able to tell Hussein that we can do XY and Z. If Schlesinger shows you a letter which is a holding action letter which says we're looking at your request that's the kind of reply that ought to go so that you actually give the reply when you arrive in Amman.

K: Good, I agree with you.

S: And I'll be there at 1:40 so that if you want a few minutes with me, we can talk. / McC: One last thing, Mr. Secretary. Pompidou has proposed a Common Market summit.

K: Who?

McC: Pompidou, in a broadcast this morning. Would you have any reaction to that?

K: Well, that doesn't include us. No, we have no comment.

D: Oh hell, Henry. Good afternoon. This is I received a telegram from--in connection with we discussed with the President and _____--you remember the message of Brezhnev about this same thing--those people who represent our two and them--

K: Yeh, but we haven't really agreed to it yet.

D: No, no, no. I know. They are answering me to tell you on your remark. And you have to report back to the President and then you ask his final answer.

K: Right.

D: So the question really is to tell you they are positively looking to ideas which you expressed aloud that those people who could be appointed by both of our governments--Soviet Union and the United States to look about it--the ceasefire agreement on Israeli-Egypt front were at the same time represented their _____ of both governments during the negotiations on Middle East settlement in accordance with agreement which

K: One minute, Anatol. There must be a misunderstanding--we have never agreed to foreign special representatives to supervise the ceasefire--it is a UN responsibility.

D: You say that they may come there.

K: I said that we are prepared to appoint the people who would provide the auspices and who perhaps in the performance of their duties could do some traveling, but not for the ceasefire--but for the auspices.

D: No for the auspices we appoint a force which is nothing new--

UNITED STATES DEPARTMENT OF STATE

K: But the people who are providing the auspices can also do some traveling.

D: Yeh, I understand, but you remember--

K: We have not agreed to a ceasefire--to separate US-USSR ceasefire supervision Anatol.

D: But it was proposed you were saying that those people could come there --it was this way. We proposed--I'm just trying to recall how it was happened. This proposal would the people be sent there--and you said okay then they go there for a very brief time but then better to have the people then--or maybe it was a good idea you could have then to be represented on the auspices--under the auspices for that settlement. So it was in this way it presented in a proposal and so on.

K: Right.

D: So it is not exactly that you proposed to have auspices--it was to make a proposal on this to send them there and you said it could be developed in a different place. So I could make a reservation from what you said that you want not--

K: So far--Israel--I doubt whether Israel will agree to it, but I have presented it to them.

K: Yes. I hope to get you an answer tomorrow. Assuming we can get the Israelis to agree--one of the maddening things of this situation is that everyday we are being asked five more things we have to get them to agree to.

K: We will reply tomorrow.

D: Okay, but take into consideration this particular answer which you give me right now.

K: Exactly. We'll take it very seriously.

He is just asking me to tell you--to emphasize once again the importance adopted by the Security Council Resolution principle where fair geographic distribution. Because this described in the telegram saying he really could not give any good---for Waldheim. Waldheim is doing everything what he is told by Scale and of course we are going to press on Scali from now on but they hope that really he will understand the Security Council.

K: Well, I understand we now settled the two-observerquestion.

D: That is my impression, yes. But now it is about the troops and we are feeling that about Poland, Czechs and Bulgaria.

K: You want all three of them?

D: That was proposed, I don't know all of them or one of them. It's not my business, because I have my own things, but I know Waldheim said

K: But the principle we have tried to follow is that it should be composed of countries that are--have diplomatic relations with both sides.

D: And this is--that you couldn't give up any man from Africa because nobody else is left except South Africa and we couldn't go along those lines really, to be strictly observers, after all its Security Council decision. So I understand your point because they told you so.

K: It's not just what Israelis have told us, but there is a certain elemental fairness to have an emergency force which is supposed toqperate between the two sides. But--which is composed to a considerable extent of countries that have broken relations with one of the sides and therefore cannot be--cannot presume to be impartial.

D: Yeh. It is clear, but at the same time it could be done if just accepting what they are telling really--

K: If you had had my talks with the Prime Minister of Israel, you wouldn't suffer from the illusion that we are doing everything they are telling us.

D: No, no.

K: They are accusing of betraying them--

D: I don't know what you are telling but ------the pressure on you is very clear. I am sure she could do it along those lines. Public pressure. Really Henry Gromyko asked me to have you look into this matter and --

K: I will look into it.

D: What kind of answer I have to give Gromkyo because now he is pressing me on this

K: I'll have to talk to Scali--I'll call you later this afternoon.

D: Today.

K: Before the end of the day-

D: You report to me huh?

K: Yes.

D: Good, thank you very much.

K: What I would like to propose to you on this force.. the non-aligned have now proposed Ghana and Yugoslavia and also they have proposed that Canada and Poland should be on the back-up logistics force. We will accept Ghana. We cannot accept Yugoslavia. We can accept Poland and Canada as back-up, so you win two out of three and we recommend Romania instead of Yugoslavia.

D: In this case we will be against Romania.

K: We will be against Yugoslavia.

D: If it comes from the Warsaw pact.. anyway we don't want to put it on this basis. I am just telling you this off the record so to speak.

K: We will accept on Poland for the back-up.

D: What is back-up?

K: For logistics support.

D: Did Poland ask for logistics support?

K: That is my understanding.

K. Mr. Ambassador, we have a rather urgent problem on MFN.

D. Yes.

K. I am trying to arrange that the House drop Title 4 altogether, get the Jackson Amendment through in the Senate, and decide in March when it goes to conference which way to play it. The Jewish Community is taking the position that they will tell their congressmen that for their own reasons they decided to drop Title 4. That is not good enough. They must actively help us get it dropped. I urge you actively to do that. You will have them all tonight. I think that if the Prime Minister will say something, not at dinner but---

D. I know what you mean.

K. We cannot drive the Soviets absolutely against the wall on every issue.

D. I didn't have a chance to talk to the Prime Minister about it yet but I will this evening. She will have a chance to see the Jewish leaders tomorrow.

K. Hello, Mr. Foreign Minister.

F. I am sorry to bother you again but I just got two cables here from my President, one discouraging and one hopeful. They fired at that position with a direct rocket, one of your latests. They say it was one of the televised rockets.

K. O'k, I will have to look into that.

F. From a distance of 25 to 10K and then they had a direct hit. This is very serious. The second promising thing is that you remember when you talked about this Monday. I advised the President that we had to do something quiet about it. He responded that only for a week we together get along with things, you know, without infliction on the Egyptian President. On that particular point he is telling me that oil tankers with Liberian flag we let it go through at _____ without any interception from our part. This encourages both of us to try to achieve something substantial before I go back.

K. I appreciate that very much.

F. Now we have two indications, one very disturbing about flying and hitting about the ceasefire, and then there is this second promising one. I leave it up to you. If you can do anything to finalize what we agreed on before I go back to Cairo--

J: I have been in Europe calling on people and told them they have got to ah....take this very seriously.

K: I don't want them to get panicky.

J: There's an awful lot of material in the supply system, and on the water. But its going to catch up quickly. They are well aware of it.

K: If we can hold on quietly until I have had a chance to talk to Saudi Arabia. I'm not sure I can achieve anything. They are not easy people.....I'm going to be the first Jew accused of anti-semitism.

J; Well, I'm afraid that's right.

K. My problem is when to apply the pressure. What is now obtainable will immediately satisfy the Arabs but it doesn't get us very far down the road, I want to talk to Sadat and see if we can make a rational plan which can be carried out over a period of months. If we can get a plan, we can convince them and turn it over to Faisal.

J: We have got information the Saudis are trying to get off being the chief confronter of the US.

K: We have to get a political mechanism to let Faisal get out of the corner he has painted himself into. I think the best thing you could do is to keep evrybody calm.

J: Theonly country which has moved is Holland. They are in a terrible bind. Others, although they are aware of the problem, I'm sure are not going to moee within the next three-four months.

K: If we could, if you could keep people aware and keep them calm in terms of taking action for another 10 days, then I will be back here (on the 15th) and if you wanted to come down with your group we could discuss strategy. I would brief you on where we stand in relation to Arab nations. Right now the chances are only 50-50. We are certainly prepared to make a major effort. D. No.

K. Why would he call? I don't care about campaigns. We have very specific problems. We have to do various things, if not by me by somebody else. They will be done, in opposition to Israel or together with Israel. If you think it is easier from postures of hostility then they will have to be done that way.

K. Let's see where we are on the immediate problem and work out ....Fifteen NATO ambassadors called on me about the same stories and about our energy situation. Those are facts of life. We can see if we can find common procedures and commence to see if this...If you can get rid of some of your principals in this election we can do better. You have that choice.

D. I don't quite follow you.

K. You can launder your own key people and see if that will _____what realities as is produced. We haven't made one single proposal on a long-term settlement and no agreements with anyone on long-term settlement. I have told you a hundred times that there was not going to be an American plan. There must be something. Maybe I shouldn't be so honest.

D. That can never be in our relationship. If we take the long-term settlement.

K. My impression is you are so concerned about the long-term settlement you will not take a short-term settlement. When we meet we will tell her exactly what I believe must be done and we will see if you can do it or not do it. If you will not and you believe it is impossible, we will have to see what the President will decide at that point.

D. Yes.

K. I have intended to develop the absolute minimum that has to be done. We cannot make a settlement with Brezhnev, go to Tel Aviv and come to the brink of war and go over that again in a week over a settlement you agreed with...

D. Well, we will have to meet and hope that...I will do everything in my power...

D. Sorry I was away when you called me. The Prime Minister was in a meeting with Secretary Schlesinger.

K. How did it go?

D. It was very formal and cordial, nothing of substance. They discussed the military requirements which he said depended on three things - funding, availability, and national policy. That was all. The Prime Minister thanked the United States Government. Mr. Shalev reported your conversation to the Prime Minister and she asked me to phone you and tell you something. I had the occasion to talk to General Scowcroft who related to something one of the senators said. It is absolutely not correct that the Prime Minister does not justify the alert.

K. She just said she didn't know any of the facts. They were in her possession. Senator Stenis came to the White House - and he is not a trouble-maker - to tell me he felt there was a whole series of charges in the Prime Minister's statements. That is her privilege but it doesn't help anything.

D. Of course not. She said just the opposite. That it was a great and important act.

K. I didn't pass it on to the President.

D. It was just a matter of a misunderstanding. She also said it again....The Prime Minister does not feel she can be in a position of having somebody else be required to represent her and would be very happy to talk at any time you called. She doesn't feel--

K. What do you feel we should talk about if we meet?

D. I frankly think the two of you should meet alone.

K. I don't think there is a basis for it. I think there are two possible ways. Either work out something we can do together of if not, we will do the best we can do alone after which we will work unilaterally. We have no choice.

D. I am suggesting myself, in addition to your real problem which are really the problems, there is the misunderstanding itself. In order to reach an understanding for the newt week as you call it I think the meeting is needed to understand the peace prospects. I am not here to force a meeting, Mr. Secretary. K. Well, what is her schedule?

D. She has a private dinner at our home. Just us. That can be cancelled.

K. I am not free really much before 9:30 or 10:00.

D. How do you suggest that we meet - at Blair House or at the White House or where? I would suggest that you two sit faced together. I think it is better this way.

K. After we sat together last evening, it didn't lead to anything.

D. So I understand from your people. It didn't work.

K. That is an understatement.

D. She had a good talk with the Governor.

K. He told me about it. He came to see me.

D. I felt after the Governor's meeting there are those problems that are genuine and those that are not. I think there is a tremendous amount of misunderstandings. It is not true she has said half the things that were said. I was present....

K. A lot of things happened yesterday before anyone reported anything, starting with the breakfast.

D. That was a moment when she was really concerned about a number of things. But these are not things she is talking and complaining to people about. She is talking to you.

K. Well, Mr. Ambassador, I think we both know what is happening. We can see it in the press and elsewhere but now the practical problem of how to....

D. I know that nothing comes from us that is for sure. Working half....to get the impression there is no pressure. On the practical problem that is my suggestion. I cannot say. If you feel it is better not to meet--

K. Is she saying she is not prepared to have Yariv meet with Sisco?

D. Yes, she is not prepared to have anyone else handle negotiations. That is why she is here.

K. Where are you now?

D. At Blair House.

K: That definitely. You know I an on a seventeen hour day schedule.

L: I know. I don't know how you do it.

K: ..what concerns you.

L: It is hard to talk about on the phone. Let's say when I went to those countries in 1968, I needed to get into a decompression chanber when I returned before I could ...the impressions I had received and get my perspective. They are really very good, you know.

K: What do you mean?

L: You kn ow, Dale Carnegie's book, on winning friends and influencing people..they are very good.

K: But are you worried I may givesomething away because I am impressed?

L: It struck me. I think of myself as calm and...but I found them extraprdinarily effective. I recognize, as you must, it will be hard...the long haul will be hard.
K:
K: The long haul will be brutal. The only choice the Israelis have is whether they will give us a chance in breaking the deadlock. Weaning the Arabs away from the Soviets ...by having a chance..rather than having a unified Arab bloc against them, with Western Europe, the Japanese, the Soviets and most of the Arabs against us....pushing us into a confrontationin this country..such a wave of anti-Semitism, they will destroy everything. It is essential for the Jewish Community here and the Israelis to seize on a mutual program.

L: I couldn't agree more. I wanted to talk about that problem, about the kind of assurances that would accompany such a program, palatable and acceptable.

K: Well, look I can't do it at 10:00. May be I'll do it at 12:00.

S: (missed first few words) The story is like this. That he (Poehl) is here. The Embassy doesn't know it - on behalf of Brandt and Scheel and Schmidt. And the basic message is that they would like to cooperate with the U.S. in the Middle East, and they don't know...

K: Why do they come to you?

S: They don't know quite how.

K: Well, my question is, what's he doing seeing you if that's what he wants to do?

S: Well, I'm just describing the situation that arose out of Schmidt's call to me. I suppose Schmidt called me because I'm the person he's been dealing with. But at any rate they say that they have a great deal of sympathy for Israel's problem, they would like to be helpful, they don't quite know how. They would like the upper echelons of the Israeli community to know that they want to be helpful, but they feel it would be counterproductive for them in their problems with the Arab if they make it a big public thing. What exactly they would suggest is not clear although they, for example, think they might ~~xx~~ through the Bundesbank in effect make available a line of credit line, say, $200 million, or something like that on a basis where the time of repayment is not a big issue and interest payments could be made, and so forth, and in a sense have that credit flow via the United States to Israel. But that is a specific thing that is an example of an implementation of a general stance. I talked with him some and thanked him and said this is really, you know, not for me particularly. This is Mr. Kissinger's bailiwick and I'll call him and see where we go from there, but it sounds to me as though they are in a way responding to things that you said and they want to get themselves into a posture where Germany is collaborating with the U.S.

K: No, but do they want to talk to me, or do they want ~~me~~ to give you ~~xxx~~ a message?

S: They want to be in touch with the government here and I'm sure they would like to talk to you, and Poehl is here, he's available to come over there if you'd like to see him and sort of take this over, or if you would like to have some two or three people try to see what kinds of things in the light of this might be thought of, we can do that.

K: Well, that I would like, anyway. Well, let me see whether I can find a minute. I've got about an 18 hour schedule.

S: Yeah, I'm sure you do.

K: And let me see what I can do.

S: My guess is that they came to me 'cause they thought I'd probably be easier to see than you.

K: No, no, look George, I don't have that sort of feeling. I just want to make sure they're not taking a cheap shot so that they can say domestically they made a great effort.

S: It may be that that's what they're doing, and I think you ought to... I believe it's very desirable that you talk to Poehl personally, if you can.

K: I'll do my best and I'll call you this afternoon. Now I had to cancel out of the offset agreement because I've got to do something about the Israelis, but -- out of this offset meeting -- but if you can accept Sonnenfeldt in my stead, we can go ahead with it -- Sonnenfeldt and Casey.

S: I have no trouble with that, as x long as we have you, in effect really represented there.

K: Okay.

S: Now, Casey called me about it and said it was off and should he cancel the whole thing, and I said, well, we've got to have Henry there. So as of now it's canceled, but it can get put back on again. But, can I suggest this to you, Henry - to the extent that what they're really thinking about is some financial proposition, probably Volcker here is the best person to work on it. The foreign policy aspects of this are dominant. I don't know how you might want to position that, but I suppose Sonnenfeldt must know pretty well your thinking on that. If it is possible, it might be worthwhile this morning to put Poehl, Volcker and Sonnenfeldt together and let Poehl say what he has to say to those two.

K: Why don't we do that.

S: And then they can crank around and see what they might think of. And then it it comes time when you can see Poehl, why there would be a little more substance to go on.

K: Okay, who don't we do that. I've got the President on the other line.

S: Shall I call Sonnenfeldt and tell him we want to do this?

K: Yes, please. S: All right. Thank you.

You can give us your professional assessment of where that leaves us, then see how much we can take.-- see what we dan do. We shouldn't have it in a Wagnerian atmosphere as you mentioned because the President said he asked her to go back to her cabinet, or rather Haig did.....

K: And don't tell me you almost have to have Israel on the road on top of withdrawal.... As we discussed yesterday, Israel holds both sides of the roads, the UN does the inspecting, you would therefore see if weapons or.....I mean, what can they hide in the back of a two ton truck?

D: Well, our military experts say they can do that, their anti-tank missiles, for instance which they have used so effectively...

K: I'm telling you this suicidal impulse of the Israelis must be stopped. If you are not willing to open the roads, you will drive us into more .....if you can turn over the roads, then other things can be discussed, no chance -- you are not imposing unconditional surrender, your government is the only one .....

D: Well, this thing should be discussed between you and the Prime Minister.

K: Hello, Mr. Secretary General.

W: Good morning, Mr. Secretary of State. Well, before you are leaving I thought I should talk to you. I think what we got yesterday is the maximum we could get in the Security Council.

K: Right.

W: I wish to thank you for your cooperation in this regard because I know how difficult it was. I had a long talk with Mitchell Sharp and he is coming to see me again at 11:00. We may be able to settle the matter with the Canadians. The Canadians are quite ready to do the job. Of course, the main problem we have is the question of the cease fire lines. I'm sure you are familiar with it. The Russians and the non-aligned are pressing me very hard at this time in this regard. I instructed...

K: In what regard, Mr. Secretary General?

W: In regard to pushing the Israelis back to the 22nd lines.

K: Do you know where they were?

W: The Russians and the non-aligned asked me to instruct _____ to put the question directly to Dayan. _____ has requested Dayan to withdraw to the the 22nd of October lines. Dayan said immediately it was out of the question but he would forward the request to the Government. He could not decide it alone. The matter was left in suspense. The last information I got Dayan said they w ould have to wait until Mrs. Meir is back from Washington. This is what the Russians and non-aligned are pressing for very hard, ...trying very hard, but have to wait for return of Mrs. Meir. I don't know if you can tell me anything about this matter.

K: We are trying to see how we can work out practical arrangements. .....seem to be totally stymied ....for supply of third army. That's what we are putting emphasis on right now.

K: Mr. Secretary General, why don't we arrange this, if the discussions make any progress, I will see you are kept informed. I realize you are not a free agent, but if one could avoid inflammatory UN debates it would help very much.

W: Certainly, I have done what I could to avoid this sort of thing. Most of the acrimonious debates took place in closed meeting. The confrontation between Malik and Scali took place in a closed meeting, and the public didn't really know about it..yesterday evening .

K: Good, that's very helpful.

W: I'll do my best to avoid such acrimonious confrontations. All in all things are quite good, the situation in the Security Council. Especially because the non-aligned countries are very interested in making progress, and they didn't like at all the acrimonious remarks of Malik.

K: Mr. Secretary General, very much appreciate your even handed....

K: And, release the prisoners at that point. The basic point is that the October 22 lines are important only if you assume Israel is going to stay on the West Bank a long time. If you assume they are not going to stay, it doesn't make much difference. K; Sorry, I have been talking to the President, then I had to make another call. I had a rather lengthy talk with him. First, we will send over the letter for the General Secretary. Let's go to the proposal of joint Soviet-American cooperation. Here is our difficulty. I'm going to be going to Egypt next week. The purpose envisaged in our understanding has not even started yet, although we strongly favor it. What we going to do is to send a senior man as head of the interests Section in Cairo. We have no hesitation about announcing publicly that he is to work closely with your Ambassador there on the cease fire agreement.

D: What about cease fire, what is...?

K: Not on cease fire. Work in close cooperation on Security Council resolution issues.

D: Yes. What is actual situation, as it stands now? What is Israeli position and what is, as of now? on the Security Council I mean.

K: As of now we are having a monumental problem with Israel. You can get that from the newspapers. You can see how they are beginning to attack me.

D: What is their position, Henry? They want to have exchange...?

K: They want an exchange of prisoners, and they want an exchange of territories, West Bank for the East Bank.

D: As a whole. Egypt donesn't like the idea?

K: The Egyptians don't like it. There is something to be said for it, but Egypt won't accept it, we're not pressing them.

D: I think these issues look, putting aside the resolution, October 22 without telling us, unacceptable...but I don't, might change their minds.

K: Let me finish the bilateral thing and then we'll go back to that. As soon as we get back I will designate somebody, Dean Rusk or Herb Brownell.

D: Yes, it should be a big man.

K: ...to represent us in the peace negotiations. We would be prepared to say the first thing he should do is go to Moscow to talk to your people to prepare some action.

D: Did you talk with Rusk or is it just an idea.

K: As a matter of fact, I have been trying to get Rusk on the phone but haven't been able to reach him. Those two people are who we have in mind. I may be able to tell you by the end of the day what reaction I get.

D: When are you leaving?

K: Monday morning at 9:00. To get back to the issues.

D: So where does it stand now?

K: We would like to get Israeli to accept the proposal with withdrawal . We are having monumental task. I sat up with Mrs. Meir until 1:30 last night. And, I can imagine prettier girls to sit up with.

D: Well, sometimes you have to sacrifice....

K: This is where we stand right now.

D: As of now, peace proposal to begin negotiations of exchange prisoners and territories and position is to solve the Israelis business? What is position of Egypt? When I spoke with them yesterday they said no, no, but what about today.

K: Their position is no.

D: Then what is your position?

K: Our position is to try to find some, at least interim, solution but we haven't made a formal proposition yet because we are trying

to see what we can get through a combination of negotiation and pressure on the Israelis.

D: As it looks now then, you do not have any decision?

K: The problem is that the Israelis have to have a cabinet meeting tomorrow. By Monday we hope to have the specifics. We will communicate them to you.

D: The general situation is what you just mentioned?

K: That is correct.

D: And maybe by Monday you will have more precise information. Suppose I call you on Monday at 8:00 a.m.

N: We know its just a question of ...we are trying to balance several different parties here -- the Israelis, Egyptians, Syrians, Russians. Let alone the Europeans yapping at our heels and so on.

K: I think the Egyptians realize they are better off taking what they can get now. If they force an all out confrontation on the October 22 issue, then we can -- we can't have yet another confrontation three weeks later on the basic settlement issue.

N: Which is much more important.

K: Can make a very good case ....not just getting off the roads, say non-military supplies on the roads. Egyptians will just move the tanks and other stuff off the roads, give the road up to the Third Army and then they will be trapped....put the road operation under the UN, will to get off the roads, not willing to get off the cross country access. May be Egypt would be willing to buy this. Willing to put the UN on the roads.

N: Anyway, there's another day before you take off, Monday, right?

K: Drafted a very positive reply to the Soviets in principle. One problem, there's almost no way to do the joint mission which isn't going to lead to another explosion. I really don't see what useful purpose it serves. Israel let the Soviets in, the British and French are screaming their heads off and :US-Soviet mission, I don't see what good can come of it. Egyptians don't particularly want it, Fahmi told me that. After I get back I'll send Rusk or Brownell to the peace talks, with a Moscow first stop. In that context might be willing to have them take the trip.

N: Sound right. Its a good compromise, sending somebody of that importance. Sounds all right. Let's try that. Anything else of importance.

K: The French have come in on other matters. They now have a very constructive approach to the European Declaration thing. Our screaming at them really has had some rather good impact.

N: Henry, as I see it, let's face it, we can't start having Europeans, British taking a ....line on everything we try to do. As Dulles used to say maybe we have to make an agaonizing reappraisal of European views. We are saving their oil, after all, they need it more than we do.

K: No question.

N: OK, well good luck. Call if you need anything.

K: Because what they tell me all they want is a facility to pick up mail.

C: We've got that with the greatest of happiness.

K: And the only other thing they might conceivably ask for is if a British fleet shows up is to station some reconnaissance planes in Diego Garcia to follow them.

C: Well, fine. We are doing some refueling too, as you know, but I mean it's all perfectly alright. Well, thank you for letting me know. They are ~~very~~ unhappy, Henry, about the continuing grumblings coming out from here and the lack of confidentiality. You know after our meeting the other day with major ambassadors, which seemed to me to go very well, UPI within two hours had a thing on the tapes saying it had all been very bad tempered and disagreeable, etc.

K: Yeah, but where did that come from? Not us.

C: They said it came from the State Department, but they were not at the State Department briefing.

K: But that is impossible.

C: Well, this is what happens. And you know when you very kindly said you'd see me before the major ambassadors?

K: Yes.

C: That got out to the press. And it got out before I came to see you. Well, I had a word with Dick Campbell and I said, look, obviously your people have handed it out and just to make sure that we tell the same story, my meeting with the Secretary has nothing to do with the Middle East. And he came back and said, we never put it out. But there are some benevolent influences around.

K: Let me talk to McCloskey about it.

C: I think McCloskey will say they didn't do anything, But there is somebody talking.

K: I don't know why they could have said it was bad-tempered, because I thought in fact the meeting went very well.

C: Well, so did I and that's what we put out. And as a point of fact I think we managed to do our best to kill the UPI story, but the sinister thing about the UPI story is that they were not at the State Department briefing.

K: Well, somebody must have said it to them.

C: Well, somebody must have said it. And I don't think it was one of my colleagues, because my colleagues I think are reasonably happy.

K: No, I think that's right.

C: But, you know, there are some bad things going on.

K: Well, you know that my complaints have been stated. They are not matters that we would pursue and we certainly have only an interest to improve our relationship not to....

C: Well absolutely. But you see the thing that is riling them in London is the failure of the original statute on this security resolution the first weekend. That is thought to have been officially inspired here. In fact, it was to some extent by McCloskey. But we don't think that should have come out to the public at all.

K: Yeah. I agree with you.

C: I think I have to put the formal point to Rush if I may.

K: Yes, by all means.

C: But between you and I, I think we are equally sinned against.

K: O.K.

C: Don't you?

K: I think so.

C: O.K. Can I give Brent a call later in the day about what the position is on your leaving?

K: Absolutely.

C: Yes, about Mrs. Meir and ....

K: Well, her position is a stalemate. I can tell you that. But we're trying to wear her down.

C: Yeah, well that's the only hope.

K: Yeah.

C: Well thank you for calling me.

K: Right. Bye.

K: Hello.

S: Hello Henry. John

K: John, how are you.

S: Alright.

K: John I wanted to tell you - I'm back here you know. We had a message today from the Chinese saying that the Soviets are the trouble makers on that resolution and I don't know what the point of the message is except that they are not sure that they can deliver..

S: Christ.

K: And that they must be sure -- and they want to make sure that you and they stay in close touch.

S: We have been working hand and glove like brothers.

K: I know. They are not complaining. They are just explaining what the problem is.

S: Well, you know where that could have come from Henry?

K: Where.

S: From the messge that you had Larry deliver.

K: I had Larry deliver what message.

S: Ask Larry to remind you about it. On how the thing had been worked out.

K: Whom.

S: To Dobrynin.

K: Larry didn't deliver any messages to Dobrynin.

S: Well, I think he did.

K: OK. Well, I've got to talk to him.

S: Because I think the moment they became aware and I think from that moment on they began trouble making.

K: Yeah. Even if that is so it's water under the bridge.

S: Indeed it is and there is no effort here to second guess an expoert on it. But the important point Henry Is that I think that the Chinese here all along have under-estimated the militancy of the Algerians on this and are not yet experienced enough to deal with the Algerians and and Algerians decide that they are going to bring along the hole and athe line with it and it's partly in expedious despite all of the good will and sincerity they have and readiness to stand up for the deal but this presents us with an exceedingly difficult as you may have noted from the last two cables that we have sent because our _____ and particularly the Koreans are dreadfully worried that the Chinese despite their good intent will not be able to deliver.

K: It looks that way now.

S: And we kept reassuring them that well, give the Chinese a chance.

K: In this message the Chinese are blaming it all on the Soviets.

S: Well, I don't doubt that at all. But if it's the Soviets, the Soviets are working very closely with the nonalign namely the Algerians and the rest.

K: No question.

S: And this makes whatever alternative strategy we persue that much more risky becaŭse.

K: Well, there was no way the Soviets could not learn about it was there.

S: But that's water over the bridge.

K: Well, how was that.

S: Because this was a deal we had cut very exclusively and secretly with the Chinese. On all sorts of honor that it would not be disclosed to anyone.

K: OK J$_o$hn, I just wanted you to know where the ghing stood.

S: Well, all I can say Henry is I am willing to try any avenue and of course we'll seek any alternative way of pulling this thing out

S: because I do think it is of critical importance.

K: Right I agree with you.

S: But it doesn't surprise me at all that the Russians are trying to screw us on this too.

K: OK.

S: Alright Henry. Welcome back and as I said in my messages to you you did more than any single man had a right to achieve and the world had the right to expect from.

D: And we were speaking of the fantastic effort you have put in the last few weeks.

K: Right. Well I hope to see you soon. I may have to go to Key Biscayne. But look I have an urgent immediate probelm.

D: Yeh.

K: I have been informed by the Egyptians that they will let those ships through and that orders have already been issued to that effect, so --they may ask them to identify themselves but they will let them through. They told me they have promised only to ease the blockade and what they probably mean by that is that they should identify themselves.

D: I see.

K: Now, they also said--they said I want to assure you that no _____ incident will happen, but they pleaded with me to avoid Israeli publicity.

D: The publicity business--I don't see any difficulty, but the question of identification, that is how conversations were concluded, I wasn't privy to all the details of the Sisco meeting, but is this part of the agreement that the--

K: It is not part of the agreement--they never said specifically what they would do. In my judgment that we can get ended in a little while. This is a facesaving device, but I would ask you now for Christsake you have achieved more than you had any right to given your behavior

K: Not this time? But before.

D: I see.

K: But for God sake really now don't ruin this thing now because I think you've got every demand now that you came here with

D: I'll pass it on to the Prime Minister of course because as I said --do you think it is going to be in regard to the first ship or every ship will have to be identified--or you don't know this.

K: My judgment is that the Egyptians are looking for a facesaving way by which they cannot be accused of lifting the blockade. It's like you putting six roadblocks on the Cairo Suez road and then remove them again. Now they must be given the same privilege as to be as obnoxious as you.

D: Hm huh. .....all blocks when we move them.

K: Well you put about three up one night and then you took them down again and

D: And the UN puts them in

K: Yeh, now all I'm saying my impression is that what the Egyptians are doing is maintaining the general principle, but not the practice --now they resume the practice, I think you should raise holy hell --if theydon't resume the practice --they didn't even say they would be asked to identify themselves, they said they may,

D: I'll pass it along right away, Dr. Kissinger. I have a question to ask you. The PM has asked me to have a talk with you as soon as possible with you -- when do you see?

K: Let me find out what I have to do in KeyBiscayne

D: You are leaving today?

K: I don't know yet. As soon as I know that

D: Yeh, because I was scheduled to go to New York tomorrow, but I'll cancel everything if I know that we can meet tomorrow or shall I wait until Monday?

K: I just can't be sure--I'll let you know later today. But what I'm really anxious for is the Egyptains have flatly told us they would let the ships through -- that they will or have issued instructions that they may ask the ships to identify themselves and said with the advance information I gave them, they don't anticipate any problem but they hope that the ah--they have great problems with African and Arab friends and so they plead with us to do our best to to keep you from avoiding --from publicity--

D: I will mention these two points

K: And on the identification my view is that this is something that cannot be maintained for any length of time, until after--as long as every ship goes through.

D: Hmhuh. Hmhuh. I'll now pass it on and I'll see what I will -- see the reaction of the PM. I hope that, you know, especially if you will realize that it is not a regular practice that is going to takepalce.

K: Listen, I cannot promise--whether it is a regular practice, all I'm telling you is, I hope you realize the thin ice you are skating on for Christ sake and every time we make a proposal to you you can't just say no.

D: We have not said no, Mr. Secretary, I'm just trying to pass information to the PM and hope that everything will be all right.

K: I'm--I mean I thought you might be pleased with this information --it didn't accur to me that it could present a problem in Israel. I may be suffering from a misapprehension here.

D: No, I did not say that it would present a problem--I was just trying to understand

K: What I'm telliing you is when I got your message I immediately went to the Egyptians without our strong support for it, they have not agreed to let the ships through to interpret easing (?) that every ship can go through, what I told you was to be moderate, now they haven't even asked for it, now they have said the ships can go through, they may be asked to identify themselves and they didn't even saythat will happen and they asked for no publicity--

D: I --maybe there is no problem at all, I'm just saying--I just want to be sure what I am passing you, Mr. Secretary, I didn't know--

K: Well right, It is not a formal Egyptian demand and I have intended to be helpful to you,

K: Yes.

W: They have already sent notices out and it would be inconvenient to..

K: The only reason is I wanted to give a press conference on Wednesday.

W: What about Wednesday afternoon?

K: Well, you know people want to get away and

W: I think attendance would be bad for our people in the afternoon.

Bill Timmons/HAK

K: Bill can you explain to me. What the hell this is about Sonnenfeldt. It's beyond my comprehension.

T: When did you plan to submit his thing.

K: In about two or three weeks.

T: The Congress would either like to confirm him and have us swear him in or not swear him for the Treasury post or withdraw him because Mansfield said it's not fair to single one out and therefore he's holding about 24 I think nominations up.

K: Who put him up to that. That does not sound like Mansfield.

T: No it is. We've talked to him. Brent has talked to him. Everybody has talked to him and that's what he wants to do. So our options is either to withdraw him now or go ahead and let him be confirmed. Frankly I see nothing wrong with having him confirmed by the Senate and not sworn in.

K: When is that going to happen.

T: As soon as we can get approval to go ahead that way. ____ doesn't want to do that of course. He says that's unfair to have him confirmed when they know full well he's not going to be sworn in. What's your preference on it? You'd prefer to have him just sit where he is. Right?

K: Until I nominate him but I've got three guys that I need in the Department that aren't being confirmed. /Is it clear though that if he is confirmed and not sownr. T:

K: It makes absolutely no difference to me. I just want to get my 3 guys through and it isn't any reflection on Hal not to confirm him now since the whole Senate gets a chance at confirming him anyway. The Committee has confirmed him. If the Senate has any doubts about him they can refuse him when he comes up through the State.

T: I think we can probably swing him this week probably get him confirmed because I believe that's the only way we'll clear out the other nominees we've got is to have Hal confirmed and Felch just won't swear him in for two weeks until you send him up as another nomination.

K: OK.

UNITED STATES DEPARTMENT OF STATE
REVIEW AUTHORITY: ROBERT H MILLER
DATE/CASE ID: 25 MAY 2004 200102979

T: I think we can work that. There was another problem connected with this in that one of the Senators had a hold on him but we can work that out I think.

K: Do you want to move on that today. So I can get my guys confirmed. If it's necessary I'll call Mansfield. I'm sure he'll do it.

T: I think he'll confirm him. I don't believe there is any problem on that but he's not going to let him just sit up there by himself and go ahead and move the other nominations.

K: Well, if you can say that I intend to appoint him to something in State I see no reason why he cannot pull him out.

T: He's been reluctant to do that Henry. For two weeks we've been arguing with him and you may want to call him and see if he'll do that.

K: Why don't you first give me a report.

T: OK.

K: Now secondly your various notes about the committeess I have to meet. Let me say this. Everybody knows that the President is very grandiose about signing me up. Everyone of these meetings takes a morning. I've got to run a department, do the NSC job and conduct all the negotiations and keep running around the world. It's just humanly impossible to do all these things. Now this week I'm meeting with athe Senate Committee and the Senate Foreign Relations, I think the Senate Armed Services Committee next week I'll meet with the House Foreign Affairs Committee and I'll be willing to meet with the Armed Services Committee but I can't be just thrown around. The curse of this Administration is that they drive everything into the g.d. ground.

T: I know. But rest assured that wasn't my idea. He hits me on that every damn time I see him.

K: But you know he is only thinking two days ahead. Just between you and me I fail to understand what he is doing with all these sessions with congressmen except building a trap for himself.

T: Well he's trying to restore the confidence in his office and while some of the press has been bad with some of the guys who go out and leak stuff but generally they have been very good this last wekk.

K: Have you. Were you there.

T: All of them. 9 of them he had and they're very positive we don't get much news story out of those just the guys that go out and leak bad things but

really and truly they have been....

K: That's his problem. I can just worry about my problem. My problem is that don't sign me up for these things. I'm here now for 3 weeks before I go on the road again.

T: Of course I have not gone to the hill and told the members. I've sent notes to you every time he asks me about it.

K: I'm not blaming you for it. He zaps me every time.

T: If you and are doing the Foreign Relations and Armed Services this week and are open to do the House Foreign Affairs and Armed Services later, like next week or within 10 days, I think that will cover his....

K: If the Committee asks me.....

T: Of course. OK.

J: Well, I want to go over the whole picture with you and what our options are and a few things and I want to hear about especially your trip to China.

W: I hope you are not too tired.

K: No.

W: I know what such a trip does -- means. Dr. Kissinger, I have tried to keep you informed through my last letter but of course there are a number of developments which I think are important. As far as Syria is concerned, the things are not going too well. The Guyia mission -- he is back now -- did not really produce a breakthrough. They insist-he had a long talk with President Asad. They insist on the return to the 5th of October lines and a return of the 15,000 civilians. They would then exchange the prisoners. Send back those Israeli prisoners. But there is one _____ of hope. That is that they are negative on some sort of meetings. Perhaps even military meetings following the example on the Egyptian front. I don't know what that will produce. Unfortunately the Ambassador here is not -- I don't have the impression that he is really authorized to have negotiations on this subject. But both sides -- Mrs. Meir and President Assad insisted heavily on continuing to talk, especially Assad. Mrs. Meir -- they appreciate the fact that I send Guyia there and that we are trying to be helpful and repeatedly insisted to continue to talk. So I do not exclude that something will finally come out. So I thought I should let you know this.

K: Well, I appreciate this. I understand that you and I are going to get together in the next few days.

W: Well, I suggested that. I would be very happy to see you and to discuss more in detail the situation but I haven't got any information from your office when you would suggest that I come for insistence to Washington -- if it is easier for you or whether it is when you are here in New York. I leave it to you. You are very busy now and I can imagine it is not too easy for you to come.

D: West, yes. This is rumor.

K: I can not judge that.

D: You want me to pass this on to Msocow?

K: I think it is important that resumption os hostilities be prevented. We have told the Israelis we will not condone any attack by them.

D: Are they moving..or in a deadlock.

K: I think essentially in a deadlock. I don't think they can make a settlement in these talks.

D: Did you explain to Egyptians one hundred times..

K: Yes, 100 times. On Monday, Wednesday and Friday - yes. But on Tuesday, Thursday, and Saturday, - I am not so sure.

D: What is your estimate?

K: My estimate is that they can be made to understand that they are bluffing. They can recognize..

D: Up to now, the Egyptians have mentioned to us..

K: I am not sure..we just know about the concessions. We don't know what they intend to do about it.

D: No, not soecifically.

K: Sure, by all means, bring him too.

G: I don't want to push people on you, but.

K: No, the real reason I suggested Meg and Phil is once you invited me to your house and they were there.

G: That was because at the time you were not having anything to do with news people.

K: Well, they're not going to write about this?

G: Oh, no.

K: I have no particular ulterior motive, I mean no particular briefing I want to give.

G: I can come with just Meg and Phil alone if you think it would be nicer.

I thought you might want to make some brownie points before you let them down.

B: Fine. First of all I want to tell you that you had some very fine work done in New York last week by, various folk in our mission, on this funding question for UNIF. I was just delighted with the wway we came out.

K: Good. I'm delighted.

B: Startlemyer (? (and his group and the political people, I think did rather excellent jobs because it looked so adverse at first in terms of resolutions that would have interjected political questions and assign the quilt to Israel and cut down the Arab share and all that you know, so I know good work is done around the world but I wanted you to know how well I think your team up there performed.

K: I appreciate that very much.

B: Secondly, Armasted Seldon I understand, has been recommended to you by Senator John Sparkman, and perhaps others, for an Ambassadorial post.

K: That is correct.

B: He was of course a member of Congress from my state.

K: I know him very well.

B: I think he would make an excellent man, as you know, he has served the President and the Administration before in the Defense Department. He is a democrat which perhaps would not hurt under the present circumstances. He also is very much a Nixon man and I think he has very fine qualifications for such a post. I understand he has a specific interest in New Zealand and if that should be available Mary Jane Seldon, as you probably know, is a very bright and attractive and charming lady. I think they would both be quite an asset to the country.

B: Alright so now is there anything else that I might do that would be of help.

K: No, I already heard from Senator Sparkman and the recommendation of two people that I respect as much as you will weigh very heavily.

B: You are very kind doctor. I've long felt if we could just get you into the Middle East, we'd begin to see an end to our troubles and I think that is correct. I know it's just a beginning but it's a rather thrilling prospect I must say to be making some real headway at last.

It is the best of the two and they would be happy to handle for you ...the purposes you have in mind. I would suggest you follow this out and you establish a fund in your name or in any name you wish for scholarships of children of Armed Services...in Viet-Nam. The decisions would be taken by a committee that would handle it at first and then they would hand it over...a group at Princeton...it is a recognized institution ....would direct the prize money on your behalf and others who would like to contribute. K: Hello. How are you Carl?

M: I'm just fine thank you Henry.

K: Carl, I know this isn't strictly your problem any more but on this business of turning over my Nobel Prize, which I've decided to do, I just don't see that I can accept money for making peace when so mmany people were killed.

M: Henry, I'm also worried about thepolitical aspects of turning it over to any Vietnam group. It'll become a political thing if you give some of it to the North, people will criticize...

K: No, I wouldn't give it to the North. What I thought I would do is to give it to, there is an institution for Vietnam orphans.

M: Well, the points which I haven't been able to explore as yet to day is how about turning it over to the Carnegie Foundation for Administration, of a Kissinger fund for world peace somehow in a program.

K: Another thing I thought of is to set up a scholarship fund for the sons of servicemen killed in Vietnam or missing in action, or for the children.

M: There again something like that but keeping it here in this country rather than getting over there involved. After all we are going to rehabilitate the North and if we draw a line between the North and the South its very awkard but if you limit it to american people...

K: Well, I have to do something though this week and I have to find some organization to give it to.

M: Is there anything wrong with the Carnegie fund that could administer it as a trust for either scholarships orfor the same purpose you received it for improving the peace of the world. Could I make it...that idea of having it in the hands of an American foundation.

K: That appeals to me. I would most like to give it to something that benefits the children of servicemen who were killed or missing in action there. That's not a political thing. No one can object to that.

K: No, they certainly could not to that and that I can find a place for you to give it in two or three telephone calls.

M: Yes. I think I might be... Yes. Let me make 2 or 3 phone calls and come back to you Henry.

K: And conceivably we could do it as a prize for contribution to peace but those things usually turn into such horrors.

M: It would have to be pretty specific.

K: And then the question arises, why didn't I keep it for the Nobel Foundation.

M: I think that is easily explained. It's a prize and you want it to go to the peaceful efforts or to help those who we lost in the struggles.

K: The children of those, that's easy.

M: Yeah. It can be a regular administered scholarship fund based on the merits.

K: Exactly. And of course, after a while, you know, it could go out of, you know they should be able to use up the capitol because those children will grow up over 20 years.

M: Yes, and that would give them an allowance so they can use capitaol and income for this purpose until this thing eased up.

K: Yeah.

M: I think _____ education has 2 or 3 such funds but I'd like to get it away from the political and into something that is totally private.

K: If you could make a suggestion to me so that we could... I have to write a letter by the end of this week.

sent on to me what he said without correcting it or anything, according to this he said, it was his impression the Egyptian side is not satisfied at all by fulfillment of Israelis of agreement, by point 2, he said his impression was that the Egyptian side is not satisfied.

K: Well, that's all right.

D: He mentioned in the telegram the Egyptians complained to him several times to the Ambassador, and his own impression was they are complaining. This would create obstacles....

K: One other thing, frankly. The Israelis keep telling us that there is extremely high readiness of Egyptian forces.

D: This could be. They make public.

K: No, no. We are telling the Israelis if there is any attack by Israel we will have to oppose them. We hope you will use your influence with the Egyptians to calm them down. We have told our Ambassador to tell the Egyptians.

K: No chance to discuss it yet.

D: No, because [redacted] Fahmi isn't back.

K: They mentioned to us too in the sense they are afraid of some trick by the Israelis and telling they should be prepared, publically said this. not just to us, from time to time tell us about things, but nothing in addition to my knowledge to what was said publicly. I will notify Moscow so they know ....Is there any change in the elections. Are the Israelis going to change the elections?

K: If the Israelis change the elections it will not affect our determination to proceed. If the election is not until the 31 then we should not go on substantive matters before then, but if they delay by three months then we will go into substance right away.

D: If we must wait so to speak 3 months, it will take a lot of....

K: Hello.

P: Mr. Secretary

K: Mr. Chairman.

P: I want to talk to you in the strictest of confidence. You requested 2 billion 2 for Israel, that's the budget request. We marked up our Bill yesterday. What I did. And the vote was 9 to 3. That was 1 billion 700 million in emergency funds and I earmarked 300 million in military sales from the January request which brought this u p to 2 billion. Then I proposed and it was accepted, 1 billion dollars, not more than 1 billion, could be in grants leaving you then the right to go down to zero. This was a very crucial thing because two members, they knew right away what could happen. I said, well now listen, we've got to give the Secretary of State and Administration some flexibility in this thing. Because, here is what I want to do. And you are the only man I am going to mention this to. Not another soul until, until about an hour before I report this to the full Committee. Here is why I want to do it in two pieces. Our military or defense bills passed the full Committee yes, we cut it 3 billion dollars and this hits the headlines of the front pages of the papers then we followed with of course these supplemental appropriations which was cut very substantially. Now if I had have moved this thing out at 2.2 you understand, we could have been in serious trouble. Now, here's what I want to do. I want, the chances are 99 to 1. I need a little leeway. I think that my skids are greased, I think I'm safe but when I get into the full Committee and report this Bill I'm going to say I am in receipt of a letter from the Secretary of State and the Secretary of Defense. The Secretary of Defense's letter, I have it now, "Top Secret," on top of my desk. That I am going to offer the motion in the full Committee to move it up to 2.2 you see.

K: Right.

P: If we had bought this off at 2.2 there had been so much opposition building up it could have been in trouble. Because there is a [redacted] hell of alot of money in this Bill for Israel and trying to word it and Morgan's Bill only passed by 5 votes. So I'm asking you, you're entitled to this information. My plans are to give you 2.2.

K: Good. I'm at a meeting and won't be able to do it until this afternoon.

P: That's alright but make it very strong. That it is crucial, it is urgent that no less than 2.2. Just make it as strong as you want to and I'm going to give you 2.2.

K: Terrific.

P: And remember this, that Richard Nixon has the key to this storehouse anytime he wants to come in. That's I feel for the man, nothing he can do for me. Told him to make a good President and that's what he is doing. It's ourobligation to back you up because you're doing a great job for this country. The chances are 99 to 1 that I'm going to ask the motion in this Committee and bring this Bill onto the floor at 2.2.

K: Terrific.

P: And you're the only man I'm going to tell.

K: Mr. Chairman, many thanks and we won't forget it.

P: OK. Goodbye.

K: How are you?

S: A little tired but o.k. How does the world look out there.

K: I have had a very interesting message from Saudi Arabia saying Faisal would like to ease the boycott and is looking for an early occasion which will provide him the way when the peace conference is agreed to -- in the form of a presidential letter.

S: Very good. That bears on the subject I was going to discuss which is that it will take six or seven weeks anyhow to accumulate the Marines in the Indian Ocean.

K: Can I call you back this afternoon. I have to go to the Hill and I am late now. That information is just for you. It is a message from Prince Fahd.

S: Are we sure Faisal agrees?

K: He claims he is speaking for Faisal. I have never known him to go this far.

S: Very good. Fahd of course is more friendly with the United States than Faisal at the moment. O.K.

K: Goodbye.

During the last two days there have been press reports from Tel Aviv about an observer role.

K: That is nonsense.

W: I did tell them this. There are of course a number of aspects which I think should be clarified in order to avoid any uneasiness which exists, and again a report from Amman reporting about the dimension of the American and Soviet Ambassador in Amman speaking of the presence of the Secretary General at the Conference. I would be very grateful if you would look into this matter.

D: I wanted to tell you the reception last night was wonderful.

K: Aren't you nice.

D: Reall Henry, this kind of reception is so often nothing, I don't know if you take personal care about these things, but it was really ....what the Ambasadors mentioned to me they don't usually to tell me about..and i think is a good thing.

K: Thank you..

D: And the girl from ABC was wonderful.

K: Meg Osman.

D: I don't know if you really had dinner, but I thought that she is the nicest girl I ever met.

K: Well, don't get carried away.

D: [No, but you should keep her as a secret weapon.] Henry, I received a telegram from Moscow and asked me to tell you he fully agrees and he is in government, it should be Soviet-American auspices. The Secretary General of the UN, the UN itself, should be Soviet-American auspices. We do not disclude the possibility for the Secretary General or one of his representatives to preside.

K: OK. Neither do we.

D: And three, we are agreed to work with you in full as mentioned so we confirm we sent instructions to our Ambassador in Cairo to talk with Sadat and to talk with him in the context of the letter we proposed to you. And we would like if you do the same.

K: Yes, we will. I have one other matter, Anatoly, the Egyptians are raising with us about bringing about an Israeli withdrawal before they will come to the conference.

D: As a condition?

K: What I want you to know is this, you know what I am doing, I am systematically creating a congressional support. If I have got to start now to try to get a minor Israeli withdrawal it's going to create an uproar in this country and destroy the atmosphere for the peace conference. For the sake of the Egyptians, we all know what has to be done, the Israeli withdrawal cannot get it until the peace conference is open and whatever influences you have in Cairo...If they go to the Security Council asking for _____338 we probably will have to oppose it on grounds that it should be discussed at the peace conference.

D: Henry who raised the question with you.

K: You're old friend Fahmi.

D: Fahmi? When? When he turned back. They don't raise it with us yet is the reason I ask.

K: No, I know, I just wanted to alert you.

D: I promise....

K: I really think we are on a good course now.

D: We may not like the situation, not withdrawing, but realistically we agree with you.

K: Reality of the situation in the letter to them, you know what's going on, what's going to happen, but if we took concerted action in early January.

D: You mean action about...

K: Bring withdrwal into the Shal.

D: They have not changed their minds about the elections?

K: Even if they do we will not change the schedule.

D: So, I can mention to.

K: You can mention to Gromyko.

D: Actual withdrwal.

K: Well, I can't promise that, but I can promise we will work

actively for it, it will be a matter of weeks after that. I can't give you a date for withdrawal.

D: I know.

K: I can give you a date for a major American effort.

D: I will put it this way. You have nd yet settled your trip to Cairo?

K: No, I'll inform you....

D: When it's settled.

K: I may not do it, if this situation continues I may not go at all.

D: When do you go?

K: I'm supposed to go on the 9th. I have no fixed decision. We have not yet formally approached anyone.

D: Well, I will keep in touch about preparations for the conference. I will send a telegram, and....

K: Send a a telegram to your Ambassador to see Sadat

D: Our Ambassador has instructions to visit him.

K: Hello Mr. Ambassador.

O: Good morning sir.

K: You take your guests away from parties so quickly before I can talk to them.

O: I'd love to have you for lunch if you want to come. But I know the Secretary of State is so busy.

K: You don't give me much time to change anthing. No, I can't do it now because the Colombian....

O: I looked for you but you had already gone up to your speech and they couldn't call your attention to this lovely lady. Very sorry.

K: To have a corruptible Secretary of State who isn't being corrupted by the Italian Ambassador is a disgrace. But look, that isn't why I'm calling you. Can I get your view on a personal basis on, is my impression correct that Moro feels that he doesn't want to meet me lest he gets criticized by his nine.

O: No.

K: I mean, my life will not be unfullfilled without such a meeting but I just wondered what the reason is.

O: No. Unfortunately I could only talk to you for a few seconds yesterday. They have been sort of _____ by the _____, who have said to us that they are taking an initiative with all the countries of the nine to see whether there should be a long meeting with you _____. Moro said in order to fix in an appropriate moment my meeting with the Secretary. Wouldn't it be better to know when these other meetings are taking place.

K: As an old friend can you tell me, is there any sense in my meeting with the nine since I'm seeing...

O: I would say so

K: What's the sense of it?

UNITED STATES DEPARTMENT OF STATE

*

O: Well there is a deep expectation.

K: But they can have a long meeting with me in the NATO framework.

O: Yes, but it's a different situation. The nine have something and this is something else. What I think they want to do is to explore with you what is the best way to proceed in order to eliminate some of the misunderstandings in one thing and the other which are actually rather rampart within the nine and the U. S. This telegraph of Moro which I got yesterday morning also says I don't think that one hour would be enough because it appears that there is a communication to our government that you had foreseen an hour with the nine.

K: I have foreseen/absolutely nothing. Now, I can't be sure that some of the eager beaver Ambassadors I've got running lose in Europe aren't trying to make brownie points by arranging a meeting between me and the nine. I have not requested a meeting. I'm not reguesting a meeting, I have no reason for a meeting. If the nine want to see me and if they have an agenda I'm delighted to see them. My purposes are perfectly fulfilled to see this happy group of allies in one room in their individual capacities at NATO.

O: I see.

K: But if they also want to meet me as 9 and if they request it, I will certainly do it but I have no requests for a meeting no matter what is being put before you.

O: I tell you, as I talked to you last night just a few seconds I got the sense of what you were meaning when you said, no, I have no invitation and I _____ from dating my telegrams to Rome and I said, come out with some sort of formal invitation then you can have the Secretary of State meeting with the 9. But you don't come out with anything and if we go on like this just making references and illusions that's not enought and you know now what they are going to do but I conveyed this feeling to Rome last night. So I would think that if I could suggest that it would be good if you could see them but certainly you need an invitation and for that I've already cabled I can assure you.

K: The only reason I'm proposing the meeting with Moro is because we missed at the U. N.

O: You're perfectly right. If you want to know the truth and nothing but the truth I talked to Gaiav(?) off and on before seeing you and they said can you tell me what is the date Mr. Moro thinks the best and Gaiav(?) came out saying well why don't we wait to see what the 9 plus other states are going to do about the meeting among themselves. We can decide the best date then.

*

K: I've got to go up to the Senate Foreign Relations Committee to tell them about the state of the alliance. It will be a long session.

O: I wish I could be there as I know the Senator.

K: It will be constructive.

O: We trust you -- for the future -- you must be absolutely aware of our great trust. That you can be sure about.

K: We have no complaints what soever about what Italy has done.

O: Let's hope.

K: None what so ever.

O: Thank you very much but I want to dispense completely the story that Moro is reluctant to see you.

K: That's what I wanted to find out.

O: No.

K: Ok. Give my regards to your house guest.

O: Thank you very much.

K: The only complaint I have about the Italian government is the excessive concentration of its Ambassador on business.

O: Thank you. Goodbye.

Clarence Kelly - Secretary Kissinger
December 4, 1973
5:00 p.m.

Kelly: I have looked over the matter you talked with me about and I would like to review a few points with you. I find it is pretty well common knowledge that there is no actual authority for the Secret[redacted] Service to serve you in this capacity.

K: But that we could get done with the Congress.

Kelly: Yes, that can be done. The State Department does have the statutory provisions. The Secret Service does not have accessible to them some resources the State Department has but the Secret[redacted] Service has a great deal of expertise. I might also mention that the Secret[redacted] Service being used to guard you may on some future occasion give somewhat of a morale problem. I also find that possibly the Secret Service will be somewhat reluctant to continue without some indication that they are going to be a permanent part of your entourage.

K: Well, I am assuming that I could get these administrative things cleared away with the President if you advised me it was the better thing to do.

Kelly: What I said to General Haig when he called in September, did you know he called me?

K: Yes, I did know, but I never asked for his report since I decided to keep the Secret Service for awhile.

Kelly: What I would suggest is that you have a trial period to sort of integrate the two.

UNITED STATES DEPARTMENT OF STATE
REVIEW AUTHORITY: ROBERT H MILLER
DATE/CASE ID: 07 JUN 2004 200102979

K: The Secret Service won't do that.

Kelly: Will not do that? I understood that for the last week or two you had been trying...

K: They will do it as long as they are in charge . If they were put in charge the Secret Service wouldn't mind having the State Department with them, but finish your recommendation.

Kelly: I would suggest you do try to get them to integrate. That would get the State Department addition experience, and more importantly I think the crucial matter is that you may be able to become a little more confident in the State Department people. You have to make up your own mind what you want , and I do feel very definitely you are the person to be satisfied.

K: I have no clear criteria. Unless something goes wrong they all look successful.

Kelly: Well, it is a pretty good judge of performance how well they are doing the job. I understand the State people have been in the business of protecting the Secretary of State and frankly they both are very competent. I do think the crucial point is that you get the confidence in them by seeing them in operation. In the course of my many years in the business I have seen the Secret Service operate and they are very competent. And, overseas I understand the State people are very competent. You've really got sort of the best of both worlds almost in this combination. I was hopeful that you could possibly get the two of them to work together. With a team of [redacted] of the State people and still leave it in charge of the Secret Service. I do understand that, though I couldn't say absolutely, that the State people would work under this type of arrangement. And your feeling is the same as mine, that you must be comfortable. I would recommend to you that you try that and see how it works out. The morale problem is one that you should keep in mind, too. B2

K: In terms of competence you think the State Department is competent too.

Kelly: I do. I suggest you have a combination for awhile, give State an opportunity. I feel you have great confidence in the Secret Service isn't that true?

K: Yes, and I am used to them.

Kelly: I have had situations where I have had to had some people who might guard me, I know it is important to know they are competent. I think you will get that competence and if you saw some of these people work, talk with them a little bit, you might see great competence. The man who is in charge of the State Department security is a former FBI agent, his name is Gentile, and I have talked with him in the past and he knows what's going on.

K: Well, thank you, I appreciate the care you have taken.

K: I was really glad to be of service and I hope you won't hestiate to call on me again if I can do anything for you.

K: Let me understand. You are prepared to go back 2 kilomaters?

D: No, we didn't say that. We are prepared for a unilateral withdrawal that would have to be marked on a map.

K: That would be almost human.

D: I think it should be ready in a day. They are already working on it.

K: And that might also even help us with the Saudis.

D: Are the Saudis interested?

K: They're interest in any move on the Peace Conference.

D: I was also asked to ask you, Mr. Secretary, in case we are sending the boats and the Egyptians...Can we on you to help us on boats in t he Indian Ocean?

The Egyptians have now formally accepted the Conference for December 18th, they have proposed UN auspices which is no problem to us. In fact, we prefer it. And there are a few really minor points that are impossible to explain on the phone -- how to get the Lebanese and Palestinians eventually connected with the Conference. So I think it's definitely on course.

F: I believe it would not be very wise, but if later - when you get into substance - after you've been meeting for a day or two - and then we might for substantive things later get into it - that may be useful.

K: The first two days will be mostly formal speeches. You don't think we need to show Congressional backing at this stage?

K: I didn't get the message yesterday that ;you had called and I am sorry I did not return your call.

W: That's ok. I was informed by the major beligerant of the text of the draft agreement andI have to feel that

K: Wait, there is no draft agreement. We are discussing it with them.

W: I thought I should mention it to you and it was an Egyptian source. Today they requested a meeting with me..and I wanted to check with you.

K: I don't know what version they have shown you.

W: The text that says the conference will start on the 18th in Geneva then that two parties are seeking the Security Council to

K: No. We disagree with that. We do think there should be a Security Council meeting...it should be done on a consensus basis.

W: The non-aligned, and this is the other aspect, has had a meeting this morning and has prepared a draft text of Security Council resolution which will take.... and then express hope that the Secretary General will plan a useful role in the conference and so on. This is something they discussed this morning. I got the text confidentially and I thought it was important for you to know that they are working on this. They are _____ that they have nothing til now and in the afternoon at 5:00 they are coming to see me , the Chinese are coming to see me this morning and they are worried about the fact that the Council has not heard anything further and that the Council will not have enough time to study the matter.

K: In what way can the Council study the matter, it won't be the first time in history.

W: All in all they are really ready to cooperate and they are worried that they will be confronted at the last minute to take steps and they want to have enought time to develop the matter and give me a blanket message. They understand that it is in interest of cause to give the Secretary General a blanket good will message and to leave it to him . That is the best.

K: The difficulty is there isn't any agreed text and you have been shown an Egyptian proposal. We haven't accepted it.

W: I see. It says a co-sponsorship under the auspices of the US and USSR and they gave me the impression that this is an agreed text.

W: I thought it important to tell you this and it is interesting to know the feeling in the Council. I just had a talk with Ceasescu and he expressed role of the UN.

K: Their solicitude is touching but they haven't expressed it before.

W: The members of the Council, not only the non-aligned, they want to _____ that it is called under UN asupices but that we just offer a roof.

K: What the French and British want is to be involved with no responsibilities.

W: I am glad you are clarifying the situation to me. What they said is they are afraid you will give us this information and they ....

K: That is not the intention. Thank you for being so meticulous in keeping me informed. I will let you know as soon as I have some more information.

W: May I say that

K: Mr. Secretary General I am surrounded by a bunch of busy bodies. There is no agreement. They are trying to protect me. If I come I will come for two days.

W: I did instruct my man in Geneva that he can take the necessary measures for having the meeting at the UN but he can't say this has been decided.

K: That is correct.

W: Well, thank you for calling back and I wish you a successful visit.

K: (Laughter). How can you get a message back if I talk to you.

D: I can get it either by phone -- we have a direct coded phone or come to the Embassy and send a cable.

K: In other words you would have to see me very early.

D: I would have postponed but there is only one flight a day.

K: Where are you going?'

D: Jamaica.

K: For how long?

D: For five days.

K: When is your delegation coming.

D: Tuesday night of Wednesday morning.

K: Next week?

D: No.

K: I mean the one going to discuss this disengagement.

K: I am trying to work that out with you.

K: In the mood I am in with Dayan I am not sure he is the man I want to see.

D: But Mr. Secretary...

K: He has gone to the President and said so. Clements...

D: He is lying. I will show you the text of Dayan's conversation with him and I was present. After we left Dayan and I we went to you, when we left the meeting with Clements. We left Sharer (sp?) and Gold at a meeting and I went even on the record and Clements said to Gold, if you had been more forthcoming on 101 it would be easier for us to give you the weapons but you are stubborn and not forthcoming and it is not easy for us. He said we had a meeting with Kissinger this morning and it seemed we reached agreement with him . Not said that we have advocated 101. I know Dayan did not say it and I checked on it after you talked with me. What happens is Clements is conducting a campaign that is designed to create bad feelings . He has leaked the story to Jack Anderson that you have called it ghetto mentality. This appeared in the Washington Post and I had to explain to the PM that Jack Anderson is whatever he is.

K: A total lie.

D: I know. I said it was Pentagon sources. He has taken Jackson people and there is a headline today in the evening paper in Israel that the Israelis are letting themselves -- they don't understand Kissinger's machination and representatives in Washington are falling in his trap or something like this. All instigated by, I know Jack Anderson's man, who is visiting Israel now--Dick Pearl. He is in constant collaboration with Clements. I was calling the Senator to tell him to tell them to shut-up. This is an election period in Israel. The Senator was in the West.

K: I can only tell you that I may not be able to save you but -- can you imagine what this conference could have been like.

D: I have no doubt and the PM has no doubt. It is very good.. We have a long road to go together.

K: And maybe a tragic one.

D: And Some of it will not be pleasant. I have no doubt about it. It is important for me.

K: I have to go home now and lie down for a couple of hours and I have my children here. Perhaps rather than doing it tomorrow morning we can do it tonight.

D: Anytime. I will be in the office all of the time.

K: I will have to call you on a regular line.

D: I got a call from Schlesinger and he told me some of the items and I thanked him very much.

K: Did he say he thought it all out?

D: He said he talked with the President and they had agreed to the following. Is that all right?

K: I don't want credit for it.

D: I was on the telephone with the PM after you had talked to me and I said I am waiting to hear from Schlesinger, that he would hear from you within an hour or so.

K: All right.

D: All the best.

There will be a meeting in Moscow of top people around to look at ..... of 1974 so he asked me to be in the first [decade]. I refuse it yesterday. K: Who?

D: Pentagon and Clement. I saw it also through the press (the Israeli press) that they are saying that it was yourself and the State Department that delayed arrival of theequipment in the first week until finally the President overruled everybody.

K: Yes, but the fact is... You were with me every day.

D: Mr. Secretary, not only I know the fact, the Prime Minister knows the fact. I'm just trying to point out to you that this is an organized campaign that is going on and I'm doing everything in my power, when they approach me, to deny it. But the fact of the matter is they are lumping us together. They say I am your stooge and so on and I don't understand that. But that's not what I'm worried about. I just wanted your attention to the matter because obviously what Clement has told you with regard to what Dayan said is not correct. I checked the record. J: No. I've spoken to him about it earlier. It's between you and Jim Schlesinger. I don't know what it does to the budget, but at this point.

K: But I'm for it since we may have to negotiate at SALT.

J: That's right. We cleared it with the Navy at the time. You've got a peg to hang it on so that my recommendation would be that you two get together. We ought to have that extra one in there.

N: Any late developments?

K: I saw Nelson.

N: He came by here and I had a good talk with him. I told him what I told you yesterday and in his own interest and for the interest of the country he had an obligation to support you and to do it publicly.

N: I wondered if you would do that.

K: I did that and he said he would. He said he would speak to you in the same sense and I said it is imperative for the country and I said it would not be worth governing if the President could be pushed out. I said in your own selfish interest it is essential which is not a minor consideration for him.

N: Right.

K: I have the impression that he has understood that and he said that he did it on Face the Nation the other day and he is going to look for opportunities to do it and when he does to send the comments to Ziegler so he could use them.

N: That is good.

K: Otherwise there is not too much...

N: Good.

K: of any consequence.

N: I am glad we got Dobrynin in.

K: I meant to tell you...

N: We did him pretty close together but well to show that we are on top of this.

K: Exactly and we have to keep them quiet while going through the next phase of our Mid-East diplomacy.

N: And to keep them quiet while the attacks against us are being mounted. At the end he said Brezhnev had noted this and reiterated their full support. Very important.

K: Exactly. If our opponents could make the detente blow-up that is about all they would need.

N: That is true.

J: Well, I hope that at least we get an agreement on the truce lines.

K: I think that we are going to get. You know that disassociates it from the ultimate_____and put some UN forces in between so they can't get the war starting again.

J: I'm concerned about the Suez. I wish that there could be a modification of the Treaty of Constantinople to demilitarize the Canal so that neither super-power could utilize the Canal for military movement.

K: That I sympathize with.

J: You see, we can't move our tankers. Those big tankers can't move through there, and of course we can't move our larger ships, and that's what really concerns me.

K: How long was he there?

J: Only about five days, and then he's going to NATO. When was this?

K: It seems to have happened earlier this week.

J: I won't stand for anything like that.

K: There was a long article in an Israeli newspaper. They got it from Perle.

J: There's just no justification for that -- that I can assure you.

K: I would like to sit down with you and explain our strategy to break up that coalition (?) that now exists of the Europeans, the Arabs, and the oil companies. I think the Israelis are quite comfortable now.

S: With to Kabrid, the Prime Minister recalled that we had actually offered to do this a month ago through you, if you will recall.

K: Yes, I remember.

S: And that all we ask for really is for the release of Masrafi (sp?) the Israeli agent they have in their custody, if that's the right word. We were also ready to accept an additional exchange with some agents for which they were going to give us some names, but they dropped the whole thing. To supply Kabrid and also to _____also the list of military items to be supplied to Suez. In exchange for that we ask for Masrafi, and we are also ready to release the agents. We also ask that you repeat their obligations on Bal_____but I thing this is_____.

K: How about those 56 prisoners?

S: The prisoners. As a result of customary Egyptian attacks on us. And first of all the legal aspect is that the fact they were captured after the ceasefire went into effect doesn't change the situation; the circumstances under which they were captured does. Only for your own personal information. We have information that the Egyptian General Staff has instructed the Egyptian soldiers to shoot at our soldiers whenever they're in sight, and actually it's not so much of a factor.

K: But the question is, are you going to release those prisoners?

S: In the sense of a violation of the ceasefire_____.

K: But what is your answer to the question?

S: At the momement our answer is that we are not going to release the prisoners. I have also been asked to point out that under the circumstances from an internal point of view to release Egyptiansprisoners at a time when we don't even have the names of our prisoners in Syria would be unacceptable to the Israeli public.

S: Not in legal terms. In political terms this would be a very difficult thing for the government to explain to our people.

K: Who is going to talk with youaall when they've taken me off to an institution?

S: Some of them on subjects that we discussed at 101, perhaps Geneva is the proper place to discuss them.

K: I have another little problem for you which I'm sure is easy to solve. I have just had a call from the Egyptian Foreign Minister that a Syrian officer will be prepared to joing their Delegation to the military talks. Are you with me? Now what should I tell them?

S: Offhand, I wanted to be prepared to talk to the Syrians. I'm sure that we want him there even if he's part of the Egyptian Delegation if he will be identified as such. This is my reaction. I will of course ask the government, but I am sure this will be their reaction.

K: That's bbeen my instinct as well. On the previous three items I would have been tactically more flexible, but on this one I understand.

S: Of the previous three items, the item of Kabrid - there is a standing offer that hasn't been rescinded. It's a very generous offer. We want the release of Masrafi. There's another prisoner in Egyptian internment for 20 years - Levy. We would like to have him back. (a) To supply Kabrid, (b) to consider the list of items to be supplied to the town of Suez, and (c) to return to them certain Egyptian agents which they want but whom they have not named as yet.

K: But you're not prepared to give up those 56 prisoners.

S: This is not related to them.

K: OK. Will you let me know about the Syrian business. We are not recommending it, just passing it on.

S: Yes, I realize that. I will see General Scowcroft and give him all the details.

K: I would appreciated it.

A: He wants us to advise him?

K: Yes.

A: Well, Assad has of course made the point that he's afriad if Hussein pulls out it will expose him to coups from the _____. I honestly don't know enough about the Syrian internal situation to give him advise. I wonder if it isn't best to say "Your Majesty, We think you're the best judge of what to do in the situation." If we advise him, we're in trouble. I don't think we know enough about the internal situation to give him sound advice.

K: Yes.

S: Yes.

K: Well, I think it makes it essential we get the letter out. The President has approved it. He added something to it.

S: What those other letters and the incomings said, comes from the President. Do you still want to send it out to Akins or not?

K: No, because Akins' view is exactly like ours. Tell Akins to get the letter put in even if the King isn't available.

S: Wherever he may be.

K: How do we get the letter to Sadat? Give it to Ghorbal unless Fahmy is back.

S: Well, Fahmy is not back. Is the Sadat letter approved also?

K: Yes. It's this paragraph 6 that worries me.

S: In which letter?

K: Paragraph 6 in the Jidda cable. The one where Sadat says not lifting the boycott.

S: Let me have a look at that.

N: Hello, Henry. How are you? Glad you are going to come out.

K: I am surprised at it all.

N: I did it deliberately so you did not have to lie for anybody. You have to enough for a good reason. This would have been for a bad reason. If there had been a break we could not have done it.

K: Exactly.

N: You could tell when I was hinting the other day when I said I might go to California. You looked a little amazed.

K: Quite candidly, I felt there was something -- I did not think the President of the U.S. should fly commercially. Have you seen the newspapers?

N: You know I don't read the newspappers.

K: You are on the front of the Times and the Post walking in the plane.

N: Good or bad?

K: Good. I am surprised. I expected them to say bad but they all say terrific.

N: I think it would be great if you would come out and bring your children. Can I get you a house or do you arrange that yourself?

K: I will talk to Major Brennan.

N: I will tell him.

K: I think Al has already talked to Brennan.

N: I got the two letters and I have dictated to Rose this morning something. I told her to pump it to Scowcroft and have it fixed up in proper language. It is some ideas I had. I didn't change the letters at all but I wanted to add a mountain top paragraph that I think will be helpful.

K: We have had a letter from the Saudi Arabian Foreign Minister who says in effect the King is so unhappy about this decision if we make another appeal -- a decision to continue to boycott -- that maybe it will work.

N: In any event as soon as those letters are -- well you look them over. You are at State?

K: Yes.

N: Scowcroft will get them there and clean up the language.

K: And we will get them out tonight.

N: As far as I am concerned after he gets the language cleaned up they can go. I do not have to see them again. I dictated some general thoughts. He will know how to do it.

K: We will add these paragraphs.

N: A personal thought -- this and that. The kind of things I think would appeal to both of them. Look forward to seeing them and discussing with them personally. I can say that to both and that I want to discuss the problems of the world. That will mean I want to talk about the Russians. See my point?

K: We got a letter for you from Faisal full of exalted eulogies. Very, very warm and it would fit very well into that.

N: They all need warmth.

K: Right.

N: Now I think we have the game going fairly well. I think certainly Dobrynin will give a very positive.....

K: I just saw Dobrynin. He is slobbering all over us.

N: He should. To be frank, put yourself in their position. They should go along with this deal. We will not make it the other way.

K: They have no chance of delivering anything.

N: When I put in my excerpts, I said let me be very pragmatic. I said the US is the only nation that will be able to use the influence necessary to bring about progress in this area and we cannot do it under this type of pressure. You know what I mean. I think you will like it when you read it.

K: Good. Wonderful. That I am certain.

N: I don't know whether she (Rose Mary) got it there yet. I don't know how these machines work.

K: They work very fast. If I have any question...

N: I don't care about the grammar. It is the thought that I wanted to be included. When will you get here?

K: Saturday.

N: Saturday. I would come tomorrow.

K: We are working on things.

N: Anytime you want.

K: Right, Mr. President. I'm giving a press conference at 3:00.

N: I think you should say you talked with the President today for a half hour and that you're going to join him at the Western White House - you could say on Friday or Saturday - for further consultations with regard to the State of the Union and the Middle East developments.

Z: O.K. I am keeping it very loose so no one knows exactly when you are coming if you are coming commercial.

K: The President said he wanted you to say I was coming out.

Z: I told them you were coming out but I will not say the day. I said sometime soon so if you fly commercial you should go low key and privately. We are not going to give the date or time or anything in terms of your departure.

K: I may come on Sunday and leave on Thursday whether or not he leaves.

Z: Don't tell anyone that . Don't let your office know.

K: I won't tell my office.

Z: I was just advised that the NY Times is moving an advisory to their clients which says they have negotiated for a manuscript that when published due to its sensitive nature -- a story of sensitive nature, so sensitive it must remain confidential at this time and when published will have world-wide repercussions and the manuscript itself was written by a prominent person and they say it could appear as early as Sat. in their advisory in a 3-part series. That is all I know. It may not be anything at all but there are

two things that worry me in the advisory and that is the historic portion, sensitive nature and world-wide repercussion.

K: What would you think it could be?

Z: I don't know. I called Clifton Daniel. I told him that I was calling on an informal basis and said we had been informed of the advisory. I said there were two words in the advisory running at this time that concerned me. I said I recognized it might be a sales pitch on the part of the NY Times news service but UPI has also picked this up which is an extraordinary act for UPI to advise their subscribers of this particular series which they say th are going to run also and they are going to charge their clients additional money for it. I know it does not mean anything to you but in the newspaper business it is extraordinary . This is the way the Stalin daughter story broke.

K: Yes.

Z: I said to Clifton, "Look you know anything about it and he said no." I said we are both talking then from a point of no knowledge. I said it was an informal call but all I can say is I do know we are involved in a very delicate diplomatic period.

K: You can bet.

Z: To put it mildly and I said it seems to me if the NY Times is going to break a story of a sensitive and historic nature that will have world-wide repercussinns and as the advisory says would make headlines around the world, if it has anything with a potential effect on our diplomacy, that the NY Times should notify the Govt before it breaks, you see.

K: Yes, but they won't do it.

Z: I think it is a reasonable thing to raise, just to be on the record, don't you?

K: Absolutely.

Z: He is going to call me back in half and hour.

K: Will you let me know.

Z: Yes. Don't you think it reasonable to raise?

K: It is essential.

N: Hello Henry;. I'm just making my daily check. I noticed the Syrian build-up. I think that is mainly a bluff. The Israelis are ready and they would give them hell.

K: That's right, but the Syrians may force the Egyptians into the war. I talked to Dobrynin about it and they promised they would use strong pressure. The Washington Post has an editorial that is really treasonable. It describes our strategy with the Egyptians and it says the Egyptians are taking themselves out of the war and there will be half peace and half war and the end result is that the Israelis are making a big gain and the heat will be off the negotiations and that is partially true. ...they are out to get you..they know this will be another big win for you in foreign policy...but when this gets back to Cairo it will trigger an explosion...

N: We will win more...will show them and don't you get discouraged. The main thing you and I and Al are the strong guys and..

D: What kind of _____? Because I have copies of his telegrams including his talks with Israelis on the same subject and his talks with the Egyptians and with your representative. You have there a fellow -- S_____?

K: Sterner, yes.

D: Who said? Egyptian first mentioned to him that they were in favor, then talked to Sterner who said they do not object, but it doesn't necessarily mean that they want it. They come back to me and say Americans say it is not so.

K: It was Gromyko's idea that at some important mement when the talks were completed that we might again have a meeting in Geneva.

K: I've blown worse than that.

S: I guess I mentioned this to you before about some articles. But I detected some undercurrent towards you among those Washington Post reporters.

K: I have too.

S: They spend a lot of time trying to separate me from you.

K: Was it Marilyn?

S: No - a fellow named Sterner. I reflected on that last night. You're so damn high at the moment that they want to tear you down.

K: It's a combination. First, it's Dinitz, taking out insurance because most of those are Jews. Somewhere down the road I'm going to tackle them. Then they want to operate on the President against me. For about a month they were trying to say foreign policy will go on even if the President is forced to resign. On

the trip I gave background every day identifying myself with the President. They must get me if they get the President.

S: This of detante and my being in a position of working with the (Arabs?) and you in the position of working with the (oil?) That's natural isn't it. That's in the nature of the position____.

K: Always in ____terms of time.

S: You may be spending more of it. But there was some undercurrent there, but Henry has a great sense of how things move. I gave him a little speech on you, I said, Henry bats about 800. That's a God-damed good batting average - twice what Ted Williams was ever able to achieve. Of course, Henry might be offended if it's anything less than a thousand or anything less than perfect. But you've got to remember that this guy is just remarkably good. His slugging average is even higher.

K: It's obvious they're trying to split you and me in the press conference.

S: I think that Kay Graham herself is sympathetic to yourself personally in a way the reporters are not.

K: That's definitely true. That's definitely the case.

S: You're the fellow in the top hat at the moment.

K: That's obvious. Have you seen the editorial in the Post today? It lays out our whole strategy with Egypt. If that hits Cairo, I don't know what they're going to do. _____that they're taking themselves out of the war. It's perceptive.

S: That subject never came up on Saturday.

K: I didn't assume that. I'm just pointing it out as an example of their destructive tendencies.

S: They asked me on Wednesday about whether you had received any promises from ____. I told them I didn't know, I said, ask Dr. Kissinger. I directed that one to you.

K: Good. I never confirm it or deny it. OK. Very good. Have a happy holiday.

S: Did you see that article yesterday in the Washington Post by Bernstein and Woodward (sp). Now that was really.....

K: They had two -- which one to you mean?

S: This is one that discussed H as being disenchanged. Who's the source of that?

K: It's a combination of Mel and Clawson.

S: Clawson is (creaming?) the President.

K: Yes. That's just between you and me. Al thinks so too.

S: OK. Good. Well, Marilyn Berger shouldn't have used that material.

K: If you yell about it, it gets worse.

S: We have all these complaints that A__ is writing about. Sultan points out the cost of U.S. weapons has increased. It remains badly timed even for them.

K: I would not budget an inch now. I believe we have to show our teeth a bit to the Arabs now.

P: I would like to do a little thing to say what your plans are here in your talks with the President.

K: What my plans are here?

P: What your plans are in terms of foreign policy.

K: Well, we are going to talk specifically about the Middle East. We will review the situation and see what the next moves will be. But it will also be a general foreign policy review. For instance, the energy proposal is more important even then it seemed then. We hope to get _____ Energy Action Group.

P: Why is it more important now?

K: Because we have almost all of the foreign exchange---it will have to go to energy. Now, for the U.S. it is not such a problem as for others.

P: So, you will see if you can cooperate with the oil-producing countries. Henry, let me ask you about the Israeli situation. It seems to me that the Labor Party will squeak through. I don't want to be premature but it seems that way. If that happens, I assume you think things will happen more quickly.

K: It was never expected that anything would happen while I was on my trip.

P: In other words, if I was to say that view on the present was optimistic....

K Well, you have to allow for the fact that it is a volatile area and someone can always do something. It looks hopeful.

P: Well OK. I'll put that out. Some good news is good sometimes. What about the Arab oil?

K: Well, that you will have to take on your own. Let me tell you something for your own information. We get our share of the 10% increase. Then, we get more from other countries. The 10% increase was very helpful to us. If they had just lifted the embargo it wouldn't have helped us. Now, if we can get the embargo listed, it will be easier.

F: The former head is a fellow by the name of Gordon Metcalf. A very able guy. We thought that William--and his nickname is Mill Batten, who the President knows, is better.

K: OK.

F: He is a former head of JC Penney. You want to hear the rest of the list?

K: And can you get it over to Eagleburger so that he can LDX it out here?

F: Sure, it has already gone to Eagleburger. Now, Howard Clark, of Amer. Express---he's supposed to retire in a few years. Several of these men might be on the edge of retirement so they might be available.

K: Good.

F: Well, I'll read them to you quickly. In order of ability and the fact that they are close to retirement. Mill Batten, of JC Penney. A fellow by the name of Bob Ullman of National Cash Register, Gordon Metcalf of Sears, a wonderful fellow, Jim Binger of Honeywell, he's only 57. I doubt that he would be available. Bill Hewitt of Dear & Co. and Howard Clark. But the first three would be my recommendations.

K: And the President asked me just to call me to ask if you have a deserving non-contributing supporter but I hope you will say no.

F: I don't. Let' me ask you a question, though. Bill Porter is a very able diplomat and certainly knows his business. I have felt that we have missed the boat in Canada because we had that fellow you had been with the bank, whose name I forget and then we had Adolph Schmit, and this is ayoung, energetic nation. And it's a young, energetic government--Trudeau is young, John Turner is young--relatively young, and their sort of feisty in some ways. Certainly Turner is. Bill Porter, while he can be feisty, seems to me less sort of tough. Maybe I'm reading him wrong. I don't know him all that well. We really need to get close to those people and we certainly haven't with out last two appointments.

K: Well, whom do we have to be realistic. Porter is tough, all right. He is not the most sociable guy in the world. But he is tough.

F: But is he a bit prissy?

K: Prissy? No, I feel it biggest drawback is that he tends to get abrasive.

F: That doesn't bother me a bit up there.

K: No, prissy isn't his problem.

F: Well, then I can't think of an alternative.

K: OK, because it would help me if when I'm moving him it doesn't look as if I'm throwing him in the ash can.

F: Sure. No, I think he is an improvement on what we've got up there. I hope you are not thinking of Schmit for the OECD and I don't see why we owe Adolph Schmit anything.

K: Well the White House is pushing like crazy for him and I ran it past the President on that basis and he is willing to do it, but I don't have any interest in Adolph Schmidt.

F: The White House is pushing like crazy for him? I wonder who that can be. I've been talking with Jerry Jones and he denied it. He said you were.

K: Look, I'd be delighted to put a hold on Schmidt. Who do you want?

F: I'll find you some good people. I don't think he is good enough.

E: No, the only point I'm making --

K: No, I mean why did Schlesinger raise it?

E:: Schlesinger did not raise it with me. Bob Hill, whom I saw afterwards, said that Clements -- Well, he went through a long story, which I think you know about Clements really kicking over the traces after he heard from Dayan. It was just at that point that he said that he gave him a map and I pleaded ignorant to the whole thing but it was very clear it was the same map he gave you. And all I'm saying is Dayan apparently just bled his guts to Clements.

K: Well, then he's a bigger fool than I assumed.

E: Okay. Fine.

K: Would you tell that to Dinitz?

E: Yes, I will. I will.

K: Well, so I will tell the President and we'll proceed.

E: All right.

K: So all we need then is Japan, right?

E: Yeah. I've talked to Peter Flanigan and he's going to get back ....

K: Well, the President doesn't want Walter Haas. He thinks he's too old.

E: I understand also that Haas is unpopular with Reagan.

K: Is not popular with whom?

E: Reagan. He's the guy from California.

K: Yeah. And he's Jewish.

E: (laughs) All right. We can send him to Jordan.

K: I'll tell you these guys are really infiltrating.

E: (laughs)

K: That means I need somebody for Jordan.

E: Yes, sir, it does. Did you get to talk about Bob Blake for Cambodia?

K: I told it to Haig. I thought it would be better if Haig floated that one. We can't send Blake to Jordan, can we?

E: No, I don't think so. Too tall.

K: That's true. What do we do with Dean? Can he do PM?

K: What do you think about Pickering for the Inspector General?

E: The IGA job.

K: Yeah.

E: I think it's a waster of a lot of talent. I think he's Direc t or General . . .

K: No, no, that's what I meant -- Director General.

E: Director General by all means. I've just dictated a note to you, for when you get back, in which I say I think Pickering would give all the right signals to the Foreign Service.

K: Some of these guys have been complaining to Charles Bartlett.

E: I've also written you a note on that. Henry, these guys -- Don't let that bother you.

K: No, no. I know one of them who has complained is Funkhouser because he mentioned that to me.

E: Well, Funkhouser has gotten nothing out of this as far as I'm concerned.

B6

K: Where?

E:

B6

K: And I suspect Unger has complained too. Because he said others in that category.

E: But the answer is the Assistant Secretaries. If they can't make the morale better in their bureaus, it's their concern.

K: Well, but that's why I would like to get these new Assistant Secretaries in.

E: They will all be back by the middle of January. All of them.

K: And all sworn in?

E: No, they can't all be sworn in until Congress -- until the Senate approves them. All of those that have been confirmed, yes. They will all be sworn in. Buffum and Easum will have to have interim appointments.

K: You know that Sisco has decided to stay.

E: No.

K: Yeah. Well, you still think that's the right thing.

E: Yes, sir. I said I thought you ought to take another crack at Sisco.

K: Well, he's agreed.

E: Okay.

K: So I've now got to find something for Porter. Maybe Ambassador to Canada.

E: That's not a bad idea. Say, do you want me to go ahead and start putting papers together on Bill Hyland for I&R?

K: Yes.

E: It's not a Presidential appointment.

K: Yes. And then I want to move [redacted] -- I want to get this thing. B6

S: That's what we're doing for you--a brief one.

K: I think he need it more than Sakaff.

S: Yeah, but not too much because if you begin to engage him substantially then it begins to carry it out---but it would be soothing, don't you think?

K: Well, we can do something that was similar to the Sakaff letter.

S: Right.

K: That explains my reasoning. But not too long.

S: Right. Along those lines. OK.

K: Now, secondly, I think we should keep open the possibility of Sakaff coming over here. It is pure domestic politics--so that we can give the President some credit.

S: That's what I tried to do this time.

K: I just don't want you to think I don't appreciate it.

S: I figured you would. I'll try to do better in the future. We've had another letter from Fahmi and this one is a complaint that the Israelis are not permitting the convoys to pass to the East side of the Canal. Now, I don't know whether this is the fact to the matter or not.

K: Well, why don't we take it up with Dayan tomorrow?

S: All right, we can. In the meantime if there's anything I can find out by way of facts from someone such as [Irvkot - sp?] for example, will know what the story is. And then we can answer the Egyptians after we've talked to Dayan.

K: Joe, I have edited that message to Akins to make a little stronger. I don't know whether you've got it already.

K: Listen, anything that is touched by GB has complications.

S: (laughter) Well, that's with whom I spoke this morning.

K: One complication is that we're doing something. Now, what's the complication?

S: The question is: One, I think you've got to have the lawyers look at this to see whether it's possible to make this kind of bilateral agreement. But, secondly, can we really produce as a government to government on this kind of situation?

K: At this point, I'm not assuming.

S: Yeah.

K: If we don't, then we're going to turn it all over to the French, British and Japs.

S: Well, in any event, I've got a couple of people looking at it. As soon as I can --

K: Bill, two things. One, Akins has sent in a cable about a possible bilateral approach to the Saudis. Have you seen it?

D: I've seen it, yeah.

K: Well, I'm in favor of at least opening the discussion. So will you work with Sisco on how to do it?

D: Yeah. You want to prepare a contingency thing or do you want him actually --

K: I want him to begin talking to Faisal. Nothing can come of it anyway very quickly. But I don't want us to be the only country that is not talking to him bilaterally.

D: Okay. We'll start to work on that. You want the pros and cons on that?

K: I want the pros and cons but I'll tell you right now which way I'm going to go unless the cons are overwhelming.

D: Okay.

K: We can't be the only ones insisting on multi-lateralism when no one else does it. We can always go to a multilateral solution. Opening the discussion isn't going to get us anywhere very quickly.

D: Okay. Sisco just mentioned that to me and I will try and put something together.that's positive but also, you know, includes everybody's negatives

K: Yeah, what are the negatives?

D: Well, I guess maybe it could upset the embargo lifting thing.

K: Why?

D: Well, if he thinks we're being squeezed so much that we've got to make a unilateral deal with them, maybe he thinks he ought to keep it on a little longer ...

K: Nonsense. That I don't believe.

D: Okay.

K: I think the embargo lifting has next to nothing to do with this; that depends entirely on the Israeli talks.

UNITED STATES DEPARTMENT OF STATE
REVIEW AUTHORITY: ROBERT H. MILLER
DATE/CASE ID: 12 NOV 2002 200102979

D: Okay. It's not just the embargo but just the idea that, you know, finally now with all the pressure they put on, even the United States is now trying to make a deal with them. It just makes them feel that the whole strategy is brighter than maybe ..... I'm not questioning that we shouldn't have a contingency plan.

K: A contingency plan won't do us any good if we haven't opened the discussion.

D: Right. Okay. I guess I would want to haul out the contingency plan the minute we see that these other guys don't go along with us; in case they don't go along.

K: Yeah, but why is that better to open the discussion and then let it drag until the other guys don't go along with us?

D: I just think he might interpret it as a sign of weakness. Your judgment ...

K: Well, I'd like to see -- By the time the others have sewed up large chunks of this thing, it doesn't do us much good to open the discussion.

D: So far, you know, those deals are pretty small. I mean, 200 thousand barrels a day to the French is nothing. And the British haven't even ....

K: Well, we don't have to go that way. I think it will be a better pressure though if we have an option to go this way.

D: Right.

K: I have never seen the advantage in not getting yourself an option.

D: Right.

K: Secondly, I had a press conference this morning and I announced that the President was going to make an initiative next week.

D: Oh, you did.

K: Yeah.

D: Good. Well, that brings me to the second reason why I was going to call you. And, that is, first of all, I talked to both the Germans and the British Ambassadors. The British, you know, were very forthcoming and he said he would go back to them and he was all very friendly. The German guy was a little more guarded in the sense he felt they were in a sort of a special position now because they now share the EC thing.

K: Oh, bull!

D: And I told him, I said we weren't asking you to be forthcoming on some program you know nothing about but we're just -- you know, everybody else has said something and all we want you to do is say that you think the idea of everybody getting together is a good idea and the Kissinger proposal is one that merits a good hard look and that we know the details.

K: Yeah.

D: He came over here and I had a long conversation. But he was balking a little bit.

K: Well, the Europeans are almost impossible right now.

D: Yeah. Along that line, the British have sent out a cable to all their Embassies and have sent us a copy of the thing and the net of it is that they want their Embassies to go into the OPEC people before their meeting on Monday and tell them how bad we think the price rise is, you know, that they've got to do something about it, roll it back. And they've come to us and I guess they are going to all the other OECD countries and asking for some help on it. Basically, if you remember, we made kind of an eleventh hour attempt at this OPIC meeting.

K: Yeah. I would not do any more.

D: You would not do any more?

K: No. Our position is now clear.

D: Would you absolutelyh -- the only reason I'd do something would be to sort of forthcoming to the British.

K: No, we've made it pretty clear. We've made it clear to the Saudis, we've made it clear to Iran, made it clear to Venezuela.

D: Yeah.

K: Our views by now are known.

K:

T: I don't know what Congressional background or experience he has.

K: He's probably the best Foreign Service officer I've got. He wants the job. He's extremely intellectual. Probably the best Foreign Service officer around. I think he would learn the job very well. If Marshall Wright could do it, for God sake.

T: [redacted] We're familiar with some of the career people. There's an awful lot of technicalities on who can ___ and who can't. I just question whether he can do the job properly. Naturally I hope to work closely with your Congressional guys.

K: In that respect you would have no problem at all.

T: Of course I never heard of him. Jerry Jones called me today to clear him. I asked if he was career.

K: Only because I couldn't find anyone else. I spent 4 months looking for someone.

K: The President said he was going to call you back and he thought I was going to call you. It was decided that your view was probably the right one and not ask you to serve.

R: I got that view more strongly since there's a chance I'll be called as a witness.

K: I'm trying to keep the investigation confined to allegations of domestic spying. That would have presented no problem.

R: That's bound to get to me.

K: Then it will get into areas -- it isn't a question legality, it's how much of the thing they'll pull out.

R: You mentioned something immoral. Can you tell me what you referred to.

K: Some claims I made about Dominican Republic and attempts on Castro.

R: There's ~~nkk~~ no problem as far as I'm concerned. I explained a political assassination was contrary to the policy of the U.S.

K: I happen to believe it's against national interest. First to investigate matters like this, I think we won't have an intelligence agency left.

R: Some things should not be confused. The Director of the CIA ___ chairman of an intelligence committee and that included the FBI. I used to get every morning a whole series of rap ups. I have no doubt that some came out of the FBI material.

K: Some of the domestic files from CIA ~~and~~ are FBI reports.

R: You have a good many in the State Department files on State Department people. I think it's unwise from the Presidentts point of view to have me on. I'm certainly going to be a witness and it's better not to have one of the witnesses who might be pummeled very hard by the Congress to members of the panel.

K: That was our view. I still would like to get you together with the President.

R: That fellow who resigned from the CIA. I never heard of the guy. One thing I suspect the panel might ask of the President and the Secretary of State and the Secretary ~~fx~~ of Defense -- we should have given more to the CIA. I never looked at the CIA budget. That was worked out by the Director and the Director of the Budget. My guess is that 3 key members of the NSC should look at those things.

K: It's clear that excessive ~~xxxxx~~ supervision hasn't been adequate. I never knew they had a domestic branch. I never heard of Angleton. He's saying I got him fired. I had no idea the guy existed.

R: Has the announcement of the members of the panel been made?

K: Yes.

R: At some point somebody should make it clear the President that all ~~/or~~ present and former members of the NSC will be available to the panel for any assistance. That would include all of us.

K: I see. I really think we should separate illegal activities and domestic activities and we should not have this an open season on covert activities.

R: There's a piece of paper lying around during the Truman administration which was a treaty between the CIA and the FBI regarding their respective jurisdictions.

K: When are you coming through here again?

R: Let me look and see what my present commitments are. I have to go and visit Lady Bird this week. I don't have anything schedules to come up January. I could come there ~~xxxxxxxxxxxx~~ at the end of the (first) week in February on my way to Princeton.

K: Why don't you do that.

K: Because I would like, want to announce him tomorrow. I can slip today.

T: Well, I got tied up on something for....

K: That's alright.

T: On the West Coast and we chatted on the phone a bit and...

K: No, no, that's fine. But I want you to know that his strict instructions from me are going to be in the closest association with you and the reason I'm picking him is, I was thinking of him as Under Secretary to tell you how highly I thought of him. As Under Secretary for Political Affairs. And I wanted to pick my highest type fellow who's going to be good on substance. His instructions will be to get his strategy from you, but I will need your advice anyway because this isn't a field in which I know a hell of a lot.

T: Henry, have you done any consultations on the Hill about Nat?

K: Well, that's my problem, that I have somebody that I want to move out of the Executive Secretary's job to take his place, and then I have somebody out of another job into the Executive Secretary's place.

K: Now, Bill, I don't want to impose this on you, but if you want to call a few of these Congressmen yourself, just to show your relationship to it but also to give me a feel, I'd be glad to divide it up with you.

T: Yeah. The thing that worries me a little bit is that the Republicans that we have to count on when the crunch gets going on the Hill, rather than the Democrats, I'm afraid they are going to be a little reluctant because of Nat having served as Sergeant Shriver's deputy and got most of his promotions in Lyndon Johnson's White House, and I think he's going to be suspect to them, certainly in the early days.

K: Had he been Sergeant Shriver's deputy? No, he was on the staff of the Peace Corps.

T: Well, I haven't talked to Nat directly but I understand that he .... over to the Sergeant's deputy, now he might have had several deputies. At least I think that's going to give some of our Republicans some concern. Well, we'll chat after I talk to him in the morning.

K: Happy New Year. Sorry I missed you in Acapulco.

J: What a shame. Everybody was expecting you. The Escadangs were devastated.

K: Well, I.... Why were they devastated? They could use their house.

J: I know, but they were all set to go elsewhere and they'd have been so honored with you.

K: Well, I'll be down eventually.

J: Well, Mary had talked about it and, you know, said what arrangements she was making. She was so proud that you would come down and use it. We missed you because we knew it would do you good.

K: Oh, it would have been great. But first I didn't feel well...

J: Oh you didn't?

K: No. I came back with the flu and....

J: Listen, you and I have to have a very special talk about your physical conditions. You know, in this respect I have the _____ to dictate to you.

K: I wish you would.

J: I'm very serious about it because you know I'm almost twenty years older than you are and I think I'm in a hell of a better shape than you are.

K: That's right.

J: I'd like to, you know, talk to you about that because in the first place you'll have more fun out of life as you go along, and in the second place you're too good a man to run yourself down the drain unthinkingly. On that score, you know.

K: Well, I'd like to see you apart from getting advice on my physical condition.

J: Listen, I'm the maddest tennis player and athlete alive.

K: I know it. In fact, I'm told in Acapulco that you two are trying to time their visit so that you're not there because they don't mind playing with you in the morning but I understand you track them out on the tennis court in the middle of the day.

J: That's bad. (laughter) Oh, I'm not that bad.

K: I forget which Mexican told me that they were in awe of you because not only did you play every day, but you played in mid-day.

J: (laughter) That's wonderful.

Well, Henry, you've been doing lots of things. Have they been going well?

K: They've been going well. You know, we're sitting on a powder keg.

J: I know we are.

K: And in this phase now at last the Israelis have understood that we're saving them rather than destroying them.

J: Yes. And I think you've got a better relationship now with the people of the country and you know, that's very, very important.

K: You mean the Israelis or the Americans?

J: Well, the Americans. I think that's worked around very well. I think you stand well and I... Yeah, I really do, I think that there are always a few sign posts but politically my - as I smell the wind - it's very good as it stands now and especially as you begin to make a team of the Department, which is, I think the very, very big objective, one of those objectives which nobody will give you a medal for but which will make you a historic Secretary of State.

K: Well, I agree with you.

J: You know what I mean? If you stand on their shoulders, which they are

more than willing you should do, but those shoulders have to be stout and strong.

K: Well, you know, my problem has been that after I became Secretary I was immediately thrown into the Middle East crisis. But now I've got all my people appointed and Bill has been very good about confirming them. So I think within two weeks of the Congress coming back all my top people should be confirmed and then I have my own team in there.

J: Very good. I hear Sisco's staying.

K: Sisco is staying. We are going to announce him tomorrow or the day after, as Under Secretary. Do you think that's a good appointment?

J: Very good. I think especially with you he will draw enormous resource from the confidence you will vest in him. He's a man who flowers and blossoms if confidence is vested in him. And he gets very conspiratorial if it's drained away.

K: That's a very sharp observation. You are right.

J: You see, it works in reverse with Joe.

K: In fact, that was one hesitation I had about appointing him because I had just seen his conspiratorial side. But I have now recognized him, in his travels with me that if you work closely with him he is really very loyal. He

J: Not only is he loyal, but you know, he isn't kidding me. He's got damn good standing with the Arabs. And he's earned it, which is all O.K. You know what I mean? And he values it highly, too, which is good too.

K: Now, Jack, I'm thinking of appointing somebody in charge of Congressional relations who's a bit of an off-beat appointment. It's Nat Davis. I don't know whether you know him.

J: I know a little bit about him.

K: He was our Ambassador in Chile. He's the youngest career minister we've got. He was in the Peace Corps with Shriver and when our Ambassador to Guatemala was killed when LBJ was President, he volunteered to go down there as Ambassador. I've had him back here as Director General of the Foreign Service. He's so good that if Sisco hadn't stayed I would have made him Under Secretary. But I thought it would be better to have somebody with substantive knowledge

He can always learn about the Congress but maybe I'm wrong there.

J: Can I be exposed to him?

K: Will you be exposed to him?

J: I say, can I be exposed to him?

K: Sure. Are you in town tomorrow?

J: I will be tomorrow.

K: Would you like to meet him?

J: Yeah. Shall I just call him, or will he call...?

K: I'll ask him to call you.

J: Alright. I'll see him late in the afternoon.

K: Good. Wonderful.

J: That's great. And, Henry, do we need to talk about anything?

K: Well, let's have breakfast. We don't need to talk except, I mean we don't need to talk on an emergency basis.

J: Well, is tomorrow morning agreeable to you, because I'm coming down tonight.

K: Is that the only day you're in town?

J: Well, I could be in town Tuesday morning but it would interfere with the doctor's appointment I have at Bethesda. I could rearrange that.

K: Because I have made an appointment which I could probably change.

J: Well, if you can change it, fine. But if you can't, if you have your office leave a message on this phone I'll do it Tuesday morning and rearrange my appointment at Bethesda.

K: O.K. Could you do it early, as we have staff meeting at 8:00.

J: Or even earlier.

K: Let's do it at 7:45.

J: Quarter of eight. Where? At your office?

K: Yeah.

J: I'll see you then.

K: Good.

J: Now if there is any problem just leave a message.

K: If you don't hear from me we will meet at 7:45.

J: Good. Marion sends love.

K: Send her mine.

J: Good and I'll see you tomorrow.

R: Well, I used to go down to that Wednesday morning meeting two or three times a session, but under the present circumstances in Washington these days, you might want to consider going maybe every six or eight weeks or so, because it is really a very important constituency to nurse and I just pass that along for what's it is worth.

K: I'll do it as soon as they get back.

R: Now the other point, I don;t want you to comment in any way on the phone certainly, but I heard on the radio news just a few minutes ago that the RSK Washington Post was saying that we had submarines within the 3 mile limit in the SUnion. I would hope if there is any possibility that sort of thing happened, it would be scrubbed and not run the risk of another U-2 incident. A: While you can do the big stuff, so much of our work is nitty gritty.

K: Do you think Holton would do that?

A: He probably would, I would have thought, ...he certainly would be flattered by a call from you. I know him quite well. He may want something bigger, like Secretary of State.
K: I've already got 8 guys on my staff looking for my job.

A: Oh, he would be loyal.

K: If I can't hold my job, for which I was confirmed in the Senate, I don't deserve it.

A: Nobody's a thret to you, Henry. He would be very good.

K: I got a message--I'll send you all the messages so that you can see there is no hanky panky--I had send Eilts to Cairo to say I'd be willing to come out if he wouldn;t link it to anything else and if there would be a rapid conclusion. And told him the Israelis had asked me to come.

H: Right.

K: So now we've got a message saying Sadat wants me to come immediately to Aswan under those conditions

H: Okay

K: Which means he is willing to settle fast. Now he wants me there Thursday morning, I don't think I can make that.

K: And tell him we will stage it so that the embargo lift--first of all that he will announce the settlement, not I and that the embargo lifting will be done by him. Anyway he can have my resignation. After last night, I don't think there is a basis for my continuing anyway.

P: I have two points which are somewhat related. First , the constitutive subcommittee on ocean, environment and scientific affairs is in the process of setting up, which was fainally enacted into law, is filling the Assistant Secretary job I wanted to put in a word for a fellow for his technical knowledge, background and such, Fitzhugh Green who is one of the candidates on the list. He worked for me setting up _____, worked for me in USIA, then ran for Congress in my state (did not win).

K: What's his name again.

P: Green. His background in oceans, worked with me , in envirinment he worked with Ruckleshaus, or whoever is running it now, and having run for Congress as a Republican, I wanted to make this push for him as you go over the different names.

P: I appreciate it very much. I haven't looked at his papers yet. I'm not really ready to make that appointment yet. I will do it in the next three or four weeks.

P; Well he's a first class man, of excellent character and he could do the job very well. The other point I'm calling about concerns the Senate resolution calling for some executive response in connection with environmental warfare treaty. The hang-up is not at State but over at Defense. I thought with your double hat (the NSC position as well as the other) there might be something that could be done to get a reaction from the administration to get it moving ahead.with the treaty. It has received the approval of the North Atlantic Treaty Organization, there was an 80-12 vote in the Senate. The US could take the lead in a field where the determination would have pretty wide acceptance. The Defense reasons for holding it up are not known to me (maybe they have some hot new intelligence, but) but I thought you might be persuaded to take a look at this and perhaps help to get it moving ahead.

K: Let me take a look at it.

P: Thank you. I highly appreciate it. I do think this is an area that could give us a position in the world we have not had. Thank you and God blass you for being on the phone.
K: If there was a time you couldn't reach me at least on the phone then I should leave.

W: I wish you good success, good health and good nerves.

K: The latter I need more than anything.

W: I understand that fully. Thank you very much for your kind letter. I answered it immediately.

K: I have received it and I'm very grateful to you. Mr. Secretary General, I called you to tell you we've been trying to get the Israelis to come up with a complete proposal. You are of course familiar that they put out models and they destroy them and they dance around. So the President has therefore asked me to go to Israel to force them, force them is the wrong word, but see whether I could get a concrete proposal.

W: Yes.

K: And if that succeeds we will then inform the Egyptians and then have it put up in Geneva. I just wanted you to know Mr. Secretary General that I will be just taking a quick trip to with a stop in Egypt and to Tel Aviv and then I'll come right back here. Of course we will keep you immediately informed.

W: I had the intention to ~~xxxxx~~ contact you from my side but I highly appreciate your calling me. I hope this trip will be successful and that we can overcome the difficulties. I had thought that it was more or less settled, this disengagement, of course not definitely. But I had a good feeling that this disengagement problem will be settled within the next few weeks, before the end of the month. Do you still feel that this is possible.

K: I still think this is possible but we were afraid from the way these talks were going in Geneva that they were talking themselves into a deadlock.

W: Yes. Well if you can ------ out there. I thought this was in connection with the fact that the Israeli government didn't want to make any final decision in this regard before the new government was..

K: That may be the case. And I think it is going to make good progress.

W: About this misunderstanding apparently during the Dayan visit with you. You know that our people did not leak anything.

K: No, there was no misunderstanding. We just wanted to find out what your understanding was. There was no problem.

W: I'm glad to hear that. Because we were not quite sure. We had the impression that perhaps the Israelis thought that....

K: No, we just wanted -- I wanted to understand from your people because we were getting one report from the Israelis and a different report from the Egyptians.

W: About the models...

K: Yes, so we wanted to find out what your people thought.

W: No, they were very clear in regard to this and they only spoke of models yes?

K: Yes. Although frankly you know from a diplomatic point of view I've never heard a procedure where you put up a model...

W: There is apparently thought that the Israelis didn't want to put forward concrete proposals.

K: But you know it's dangerous to put up a model that you're not willing to accept.

W: No, I'm very glad that you have this approach. I think it is really necessary and high time now that they are coming out with concrete ....

K: Well, you see my concern Mr. S. G. is, if everybody waited for the elections. Now if we are all waiting for the cabinet it can be February and the President thought whether, if we could crystallize a proposal we will then have it negotiated in Geneva.

W: Exactly.

K: But Alternatively what I would do if we can get an agreement in principal on something I would write you a letter the way I did the 6 foreign agreements. And send it to you and then you could handle it the way you handled the other thing.

W: Fine. I would certainly appreciate this procedure very much indeed.

K: But in any event whatever we do it will involve you in an intregal way.

W: Well, I'm certainly at your disposal. When the moment comes I see that we can get together and whatever you think we can do in this regard we are certainly happy to do it.

K: Good.

W: What is your timetable. Do you think that we will return to Geneva towards the end of the month or beginning of February. What is your ideas on this regard.

K: It's possible but maybe the beginning of February = Middle of February maybe.

WL Middle of February.

K: That's what I would tend to think now.

W: I would certainly appreciate if you could let me know about this too.

K: I haven't any concrete ideas. It could be early February too. Frankly, I'd like to take a vacation the last week of January.

W: You deserve it highly.

K: So I hope you will see to it that they'll be no international crisis.

W: (laughter) I wish I could give you any guarantee in this regard but I really think you should take some leave after you return from the Middle East. I'm at your disposal and in case you should think that one of my collaboraters should go down to Washington to discuss one of the other aspects with your collaboraters, this is fine. K: And what this engagement scheme might look like out there.

D: That's what I mean. But you have no plan of going to Syria this time.

K: Well I haven't -- frankly I thought I might leave it up to Sadat. If it helps him to be able to tell Asad that I'm going. I might go for a day and then of course I'd raise the prisoner issue.

D: Yes. Because I know that our people will not consider talking business to the Syrians before they make this move on the prisoners.

K: That's understood. That's clearly understood. And you will come under no pressure from us in that respect.

D: I understand. Good, so I will tell them about the possibility of jotting down some thoughts on the Syrian separation.

K: I think we ought to talk about it. It's going to come up. We have a day -- we don't really have a hell of alot to talk about in the other disengagement.

D: Right. We'll do this.

K: Good. And I'm bringing along Bunker, Sisco, Atherton and I'm bringing along the head of our legal department, somebody called Maw, who I'm grooming really to become more substantive.

D: Yes. I think I saw him once when Eban was here you brought him in.

K: Yes, he's outstanding. He was senior partner in Kreber, ____ & _____

D: Good so I'll inform them about this too that you're coming with... You are not taking Eagleburger with you.

D: Well, if it's alright with Nancy it's alright with me. I wouldn't say a thing.

K: OK. Well, I'll do anything else to assure you, for six hours I won't do anything serious.

D: Fine, I appreciate it.

S: Oh, there is. I will call Pickering and find out why you got only the administrative cable because there is the cable which says okay.

K: Well, wait a minute, here we are. No, no, that's my outgoing. They didn't give me the reply.

S: Well, I can read it to you if you like.

K: Well, could you.

Loutfi

S: Undersecretary [redacted] said he had a telephone call from Fahmi in Aswan indicating that President Sadat concurs in your coming on Friday directly to Aswan as suggested.

K: And do they understand that I am going to shuttle back and forth?

S: They do because you indicated that and I am assuming that Herman -- there is nothing in the cable that says this -- that Herman gave them a full picture. Herman then goes on to say that in answer to my query whether Fahmi still planned to depart for Moscow Saturday, Loutfi didn't know and he said he hasn't discussed this matter with Fahmi. Loutfi urged -- asked for the aircraft number and the flight and so on, which there was one other cable that went out.

K: You know the Koreans are flying out of Aswan.

S: Koreans?

K: North Korean fighters.

S: Military thing. Herman has sent one in saying the reporters have to be careful about photographs and that kind of thing. S: All right. (Laughter) My job is being reduced already.

K: That's right. I just wanted you to know that.

K: Okay.

S: You will take care of the telephone call to Waldeheim.

K: Yes and I have to make a call to Dobrynin, too.

S: Yeah.

K: Now you know of course the Egyptians have briefed the Soviets that the Gur thing was a proposal.

S: Oh they have. This I didn't know.

K: Yes, because that's what Dobrynin told me yesterday. So I want to meet with you when I get over there say around 11:30 and Atherton, to plan just where the hell that leaves us all.

S: Well I don't believe that based on what we're getting from Herman that the Egyptians really believe this and you know I have a feeling this is another Russian ploy applying pressure.

K: That's right. Well the Russians then wanted to know what the Russians are confused about is where the line of disengagement is so I said that if I know the Israelis it's probably somewhere near Alexandria so when they said 45 kilometers.

[Laughter]

But it did confuse them. They said 45 kilometers is what Gur used so I said well, if I understood the Israelis at all that's between the main forces and if I understood the Israeli proposal it says that the Egyptian main forces should be way back of the Canal.

S: Sure.

K: Well we can play with this....

S: I think there is a problem as a result of what Gur has done but I have think you've made it crystal clear that the Israelis have not put anything on the table and particularly in that cable as you revised it last night -- my cable. You made this very very clear .

K: Do you think Herman presented that.

H: Mr. Secretary, Governor Holton. You've got yourself a man.

K: Well, I am delighted that you are doing it. It means -- to tell you the truth, I already offered it to someone in the State Department - the best foreign service officer I have. I had offered it to a man whom I really made Under Secretary. It is going to be painful to me to tell him I wanted someone more politically astute.

H: Oh, I recognize that. I hope I didn't breach any confidence by talking to Governor Rockefeller last night.

K: Oh, no.

H: He told me he left your office thinking this was done and couldn't be undone.

K: Afterwards I thought about it and said why not go for the best man.

H: We are flattered. My family is one who discusses things like this and the children are delighted that you chose me.

K: I hadn't even told this to Nelson. When he left my office he had to think it was done and I couldn't do anything. Lin, here is the procedure. We have to go through a security check so it can't be announced for about a week. That doesn't make any difference to you, does it?

H: Not abit.

K: Also, I am going Thursday night to Egypt and Israel again and I ought to be back by the middle of next week. Then, with your approval, I ought to announce it next week or the following week. I want to be in the city when it is announced so I can make a personal comment on it.

H: That's all right. I finish this job on Saturday noon this week. There are a couple of details I need to mention. I am going to have a helluva problem adjusting to a salary when I have had all the other things. What is the salary?

H: But if you can get me the highest. One other thing is an appropriate time to tell Hugh Scott.

K: We are going to tell Hugh Scott. Give me a few days. I have got to handle that State Department fellow first.

H: I understand.

K: Certainly, we all have to tell Hugh Scott, but if you want to do it first that is fine.

K: Well, you have to be confirmed. I will put up your name on January 21st and I think they'll confirm you in a week and I will swear you in so by February 1st you ought to be aboard. I want you to get on top of that Congressional session fast.

H: I want to do that. I am very excited about it.

S: Yes?

K: I just wanted you to know the _____ was handled by Ehrlichman except _____ comments which were made to me. It's ~~xxabsx~~ an absurd charge because Admiral Moorer was a close collaborator of mine. S: Q Yeh, but this instance was not the case--would you specify that other guy --that original one the Laird general--

K: That original one--the FBI records are confused who did what, my name doesn't show on them, it is not inconceivable that we sent over a list of everyone who had access--he was the head man who handled the liaison to the NSC

S: Yeh, okay.

K: And he handled all the documents that at that time had leaked, but that was for a month in 1969 that we are talking about here

S: Yeh, huh.

K: Nor was that in the office either. To my knowledge Laird doesn't know anything more about than what he has read in the newspapers.

S: No, that's my impression too--just our people talked to him about this thing and he said you know--he brought it up again and it had been testified to as a public matter, but this is just a matter of being--

K: I have testified before the Senate committee as to ~~w~~ every person ~~gk~~ that either I or my office had any knowledge of, all of which occurred in the period between May 1969 and May 1970 as a result of that original decision to look into the question of the original leaks in May 1970, I dissociated from this and I never had anything to do with any internal security matter from then on.

K: I never knew there was a 42 page report of Dave Young until I read it in the NYTIMES, so I could never tell whether this was super-bureaucratic gamesmanship, or something a little more sinister

S: Hm huh. hm huh. What is your feeling now?

K: My feeling is that, you know, bureaucratic empires always go up by knowing things, it got out of control, I mean it may have started as bureaucratic gamesmanship and ~~h~~ it got out of control.

K: The part that I know isn't all that sensitive--but that is off-the-record.

S: Sure, I realize that. Sure. Well, that is the thing that baffles us, at least one of the elements that baffles us, you know Senator Baker and Erwin, talk about that extreme national security matter, and if this is it, you know it is rather unusual, because I don't find anything, I find this embarrassing to some people, but sure not a sensitive issue. Unless there is more to it.

K: There may well be, I don't want to mislead you, if there is--

S: You know nothing more at this point'

K: I know no more than what has been published; I have never seen the list of documents to this day--to this day I haven't seen the list of documents that was allegedly stolen from me.

S: Okay, Henry.

K: And of course, it sort of drives me up a wall, when everytime, here now they have a picture in Time saying former Kissinger aide David Young,

S: Know.

K: He worked for Ehrlichman--he happened to get paid out of our payroll, because that's the way the WH works.

S: I understand that caption since--the documents came from your office and that.

KN What is said is a sort of a throw-away. I'm not complaining about the motive, but it is totally wrong, I'll have apress conference this week on my trip, and I hope somebody will ask me a question, because I will show them the record.

S: (laughs). Okay, good.
That's another hell of a job over there.

K: You know, it is a pity, it really was a moving thing to see the beginning of trust develop between people who've been fighting for 30 years.
And we are so absorbed in every other thing, that we can't ever focus on it.

S: Yeh, yeh. Well, it is still-no I think people are aware of it, it leaked through the edges here.

K: I haven't seen you since I went over to State, why don't you come over and have breakfast or lunch--

S: I'd love it--I'd been trying to penetrate over there, but it is a little more difficult that it was at the WH

K: I'll call you--

S: Will you call me?

K: Let' s do it this week--can we have breakfast

S: Okay--I'd like to. I'm going--I am in California today and Wednesday but I'm back Thursday and Friday.

K: Are you know in California?

S: No, I leave tonight--just got to talk out there till [redacted]--

K: Thursday and Friday you're back.

S: Yes.

K: Why don't we say breakfast on Friday?

S: Great.

K: Can you make it as early as 7:45?

S: Sure.

K: Good at my WH office.
See you then and you'll tell--shall I tell Henry Grunwald about this?

S: Henry, isn't editing anymore--John Elsen is the guy and I will call him. And if you are going on the record later on this week, why we'll get it straightened away--

K: Good.

S: Very good, Henry and thank you. Bye

N: Letter to whom?

K: To Faisal.

N: Good. Good. This is the greatest thing we could possibly do. Apart from the damn embargo, it wouldn't amount to anything anymore.

K: All you have to do is give him reassurance.

N: Why don't you prepare a letter and bring it over tomorrow. I'll add a few scribbled notes.

N: It isn't my nature, as you know, to talk strongly and toughly like that. Maybe I ought to do a little more.

K: I think, Mr. President, if you continue to give the leadership, that that is all the people want.

N: We shall see. In any event, we'll continue to give the leadership. But that's good news. When will you have the letter ready? The meeting - it's NSC - is at 3:00 tomorrow.

K: I'll have it by then, sir.

N: One thing I do want to discuss there -- raised by the Southerners -- re the Reserves. The Regular Army and all that bunch. Moorer and the bunch want to cut them off. I want to save them because that's good politics. So take that line. You know what I mean.

K: Absolutely. That is my conviction anyhow.

N: Frankly, the Reserves saved Israel.

K: They've saved us in every crisis we've had.

N: Moorer and the Admirals are only interested in how many stars they've got. And kick the Guard. You know what I mean. All of our friends in Congress don't want us to do this. That should be for the Southerners _____ is why is it that, frankly, why is it that the National Security people - they didn't mention you by name - they mentioned Schlesinger - why is it you're fighting this battle simply to put the name into the _____ thing and to slash the Reserve program. I think they're wrong.

K: I'm fully behind you, Mr. President.

K: He is a great patriot.

J: He's a decent fellow.

K: He's a very decent guy.

J: What my concern was, it was my impression that it was proposed that there be this so-called moratorium.

K: That idea is kicking around all the time, but there's not a chance of its being adopted - in the sense of our proposing it.

J: There are certain computations to be made regarding the position of our forward bases - Polaris - which, together with the mothballed bombers, would give a figure equivalent in terms of the agreement of 1972. Of course this bothers me.

K: Well...

J: I think that considering the mood here, and everything that's with us now, there's been a great change up on the Hill. I just want to say to you that from a political point of view, by being firm and digging our heels in in a fight, we win. I think the chances for support for those things that you and I have always been interested in and concerned about are better

K: I've heard this idea of how you compute the forward bases - the submarines from forward bases. That's not going to be in our proposal. That will be in the think-pieces. It's too complicated to go into, even if I wanted to do it.

J: I mentioned to the President some time ago. Let's talk about equivalents at lower levels for both countries.

K: [redacted] Of course, Scoop. With MIRVs, unless you can get a handle on the MIRV problem, even the smallest problems -- the smaller the number, the more vulnerable it is.

K: Hello.

K: What is your view?

E: I am of a tentative view which I'm playing with here that the Congressional side is now too tough but I've got Lin with me and he just finished reading it. Do you want to talk to him to see what he says? I come away with the sense you've gotten a bit more pugnacious.

K: You do? Well thats because I took out those paragraphs of our transgressions.

E: It's less that than -- maybe that's it. But what I get now is a feeling you've got about 4 pages of telling them what they've done wrong in fairly tough terms but I've played with some and I'm not sure that Lin agrees with this either by the way.

K: Let me talk to Lin. [Holton comes on] What do you think?

H: I don't feel that it is too tough. I think that what's bothering Larry is the specific examples on page 33 where you talk about the trade agreement with the Soviet Union, impact and restrictions on aid to Turkey and the damage to the Western hemisphere.

K: But you know now the Buenos Aires [illegible] meeting is going to be cancelled.

E: Don't get me wrong. I think those have to stay. It's the pages after 33 that begin to bother me. I think the examples have to stay.

H: Okay. I misunderstood. But I think -- I got the impression it was those examples that made Larry think it was pugnacious. Those are necessary. I would not give them that little lecture over there on page 37 about morality and expediency because that I think opens up the allegations from them and that's what we've been saying that you want an opportunity to be immoral and if you want to put that thought in I would do it on a more positive balance of the choice between two good objectives like the human rights in Chile against overall stability in the Western hemisphere. But make it balance between two positives forces rather than talking about expediency as though that's something you're willing to go to if you have to.

H: Well, you're suggesting there a problem that's very real of how do you get all these individuals who are so insistent that they're going to participate in foreign policy to be involved and yet be practical about whom you can contact.

K: That I agree with.

H: You've got to leave that in.

K: That has to stay in but on page 35 the top paragraph that we can do without. And we can make that confidentiality point as part of that page 38 one.

H: Right. I was concerned about the confidentiality being seen as a cloak for deception you must make it plain that you don't want to use it as a cloak for deception but I wouldn't say as a cloak for deception because it looks like. I just don't see what it adds.

K: Look. I've got the Turkish Foreign Minister on the phone. Would you ask McCloskey what he thinks.

S: The President was talking to me last Friday. We went over alot of things and one of them was he would like to do something about John Cooper and he said he wouldn't even make afnote of it, for me to take it up with Henry. It was his feeling not to do a permanent thing.

K: I have been wanting to appoint him as an Ambassador.

S: He thought as a special mission or a roving Ambassador or a series of special missions. John may be more interested in a permanent position but that's not what the President was talking about.

K: Let me talk to the President and find out what he is willing to do. And we'll find something.

S: He was thinking of not tying him down for a position of 5 years or a nine to five basis.

K: I have the highest regard for John.

S: I think if John had the personal rank of Ambassador for travelling around..

K: Let me see what we can do.

S: Alright.

F: Have you recovered? Do you feel alright?

K: I feel fine.

F: Get some sleep.

K: I am caught up.

F: Good.

K: I called you about the stories with regard to my testimony before your Committee.

F: What stories?

K: Yesterday when I was asked at the press conference, I explained all the circumstances as I knew them.

F: This is what you told me on Monday.

K: Yes, but then there is an aspect that I considered minor that the New York Times is playing up in a particular way... the investigation was conducted by John Erlichman and I never saw it or knew its results but there was an admiral in my office, head of liaison of the Joint Chiefs, who came to General Haig when I was out of town and said he thought that internal evidence indicated that the documents had been leaked from his office. I told Haig to send that Admiral to Erlichman since he was conducting the investigation and since I had been told to stay out of it and Erlichman turned this Admiral over to David Young who was questioning him and afterwards they let me hear the tape of that questioning as it related of thefts of documents from my office. The argument being made by one office is because I said to the Committee that I didn't know about it, the existence of the Plumbers or the activities of Young in_____with internal matters, that I mislead the Committee. The question was do I know anything about David Young's illegal activities of breaking and entering, conspiracy to burglarize or whatever. I was thinking entirely in the context of the P.umbers and I did not construe it... the fact that one of the staff members was questioning a man who I had sent there and was to keep a report.. by that question which I generated, I know nothing about David Young's activities, nor did I know about this investigation nor did I know he had written a report. What I have told you is the literal truth and I wanted you to know this.

F: Noone on the Committee has raised this with me. I noted that there are two telephone calls from Hirsh, they have asked me to call him but before I take a call I will take a look at the New York Times.

K: Today's times.

F: I'll take a look at it before I make the call.

K: You can read Murray Marder in the Post..has a fair account. Seymour Hirsch is trying to make a dark thing out of it, no other newspaper is. that I am familiar with.

F: He is calling me.

K: If you want me to I can send over what I actually said to the press.

F: Is that fuller than what was in the paper?

K: Yes.

F: Why don't you do that. I think I have been around enought to understand ho;w some of these things operate and I don't want to add fuel to this damn thing...are they seriously trying to embarrass you.

K: I don't think any other newspaper is and I don't know whether Hirsch is.

F: I have a little sense that some of our more radical community are not sure that what you are doing is in the interests of Israel.

K: I believe that that plays a role.

F: Between you and me, one of my constituients who used to be high in his praise of you is being standoffish and it makes me feel that they interpret what you're doing, which as you know I am in accord with, as against the interests of Israel. They're dead wrong.

D: They are continuing it. Today the Chief of Staff asked Gamasy to dismantle them but Gamasy said they coudn't because of the morale of the army, they had to continue to build because of the morale. Tomorrow the Chief of Staff will say to Gamasy we request all five installations, which include underground firing controls, should be discontinued or we will not stay in the timetable...

K: But I talked to Larry and told him that I didn't think there was any point in my seeing that group.

V: I know. I thought that and I did a memo in which I put that.

K: But I got it today and that doesn't do my any good. It means I am seeing nobody next week in that line.

V: That's correct. As you said there is no particular value in that lunch.

K: Not in that group but if someone planned on a press group each week I might be able to do something.

V: Well, would you like me to try something.

K: No, that would be impossible it would look too frenzied.

V: Alright.

P: Hello.

K: Mr. President.

P: Hi, Henry. Anything new today?

K: Yes, Mr. President. I was just going to call you. We have had word from Sadat that the oil embargo will be lifted in a way that you can announce it in your State of the Union Address. And we have had word from Jidda which is a little less -- can I have those cables, which is a little less precise but still precise enough to enable you to make a statement in which Faisal says he doesn't want his name mentioned but you can say you have been in touch with senior Arab leaders who are now in the process of engaging in the lifting of the embargo and let's see, let me get what he . . . You can say that you have been in direct contact with important Arab leaders who have called an urgent meeting of the Arabs to arrange the lifting of the oil boycott and that you have every reason to believe that this action will be taken in the very near future. That is a direct quote from Faisal that you are authorized to say.

P: That's a little bit . . .

K: No, we can jazz it up a little bit more.

P: Maybe jazz it up a bit.

K: It is a clear statement that the embargo will be lifted and. . . . .

P: I think the way you might _____ of it Henry, would be in terms of saying that I have been in touch with leaders -- Arab leaders -- and I can tell the Congress/not that I have have every reason to believe, that I have . . .

K: That you have been assured.

P: That I have received assurances that the embargo will in the very near future be lifted.

K: After certain legal formalities.

P: After certain formalities will in the very near future be lifted.

K: Right.

P: This means there will be no rationing. Work out some language like that, if you would, Henry.

K: Right, Mr. President. We have/add a paragraph or so on the Middle East which has to go with it.

P: Oh, I see.

K: If that fits into the scheme of your speech.

P: Well, we are going to say something on the Middle East but I think what you mean. You mean about developments and what we are pumping to do or . . .

K: That's right. It's basically innocous but it is sacramental language.

P: Uh-huh.

K: You know 242 and . . .

P: Yeah, yeah, yeah. Well, we could even more it. We could put that paragraph in another section if we didn't want to put it right there. But we will.

K: That's where the Arabs would want it.

P: Yeah. We could just type the darn thing up in the briefest possible form, you know, and the most -- you know -- striking form.

K: Right. You will have it this afternoon, Mr. President.

P: That's plenty of time. plenty soon. Or tomorrow morning.

K: You will have it late this afternoon.

P: Fine, Henry, you have plenty of time to get something in. But as I said, what we say about 242 and the rest, make it brief.

K: Oh, very brief. The less the better from my point of view.

P: I know. But we have to say it because their . . .

K: And it's . . .

P: Right.

P: Anything else on your front?

K: No, otherwise things are . . .

P: You went up to New York over the weekend?

K: That's right I went up Saturday afternoon.

P: Was it restful?

K: It was very pleasant.

P: You didn't have to do a lot of work?

K: I saw Waldheim . . .

P: Oh!

K: The choice between seeing him up there or having him come down here and I thought he would be easier to get rid of up there.

P: [Laughter] Down here you would have to have him for dinner.

K: That's right.

P: Very good. Very good.

K: I don't know whether Haig had a chance to mention it to you -- the Russians wanted me to meet them in Geneva about the Middle East -- Gromyko did, and I have no interest in that. I proposed if he wanted to come here.

P: Then ~~XXXXXXX~~ he's coming here.

K: A week from today.

P: Sure. Fine.

K: I think you should see him.

P: Sure. By all means. By all means. Yes. He'll be coming here from Cuba.

K: That's right, which I think is a nice ticket . . .

P: Yeah. Sure. Yeah, I told them that's fine.

K: And the only other person I know . . .

P: The King of Jordan, yes, I'll see him.

K: Okay.

P: But this time I don't think I should give him a dinner, you know.

K: I'll be glad to give him the dinner.

P: Only because of the fact that I haven't given Mrs. Meir a dinner. You know what I mean? This time I should just see him and somebody else could give him the dinner.

K: I could easily give him the dinner.

P: Or let Ford give him the dinner.

K: That's even better. Let Ford give him the dinner.

P: Let Ford give the dinner.

K: I think that's excellent.

P: But I will be glad to see him, Henry. Good work.

K: Good, Mr. President.

P: And the King of Italy -- I mean the President of Italy a little later, if you don't mind.

K: No, no, no, that's in March sometime.

P: Yeah, Yeah. Let's hold that off.

K: Absolutely. Oh, no, that's in March.

P: All right, fine.

K: Right, Mr. President. I will have this worked out.

TELCON
Amb. Dinitz/Secy Kissinger
10:56 a.m., January 28, 1974

D: Hello.

K: Mr. Ambassador

D: Good morning, Mr. Secretary. How are you?

K: Okay. I'm assuming the Cabinet decisions were too awful for you to communicate to me.

D: Not quite so. I waited for the pretext but in any event I have received _____ which is of two parts. The first part is saying that the Government of Israel's position about its preparedness to enter with Syria into negotiation regarding the separation of forces. The second part restates our position on the prisoners and says that as soon as we get the list, we will be very happy to enter into negotiation. That was the best that could have been done. In addition to it, I have a cable from the Prime Minister to you which I was just deciphering -- that is why I was waiting to call you back -- and this is a message to Sadat. I can read it to you over the telephone if you like and then send it to you if you like. I think the gist of it is important because she says: "Thank you very much for the message. I want you to know that we are ready to enter into disengagement talks with Syria at any moment. There is, however, one obstacle that must first overcome. The Syrian Government should as a minimum hand over to us the list of our prisoners of war and permit them to be visited by Red Cross Representatives. I meet often with the parents and wives of our POWs and find it most difficult to explain not only that their dear ones continue to be detained but also that their families on living in uncertainty as to their fate. We hold over 300 Syrian prisoners of war whose names we transmitted to the International Red Cross immediately after their capture. The POWs in Israel are, of course, being visited by Red Cross representatives. We are ready to carry out an exchange of POWs with Syria."

K: That means, in other words, she will not respond to that Syrian proposal.

D: What Syrian proposal?

K: That I left there.

D: Oh, the maps you mean?

K: Yeah.

D: From what I understand, I don't even think the Cabinet -- I mean, the level of the Cabinet even discussed it. But on that I don't know. There was no reference to the Syrian proposal in the cable. But naturally, I mean, responding to Syrian proposal in a positive manner, Mr. Secretary, would --

K: I'm not asking -- I didn't expect you to respond in a positive manner.

D: No, no; I mean, responding to it would be formulating one of our own. Because just saying that is no good, that is --

K: No, no, but in other words, you have not accepted the idea of giving some ideas to me.

D: Right, right. That's exactly what I mean; from the cable. The Prime Minister says -- if I may read a few more lines: Please inform Dr. Kissinger in my neame that there are certain things that I really cannot do. This for instance applies to what you suggest (she says to me) in your cable 68 (which means that I said that maybe they could transfer to me proposals to you and delay the arrival of Dayan until we get response from Syrians). Remember what we discussed?

K: Yeah.

D: To this she said that I should tell you that she can't possibly do this. She's sorry she says but she hopes that you will understand that the reason today in which the government is not faced with the renewed demand of the ..... So I mean, --

K: Well, of course, you will have to make the judgment: (a) whether you will get the prisoners back, if there's a total stalemate; and (b) -- Well, let's see you've played roulette several times and won, maybe you can conduct foreign policy that way.

D: Well, I don't really think it is so. Mr. Secretary, really, if we can say for a minute --

K: No, no; I will transmit what you have said. And now we just have to wait what the various responses will be.

D: I had Joe Sisco calling me this morning, Mr. Secretary, and he asked me what was the Cabinet's reaction. ..... I did not refer to the Sadat message at all but I told him only the first part with regard to the government decided that we are ready to talk to the Syrians but reiterated our position on the --

K: Yeah.

D: So in case he --

K: Well, I don't give a damn what Sisco thinks.

D: No, no, I just thought that I should inform you that he called.

K: Yeah.

D: I have really passed all the exchanges of views between heads.

K: Well, all we can do now is see what happens.

D: We'll wait. In the meantime, they are continuing the shelling there in heavy manner thinking that they could force us into it, which is also bad. You know, because it creates an opposite reaction on this one. You know, they've been shelling heavy ...

K: Mr. Ambassador, you remind me of a man who has won the grand prize in the lottery and is now trying to spend it as fast as you can. You have about two months to wreck the Arab coalition. My judgment hasn't been all that wrong on strategy in the past.

D: No --

K: And I wouldn't give a nickel for all these maneuvers that are now going on, which are good tactics and which may only bring back a much more strategic situation. We've now got the Europeans out of the game; we've got the Russians out of the game. Any hint of stalemate will bring them back into the game prematurely.

D: Mr. Secretary, may I suggest something, I would say that --

K: But maybe there won't be a stalemate, maybe they'll deliver the prisoner list and in that case --

D: Maybe you can suggest to them that they should give it to you and you will hand it to us .... a proposal.

K: But you know damn well I couldn't take that responsibility.

D: Well, at least we know that they are alive. You know, I mean it's -- You know, I'm just thinking aloud without any such _____. Maybe they give it to you and then you give us the number. You know, without giving us the list and then we send you proposals for your view -- for your consideration. Then they want Dayan here and then they give the full list. You know, I'm trying to --

K: Well, all I can say is -- You know, I have a message today from the Head of Egyptian Intelligence pointing out the extreme complexity of the situation for them. If there is no progress on anything in Syria by the time the disengagement is completed, --

D: Yeah.

K: But, you know, you know the situation as well as I do.

D: I understand.

K: And it may work.

D: No, what I'm trying to do is say that maybe if there is some move on the part of Syria, we can -- I can influence my government to take a parallel move. But as it is, the position of the Syrian has been so very hard from the very beginning and hasn't bent one inch. And here we are trying --

K: Well, they've bent by making a proposal to Israel, which is more than they've ever done before.

D: But, Mr. Secretary, with all due respect, I mean, their big concession was that they are prepared to let us move. You know, I mean, it's almost like what you said to me that our separation of forces will be that we will advance towards Cairo. So here they made a big concession and say to Israel they are going to behave themselves; we are going to be prepared to let them move towards the Golan Heights.

K: That's a big concession for them to admit to talk to you at all. And the major thing we want from the Syrians is to be able to split -- I mean, one cannot -- Well, you know, you'll just get me mad again. It doesn't make a goddamn bit of difference as long as we can isolate the Syrians eventually.

D: I understand this.

K: And that we cannot do if all hell starts breaking loose again withint the next two months.

D: I understand that.

K: And so whether you withdraw 10 kilometers or 15 kilometers, if it -- once there is a disengagement agreement with the Syrians, they're pregnant. Whether ..... have negotiated with you. Then you can see what you can see what you can get from the Egyptians. And once

K: (cont'd) you've done that, you can sit forever. Because the Syrians by themselves can do nothing.

D: I understand. And that is the reason why we want to negotiate with them. It's not that I said to you since it's a unilateral move, we will not negotiate. But I'm saying that this is something that the Syrians should be interested in too. My own logic is that they should be interested in it too. They are not doing it in our favor.

K: The Syrians are above all interested in having a blowup between the Arabs and Israel because they believe basically only with the destruction of Israel can they get what they want.

D: I know.

K: In this respect they are quite different from the Egyptians. And if they could have prevented an Egyptian disengagement, they would have blocked any disengagement. They would rather have you 13 kilometers -- what brings pressure on them is the isolation produced by the Egyptian disengagement agreement.

D: Yeah.

K: And, therefore, what they will try heaven and earth to bring about is force the Egyptians to line up with them again.

D: That is correct.

K: And, therefore, to the extent that you give Sadat an alibi that negotiations are going on already, you are making it harder for them to do it. To the extent that there are no negotiations, sooner or later Sadat will have to support them.

D: I understand this. What I am saying, Mr. Secretary, this is precisely why we want to negotiate with them. But all what I am saying is that they too have some stake in addition to the things you said, which are absolutely correct. And they must debate to you and .....

K: Well, there are two things that are going to be different. One is I'm not going to come out to the Middle East. Secondly, Asad is *not* Sadat. But, look, I've made my points. I can't be --

D: Mr. Secretary, I've made it as eloquently as I could.

K: And, you know, we'll just have to see what happens now.

D: Yeah. Maybe they will reconsider and have some sort of a first move.

K: I doubt it seriously. But I may be wrong.

*

D: Well, we'll see, Mr. Secretary.

K: Good. Okay, thank you.

D: A mix-up, sometimes that happens.

K: On what subject?

D: On POWs.

K: On what?

D: POWs.

K: It may have been a formal statem ent in my name.

D: I see. So good to mention but you did not make it personally? I don't know if you eceived -- I got a copy from Moscow of Brezhnev's message to the President from the plane.

K: I have not received it.
